DR. MILES

CANDY  
BOOK

QV 26  
1900  
D 75d.

## Our Argument

It is our aim to convince the reader who is ill—if his trouble is one for which any of the Dr. Miles' Preparations are recommended—that he will be doing himself an injustice if he does not try the preparation which is indicated in his case. These preparations are offered to you for certain types of illness with more than thirty years' successful treatment of nervous and heart troubles to their credit.

We print many truthful statements from people who have used the various articles with highly satisfactory results; many statements of medical authorities, approving various drugs used in the various preparations. If, therefore, medical men recommend the ingredients; if users express their satisfaction with the preparations as sold to the public; if the reputation of the manufacturer is good and if the preparations were designed by a skilled physician, Dr. Franklin Miles, is there any reason why you should not at least try the proper article for your own trouble?

### A Safe Proposition

We ask only a trial. If then you find the result unsatisfactory, you need only go to your druggist and ask him to return you the purchase price, on our agreement with him that if he does so we will promptly refund to him. Can any proposition be fairer? Read our booklets and ascertain for yourself whether the statements contained satisfy you or not. If you make the trial and are satisfied we shall have added one more to the number of our friends. YOU are taking no chances. YOU can't lose. See our Guarantee next cover page.

# Dr. Miles' Candy Book

---

Almost without exception both young and old have a "sweet tooth" which is always ready to sink into a confection, especially if it is a home made one. To the young candy making is almost a necessity, and while learned doctors may deplore the tendency to eat too many sweets, it may well be doubted whether any great number of children or young people really get "too much."

Again, candy making is a pleasant pastime that serves to occupy the attention of the young at times when other pursuits, far more dangerous, might be indulged in. Who, indeed, will be bold enough to decry the old fashioned "candy pull" or to assert that the eating of even a goodly portion of "taffy" is injurious to humanity?

Anyone, with a little practice and care, may learn to make a delicious plate of candy as toothsome as the product of the professional "candy butcher." Candy making, moreover, is a very popular occupation and it is safe to say there is scarcely a household that does not have a number who know how to turn out a dish of fudge or some equally pleasing confection.

No. 193

**DR. MILES' CANDY BOOK**

---

The receipts given in this booklet are as a rule not of the complicated kind and may be followed without misunderstanding by anyone at all familiar with a kitchen. It is believed those interested in the making of sweetmeats will find in them a reliable guide as well as something new.

---

**Molasses Candy I**

Two cups of molasses, two cups of sugar. Place on the stove, and when the mixture boils, put in butter the size of an egg, and three tablespoons of vinegar. Just before removing from the stove, add one teaspoon of vanilla. Let the candy boil until it becomes brittle in water, and pour into buttered pans. Pull as soon as cool.

---

**Butter Scotch I**

One cup of sugar, one cup of molasses, one-half cup of butter, one tablespoon of vinegar, and a pinch of soda. Boil all together until done; pour in buttered pan, and cut in squares when cold, and wrap in paraffine paper.

**Molasses Candy II**

One cup molasses, one-half cup white sugar, a piece of butter the size of a walnut, and two tablespoons of vinegar. Heat a frying pan, and put the butter in first and heat. Add the molasses, and the sugar moistened with the vinegar. Just before removing from the fire add one-half teaspoon of soda. It is done when it will drop hard in cold water.

---

**Cocoanut Candy**

Grate the meat of a cocoanut, and mix with two pounds of finely sifted white sugar, the beaten whites of two eggs, and the milk of the cocoanut, and make into little cakes. In a short time they will be dry enough to use.

### Chocolate Caramels I

One and one-half cups sugar, one-half cup chocolate, one cup rich, sweet cream, butter size of an egg; cook slowly one hour, stirring often; when done pour into buttered pans and when nearly cold cut into inch squares.

### Pulled Taffy

Three cups light brown sugar and enough water to dissolve; add one tablespoon of butter and one of vinegar; flavor and remove—when dropped into water the candy hardens.

### Popcorn Candy

Four quarts popped corn, one cup molasses; put the molasses in an iron kettle and let it boil till it candies, then put in a lump of butter the size of half an egg, stir in the corn till well mixed; pour out in a buttered dripping pan and flatten out; when cold enough cut in square cakes and wrap in paraffine paper.

### Vanilla Cream

Dissolve three pounds of granulated sugar in a half pint cold water; when thoroughly dissolved add tablespoon vinegar and a very little water; boil till brittle; remove from the fire and flavor with vanilla. Rub hands with sweet butter and pull till white. Cut into any shapes fancy may suggest.

### Walnut Macaroons

Whites of two eggs beaten stiff, four tablespoons pulverized sugar, the same of chopped nut meats; mix, bake on buttered paper in slow oven.

### Butter Scotch II

Three pounds "A" coffee sugar, a quarter pound butter, half teaspoon cream tartar, eight drops extract lemon; add sufficient water only to dissolve the sugar; boil without stirring till it will easily break when dropped in cold water, and when done add the lemon; pour into a well buttered dripping pan a quarter inch thick, and when partly cold mark off into small squares.

## **Dr. Miles' Liver Pills and Dr. Miles' Laxative Tablets**

It has been found that all people cannot take the same laxative with the same result. Some cannot take pills no matter how small and others do not care to take a tablet that they have to chew. Therefore we can recommend Dr. Miles' Liver Pills and Dr. Miles' Laxative Tablets equally for both have their uses. The Liver Pills are extremely small and can be taken by people who rebel at taking an ordinary sized pill. The dosage can be easily regulated and in this way permanent results can most readily be obtained. Dr. Miles' Laxative Tablets are as pleasant to take as candy and children never look on them as medicine. Both preparations are equally efficient.

With those who are in such a condition that they have to take laxatives regularly in order to insure proper movement of the bowels a change is often beneficial and we would advise that after using the Liver Pills for some time they interchange for a while with the Laxative Tablets. In this way the best results may be obtained.

---

### **"NO EQUAL FOR CONSTIPATION."**

"I have used Dr. Miles' Liver Pills and can sincerely say that they have no equal. For constipation, if taken as directed, they act like a charm. I recommend them to all my friends."

MRS. A. F. KENNEY,  
239 So. Maffit St., Decatur, Ill.

### **"PERMANENT RELIEF."**

"As a laxative, and as a permanent relief for constipation I can truthfully say that Dr. Miles' Laxative Tablets have done for me what all other laxatives and tonics failed to do."

