A PRESENT FROM THE
WORLD'S DISPENSARY MEDICAL ASSOCIATION
BUFFALO, N. Y., and LONDON, Eng.

Entered according to Act of Congress, in the year 1900, by the "World's Dispensary Medical Association," in the office of the Librarian of Congress, at Washington.

DR. PIERCE'S PLEASANT PELLETS

Cure biliousness, sick and bilious headache, dizziness, costiveness, or constipation of the bowels, loss of appetite, coated tongue, sour stomach, windy belchings, "heart burn," pain and distress after eating, and kindred derangements of the liver, stomach and bowels.

Persons subject to any of these troubles should never be without a vial of the "Pleasant Pellets" at hand. In proof of their superior excellence it can truthfully be said that they are always adopted as a household remedy after the first trial. Put up in glass vials, tightly corked, therefore always fresh and reliable,

One little "Pellet" is a laxative, two are cathartic. They regulate, invigorate and cleanse the liver, stomach and bowels. As a "dinner pill," to promote digestion, take one each day. To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

RATES OF POSTAGE.

FIRST CLASS.—Letters to any part of the United States, two cents per ounce, or fraction thereof, prepaid.

SECOND CLASS.—Transient newspapers and periodicals, one cent for each four ounces, or fraction thereof.

THIRD CLASS.—Books, unsealed circulars, and all printed matter except newspapers, seeds, cuttings, roots, etc., one cent for each two ounces, or fraction thereof.

FOURTH CLASS.—Merchandise, types, metals, ores and minerals, and all mailable matter not in other classes, one cent for each ounce, or fraction thereof.

CHARGES FOR MONEY - ORDERS.—Money orders can be obtained only at designated Money-order Offices. Money can be sent to any part of the country with absolute safety, by obtaining a Money-order, for which the fees are: On orders not over \$2.50, 3 cts.; over \$2.50, and not over \$5, 5 cts.; \$5 to \$10, 8 cts.; \$10 to \$20, 10 cts.; \$20 to \$30, 12 cts.; \$30 to \$40, 15 cts.; \$40 to \$50, 18 cts.; \$50 to \$60, 20 cts.; \$60 to \$75, 25 cts.; \$75 to \$100, 30 cts.

NOTICE.—The War Tax commenced July 1st, 1894, and increases the fee on each Money-order TWO CENTS. No revenue stamps are required on Money-orders.

✍ Letters may be registered at any Post-office for 8 cents, in addition to the regular postage.

THE BASIS OF LIFE

The Stomach the Vital Center.

Life is sustained by food. But it is not what we eat but what we digest and assimilate which sustains the life of the body. The stomach therefore (with its associated organs of digestion and nutrition) is the vital center of the body. The body is nourished and strengthened only in proportion to the ability of the stomach to prepare and assimilate the blood-making and body building material contained in food.

It follows then that **no man can be stronger than his stomach**; that the health of the stomach determines in great measure the health of the whole body in all its organs.

There never was a strong man with a weak stomach. How could there be? For strength is made from food properly digested and perfectly assimilated, and it is the very first mark of a "weak" stomach that the digestion fails.

Coal gives no warmth except by combustion. Food gives no strength except by digestion. Nature has only one way of making strength and that is by food properly digested and perfectly assimilated.

FACTS ABOUT FOOD.—Food is in itself a complex element supplying the complex requirements of the body. Food must have salts and iron for the blood, lime for the bones, phosphates for the nerves and brain.

And these several elements must be separated, selected and distributed to the several organs by the digestive and nutritive processes.

It often happens that there is a failure to select and assimilate some one element—such as the phosphates required in sufficient quantity to feed the nerves and brain. Pain is the hunger cry of the nerves, and the misery known as "nervousness" or the torment of neuralgia, points to nerve hunger. The stomach and its allied organs are not extracting the nerve nutriment from the food. The natural tendency is to fly to "nerve tonics," "nervines" and other so-called "nerve foods." These are in general nothing but opiates or anodynes of some sort. They only *numb* the nerves. They cannot nourish them. Only *food* can nourish and **opiates are not foods but poisons.**

When the baby begins to cry the mother's first thought is of hunger and she nurses the child. Its wailing stops and smiles take the place of tears. Suppose instead of giving the child nourishing milk she gave it an opiate. The immediate effect would be the same. The crying would stop. But when the effect of the opiate ceased the child would be hungrier and weaker, instead of healthier and stronger. It's just that way with the nerves and so-called "nerve medicines." They numb but do not nourish. When their effect wears off they leave the body weaker and more miserable than they found it.

These well known pathological facts lead to a certain, inevitable conclusion.

Diseases which seem to be in heart or lungs, blood or liver,

P10387

BARCODE →

or nerves or in any other organ, are often the product of a diseased condition of the stomach and other organs of digestion and nutrition. It will be useless to treat heart, brain, lungs, nerves, liver, kidneys or any other organ while the diseased condition of the stomach remains unchanged.

Diseases which have their origin in the stomach must be cured through the stomach.

A RATIONAL REMEDY.—These facts perfectly explain the wide range of cures of lungs, liver, heart, head, kidneys, and other organs which have been effected by the use of Dr. Pierce's Golden Medical Discovery. Primarily it is a medicine for the stomach and organs of digestion and nutrition. **It heals many forms of disease** only because many forms of disease have their beginning in a diseased condition of the stomach. It heals diseases remote from the stomach because it cures **through the stomach** diseases which have their origin **in the stomach.**

That is the entire philosophy of the many and wonderful cures effected by the agency of "Golden Medical Discovery." The fact that these cures are perfect and permanent, rests upon the testimony of men and women, who, in their own neighborhood among those who best know them, are recognized as "pillars of the church" and "the salt of society."

CONSUMPTION CURES.—All serious sickness is attended with the wasting of the body, and this with lack of appetite and assimilative power.

Consumption, for example, is a wasting disease. Its course is marked by emaciation. The common treatment of consumption is by food fats. If the nauseating oils or their emulsions could be assimilated, they would build up the body, stop the waste and renew the life.

If these oils could be assimilated! Why is it that they so rarely can be assimilated? that they do so little for the sick? The reason is plain. These oils are *foods*. They are given in recognition of the fact that from food comes the vital force of the body. But this treatment fails to recognize the fact that all food must be digested; that you can't digest and assimilate any kind of food if the stomach is broken down and these oils being foods cannot be digested and assimilated by the weak stomach. The oils are fed in an attempt to bring the character of the food down to the level of a weak stomach. Dr. Pierce's theory is that *you must bring the weak stomach up to the level of strong food.* That is the only way in which the stomach can furnish the blood supply for the body, adequate in its quantity and in its vital elements to the needs of the whole body and all its parts.

This is the work perfectly performed by Dr. Pierce's Golden Medical Discovery. It acts upon the weak stomach so that it regains strength. With that regained strength comes an increased activity of the blood-making glands, which are stimulated to new effort by the "Discovery." The appetite increases until it equals the normal food demand of the body. The food which satisfies the appetite is wholly digested and perfectly assimilated. The blood made from this food is abundant in quantity as the food is abundant in supply, and rich in quality because all the nutritive properties of the food

extracted and assimilated, and are distributed by the blood, to each organ and member according to its needs.

THE SYMPTOMS of disease of the nutritive system and its resultant and kindred affections may differ according to the circumstances, temperament, age, or constitutional weakness of the individual and the complications of the disease and its stage of advancement. Not unfrequently the complexion becomes pale and sallow, there may be frequent attacks of bilious or sick headache, bitter taste in the mouth, tongue coated white or covered with a brown fur, unnatural, dry, harsh, or scaly condition of the skin, or branny eruptions, pimples, dark blotches, and troublesome itching. There are likely to be "backache" and tired feelings, lassitude and a sense of debility. There are depression of spirits and a decided tendency to be discouraged and despondent. There is loss or irregularity of appetite, uneasiness in region of the stomach, oppression, sometimes sour stomach, "heart-burn," nausea and "water-brash," flatulency, and acrid eructations; the bowels become irregular, usually constipated, and occasionally subject to diarrhea, attended with colicky pains. The foregoing symptoms are not all present in any one case, nor are any two cases alike in every respect.