MRS. M. B. SHEANER,  
1208 Gano St., Dallas, Texas.

---

### Cream Taffy

Three cups of granulated sugar, one-half cup of water, and butter the size of a walnut. Boil without stirring until it will candy when dropped in cold water; flavor, and pour out on a buttered dish. Moisten the hands when pulling. When cold, cut with sharp scissors.

---

### Chocolate Caramels II

Three-fourths cup of chocolate, one cup of molasses, two cups of white sugar, butter the size of a small egg, a pinch of flour and soda, and one cup of milk.

---

### Salted Almonds

Blanch the almonds by pouring boiling water over them, and let them stand until the water is cool. Then slip off the skins. Butter very freely a frying pan or dripper and put the almonds in it, bake in the oven, stirring frequently, until they are well browned. Take from the oven and salt while hot, that the salt may adhere to the buttered nuts.

---

### Chocolate Caramels III

Three cups of granulated sugar, three tablespoons of glucose, one cup of water. Boil, stirring most of the time, until it will harden in cold water. Add immediately one cup of cream and a piece of butter the size of an egg. Let it boil again until it will harden when dropped in cold water. Remove from the stove, and add two cups of hickory or walnut meats. Pour in a buttered pan, making the candy three-fourths inch thick. When cool, cut in squares, and wrap in parafine paper.

---

### Almond Macaroons

Grate one-quarter pound of shelled almonds. Add one pound of pulverized sugar, the whites of three eggs, and one cup of toasted bread crumbs soaked with one tablespoon of lemon essence. Take rendered butter, and spread on plain paper. Dip a spoon in cold water, and drop pieces of dough the size of a nutmeg on paper one inch apart. Bake in a moderate oven twenty minutes.

**"USED NERVINE TWICE."**

"I had the pneumonia and was in bed 28 days. When I began to sit up I had sinking spells with my heart and the doctor said the sinking spells were caused from my nerves. He also said that I had a nervous breakdown. About five years before this I had had some nervous trouble and had taken one bottle of Nervine and it helped me at once so I thought I would try your Nervine again. When I began to take the Nervine I could not walk across the floor, and could not sleep at night. After I had taken one bottle I felt like a new man. Have been using your medicine about four weeks and am now able to do my own feeding and work around the barn. I think Dr. Miles' Nervine is worth its weight in gold. I had a little niece who had nervous trouble so bad she would get cold at night, and was very poor. I told her about Dr. Miles' Nervine. She is now on her second bottle and she wrote me and said she was feeling fine, and sleeps good at night."

FRANK ROOD,

R. D. No. 1, Canal Winchester, Ohio.

**"TONIC WORKS WONDERS."**

"I suffered from nervousness, indigestion and severe headaches. I seemed to be completely run down. I was advised to take Dr. Miles' Tonic in conjunction with Dr. Miles'

Nervine and Anti-Pain Pills. They did me a world of good. I am now a well woman and do all my own house work. I cannot praise this Tonic too highly and I recommend it to all my friends."

MRS. EDNA M. LOVELAND,  
911 Borthwick St., Portland, Ore.

**"NERVOUSNESS GONE."**

"I suffered for two years from nervousness. Could not rest at all at night. One day my niece told me of Dr. Miles' Nervine. I got a bottle and tried it. Since, I have taken six or seven bottles and am very seldom troubled with nervousness any more."

MARY KIRK, Joshua, Texas.

**"QUICK RECOVERY."**

"I was so lame from rheumatism that I could hardly walk but since I have used Dr. Miles' Nervine I can do my work nicely. I also can rest well at night where before I could not sleep."

MRS. E. A. NORTON,  
Fall River, Wis.

"I wish to state that I have used Dr. Miles' Tonic and found it to be an excellent medicine for general weakness. We have also used Dr. Miles' Nervine with equally good results."

MRS. CORDA BROWN,  
Rogersville, Tenn.

**DR. MILES' NERVINE WILL RELIEVE SLEEPLESSNESS.**

---

### Hickory Nut Macaroons

To one cup of hickory nut meats add one-fourth teaspoon each of ground allspice and nutmeg. Make a frosting of one egg as for cake, and stir in the meats. Make the mixture into balls the size of a nutmeg. Lay them on buttered tins, and bake in a quick oven.

---

### Salted Peanuts

Place the peanuts in a basin with enough butter to grease them well. Salt them, and bake twenty minutes, or long enough to become thoroughly hot.

---

### Fudge I

One cup of milk, two cups of sugar, butter the size of an egg. If chocolate is used, one-half of a square will suffice. Put all on to boil, and let boil at least twenty minutes, or until it strings. Stir just enough to keep from sticking. Flavor with vanilla upon removal from fire. When done take off and stir until stiff enough to pour smoothly.

---

### Candied Orange Peel

Buy thick skinned oranges; cut; peel in narrow strips and soak in cold water three days, changing the water daily; put on fire in cold water, let come to a boil, drain and repeat the process; drain thoroughly. Have ready a rich syrup and cook the peel in it slowly.

---

### Maple Creams

Two pounds maple sugar, one-half pint sweet cream, one pound butternut meats; let it boil till it ropes; when almost cold add the meats and pour in a buttered pan. Other nuts may be used instead if desired.

---

### Nut Creams

Three cups of granulated sugar, two cups cream, one pinch salt, two table-spoons corn syrup and when done add one bowl hickory nut meats; remove from stove and stir until it comes to a fine grain.

## Nerves and Life

The human nervous system is a most wonderful thing, and also a thing that is often woefully misunderstood and abused. It is from countless small cells or nerve-centers in the brain and spinal cord that the element called nerve force is obtained. This nerve force is as necessary to life as electricity is to electric power, in fact it is life itself. This much we know, however little we may know of its mysterious origin—when it comes and whither it goes when taken away with the last breath of life.

A human body without nerve energy is as useless as a copper wire in a dynamo without electric current. The machinery is all there but the vital spark is absent. The nerve cells of the brain and spinal cord sometimes lose a part of their energy, and thus fail to supply the body with the needed "nerve-current."

All of the bodily organs must have this nerve-current. The heart cannot beat without it; the stomach cannot digest food without it; the bowels cannot act without it; the liver, lungs and every organ are moved by it. Therefore when it fails these organs fail in exact proportion. The brain itself must have it to produce thought, therefore nerve weakness affects the mental vigor.

Tired nerve cells must be given rest and a chance to regain power lost through excessive work, worry or anxiety. Life consumes nervous energy just as fire consumes fuel, and when fuel is burned, more must be forthcoming.