LIVER DISEASE.—The liver is the great filtering apparatus of the alimentative system. It filters the poison-loaded bile out of the blood and discharges part of it from the body.

When the liver lacks active capacity to do this work, then the bile passes through into the general circulation and begins its poisonous work. Through the circulation of the blood it is disseminated throughout the body, gradually sapping the strength, clouding the brain, weighing down the energies, weakening the heart's action, infecting and undermining the tissues. Eventually the poison begins to accumulate at the skin, the kidneys, the bronchial tubes or the lungs, until at last it settles and fastens itself at some point, which location may be far away from the liver; yet it is stagnation or congestion of the liver which is the immediate cause of the whole trouble. Back of that, the originating cause is in the whole nutritive system; for the liver itself gets its nourishment directly from the blood.

The only way to help a disordered liver is to treat it as it is.—the great, organic, human filter. The "Golden Medical Discovery" *cleanses and clears it*; invigorates and revitalizes this most important organ by its wonderful alterative power. It restores its normal, active capability, and supplies it with pure, healthy blood, rich in the elements of natural vitality.

BLOOD AND SKIN DISEASES.—All morbid elements that enter into the blood are poisonous. The real practical difference between one poison and another is in the violence and rapidity of its action. Snake venom is so rapid that some other violent agent is needed to counteract it. But bilious or malarial poison, operates so slowly that Nature herself will eliminate it, provided she is not handicapped, and all her forces are placed in proper working order.

In all the more acute blood and skin diseases the "Golden Medical Discovery" is the most active and radical remedial agent ever devised. It promptly neutralizes the poisonous principle in the blood; off-sets the destructive action by

dly manufacturing an abundance of healthy red blood-puscles, and imparts to the great vital current of life those elements of pure nutrition before which morbid germs and disease microbes cannot live.

Scrofulous diseases, enlarged glands, tumors and swellings, catarrh, pimples, blotches, eruptions, rashes, salt-rheum, eczema, ulcers, skin troubles of every name and nature, and particularly those infectious blood diseases of the most dangerous type are met and completely overcome by the regular and persistent use of this marvelous Alterative Extract.

WILL IT CURE CONSUMPTION?—Many people ask: "Will the 'Golden Medical Discovery' cure consumption?" There is just one answer: "Golden Medical Discovery" will cure the *causes* of consumption. It will cure the troubles which *lead on* to consumption. It will supply the lungs with good blood. It will furnish Nature with the materials for building fresh and healthy lung-tissue.

BRONCHITIS AND WASTING COUGHS.—We know that the "Discovery" is the most efficacious remedy ever devised for severe throat and laryngeal and bronchial affections, chronic and lingering coughs, bleeding lungs, and those obstinate, wasting, debilitating, "run-down" conditions which if neglected or improperly treated lead on to consumption.

We know that thousands of men and women although in the advanced stages of feebleness and emaciation—pale, wasted and broken-down with all the terrible symptoms of hacking coughs, night-sweats, hectic fever, absolute prostration, and even bleeding from the lungs—have been restored by the use of this marvelous medicine to permanent health, strength and vitality.

NERVOUS DISEASES.—The nervous organism is the electrical system of the body.

The "Golden Medical Discovery" by its wonderful regenerating effect upon the sources whence nerve-power is derived, creates an abundance of that active elemental energy; the essential principle of power, which restores healthy nerve-fiber, dispels headache, pains, irritability, and that sense of mental depression and melancholia which is one of the conspicuous features of a disordered nervous organism. It brings back comfort, cheerfulness, vivacity and mental poise.

CONTAINS NO ALCOHOL.—The "Golden Medical Discovery" contains neither alcohol, whisky, syrup, or sugar, and yet keeps perfectly in any climate for any length of time. It is a temperance medicine that any family need not hesitate to employ freely, according to directions, with the assurance that the use of this medicine will not plant in the system a craving for alcohol, which is a too common result following the use of so-called "tonics" and "nerve medicines."

DO NOT BE DECEIVED.—It is an insult to your intelligence for a dealer to attempt to palm off upon you a *substitute* for this world-famed medicine. You *know* what you want. It's his business to *meet that want*. When he urges some *substitute* he's thinking of the larger profit he'll make—not of your welfare. "Golden Medical Discovery" affords dealers *fair* profit, and self-respecting purchasers should turn their backs on any dealer who offers them such treatment.

Indigestion and Hypochondria.

Thos. G. Lever, Esq., of Lever, Richland Co., S. C., writes :
"I had what the doctors called nervous indigestion. Took
medicine from my family physician for it, but of no avail.

THOS. G. LEVER, ESQ.

In looking over one of Dr. Pierce's Memorandum Books I found my case described exactly. I wrote to you and made a statement. You sent me a descriptive list of questions, also hygienic rules. I carried these out as best I could, but I thought it almost impossible, as I suffered so much with pain under my ribs and an empty feeling in my stomach. At night would have cold or hot feet and hands alternately. I was getting very nervous and suffered a great deal with uneasiness as to my condition, thinking that death would soon claim me; always expecting something unusual to take place, and having a great dread on my mind. Was also irritable and impatient, and was greatly reduced in flesh. I could eat scarcely anything that would not produce a bad feeling in my stomach. After some hesitation, owing to my prejudices against patent medicines, I decided to try a few bottles of Dr. Pierce's Golden Medical Discovery and 'Pellets.' After taking several bottles of each, found I was improving. I then kept it up for six months or more, off and on. I have to be careful yet at times as to what I eat, in order that I may feel good and strong. I fully believe if any one suffering with indigestion or torpid liver or chronic cold would take Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets' and observe a few simple hygienic rules they would soon be greatly benefited, and with little perseverance would be entirely cured."

Dyspepsia with Complications.

Mrs. C. M. Storey, of Orangeville, Wellington Co., Ontario, writes : "After I took Dr. Pierce's Favorite Prescription and his 'Golden Medical Discovery' as you advised I commenced to get better within three weeks. I suffered terrible pain in my stomach for years, and also in between my shoulders and in my right side. Your medicine has done me more good than all the other that I have taken. Am feeling better now than for years. I have not had any return of the pain yet. Have only taken three bottles of your medicine and it has done me a great deal of good. I thank you very much for the book, 'Common Sense Medical Adviser,' which you sent me. I would not part with it for anything if I could not get another."

Mrs C M Storey

"Given Up All Hope."

"The night my house and contents burned, several years ago, I was taken with a shortness of breath and palpitation of the heart," writes Mrs. Susan C. Tulloh, of Sulphur Mines, Louisa Co., Va. "These grew worse all the time until a few months ago, when I commenced the use of Dr. Pierce's medicines. Before that I could scarcely eat anything and if I did I could not rest at all. I could not sleep at night; I had to sit up some nights nearly all night. Was not able to do any work and could scarcely get around even in the house. I had given up all hope of ever being well again, but was advised by several who had used your medicines to try them. I did so, and now as far as my disease is concerned I am as well as I ever was. I give Dr. Pierce's medicines all the credit—all the praise for the benefit of my health, and many thanks for your trouble and advice.

MRS. TULLOH.

I have taken about two dozen bottles of your 'Favorite Prescription' and 'Golden Medical Discovery' and several bottles of the 'Pellets.' The medicines seemed to make me better all the time I was using them. I have no commensurate terms by which I can speak the praise due Dr. Pierce's remedies. I hope this may induce others who may be suffering as I was to give your medicines a trial."

No Help in Mixtures and Medicines. "Golden Medical Discovery" Cures.