To restore worn out nervous systems Dr. Miles' Nervine was first prescribed more than thirty years ago. It was successful then for this purpose and it has been used ever since with increasing satisfactory results.

### Candy Eggs for Easter

Get tin moulds in egg shape, or use small china egg cups. Melt half pound of chocolate and fill the moulds with the liquid, a teaspoon at a time. Waite a moment, and then pour out what will flow. The chocolate which adheres to the moulds, will, after cooling, form the egg, and may be detached by tapping the mould lightly. Forming the perfect egg is equally easy. This is done by rubbing the edge of one-half to and fro over some warm surface, and then pressing it against the edges of the cold egg. The egg can be made solid instead of hollow; but this, of course, requires a much larger quantity of chocolate, or it can be filled with the cream candy used for chocolate creams, finely chopped English walnuts, or anything of the sort. The eggs can also be prepared without moulds by shaping the cream-candy filling with the hands into little eggs and then dipping them by means of a small wooden skewer into the melted chocolate, which, when it cools, forms a covering.

### Peanut Candy

Two cups of granulated sugar, one-half a cup of water. When it comes to a boil, add one-half teaspoon cream of tartar, dissolve in a tablespoon of water. Cook until when dropped in cold water it is brittle. Then add a piece of butter the size of an English walnut; cook a minute longer. Pour over a quart of shelled peanuts already spread in a buttered tin, and set away to cool. Sometimes it is nice to crush the peanuts with a rolling-pin after their skins have been removed. This breaks with a snap.

### Marsh-Mallow Candy

The foundation of candies made with gum arabic, this is, the plain paste, is what is usually known as marsh-mallows. They are easy to make, but very tedious, as they require beating an hour or more. Use to make them the very best white gum arabic, powdered, and double its weight of water, with three times its weight of sugar. The sugar is the fine powdered.

**"AFFLICTED WITH NERVOUSNESS."**

"I was afflicted with nervousness brought on by over-work and loss of sleep. My case was a serious one. It would seem impossible at times to control myself. I could not remain in any one position for more than a few minutes at a time. My limbs would twitch and jerk, and the slightest noise would startle and unnerve me. My sleep was often broken by sudden wakening imagining all kinds of things. I never thought I would get well again. I suffered all this for years, and finally began taking Dr. Miles' Nervine. After taking four bottles I was greatly benefited in that twitching sensation for which I had doctored for years and will say that the effect of Dr. Miles' Nervine has upon the system is wonderful. I have for years kept Dr. Miles' Anti-Pain Pills by me. I seldom go out without taking them along, as they are an infallible relief for headache and nervousness."

MRS. L. I. BURKE,  
St. Albans, Vt.

**"SHOWS MARKED IMPROVEMENT."**

"For many years I suffered from nervous prostration. I was unable to do any housework and the doctors failed to help me. The remedies I tried from the druggist did me not a particle of good. My neighbor told my husband about Dr. Miles' Nervine and he procured a bottle. The first few doses I took

showed a marked improvement in my case. After using two bottles I was entirely relieved and I have been perfectly well for years. I cannot praise Dr. Miles' Nervine too highly."

MRS. ANNA KOUNZ,  
Pueblo, Colo.

**HELPS AFTER OTHER MEDICINES FAIL.**

"Seven years ago my wife commenced having spasms or fits and I called in my home physician and he said she was paralyzed. He rubbed her with salt water and gave her calomel and she eventually got some better but in a short time she had another attack. She was confined to her bed for three months and the doctor could not help her. She had fits frequently, some times very severe. Her hands would cramp so we could not open them and she finally got so her jaws would become locked. Finally I saw the doctors was doing her no good and ordered a bottle of Dr. Miles' Nervine. She received so much benefit from the first bottle that I got some more. She has taken a number of bottles but never had a fit since taking the first bottle. She also thinks very highly of Dr. Miles' Liver Pills and is never without them. If there is any way of making this testimonial stronger do so, because of the good the Dr. Miles' Nervine did my wife."

WM. T. ALLEN,  
Bexar, Ala.

---

### Clarifying Syrup

Dissolve four pounds white sugar in a quart of water, place over a slow fire for half an hour and stir in the white of an egg; skim off all impurities that arise, or dissolve together a small quantity of gelatine and gum-arabic and pour in instead of the egg. To perfect the clarification still more strain it through a jelly bag.

---

### Other Candies

Other candies are produced from the same syrup by bringing it to such a heat that the threads which drop from the spoon, when exposed to cold air, will be brittle and snap like glass. When this stage is reached add a teaspoon of vinegar or cream tartar to prevent grain-ing. It may then be flavored, colored, poured into pans or pulled into sticks. To make into sticks pull or roll into shape, with the hands greased or floured.

---

### Cocoa-Nut Drops

One pound desiccated cocoa-nut, half pound powdered sugar and the white of an egg; work all together, roll into little balls in the hand and bake on buttered tins.

---

### Hoarhound Candy

Boil two ounces dried hoarhound in a pint and a half of water for about half an hour, strain and add three and a half pounds brown sugar; boil over a hot fire until sufficiently hard; pour out in flat, well greased tins and mark into sticks or small squares with a knife as soon as cool enough to retain its shape.

---

### Sour Milk Fudge

Two cups of C sugar, one cup of sour milk or better, sour cream, butter the size of walnut. Boil until it hardens when dropped in cold water. Beat until it begins to stiffen and pour on buttered plate. Mark when nearly cold. This is improved by the addition of nut meats.

# Neuralgia

Neuralgia is an ailment that often proves stubborn in yielding to treatment, and the pain in the more severe cases is of the most acute nature—sometimes almost unbearable. Like headache neuralgia can scarcely be considered a disease in itself, but rather in the nature of a manifestation of some other derangement. As pain is the chief symptom, Dr. Miles' Anti-Pain Pills are especially adapted to the treatment of neuralgia, and they are widely used for this purpose with excellent results. By allaying the nerve irritation and reducing inflammation the Anti-Pain Pills will in almost every instance afford relief.

It is well to begin using the Anti-Pain Pills as soon as the first pains are noticed; by so doing a long period of suffering may be avoided.

They contain no habit forming drugs, and to secure satisfactory results it is not necessary to increase the dose, after using them a time. If neuralgic attacks become chronic, the cause should be sought out, and proper treatment begun. In this connection Dr. Miles' Nervine and Dr. Miles' Tonic may be used to advantage in improving the general health.

---

## "WIFE RELIEVED OF NEURALGIA."

"Sometime ago my wife was a great sufferer from neuralgia and her father, who was a clergyman, urged her to get some of Dr. Miles' Anti-Pain Pills to secure relief. She secured the Pain Pills and they stopped

the neuralgia where other pills and tablets failed. If she gets a headache the Anti-Pain Pills give her relief. I also use them with great success. We are never without them in the house."

A. L. OBER,

24 Cherry St., Collingdale, Penna.

**FUDGE II**

Two cups of sugar, one cup of milk, two ounces of chocolate, one-fourth cup of butter. Let come to a boil and stir continually until done. After taking from the stove stir until it thickens, then add a few drops of vanilla and pour into a buttered pan. Nuts may be added. Cut in squares.

**Fudge III**

Two cups of granulated sugar, one-half cup water, one-half cup cream, two squares of grated chocolate. Cook slowly. When done add a cup of chopped meat nuts, turn onto a platter, and when partly cool stir until it hardens with a fork.

**Fudge IV**

Three cups of granulated sugar, one cup of milk, one teaspoon of butter, two ounces of chocolate. Boil until gummy in cold water and pour into buttered pans to cool.

**Fudge V**

Two teacups of granulated sugar, a teacup of milk, a third of a teacup of butter, and four ounces of chocolate. Boil nine minutes after it commences to bubble, take from the fire, add a teaspoon of vanilla, and stir five minutes. Pour into pans, mark in squares.

**Popcorn Fudge**

Pop a quantity of popcorn and grind it through the coffee mill. Clean the mill good and then throw away the first grindings as they will taste of the coffee. Boil two cups of granulated sugar, one-half cup of molasses of corn syrup, one-half cup of water and a pinch of salt until it is a little past the soft ball. Take from the fire and pour into the stiff beaten whites of two eggs. Whip until smooth and flavor. Then pour two and one-half cups of the ground popcorn into this, and set away to get cold. One can add more or less of the ground popcorn according to the taste. Before it is quite cool, mark out into shape desired with a silver knife, and break when cold.

**"IMMEDIATE RELIEF"**

"I suffered with nervous headache for a period of a number of years. Was never able to find anything that would give relief. I tried Dr. Miles' Anti-Pain Pills and at once got immediate relief and from that time on I keep them on hand."

MRS. M. A. McCOY,  
536 W. Wilson St.,  
Cleburne, Texas.

**"FINE FOR HEADACHE."**

"I have been taking Dr. Miles' Anti-Pain Pills and have found them to be fine for headache, and know of nothing better. I use them whenever I need them."

MRS. ROSE M. TAFT,  
Middlefield, Ohio.

**"ONLY PILL THAT GIVES RELIEF."**

"I have used Dr. Miles' Anti-Pain Pills in my family for many years and find they are the only pill that gives relief to anyone suffering from headache or similar ailments."

MRS. W. H. PLATTER,  
9 Pennsylvania Ave., Schenectady, N. Y.

**DR. MILES' ANTI-PAIN PILLS CONTAIN NO HABIT-FORMING DRUGS.**

**MOTHER SUFFERED FROM INFLUENZA.**

"My mother had influenza and had pains in her lungs and stomach and couldn't get any relief. She began taking Dr. Miles' Anti-Pain Pills and they relieved her in a short time. I have also taken them for neuralgia and headache and I know they will stop pain almost any time. I wish to recommend them to those who don't know about them."

MRS. HELEN LEIGH,  
R. R. 3, Linton, Ind.

**"USE NOTHING ELSE."**

"I suffered from bad headaches when I came in from work and the foreman gave me one of your Anti-Pain Pills. It relieved me right away. Now, myself and family use nothing else for headache. We always keep a box in the house."

A. G. UNDERHILL,  
737 Arthur Place, Akron, Ohio.

**STOPPED PAIN.**

"Some years ago I suffered considerable pain and awful headaches, and my mother advised me to try your Pain Pills which I did. I have never been troubled with pain since using them."

MRS. T. C. McDONALD,  
1010 W. Lake Ave. No., Seattle, Wash.

---

**Coffee Fudge**

Roll together two cups of granulated sugar and one cup of strong coffee. Add either one teaspoon of butter or one tablespoon of rich cream. Boil until a spoonful of the candy stiffens when beaten. Then take from the fire, beat hard with a big spoon until the candy begins to grow stiff, quickly beat in one cup of broken shellbark or pecan nut meats and pour out into a buttered tin. This is an extremely toothsome candy and not well known.

---

**Maple Fudge**

It is much less expensive to use maple syrup for this than the maple sugar. Take one cup of maple syrup to one and a half cups of light brown sugar, half a cup of milk, and a small piece of butter. Boil slowly. When done according to usual test cool and then beat with a fork until creamy and sugary. This will be smoother if allowed to stand over night.

**Rasin Fudge**

Two cups sugar, one cup milk, butter size of an egg, one-half cup chocolate. Cook stirring continually until bubbles break slowly. Have ready one-half pound walnuts chopped fine and one pound chopped seeded raisins. Add these and stir until stiff and pour into buttered pans; mark in squares when sufficiently cool.

---

**Barley Sugar**

Dissolve one and one-half pounds of loaf or granulated sugar in one-half pint of water; add the white of an egg. When it has boiled sufficiently to snap in cold water, add the strained juice of one large lemon. Boil quickly until it candies as before; then pour on a buttered slab or large platter. When it cools, cut with a pair of scissors into narrow strips, cut these in squares, or twist them slightly, place on waxed paper to harden, then pack away in a close-covered jar and keep in a dry place.

## Why Take "Patent" Medicines

There are a number of reasons for the use of the popular package medicines,—the so-called "patent medicines" of the drug store. They are convenient, they are inexpensive, and they may generally be relied upon to meet the expectations of those who use them.

Naturally if the last statement be untrue the other reasons are entitled to no consideration. But this last statement is true.

Proprietary medicines could not be successfully offered to the public year after year unless they possess real merit in the treatment of afflictions for which they are advised, nor unless they may be safely self administered. Some of such preparations may be devoid of merit, but they are short lived.

The argument that cases which have apparently been cured by the use of proprietary medicines would probably have recovered as soon without them is simply begging the question,—the same argument will apply with equal truth to any other method of treatment.