"For over a year I was troubled with such a cough and a pain in my chest that I could not rest at night," writes Omer J. Sennet, Esq., of Franklin, St. Mary's Parish, La., care of Mr. J. W. Foster. "I thought I had consumption. I tried cough mixtures and other patent medicines, but they did me no good and I was falling away all the time, until I began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' The first bottle made me feel better, so I took eight bottles, and now I feel like another man.

"Many thanks for your valuable medicines. I would advise those who are suffering with a cough to take Doctor Pierce's Golden Medical Discovery and the 'Pleasant Pellets.'"

O. J. SENNET, ESQ.

Doctor Said Half of One Lung Was Gone.

NOEL W. ORVIN, ESQ.

"I was taken sick in July last year, and was not able to do any kind of work until November," writes Mr. Noel W. Orvin, of Langley, Aiken Co., S. C. "Had been coughing up hard lumps of phlegm for about a year before I was taken down; I then called on a doctor, who attended me for two months, and he said that one-half of my left lung was gone and advised me to leave my home (Charleston, S. C.), and go to the country. I wrote to you for advice, and took four bottles of Dr. Pierce's Golden Medical Discovery which I sincerely believe has done me more good than all the other medicines I have ever taken."

Heart Trouble.

"Thank God, I am still living," writes Mr. George W. Trustow, of Lipscomb, Augusta Co., Va. "Dr. Pierce's Golden Medical Discovery is what saved my life. I had heart trouble. I was nearly past work, but I can do about as much work now as any man. I cannot say too much for the benefit I have received."

George W. Trustow

"Heart Trouble," and Female Weakness.

"About nine years ago," writes Mrs. W. H. Spear, of 82 Race Street, Haverhill, Mass., "I commenced to have a tired miserable feeling all the time which no amount of rest seemed to help and which grew worse every year (being much worse through the warm weather), till last summer, when heart trouble set in, and I had to give up. I think I had some female weakness also. I had one of your small pamphlets and commenced taking your medicine the sixteenth of December. I took five bottles of Dr. Pierce's Favorite Prescription. I had not taken this medicine very long before I began to feel better and I improved steadily until April, when I felt so much better that I discontinued its use. I have not felt so well any summer for six or seven years as I have this last one."

MRS. SPEAR.

J. O. BEERS, ESQ.

**A Total Wreck. Improvement
Began with First Bottle
of "Discovery."**

"I was a total wreck — could not sleep or eat," writes Mr. J. O. Beers, of Berryman, Crawford Co., Mo. "For two years I tried medicine from doctors but received very little benefit. I lost flesh and strength, was not able to do a good day's work. I commenced taking Dr. Pierce's Golden Medical Discovery, and when I had taken one bottle I could sleep and my appetite was wonderfully improved. I have taken five bottles and am still improving."

**"The Only Medicine That
Helped Me."**

"I was a sufferer from liver complaint," writes Miss Lena Shepherd, of Russell, Renfrew Co., Ontario, "and found Dr. Pierce's Golden Medical Discovery the only medicine that helped me. I am thankful for the good health I now have, which I know is due to Dr. Pierce's Golden Medical Discovery. I am convinced from my own experience that this is a great remedy for liver trouble, and those suffering who have found no help in other remedies should try Dr. Pierce's "Discovery."

MISS SHEPHERD.

P. A. OLIVER, ESQ.

"Feel Like a New Man."

"Your 'Golden Medical Discovery' and Dr. Sage's Catarrh Remedy have been of great benefit to me," writes (Prof.) Pleasant A. Oliver, of Viola, Fulton Co., Ark. "Before I used the above mentioned remedies my sleep was not sound; digestion bad; a continual feeling of misery. I now feel like a new man. Any one in need of medical treatment for nasal catarrh could do no better than to take treatment of Dr. R. V. Pierce. I know his medicines are all right in this class of diseases."

Threatened With Consumption.

MISS ELLIS.

bronchial trouble and no catarrh trouble to speak of."

"Two years ago I was severely afflicted with nasal catarrh and bronchitis, so much that the doctors feared consumption," writes Miss Edith Ellis, of Newburg, Yemhill Co., Oregon. "I tried doctors' medicines and patent remedies without effect—except that they made my condition worse. Last summer, as a last resort, I decided to try Doctor Pierce's medicines. I used three bottles each of 'Favorite Prescription' and 'Golden Medical Discovery,' and four bottles of Doctor Sage's Catarrh Remedy. Under this course of treatment I grew better rapidly, and since I discontinued the treatment nine months ago, there has not been the slightest return of my

A Complicated Case. Its Remarkable Cure.

"Five years ago I was taken with a terrible attack of pain through the stomach, side, and region of the heart," writes Mrs. Ruben Swarts, of Scottsburg, Livingston Co., N. Y. "The doctor pronounced it neuralgia, and in two months I suffered six attacks then I would run along for a period of six months and sometimes a year. Three years ago I suffered another attack which came very near ending my life. There would never be any relief from the pain only in a hypodermic injection of morphine and then I would be left in a weak state and everything seemed to be the matter at once; 'not a sound part about me only my lungs,' so one physician said. At that time I was confined to bed for six weeks and when I got up could only drag around for nearly a year. One year ago I suffered another attack and was in bed again six weeks, and the pain I suffered no pen could ever describe. My whole body was racked and torn with pain through stomach, liver, kidneys, under shoulder blades, around heart and through the bowels. For five weeks my stomach was so weak that all the nourishment I could take was a prepared baby food. I finally rallied and began to pick up slowly and could be around the house, when, last July, I was taken down again and was confined to bed two weeks. Then through the urgent request of a

MRS. SWARTS.

friend I was induced to write to you, and I did so, stating my case as plainly as I could. I at once received an answer, advising me what course to pursue and what medicines to take, and I have tried faithfully to do as advised. I have taken ten bottles of Dr. Pierce's Favorite Prescription, two bottles of his 'Golden Medical Discovery,' three of the 'Pellets,' and three of the 'Smart-Weed,' and I am convinced that I am *cured*. There was no time but that there was sharp pains shooting through my body and I could only partake of the simplest food, and then suffer terrible distress. My kidneys would not act at times, and my bowels had been so constipated for years that I was obliged to take something all the time to move them. Now I can eat and sleep well and am more fleshy than I have been in years, I thank God and Dr. Pierce for my good condition to-day."

"Pass the Good Word Along."

"I feel that I owe a debt of gratitude to a friend for recommending your medicines, as well as to you for preparing such

I. B. STAPLES, ESQ.

grand remedies, for chronic diseases, especially, which the doctors fail to reach," writes I. B. Staples, Esq., of Barclay, Osage Co., Kans. "I desire to pass the good word along for the benefit of others who need your remedies. I am a railroad station agent, and four years ago my work keeping me in a warm room and stepping out frequently into the cold air gave me bronchitis, which became chronic and deep seated. Doctors failed to benefit me and advised me to try a higher air, but, fortunately for me, a friend also advised me to try Dr. Pierce's medicines. I commenced taking your 'Golden Medical Discovery,' and by the time I had taken the first bottle I was better, and after taking about four bottles my cough was entirely gone. I have found no necessity for seeking another climate."

Scrofula and Hemorrhage from the Lungs.

"Dr. Pierce's medicines have not only benefited me greatly but have done wonders for my two sons," writes Mrs. M. Hartrick, of Demster, Oswego Co., N. Y. "Both have scrofula. I have lost two daughters in less than five years with consumption and scrofula. My eldest son was taken two or three years ago with hemorrhage from the lungs. It troubled him for over a year. He took Dr. Pierce's Golden Medical Discovery and has not had one in over a year. My younger son had scrofulous sores on the neck; had two lanced, but has not had any since he began to take your medicine."

Mrs. M. Hartrick

WELCOME WORDS TO WOMEN.

The treatment of many thousands of those chronic weaknesses and distressing ailments peculiar to females, at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar maladies.

DR. PIERCE'S FAVORITE PRESCRIPTION is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect specific for wom-

an's peculiar ailments.