Physicians say that among the very large number of drugs used by the profession only a few can be definitely relied upon to produce certain and uniform results, and as proprietary medicines usually involve the employment of these particular successful drugs in combinations which have been thoroughly tried out and proven, why should they not be used as general household medicines and for certain chronic conditions which do not demand the immediate service of a physician, or in which strictly professional treatment has not produced satisfactory results?

### Cream Caramels

Half pound of chocolate, grated fine; sift two pounds of white sugar; put with it one heaping teaspoon of butter, one teacup thick sweet cream. Cook these ingredients until the mixture candies (it takes about twenty minutes' hard boiling). After taking from fire, put in one teaspoonful of vanilla; this makes the dark part.

For the Cream.—Take three cupfuls of finest white sugar, and one cupful cream; boil twenty minutes; do not stir much. Flavor with the juice and grated peel of an orange. Butter a dish, pour upon it a layer of the dark part, letting it stand in a cool place until partly hardened. Next, add a layer of the white cream, which also allow a few minutes to harden. Lastly, cover with another layer of the chocolate; when nearly hard cut into squares.

### Nut Caramels

Use the first rule given for caramels. Omit the chocolate, and add one one-half cupfuls of chopped peanuts or other nuts. Chop them quite fine.

### Raisin Chocolettes

Select smooth seeded raisins. Put one-half pound cake of vanilla sweet chocolate in a sauce pan over boiling water, and when melted add two level tablespoons butter and two of boiling water. Dip raisins and put on oiled paper.

### Cream Peppermints

Two cups confectioner's sugar, or fine granulated will do, six tablespoons of hot water boiled together about three minutes, until the sugar is dissolved and the syrup looks clear. Do not stir the syrup. When done, pour into a bowl, add one-quarter of a teaspoon of cream of tartar and half a teaspoon of essence of peppermint. Beat with a spoon until white and creamy—about three minutes—then drop on paper or tins slightly buttered. The paper must be perfectly smooth, and the spoon twirled as you drop the cream, or the peppermints will not be round. The dropping must be done very rapidly, as the cream hardens quickly.

**"PHYSICIAN RECOMMENDS NERVINE."**

"My daughter was afflicted last spring with St. Vitus' Dance and nervousness and almost lost the use of her right side. We consulted a physician and he recommended the use of Dr. Miles' Nervine. She began taking it and after taking several bottles was greatly benefited." MATTIE HOSTETLER, Knox, Ind.

**"BENEFITS ST. VITUS' DANCE."**

"My son, ten years ago, had St. Vitus' Dance and so pitiable was his condition that at times he was unable to walk or feed himself. Wishing to secure the best possible treatment, I took him to Grand Rapids, where he remained under treatment for three months. At times he seemed better, then would become worse again. Not being satisfied, I concluded to try Dr. Miles' Nervine. After taking the first bottle a marked improvement was noticed, so we continued the treatment until he had taken five bottles of Nervine and two bottles of Tonic. Now he is well and strong."

FRED SQUIRES, Rockford, Mich.

**"FIRST FEW DOSES BENEFITED."**

"When I was ten years old I had St. Vitus' Dance and got so bad that I could not feed myself. My arms and legs jerked so hard that I could not stay on the bed and some one had to watch me all the time. Then I

got so bad that I lost my voice. They used to feed me with a spoon and it used to take nearly a half day to feed me a meal. I don't know how many doctors I had or how much medicine I took, but I did not get any better until our druggist sent me a bottle of the Dr. Miles' Nervine. The first few doses seemed to quiet me and when the second bottle was half gone I had stopped jerking and could talk again. After that I soon got well." MRS. R. E. ARNOLD, Lexington, Ill.

**"NOW ENJOYS GOOD HEALTH"**

"My wife was a sufferer from nervous prostration brought on by female weakness, and was in very poor health. After reading some of Dr. Miles' advertisements, she concluded to try Dr. Miles' Nervine. She obtained good results from the start. Now, after taking the second bottle, she enjoys good health."

E. J. AUGUSTINE,  
New Orleans, La.

"I firmly believe that if it had not been for Dr. Miles' Heart Treatment that I would have died several years ago. I suffered from a severe case of heart trouble and I owe my recovery to this Heart Treatment. I also keep Dr. Miles' Anti-Pain Pills in the house all the time for any ache or pain."

MRS. MARY E. SHEAFER,  
3123 Powelton Ave., W. Philadelphia, Pa.

**DR. MILES' MEDICINES ARE SOLD BY DRUGGISTS EVERYWHERE.**

---

### An Uncooked Cream

To the white of one egg add the same measure of water and one-half teaspoon of vanilla. Stir into this, a little at a time, sufficient confectioner's sugar to make a cream stiff enough to handle. Such a cream can be made into balls and dipped in melted chocolate—chocolate creams—or used for stuffing dates or for walnut or almond creams.

---

### Lemon or Orange Drops

Grate the rind of one orange or lemon and squeeze the juice, taking care to reject the seeds, add to this a pinch of tartaric acid, then stir in confectioner's sugar until it is stiff enough to form into small balls the size of small marbles. This is delicious candy.

---

### Lemon Drops II

Upon one cup of powdered sugar pour enough lemon juice to dissolve it, and boil it to a thick syrup; drop on buttered plates and set in a warm place to harden.

### Ice Cream Candy

Boil three cups of sugar, a quarter of a teaspoon of cream of tartar, and one-half cup of water together, but do not stir the syrup at all while boiling. Boil until, when a little is dropped into cold water, it is brittle. Turn on a large, well-buttered platter or a marble slab that has been oiled, and, as it cools, fold the edges toward the centre. As soon as it can be handled, pull it until it is white. Flavor to suit.

---

### Jujube Paste

Take two cups of sugar, one-quarter of a pound of gum arabic and one pint of water. Flavor with the essence of lemon and a grain of cochineal. Let the mixture stand until the gum is dissolved in a warm place on the back of the stove, then draw forward and cook until thick; try in cold water. It should be limber and bend when cold. Pour in buttered pans, an eighth of an inch thick. When cool, roll up in a scroll.

**"NOTHING BETTER FOR INSOMNIA."**

"I have used Dr. Miles' Nervine at different times for the past ten years for nervous troubles and think there is nothing like it. I know that there is nothing better for insomnia. I have always spoken a good word to my friends about it and would advise anyone troubled with nervousness to use Dr. Miles' Nervine as directed. They will be benefited by it and never regret it."

WM. B. TIFFT,  
15 King St., Westfield, Mass.