AS A POWERFUL INVIGORATING TONIC, it imparts strength to the whole system and to the womb and its appendages in particular. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

AS A SOOTHING AND STRENGTHENING NERVINE, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency. Even insanity, when dependent upon womb disease, is cured by it.

TREATING THE WRONG DISEASE.—Many times women call on their family physicians, suffering, as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous exhaustion or prostration, another with pain here and there, and in this way they all present alike to themselves and their easy-going and indifferent, or over-busy doctor, separate and distinct diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality they are all only *symptoms* caused by some womb disease. The physician, ignorant of the *cause* of suffering, encourages this practice until large bills are made. The suffering patient gets no better, but probably worse, by reason of the delay, wrong treatment and consequent complications. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause* would

have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said that "a disease known is half cured."

A SCIENTIFIC MEDICINE.—Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate organism. It is purely vegetable in its composition and perfectly harmless in its effects *in any condition of the system*. For morning sickness or nausea, due to pregnancy, weak stomach, indigestion, dyspepsia and kindred symptoms, its use will prove very beneficial.

CURES OBSTINATE CASES.—"Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhœa, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapsus or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

IN LEUCORRHEA, or "whites," the vagina should be thoroughly cleansed every night before retiring, by the free use of soap and water, injected with a rubber pump, or other female syringe, at as high a temperature as is comfortable. After thus cleansing the canal, dissolve one of

DR. PIERCE'S

Purifying and Strengthening Lotion Tablets

In a pint of hot water and use this solution as a final injection.

The cleansing antiseptic and tonic effects of this lotion are particularly beneficial and curative in obstinate and long standing cases. In prolapsus, or falling of the womb, do not fail to use this valuable aid to the treatment. If your dealer does not have DR. PIERCE'S LOTION TABLETS mail 25 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and you will receive them by return post.

IF ULCERATION IS SUSPECTED, from the persistency of the discharge and its failure to yield, in due time, to the continued use of the "Favorite Prescription" and the "Purifying and strengthening Lotion Tablets" solution, apply one of

DR. PIERCE'S

Antiseptic and Healing Suppositories,

Pressing the suppository well up against the mouth of the womb, first having cleansed the parts thoroughly with hot water and soap.

This application should be repeated every third night. The use of the Lotion Tablet solution may be omitted on nights when Suppositories are applied.

The "Antiseptic and Healing Suppositories" can do no harm in any case. They are a very efficient part of the treatment in all cases of ulceration about the mouth or neck of

the womb. They are also a very useful part of the treatment in all cases of *prolapsus* or falling of the womb. They aid in toning up and strengthening the supports of the womb.

If your druggist or general store-keeper does not have them in stock, send 25 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive them by return post. Be *careful* to write **VERY PLAINLY**, your full name, post-office, County and State.

AS A REGULATOR OF THE "MONTHLY COURSES," and promoter of functional action at that critical period of change from girlhood to womanhood, "Favorite Prescription" is a perfectly safe remedial agent and can produce only good results. It is equally efficacious and valuable in its effects when taken for those disorders and derangements incident to that later and most critical period, known as "The Change of Life."

"**FAVORITE PRESCRIPTION,**" when taken in connection with the use of Dr. Pierce's Golden Medical Discovery, and small laxative doses of Dr. Pierce's Pleasant Pellets, cures Liver, Kidney and Bladder diseases. Their combined use also removes blood-taints and abolishes scrofulous humors from the system.

DO YOU EXPECT TO
BECOME A MOTHER?

If so, then permit us to say that
"Favorite Prescription" is
indeed a true

"MOTHER'S FRIEND"

FOR IT

Makes Childbirth Easy

and almost painless, by preparing the system for parturition, thus assisting Nature, and shortening labor. The painful ordeal of childbirth is robbed of its terrors, and the dangers thereof greatly lessened, to both mother and child. The period of confinement is also greatly shortened, the mother strengthened and built up, and an abundant secretion of nourishment for the child promoted.

We have received the heartfelt praise of hundreds of mothers for the inestimable benefits thus conferred.

IN THREATENED MISCARRIAGE, or when it is feared from having before occurred, the "FAVORITE PRESCRIPTION," taken in small doses for a considerable time, will fortify the system against such a calamity.

IN MORNING SICKNESS, or nausea arising from pregnancy, the "Favorite Prescription" should be taken in doses

of a teaspoonful three or four times a day. It will seldom fail to give complete relief.

NERVOUS DISEASES.—In all cases of nervous exhaustion, nervous prostration, or debility, in either sex, insomnia or inability to sleep, neuralgia, and spasms, or convulsions, the "Favorite Prescription" is invaluable.

In all protracted, or chronic, diseases, *perseverance* in the use of treatment is necessary, no matter how good the medicine employed. Do not expect entire relief from maladies that have existed for months in as many days. "Favorite Prescription" given a *fair* trial will *not* disappoint you.

TIME AND PERSEVERANCE REQUIRED.—Most chronic diseases are slow in their inception and development, and their cure must necessarily be gradual. Disease that has been progressing and becoming more firmly established for months, or perhaps years, cannot, except in rare cases, be hastily dislodged, and the system restored to perfect health. The process of cure, like the development and progress of the disease, must be a gradual one, accomplished step by step. Often, too, the use of medicine, that if *persisted* in, will prove beneficial and curative, will, for a considerable time, arouse in the system very disagreeable sensations, and many times this leads unthinking persons to become frightened or discouraged, and to quit the treatment best adapted to their cases, if it only be faithfully carried out.

In many forms of womb disease, there are organic lesions or changes in the structure of the organs or parts involved, which can be repaired only by a gradual process, just as an external wound will heal—not suddenly, but by a constant, slow filling in and building up, or by the gradual development or growth of one cell upon another. Just as a great breach in a wall would be repaired by filling in brick upon brick, until the defect is effaced, so must these lesions, or changed conditions of structure be removed by gradual processes. When fully repaired the dependent, sympathetic derangements, disagreeable sensations, and all the long train of consequential symptoms, are, one by one, abolished.

DO NOT INEBRIATE.—Neither Dr. Pierce's Favorite Prescription nor "Golden Medical Discovery" contains any alcohol, whisky or other form of intoxicant. Nor does either of these medicines contain any opium or other narcotic drug. Of no other medicines especially designed for woman's peculiar ailments can this be truthfully said. A very large percentage of alcohol is contained in all other so-called "female remedies." It is a matter of current knowledge among physicians that medicines containing alcohol are dangerous to the system, tending as they do in a protracted course of treatment to establish physical conditions, worse than those it is sought to remove by their aid. In the cure of female diseases the use of many bottles of medicine is often necessary, and when the medicine is alcoholic, and the system, through debility, is especially susceptible to its influence, it tends to create a craving demand for intoxicating stimulants which is often as irresistible as it is dangerous to the health.

FREE CONSULTATION.—An invitation is extended by Dr. Pierce to every sick and ailing woman to consult him by letter. There is absolutely no charge or fee for this consulta-

tion. Every letter is carefully considered, fully answered, and its statements held as strictly private and sacredly confidential. The escape which this offers from the disagreeable questionings, indelicate examinations and local treatments, generally so unnecessary and so offensive to the modest, sensitive woman, has led a vast army of ailing women to take the first step to health by opening a correspondence with Dr. Pierce. Write with perfect freedom, as every letter received is given careful consideration and a fatherly, and sympathetic answer is promptly returned, securely sealed in a plain envelope.

BE NOT DECEIVED.—Designing *men*, through alluring and cunningly worded advertisements, constantly endeavor to work upon the feelings of sick and ailing women by inviting them "to write to a woman (!) and secure a *woman's* sympathy." It is well to remember that the best sympathy is to be had at home and not from strangers. The object of the sick is to get well, and however precious sympathy may be, it never yet cured a seriously afflicted woman.