**"IMPROVEMENT AFTER FEW DOSES."**

"Three years ago I was badly run down and so nervous that for weeks I was unable to sleep except for short periods. A neighbor recommended Dr. Miles' Nervine and after taking the first few doses I noticed an improvement and after using two or three bottles I began to sleep in my usual and natural way. I always keep Nervine in the house and when I feel the slightest return of nervousness I take a dose or two and am relieved."

MRS. JAMES H. CANNON,  
25 Hyde St., Revere, Mass.

**NERVINE AND ANTI-PAIN PILLS.**

"I was troubled with severe nervousness and after retiring at night would be very restless and unable to sleep. I would have nervous twitchings all over my body which were very distressing and I became weak

and run down from lack of sleep and rest. I commenced using Dr. Miles' Nervine and it gave me immediate relief. After using it a few days I could go to bed and sleep soundly all night and awake in the morning feeling refreshed and rested. After taking several bottles my health was entirely restored, but I always keep a bottle in the house and take a dose when I am very tired. I always recommend Dr. Miles' Nervine to anyone complaining of loss of sleep or restlessness, and have heard many praise the medicine for the good it does. I can also recommend your Anti-Pain Pills very highly and I am never without them in the house."

C. B. NEWLEE, Harrisonville, Mo.

**"NERVINE BENEFITED CONVULSIONS."**

"I used to have convulsions that would completely prostrate me, and nothing that the doctors gave me seemed to do any good. These attacks would come on me about once every two weeks, and they would leave me so weak and exhausted for a couple of days, after which I could return to my work until the next attack came on. My wife saw an advertisement in the paper of Dr. Miles' Nervine and bought one bottle for me to try. It helped me very much and I kept on using it until I had taken eight bottles in all. Today I am a well man, and can do my work better than I could before my sickness."

ADAM J. KENTNER, Shenandoah, Pa.

---

### Vinegar Taffy

Three cups granulated sugar, one-half cup vinegar, one-half cup water, butter size of a walnut; boil without stirring until it will candy when dropped into cold water. Flavor with lemon and pour out on a buttered dish. Cut into squares just before it hardens. Some cooks stir in one-half teaspoon of soda just before taking up.

---

### Cream Figs

Beat the white of an egg, stir in powdered sugar until as stiff as possible, and yet admit of dipping the figs. Dip in each fig one or more times until entirely covered. Place on a heater to dry.

---

### Meringue Kisses

Beat the whites of four eggs until quite stiff, add pinch of salt, teaspoon of flavoring, one cup of fine granulated sugar; beat with a fork until very stiff. Drop on buttered paper and bake three-quarters of an hour in a very slow oven.

---

### Fig Paste

A dainty, inexpensive candy is made thus: Chop into bits and boil a pound of figs. When soft, strain and press through a sieve. Return to the water in which they were boiled, and which should be reduced to one cupful. Stir in three pounds of granulated sugar and cook down slowly until a thick paste is formed. Pour in pans lined with paper. Let cook. Take out on the paper and cut into sections. Dust with powdered sugar.

---

### Date Candy

Take four cupfuls of white sugar, one scant cup of cold water, butter size of an egg. Let boil slowly until ready to candy, not too hard. Cut dates, and remove the seeds. Close them again, lay on a well-buttered platter in rows one inch apart each way, pour the boiled candy over, and while cooling cut into squares so that a date will be in each square.

## Alcohol in Medicine

For many years chemists and pharmacists have endeavored to find some substitute for alcohol which could be used in a practical way in the manufacture of medicines which are made from vegetable drugs. Up to the present time their efforts have been unsuccessful.

It is, therefore, absolutely necessary to use alcohol for the extraction of the medicinal qualities from such drugs as are used, also for preservation from freezing and to prevent fermentation.

If a practical substitute for alcohol could be discovered, the manufacturers of medicines would be eager to use it for two reasons:

First, that alcohol has no valuable medicinal effect and should not be used unless absolutely necessary.

Secondly, that it is, in these days, exceedingly expensive due to the Internal Revenue taxation.

We use a minimum amount of alcohol in two of our Preparations; namely, in Dr. Miles' Heart Treatment and Dr. Miles' Tonic, both containing vegetable drugs, the medicinal principles of which cannot be extracted except by the use of alcohol.

These Preparations are shipped in all kinds of weather throughout the United States and must, therefore, be subjected to the extremes of heat which are found in our semi-tropical climates, and the low temperatures which are common in the more northern latitudes during the winter season.

One exposes the Preparation to the danger of fermentation and the other to the danger of freezing if the alcoholic content is not sufficient to prevent this danger under extremes of temperature. The use of alcohol is therefore unavoidable.

Neither the Heart Treatment or the Tonic can be used as a beverage, as can be easily proven by any interested person who will sample them.

---

**"MY DEATH WAS EXPECTED."**

"After the birth of my child I suffered severe pains in my head. Then I grew worse and the doctor said I was suffering from nervous irritation. I got so bad that my death was expected any minute. A specialist said nothing could be done for me. Reading about Dr. Miles' Nervine and Heart Treatment I began to take them and began to improve at once and continued using them until relieved." MRS. MYRTLE GEHRT,

803 Franklin Ave. Normal, Ills.

**"THREE YEARS SINCE HAD SPELL."**

"For thirty years I suffered from nervousness and sick headache. Sometimes my eyes would feel as though they would come out. I tried many remedies and several doctors without getting any relief. About ten years ago my son got me to try Dr. Miles' Anti-Pain Pills. They done me so much good I continued the use of them for quite a while, and in the meantime I took several bottles of Dr. Miles' Nervine. I am now 73 years old and it has been at least three or four years since I have had one of the spells."

MRS. J. V. THOMPSON,  
Route 4, Box 517, Dallas, Texas.

## Dr. Miles' Nervine

The energy that gives life to the body is known to be nerve force. It is this hidden energy that creates the difference between the living and the dead body. It is the indefinable something that the body is robbed of in death.

Lack of nerve force or its irregular distribution are the causes of many forms of chronic disease or lingering disorders of the system. Consequently any medicine that has the power to soothe the irritated nerves, thus regulating the distribution of nervous energy, is of inestimable value.

Dr. Miles' Nervine soothes the irritated nerves and by inducing a more normal distribution of nerve force not only relieves the pain but assists the bodily organs in performing their proper functions. Furthermore by its soothing influence it induces a natural sleep which is nature's greatest tonic and strengthener.