It is loudly proclaimed through the press that "a woman can best understand a woman's ailments," and on this ground sick women are invited to "write to a woman" and get the benefit of a woman's advice. The sort of "understanding of her ailments" wanted by a sick woman is a trained medical understanding. If a woman has this trained medical knowledge she understands woman's ailments, *not as a woman*, but as a *physician*. If she is not a doctor she cannot understand the ailments at all, and cannot treat them successfully.

It is certain that there is no one, man or woman, connected with any other "put-up" medicine for women, who, like Dr. Pierce, is a regularly graduated and qualified physician, and who has, like him, devoted more than thirty years to the special study and treatment of diseases of women.

RELIABLE DEALERS recommend "Favorite Prescription." With tricky ones, something else that pays them better will probably be urged upon you as "just as good." Perhaps it is, for *them* but it can't be for *you*. Some saving may be made by purchasing our medicines in half-dozen quantities.

If you are convinced that the "Favorite Prescription" is the medicine you need, do not be cajoled into accepting something else. The attempt to induce you to do so is an insult to your intelligence. Turn your back on the one who offers the affront.

A Wonderful Cure.

"It is with great pleasure," writes Mrs. Lily Heckart, of Bartlesville, Cherokee Nat., Ind. Ty., "that I add my own experience to that of the many you have cured. I was afflicted and for one year I suffered more than tongue can express. I was in bed nearly all of the time. Was scarcely able to work half of the time; could not even dress myself. God alone knows what I suffered. I had falling of the womb so badly that at times I could not be turned in bed. I suffered from palpitation of the heart. I would often faint away and it seemed as if I never would recover; had sick headache nearly all the time, and also had St. Vitus's dance. At the commencement of the monthly period the misery would be so great that I would be nearly crazy; this would last from twelve to twenty-four hours and I would suffer untold agony. When I would stand on my feet it seemed

as though the top of my head would come off, and I had almost lost my memory when I commenced using Dr. Pierce's medicines. I had doctored with five different physicians but they had done me no good. They finally said they had done

MRS. HECKART.

all they could. One of these doctors, of forty years' experience, said to me, 'I can't do you any good, so why not try Doctor R. V. Pierce's Favorite Prescription?' So I decided to write to Dr. Pierce and describe my troubles. He wrote me a nice, fatherly, kind letter in reply, and I followed his advice. I took three bottles each of Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery,' and by the time I had finished these I had no symptoms of the old disease. I was soon able to do all my work. I now do all of my own sewing, and am heavier than ever before; I weigh 145 pounds, and my husband says I look the same as when I was young. Life is a pleasure to me now, instead of a burden as it was before I commenced using Dr. Pierce's medicines. I can now enjoy the society of my friends, and Dr. Pierce's medicines have done me more good than all the doctors ever did.

"Three of my neighbor women have used Dr. Pierce's medicine and it has helped them all. I will take no other medicine but Dr. Pierce's, and I recommend it to all my friends. The 'Favorite Prescription' has helped me so much that I always keep it in the house. I also have the People's Common Sense Medical Adviser and think it is a great book. I am willing to answer any letters of inquiry if stamps are enclosed for reply. May God bless you and your medicine. You can publish this letter if you like; it might induce some poor suffering invalid to write to you for relief."

A Boon for Delicate Women.

"All praise is due to your wonderful 'Favorite Prescription,' writes Mr. John W. Coffman, of Ellisburg, Casey Co., Ky. "My wife suffered with female irregularity; was confined to bed every three weeks. After using two bottles of Dr. Pierce's Favorite Prescription was cured, and has not suffered any derangement since. Dr. Pierce's Favorite Prescription is a boon for delicate women. It surely does 'make weak women strong and sick women well.'"

MRS. COFFMAN.

MRS. ADAMS.

No Praise Too High for "Favorite Prescription."

Mrs. Alice Adams, of Laboratory, Washington Co., Pa., says: "With many thanks I write to let you know how I am. I can say by God's help and your help I am well. I have taken six bottles of Dr. Pierce's Favorite Prescription and two of his 'Golden Medical Discovery' and I can walk around in my room and do all my work. I can't praise your medicines too highly. I will recommend your medicines as long as I live. If any one doubts this give them my address."

Ulceration of Womb. "A Wasted Skeleton."

Mrs. M. F. Long, of Le Loup, Franklin County, Kans., writes: "Words cannot express how grateful I am for your

kind advice and good medicines. I have been in poor health more or less all my life. In the past nine years I grew worse, and two years ago I was so poorly could hardly drag around. I consulted a specialist, and he said I had ulceration of the womb and that an operation would have to be performed. This did not seem necessary to me, so time went by, and I at last wrote to Dr. Pierce, asking advice. I received an answer advising me to try his medicines, the 'Favorite Prescription,' 'Golden Medical Discovery,' and also his 'Pleasant Pellets.' I bought two bottles of the 'Favorite Prescription,' two of the 'Discovery,' and two vials of the 'Pellets,' and took these medicines as

MRS. LONG AND FAMILY.

advised. When commencing I weighed 119½ pounds, and after taking one bottle of each I was like a new woman. In one month I gained eight pounds. After taking two bottles each of the medicines named, I began to look like a woman and not like a wasted skeleton. That weary, tired feeling all left me, and it did seem as though life was worth living and that I had been snatched from the grave and would live to a good old age."

Friends Looked For Her Death.

"I think Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' the best medicines in the world," writes Mrs. Amelia Dougherty, of Kerrigan, Wayne Co., Mo. "I gave birth to a baby last summer. After confinement I became very ill, had the best physician that could be got, and he diagnosed my case as womb trouble, tending to dropsy, Medicine seemed to do me no good. I lingered between life and death for quite a while, every day growing weaker until I could not walk across the room. My friends were looking for my death every minute. A friend wrote and told me about Dr. R. V. Pierce, and I at once wrote to him for medical advice. He replied immediately, giving me full instructions as to what to do. I at once followed his advice, and when I had taken his medicine about a week I felt a good deal stronger. When I had taken it about one month I felt as strong as I do to-day. I took four bottles of each kind and two vials of 'Pleasant Pellets.' Many thanks for the medicine. It has permanently cured me."

(Mrs.)

Amelia Dougherty

Five Doctors Fail. "Favorite Prescription" Cures.

"I was sick for twelve years, and for two years I had to stop work altogether," writes Mrs. Bell McCrobie, of Oakland, Garrett Co., Maryland. "I was treated by five different physicians, who pronounced my case

MRS. MCCROBIE.

Bright's Disease, impoverished condition of the blood, and uterine trouble. I suffered a great deal with pain in both sides and much tenderness in pressing over the womb. I was bloated at times in bowels and limbs. Was troubled with a disagreeable discharge from the internal organs. I could not sleep and was troubled with palpitation of the heart. Suffered a great deal of pain in my head, temples, forehead and eyes. I had a troublesome cough and raised a great deal, and at times experienced a great deal of pain in my chest and lungs; my voice at times was very weak and I also suffered excruciating pain at my monthly periods. Since taking eleven

bottles of Dr. Pierce's Favorite Prescription, some time ago, I have enjoyed better health than I had for more than twelve years previously, in fact the month past I have been able to work at all kinds of house work. I have gained in weight twenty-five pounds since taking your medicines. The soreness and pain of which I formerly complained so much have disappeared. I thank Dr. R. V. Pierce for the good health that I am enjoying. I also beg all sufferers from chronic diseases to take Dr. Pierce's medicines and be cured."

MISS MILLER.

St. Vitus's Dance Cured.

"When our daughter Lizzie had St. Vitus's dance, I happened to get one of your small books and read it," writes Henry L. Miller, Esq., of 1016 North 7th St., Burlington, Iowa. "Among other things I found that Dr. Pierce's Favorite Prescription cured patients suffering from that trouble, so I went out and got a bottle. She was very bad at that time and could hardly talk. When I read about your medicine in that small book I said to myself, with the help of God and that medicine we can cure our daughter. We did so. Four bottles of 'Favorite Prescription' cured her, and I did not have to take her to the doctor any more. She is well, thank God and the 'Favorite Prescription' for it."

She is well, thank God and the 'Favorite Prescription' for it."

Falling of Womb.

"I had falling of the womb and had to go to bed every month; had irregular monthly periods which would sometimes last ten or twelve days," writes Mrs. Alice L. Holmes, of Coolspring Street, Uniontown, Pa. "Had also indigestion so bad that I could not eat anything hardly. Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' cured me. I took three bottles of the 'Favorite Prescription' and one of the 'Golden Medical Discovery.'"

Alice L. Holmes

"Female Trouble."

Mrs. Claus Nelson, of Pico Heights, Los Angeles, Cal., Box 31, writes: "You have my heartfelt thanks for your kindly advice to me in my sickness; also for your book which I received two years ago, and which I could not do without. It is all the Doctor I have had since I got it. Your 'Smart-Weed' I always keep in the house and could not do without it. I had female trouble and Dr. Pierce's Favorite Prescription, together with the advice given in his book cured me of five years' sickness.

I do not look so sad now as I do in the picture; I was sick then and I thought my days would not be long, but your kindness and medicine would not let me die."

MRS. NELSON.

Invalids' Hotel & Surgical Institute, 663 Main St., Buffalo, N. Y.

WORLD'S DISPENSARY MEDICAL ASSOCIATION, Proprietors.

Organized with a Full Staff of Physicians and Surgeons

FOR THE TREATMENT OF

~ ALL CHRONIC DISEASES. ~

We have not the space to speak, individually, of the many professional men composing the Faculty of this old and world-famed Institution, but will say that among them are those whose long connection with the Invalids' Hotel and Surgical Institute has rendered them *experts* in their several specialties.

Not Necessary to See Patients.

By our system of diagnosis, we can treat many chronic diseases just as successfully without as with a personal consultation. We have not seen one person in five hundred whom we have cured. The perfect *accuracy* with which scientists are enabled to deduce the most minute particulars in their several departments, appears almost miraculous, if we view it in the light of the early ages. Take, for example, the electro-magnetic telegraph. Is it not a marvelous degree of accuracy which enables an operator to *exactly* locate a fracture in a submarine cable nearly three thousand miles long?

And so in all departments of modern science, what is required is the knowledge of certain *signs*. From these, scientists deduce accurate conclusions, regardless of distance. So, also, in medical science, diseases have certain unmistakable signs, or symptoms, and by reason of this fact, we have been enabled

**Signs of
Disease.**

to originate and perfect a system of determining with the greatest accuracy, the nature of chronic diseases. In recognizing diseases without a personal examination, we claim to possess no miraculous powers. We obtain our knowledge of the patient's disease by the practical application to the practice of medicine, of well-established principles of modern science.

Advantages of Specialties.

By thorough organization and subdividing the practice of medicine and surgery in our Institutions, every invalid is treated by a specialist—one who devotes his undivided attention to the particular class of diseases to which the case belongs. The advantage of this arrangement must be obvious. Medical science covers a field so vast that no physician can, within the limits of a life-time, achieve the highest degree of success in the treatment of *every* malady incidental to humanity.

OUR FIELD OF SUCCESS.

By abandoning the treatment of all diseases except those in which we have attained the greatest success, and then still further narrowing and concentrating our study and professional efforts by again subdividing these affections, giving to each member of our Faculty but a single disease, or class of diseases to treat, we have attained the best possible results.

Recognizing the fact that no great institution dedicated exclusively to the treatment of chronic diseases and subdivided into well-equipped and thoroughly-organized Departments, would at all meet the needs of the afflicted of our land, without the most perfect, complete and extensive provision being made for the system-

Nasal, Throat and Lung Diseases.

atic examination and most improved and scientific treatment of diseases of the air-passages and lungs, such as **Chronic Nasal Catarrh, Laryngitis, Bronchitis, Asthma and Consumption**, we have made this branch of our Institution one of the leading Departments. We have not only assigned to its management physicians of the most eminent qualifications and mature experience, but have also provided every kind of useful instrument for examining the organs involved, such as rhinoscopes, laryngoscopes, stethoscopes, spirometers, etc., etc., as well as all of the most approved kinds of apparatus for the application of sprays, fumigations, atomizations, inhalations and all other forms of medical applications, which vast experience has proved worthy of our confidence.

An exhaustive consideration of the above diseases is contained in the "People's Common Sense Medical Adviser," supplied FREE on terms stated on page 48 of this book.

Diseases of Women.

So alarmingly prevalent are those chronic diseases peculiar to women, and so famous have our Institutions become for their cure, that we were long ago obliged to create a Special Department, now thoroughly organized, devoted *exclusively* to the treatment of these cases. The physicians and surgeons in this Department have made these delicate diseases their sole study.

Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Every difficult case (and we get few which have not already baffled the skill of all the home physicians) has the benefit of a full Council, composed of skilled specialists. Our rooms for ladies are so arranged as to be very private.

Twenty-one cents in one-cent stamps will secure the "Medical Adviser," containing several chapters, profusely illustrated, treating of above diseases. (See page 48 of this book.)

A Boon to Women. By our new and improved method of treatment, with Electrolysis and other means of our discovery and invention, many **Fibroid and Fibro-Cystic Tumors of the Uterus and Ovarian Tumors** are readily reduced and permanently cured, without pain, shock, or risk. These tumors are generally regarded as incurable by the profession, except when removed with the knife.

Ovarian Tumors.

This Treatise cites numerous bad cases of both Fibro-Cystic and Ovarian Tumors which have been cured by our specialists without resort to the knife. Our surgeons only operate for the removal of Ovarian Tumors in exceptional cases, that is, when the tumor is very large, is interfering seriously with the health, and when its attachments are not so extensive as to preclude the possibility of successful removal with the knife. Yet, their practice annually requires them to remove many Ovarian Tumors, not favorable for reduction and cure by electrolysis. They have thereby acquired a national fame for the extraordinary success of their ovariectomy operations.

For further particulars, send and get the "People's Medical Adviser," by Dr. Pierce. (See page 48 of this book.)

BARRENNESS, or STERILITY, is generally due to causes which can be easily removed, yet are not generally understood by physicians, who manifest little interest and often treat lightly a subject fraught with so much importance to humanity. Our specialists have devoted to this subject careful study. By their skill, stricture of the neck of the uterus and other **impediments to the bearing of offspring,** have been easily and painlessly overcome, and hundreds of homes thereby made happy. Further particulars in "Medical Adviser." (See page 48 of this book.)

Kidney Diseases.

BRIGHT'S DISEASE, DIABETES, and kindred maladies, have been very largely treated and cures effected in thousands of cases which had been pronounced beyond hope. These diseases are readily diagnosed, or determined, by chemical analysis of the urine, without a personal examination of the patient, who can therefore, generally be successfully treated at their homes. The study and practice of chemical analysis and microscopical examination of the urine in our consideration of cases, with reference to correct diagnosis, in which our Institutions long ago became famous, has naturally led to a very extensive practice in diseases of the urinary organs. Probably no other institution in the world has been so largely patronized by sufferers from this class of maladies as the old

World's Dispensary and Invalids' Hotel. Our specialists have acquired, through a vast and varied experience, great expertness in determining the *exact* nature of each case, and hence, have been successful in *nicely* adapting their remedies for the cure of each individual case.

The treatment of diseases of the urinary organs having constituted a prominent branch, or specialty, of our practice at the Invalids' Hotel and Surgical Institute, and being in receipt of numerous inquiries for a complete work on the nature and curability of these maladies, we cannot do better than to refer all such inquirers to the "*People's Medical Adviser*," containing as it does, an *exhaustive consideration of these maladies*. (See page 48 of this book.)

Bladder Diseases.

INFLAMMATION OF THE BLADDER, Gravel, Enlarged Prostate Gland, Retention of Urine and kindred affections, may be included among those in the cure of which our specialists have achieved marvellous success. These are fully treated of in the "*People's Medical Adviser*." (See page 48 of this book.)