Dr. Miles' Nervine is recommended for use in treatment of the following ailments: Epilepsy, Hysteria, Nervousness, Sleeplessness, Neuralgia, Nervous Dyspepsia and Nervous Irritation; Headache, Backache and Palpitation of the Heart due to functional or Nervous Disturbances.

Nervine is also useful as an aid to other treatment for Tobacco and Alcoholic Excess, the Opium and Morphine Habits.

For more than twenty-five years Dr. Miles' Nervine has been largely used, and the success that it has met with on all sides is the best proof of its merit.

If you think that there is any chance of Dr. Miles' Nervine being beneficial in your case do not hesitate to get a bottle, for if the results are not satisfactory it will not cost you a cent.

Read the Miles' Guarantee on the inside of the back cover. Also read the honest testimonials that we publish from honest people.

#### NERVINE BENEFITS EPILEPTIC FITS.

"My daughter was subject to epileptic fits and I had several doctors for her but they could not seem to help her at all, she even had fits so bad that we did not think that she could live. My druggist gave me one of Dr. Miles' Almanacs and upon reading your advertisement of Nervine, I decided to give it a trial. I wish to say that from the time I started to give her the Nervine I could see a change. I have used four bottles and for the last six weeks she has not had any fits at all. I wish to thank you for Dr. Miles' Nervine as it has done more for us than money."

MRS. CELINA BUSSETTE,  
219 Washington St., Hudson, Mass.

#### "WAS NERVOUS WRECK."

"While in the drug business some years ago I became completely run down. The close confinement and long hours made a wreck of my nervous system and nearly resulted in collapse. At times I was unable to stand on my feet. My legs would become numb,

my head would grow dizzy and begin to swim, all feeling would leave me and I would fall over wherever I happened to be at the time. I gave Dr. Miles' Nervine a trial and was greatly benefited by the first bottle, and my subsequent experience confirmed my first good opinion of it. I am now able to work sixteen hours a day and feel fine."

W. H. WHITE, Johnson City, Tenn.

#### "NERVOUSNESS AND INSOMNIA."

"I was suffering terribly from nervousness, insomnia and loss of appetite. Always having had the most cheerful, sunshiny disposition, I seemed over-shadowed by clouds and impending evil. My husband and brother, both physicians, did all they could for me but without avail. Dr. Miles' Nervine was recommended to me by a trained nurse and I tried it. I slept, Oh! so sweetly, and in a short time was myself again. I have friends to whom I have recommended Dr. Miles' Nervine and who have received equal results as I." MRS. MARGARET H. BOWEN,  
1217 Quincy Street, Washington, D. C.

# Dr. Miles' Heart Treatment

Weak hearts are as common as weak stomachs, lungs, eyes, backs and kidneys.

Every heart that flutters or palpitates or tires out easily, causing shortness of breath and body aches, needs attention.

Every time your heart misses a beat its efficiency is lessened.

The heart is so regulated as to run perfectly true when in normal condition. If your heart is normal you should not even know that you have a heart.

Heart disease, taken in its early stages, is easy to relieve; but the more treatment is delayed the harder it is to obtain permanent relief. If there is the slightest symptom to show that your heart is weak or diseased you should not delay taking treatment a day.

Dr. Miles' Heart Treatment has been the popular choice for more than twenty-five years. It has stood the test of time in a manner that forbids any doubt as to its efficiency. Not only has it given relief quickly in many cases but it has also been found that the effects obtained from this medicine are usually lasting. People who praised this medicine twenty years ago still believe in it and are only too glad to state that their trouble has never returned.

Any of the following symptoms may indicate the presence of heart trouble: Shortness of Breath, Fluttering or Palpitation, Choking Sensation,

Irregular Pulse, Weak or Hungry Spells, Fainting or Smothering Spells, Swelling of Feet and Ankles, Pain under Left Shoulder Blade.

There may be no pains, but the patient becomes conscious of his heart, perhaps for the first time in his life. This alone is an indication of heart trouble.

Study what users of Dr. Miles' Heart Treatment have to say on the subject and then get a bottle. You risk nothing for if the results from the first bottle are not beneficial you have only to return the empty bottle to your druggist and your money will be cheerfully refunded.

**Took Dr. Miles' Heart Treatment**

"I have suffered for over twelve years with heart trouble and was so bad that I would fall over and lie unconscious for some time. I tried my family physician. He would help me for a short time but it would return and each time I grew worse. I was afraid to lie down at night for fear I would never wake up. I tried everything that anyone told me about and was finally advised to try Dr. Miles' Heart Treatment. The first

bottle I took helped me so much that I kept on taking it and I have not had a bad spell with my heart since."

Mrs. James Kustabuder,  
532 North 2nd St., Bellwood, Penna.

A man who cannot mind his own business is not fit to be trusted with any one else's.

Easy money is usually easily spent.

## Dr. Miles' Anti-Pain Pills

Dr. Miles' Anti-Pain Pills are their own best advertisers. The marked degree of success that they have met with for more than twenty-five years has been entirely due to their efficiency. Users are willing to concede that these pills do all that is claimed for them for the relief of headache, neuralgia, backache, monthly pains; that they are excellent in the pains of rheumatism and sciatica and in sleeplessness due to pain; and almost every other kind of pain or ache, and without bad after-effects. If the sufferer finds rest from pain that weakens the mind and harrasses the nerves, pending treatment for the cause of pain, he should certainly be satisfied.

Furthermore, Dr. Miles' Anti-Pain Pills do not constipate, do not derange the stomach or leave any disagreeable after-effects when taken as directed.

Pain saps the power of the mind in its fight for mastery over the organs of the body. It keeps the thoughts of the sufferer continuously on the ailment which is causing the pain, and in this way it acts to retard recovery.

On the first approach of pain or ache take one of Dr. Miles' Anti-Pain Pills. It may be swallowed whole, chewed and swallowed, or dissolved in water. Each method of taking will bring equally good results. If the pain has not entirely disappeared in twenty minutes take another pill. In cases of very severe pain two pills may be taken, followed an hour later by two more. It is not advisable to take more than six pills in the course of twenty-

four hours. They may be taken at any time, but act more quickly when the stomach is empty. These doses are for adults.

Children aged 14 should take from a half to one pill. Children aged 5 years should take a quarter to a half pill. Others in proportion.

Very often in cases of sleeplessness which is not chronic an Anti-Pain Pill taken half an hour before going to bed will produce very satisfactory results.

Read the testimonials we publish in this book. They are the honest statements of honest people and are all unbought and unsolicited.