Stone. **STONE IN THE BLADDER**, no matter how large, is crushed, pulverized, washed out and perfectly removed by our surgeons, in the most skillful and safe manner possible and without any cutting, thereby avoiding the great danger of the old and commonly employed operations for stone.

Send particulars of your case, and twenty-one cents in one-cent stamps, for "*Medical Adviser*." (See page 48 of this book.)

Stricture.

STRICTURES AND URINARY FISTULAS.—Hundreds of cases of the worst form of strictures, many of them greatly aggravated by the careless use of instruments, in the hands of inexperienced physicians and surgeons, causing false passages, urinary fistulæ, and other complications, annually consult us for relief and cure. That no case of this class is too difficult for the skill of our specialists, is proved by cures reported in our illustrated treatise on these maladies, to which we refer with pride. To intrust this class of cases to physicians of small experience, is a dangerous proceeding. Many a man has been ruined for life by so doing, while thousands annually lose their lives through unskillful treatment. In bad cases, when cutting is imperative, we adopt means which render unnecessary any use of bougies after the operation. This is a great relief to the patient, saving him much unnecessary pain and tedious annoyance, gives the greatest satisfaction and results in the most perfect and permanent cures. Thousands of men suffer unconsciously from *slight* strictures, which keep up and perpetuate diseases of the bladder and other delicate maladies. A slight stricture often goes unobserved by the patient and is entirely overlooked by the physician as well, even when it is the cause of failure to cure lingering, gleet discharges, or nightly emissions of the vital fluid, and perhaps, of serious disease of the bladder and kidneys as well. A vast experience in this field of practice has taught our surgeons to look for these *slight* strictures and promptly cure them. All ordinary cases are cured by us without cutting.

Nervous Diseases.

Epileptic Convulsions, or Fits, Paralysis, or Palsy, Locomotor Ataxia, St. Vitus's Dance, Insomnia, or inability to sleep and threatened insanity, Nervous Debility, Nervous Exhaustion, or prostration, arising from overstudy, excesses and other causes and every variety of nervous affection, are treated by our specialists for these diseases, with a measure of success heretofore unparalleled.

Diseases of Digestion.

Dyspepsia, "Liver Complaint," Obstinate Constipation, Chronic Diarrhea, Tape-worms, and kindred affections, are among those chronic diseases in the successful treatment of which our specialists have attained unparalleled success. Many of the diseases affecting the liver and other organs, contributing in their functions to the processes of digestion, are very obscure and are not infrequently mistaken by both laymen and physicians for other maladies and treatment employed directed to the removal of a disease which does not exist. In our practical examinations of the urine have contributed important aid in ascertaining the real nature of these maladies—furnishing, as they do, in this class of affections, unmistakable data to guide the accomplished practitioner aright. While we do not overlook the importance of other aids in forming a diagnosis, or opinion, of the nature of diseases affecting the digestive organs, yet we certainly should not know how to get along successfully, with these diseases, without the help of microscopical and chemical examinations of the urine. These diseases and their cure are fully considered in "Medical Adviser." (See page 48 of this book.)

Pile Tumors. PILES, PISTULÆ, and other diseases affecting the lower bowels, are treated with wonderful success. The worst cases of pile tumors are permanently cured in fifteen to twenty days. See "Medical Adviser."

Radical Cure of Rupture.

Throw Away Trusses.

HERNIA (Breach), or RUPTURE, no matter of how long standing, or of what size, is promptly and permanently cured, by our specialists, without the knife and without dependence upon trusses.

There is no longer any need of wearing clumsy, awkward, chafing, old trusses, which at best give only partial relief, seldom ever cure and often inflict great injury, inducing inflammation and strangulation from which thousands annually die.

Delicate Diseases.

Organic weakness, nervous debility, premature decline of the manly powers, involuntary vital losses and kindred affections, are speedily, thoroughly and permanently cured.

To those acquainted with our Institutions, it is hardly necessary to say that the Invalids' Hotel and Surgical Institute, with the branch establishment at No. 3 New Oxford Street, London, England, have, for many

years, enjoyed the distinction of being the most largely patronized and widely celebrated Institutions in the world for the treatment and cure of those affections which arise from **youthful indiscretions and solitary practices.**

We many years ago, established a Special Department for the treatment of these diseases, under the management of some of the most skillful physicians and surgeons of our staff.

We Offer No Apology. We offer no apology for devoting so much attention to this neglected class of diseases, believing that no condition of humanity is too wretched to merit the sympathy and best services of the noble profession to which we belong. Why any one should consider it otherwise than most honorable to cure the worst cases of these diseases, we cannot understand. Of all other maladies which afflict mankind there are probably none about which physicians, in general practice, know so little.

We shall, therefore, continue, as heretofore, to treat with our best consideration, sympathy, and skill, all applicants who are suffering from any of these delicate diseases.

Startling Weakness. By reason of a false modesty, the youth of our land are kept in ignorance of the baneful and ruinous results which certain solitary, indiscreet practices produce. These vices, when persisted in, eventually undermine the constitution, and induce nervous debility, exhaustion, prostration, and premature loss of virile power. Among the earliest manifestations which they occasion, is a desire on the part of the sufferer to avoid society—solitude being preferred. The most common symptoms are languor, mental anxiety, gloomy forebodings, melancholia, or hypochondria, impaired memory, physical and nervous debility, and indigestion. A drain of the most delicate and debilitating character is made upon the system.

Hidden Loss. In many cases the loss occurs unobserved by the sufferer. To this hidden drain upon the system may be attributed the cause of many diseases of the nerves, stomach, heart, kidneys, and bladder. Thus we can account for a large proportion of all cases of epilepsy, palsy or paralysis, apoplexy, softening of the brain, insanity, loss of nervous and muscular power, and similar affections.

SYMPTOMS.—The patient experiences languor and melancholy, has an irritable disposition, often cold, dry, scurfy skin, blotches, and other cutaneous eruptions. He has a downcast look, absence of will-power, unfounded suspicions, feeble, trembling limbs, weakness in the back, night-sweats, horrible dreams, offensive smell about the person, haggard and blanched complexion, derangement of the sight, lack of self-confidence, impaired memory, want of energy, and many other symptoms which are indicative of the disease. No one suffering from the diseases induced by these evils will, at any one stage, experience more than a small part of the symptoms enumerated.

MARRIED MEN who are suffering from a flagging of their powers, or, in other words, from premature old age, consult our specialists by hundreds and thousands for relief. Knowing that these diseases are sadly overlooked and neglected

by the great mass of the medical profession, these gentlemen have given special attention to them, and have developed and perfected a series of most positive remedies for such cases. These remedies restore the wrecked and debilitated organs to perfect vigor, arrest premature exhaustion, impart tone and energy to the whole system, and, like rejuvenating elixirs, fully restore the flagging powers and dormant energies.

Positively Certain. So positively certain are these remedies in producing the desired effect, that we regard this

form of disease as being more easily cured than almost any other chronic or lingering affection. We prescribe them not only with assurance, but with the same confidence that we would give bread and beef to a starving man to satisfy his hunger. They act as rejuvenating elixirs. The patient is subjected to no operating or experimenting, and he can safely and accurately follow the directions given, while the treatment does not interfere with any ordinary occupation in which he may be engaged. These delicate diseases should not be entrusted to physicians who advertise under fictitious names, or to those of ordinary qualifications. The general practitioner cannot acquire the skill of a specialist who annually treats thousands of cases, while the former seldom, if ever, has occasion to prescribe for them. Our Medical and Surgical Staff embraces graduates from some of the most famous American and European medical colleges and universities, and the vast experience which they have had in such diseases, together with the discovery of new remedies and modes of cure, has enabled them to succeed in thousands of cases in which others have failed.

Cured at Home. Most of these cases can be treated by us when at a distance just as well as if they were here in person. Since our experience has enabled us to judge of the nature and extent of the disease from a written description of the symptoms, and from answers to questions which we ask, we can, therefore, adapt remedies to suit each individual case. Not one out of five hundred of those whom we have cured have we ever seen.

All communications are regarded as **sacredly confidential**. Since many are very sensitive lest somebody should know that they are afflicted with such diseases, great precaution is always taken by us to send all letters and medicines in plain packages carefully sealed, so that no one can ever *suspect* the contents, or by whom sent. Farther information upon this subject, or in regard to the diseases incident to *men* in the "Medical Adviser." (See page 48 of this book.)

Varicocele.

Varicocele, (False Rupture) or enlarged veins of the scrotum, feeling like a bundle of earth-worms about the cord, a condition caused by strains, abuses or excesses, and generally resulting, if not early relieved, in loss of manly power, or impotency, from its tendency to cause wasting of the organs, has been very largely treated during the past twenty-five years, and with the most gratifying results. Our improved appliances and treatment enable us to cure the milder cases without operation. The worst cases are operated upon by an ingenious method of our own invention, which we employed over three hundred times

during the past year, and with perfect success in every case. This operation proves to be entirely free from the great danger attending the old operations still in use by most surgeons, and enables the patient to get about in two or three days and return home in a week's time, while to cure by the old methods requires six weeks at least and oftener two or three months. See testimonials and reports of cases treated in the "Medical Adviser." (See next page.)

Surgical Practice.

Hundreds of the most difficult operations known to modern surgery are annually performed in the most skillful manner by our surgeon-specialists. Large Stones are safely removed from the Bladder, by crushing, washing and pumping them out, thus avoiding the great danger of cutting. Large numbers of Ovarian Tumors, not favorable for reduction and cure by electrolysis, are annually removed by our surgeons, who have acquired a national fame for the extraordinary success of their Ovariectomy operations.

Especially has the success of our improved operations for Varicocele, Hydrocele, Fistulæ in Ano, Ruptured Cervix Uteri, Ruptured Perineum, and for Vesico-vaginal and Recto-vaginal Fistulæ, been alike gratifying both to ourselves and our patients. Not less so have been the results of numerous operations for Stricture of the Cervical Canal, a condition in the female generally resulting in Barrenness, or Sterility, and the cure of which, by a safe and painless operation, removes this commonest of impediments to the bearing of offspring.

All Chronic Diseases A Specialty.

Although we have in the preceding paragraphs, made mention of some of the special ailments to which particular attention is given by specialists at the Invalids' Hotel and Surgical Institute, yet the Institution abounds in skill, facilities, and apparatus for the successful treatment of every form of chronic ailment, whether requiring for its cure medical or surgical means.

The medicines which we employ in our private practice, as well as the few proprietary or "put-up" remedies manufactured by us for sale through druggists, are all made in our Great Laboratory, at Buffalo, N. Y., which is under the direct supervision of a most competent chemist and pharmacist. All letters of inquiry, or of consultation, should be addressed to

World's Dispensary Medical Association,
No. 663 Main Street, BUFFALO, N. Y.

A FAIR AND BUSINESS-LIKE OFFER TO INVALIDS.

We earnestly invite you to come, see and examine *for yourself*, our institutions, appliances, advantages and success in curing chronic diseases. We are responsible to *you* for what we represent, and if you come and visit us, and find that we have misrepresented, *in any particular*, our institutions, advantages or success, we will promptly refund to you all expenses of your trip. We court honest, sincere investigation, and are only too glad to show all interested and candid people what we are doing for suffering humanity.

A GREAT BOOK

GIVEN AWAY ABSOLUTELY FREE.

The People's Common Sense Medical Adviser in plain English; or Medicine Simplified, by Dr. R. V. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute of Buffalo, N. Y., is one of the most remarkable and valuable books ever printed in any language. It contains over 1,000

large twelve mo. pages, over 700 wood-cuts, photo-engravings and colored plates. It gives over 200 prescriptions for the cure and treatment of acute and chronic ailments, with explicit directions for self-treatment of all diseases that can be successfully managed in that way; contains careful directions how to manage all cases of Drowning, Scalds and Burns, Fainting, Dangerous bleeding from Wounds, Poisoning, Bites, Stings, etc.

Anatomy, Physiology, Hygiene, and the Origin of Life, are treated in a comprehensive manner.

The chapter on Nursing a subject on which every one should be informed, also those devoted to Reproduction, Prevention of Conception, or Pregnancy, Abortion, or Miscarriage

Impediments to Marriage, Abuse of the Reproductive Organs and the terrible diseases that arise therefrom, should be read by all.

MORE THAN

1,600,000 American Homes

contain copies of this book. The first great edition of nearly seven hundred thousand was sold at \$1.50 per copy. The profits upon this enormous sale warranted Dr. Pierce in issuing a free edition in paper covers; and one copy will be sent *absolutely free* to any one enclosing 21 one-cent stamps to pay the bare cost of mailing only. If French cloth, embossed covers are preferred send ten stamps extra, 31 cents in all—the cover extra cost of this heavier, more durable and handsome binding. Address, **WORLD'S DISPENSARY MEDICAL ASSOCIATION**, No. 663 Main Street, Buffalo, N. Y.

CHRONIC CONSTIPATION.

This is one of the most difficult diseases to cure, because nearly all so-called remedies give only temporary relief, and after more or less violent action leave the bowels weaker than before. But Dr. Pierce's Pleasant Pellets are an ideal, perfect, permanent cure. These tiny, little sugar-coated "Pellets" are mild and natural in their action, and their effect can be graduated as desired: One or two "Pellets" are a gentle laxative; three, a mild cathartic; and four or more a thorough purgative. They are pleasant to the taste; can be relied on to do their work effectively yet without pain, griping or discomfort. They restore the natural self-acting capacity of the bowels: thus effecting a **complete and lasting cure.**

There is no other medicine on the market which can do the work or take the place of these "Pellets." Do not allow any one to persuade you into buying some inferior substitute; insist upon having "DR. PIERCE'S PLEASANT PELLETS."

DIARRHEA AND DYSENTERY.

Dr. Pierce's Compound Extract of Smart-Weed (or Water-Pepper) is compounded of Smart-Weed, Jamaica Ginger, Anodyne and Healing Gums, scientifically combined.

TAKEN INTERNALLY it cures Diarrhea, Dysentery (Bloody-flux), Summer Complaint, Cholera, Cholera Morbus, Cholera Infantum, Colic, Cramps and pains in the Stomach; breaks up Colds, Febrile and Inflammatory Attacks, Rheumatism, and Neuralgia; and relieves all pains and suppressions to which females are subject from taking cold at a critical period.

APPLIED EXTERNALLY it cures Sprains and Bruises, Frost-bites, Chilblains, Rheumatic Affections, Neuralgia, Pain in the Back, Soreness and Stiffness of Joints, Stings and Bites of Poisonous Insects, Caked Breast or "Ague in Breast," and Enlarged Glands—in short, is an unexcelled Liniment for Man and Beast.

Price, Large Size 50 cts., Small Size 25 cts.

World's Dispensary, 660 to 670 Washington Street, Buffalo, N. Y.

The above illustration represents the immense six-story building occupied exclusively for the manufacture of *Dr. Pierce's Standard Medicines*, and known as the *World's Dispensary*. Within its walls is prepared a series of remedies of such exceeding merit that they have acquired a world-wide reputation and sale.

DR. PIERCE'S SALVE

ALL-HEALING

Is cleansing and pain relieving. It destroys the bad odors arising from suppurating, or running, sores and puts them in the best possible condition for healing.

The "All-Healing Salve" is a superior dressing for all open, running, or suppurating, Sores or Ulcers. For healing open wounds, cuts and scratches it is unsurpassed.

If your medicine dealer does not have the "All-Healing Salve" in stock, mail 25 cents in one-cent stamps to the undersigned and we will send you a box, post-paid.