**"GIVES EMPLOYEES ANTI-PAIN PILLS."**

"I have many men in my employ and have saved them and myself many days of work by the use of Dr. Miles' Anti-Pain Pills. The use gives relief in almost all cases, especially in nervous or over-heated conditions, or if threatened with a cold they are fine. They also help me in sleeplessness at times." W. V. HARRISON, Lake View, Ia.

"I had for a long time been troubled with a severe pain at the base of the brain, sometimes being almost unendurable. I began using Dr. Miles' Anti-Pain Pills and soon saw an improvement and at the present time consider myself entirely free from the attacks. I would also recommend them for all nervous headaches." W. F. CHADWICK,

21 Clarence St., Montello, Mass.

**"FINDS ANTI-PAIN PILLS ALL RIGHT."**

"I have used Dr. Miles' Anti-Pain Pills and can recommend them to be all right. Two years ago while attending a picnic in company with my cousin, I was taken very sick with a severe headache. My cousin gave me a couple of Anti-Pain Pills and in a very short time I was relieved. My mother will not be without Dr. Miles' Heart Treatment as she has found that it gives her immediate relief."

CLYDE STOLL,  
Hainesville, N. J.

**"PAIN PILLS RELIEVE HEADACHE"**

"I have been using Dr. Miles' Anti-Pain Pills for headache for eight years and they relieve me. I keep them on hand all the time."

F. I. CULLISON,  
R. R. No. 2, Box 63, Nellie, Ohio.

## Habit Forming Drugs

Have you ever heard "patent" medicines referred to as "dope," and if so what impression did the term leave in your mind? You probably understood the word to mean a preparation containing opium, morphine, cocaine or drugs of a similar nature—that is, narcotic drugs, dangerous to use because of their habit-forming character, drugs whose continued use have a degrading effect on the character and morals of the user, as well as a deleterious effect on the health.

We have a plain statement to make, which is this: You take no chance of forming a drug habit by the use of the popular ready-made or package medicine, that is, the kind you usually buy from your druggist, being led to make the purchase through advertisements in reputable newspapers or on the advice of a friend. If they contain any narcotics the statement on the label tells the story, and the quantity per dose is so small as not to be dangerous in itself, nor is there danger of a drug habit.

The laws themselves protect you when you buy proprietary medicines whereas any doctor can prescribe habit-forming drugs for you. An exception may be the soothing syrup containing opium or morphine. To be sure it is no stronger than paregoric, but both if used by ignorant or careless parents may be a source of danger.

## Medical Advice Free

While the fact that many users testify to great relief effected by Dr. Miles' Preparations warrants us in recommending them as medicines of the highest order of excellence, they are not cure-alls, as there may be complications in your case that require the special advice of a skilled physician. If you should not obtain from the Medicines the results you expect, write us all about your trouble. Reliable advice will be furnished you by a competent physician, **Free of Cost**, and if possible, means by which relief may be obtained. Do not be afraid to write us all the facts, and your case will receive the most prompt and careful consideration.

**To Insure Prompt Attention Always**

**Address Your Letters to**

**MILES MEDICAL CO., Elkhart, Indiana**

**Do Not Address Your Letters "Dr. Miles."**

---

**\$5,000** REWARD will be paid by the Dr. Miles Medical Co., to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform, heroin, alpha and beta eucaine, cannabis indica or any of their combinations or derivatives, in any form in any of Dr. Miles' Medicines. This reward applies only to goods purchased in the open market in original packages, which are unopened and have not been tampered with. This reward is offered because certain unscrupulous persons are making false statements about these preparations.

# Dr. Miles' Preparations

## Help Nature Restore Health

Dr. Miles' System of Medical Preparations is designed for the treatment of a large class of usually chronic diseases, many of which have their origin in a disregard of nature's most common laws. These medicines are scientific as well as efficacious, and seldom fail to benefit those diseases for which they are recommended. Dr. Miles' Medical Preparations are sold by all druggists.

**Dr. Miles' Nervine:—** A successful sedative for disorders of the nerves, or diseases caused by a deranged nervous system.

**Dr. Miles' Heart Treatment:—** A strengthening regulator and tonic for the weak heart.

**Dr. Miles' Anti-Pain Pills:—** Are valuable for the relief of pain. They contain no opium, morphine, chloral or cocaine, are not habit-forming and do not affect the stomach or bowels.

**Dr. Miles' Blood Purifier:—** For contagious blood poisoning and many forms of blood and skin disorders.

**Dr. Miles' Tonic:—** A combination of phosphates with quinine and iron. A tonic for the weak, who need strength, especially after severe sickness.

**Dr. Miles' Liver Pills:—** Efficient in constipation—leave no bad after-effects. Mild, gentle and reliable.

**Dr. Miles' Laxative Tablets:—** A New cathartic that appeals to old and young alike. Free from disagreeable effects. Tastes like candy.

Dr. Miles' Preparations are Never Sold in Bulk.

None of Dr. Miles' Preparations contain ~~bad~~ habit-forming drugs.

o-p-popo.

## Our Guarantee

We want you to try our Medicines.

We want you to do so without cost to yourself, should you receive no benefit.

We want you to know that our medicines will do all that we claim for them.

If, after reading this book, you have reason to believe that any of our medicines are suited to your case, go to your druggist and procure the medicine, and if you receive no benefit, return empty bottle or package to druggist and he will refund the price paid.

Every druggist is hereby authorized to do this. There will be no fuss or quibble. There is no red tape, and no string to the proposition. He will take your word for it. We pay the druggist the amount he returns to you, so there is no reason for him not to do so.

There are cases that our medicines will not absolutely relieve—but they will usually benefit the conditions even if they will not bring about permanent results. This is particularly true in most cases where the nerves and heart are involved, and these cases are exceedingly numerous.

Our guarantee gives you a chance to prove whether they will benefit you or not; there is one thing sure, they will not harm you if taken according to directions.

If the medicine benefits, you are satisfied; if it does not, it costs you nothing.

We are satisfied because you have given our medicine a trial, and if found not suited to your case, we stand the loss; we do not want you to pay for something that does you no good.

WE GUARANTEE only the first (single) bottle or package, which is sufficient to prove whether or not it will benefit you.

REMEMBER, we do not guarantee a cure; no honest person can do that, but if you try a medicine you then know for yourself whether to continue its use or not.

**DR. MILES MEDICAL CO., Elkhart, Ind.**
