A N  
ACCOUNT  
OF THE  
INFIRMARY  
FOR THE  
*County of York.*

 THE great Benefits the Diseased Poor have received from the Infirmarys, which have been of late Years established within this Kingdom, sufficiently shew how very useful they are.

This Kind of Charity has many special Advantages. In common Cases the Poor may be provided with Necessaries by the  
A Parishes

Parishes to which they belong: But in case of Illness, a convenient Lodging, Nurses, Diet, and several other Things are absolutely necessary, and yet scarce ever to be had ; for want of which the Poor, even though they should be attended by proper and skilful Persons, would in a great many Cases find the Endeavours of the best Physicians or Surgeons fruitless.

But besides those who are intitled to Parochial Relief, these Hospitals are intended for the Reception of many others, who, tho' not reduced to take the Alms of the Parish, may nevertheless become great Objects of Charity, after having, by Dint of Industry, and hard Labour, supported their Families, by accidental Hurts or Sickness becoming a Burthen to those whom they formerly maintained, and rendring a whole Family miserable.

These great Evils cannot otherwise be cured than by establishing Publick Hospitals for the Sick and Lane Poor, in which the Care, Neatness, Lodging, and Regularity of Diet, will in all Cases much facilitate the Recovery ; and, in the Cure of some Distempers, are more effectual than Physick itself.

These and several other Reasons, which it would be needless to urge in Behalf of a Charity, the Usefulness of which is so apparent, together with the Establishment of an Infirmary at *Winchester*, occasioned a Talk of erecting one at *York*, for the Use of this County. Every one was convinced of the Benefit which would arise from it, and the Lady *Elizabeth Hastings*, well known for her Goodness to the Poor, was pleased to declare, that if such a Charity was set on Foot, she would contribute One Thousand Pounds: But nothing being done for a long Time after, though the Talk still continued, occasioned the said Lady, when she made her Will, to leave only Five Hundred Pounds; and that on Condition that such a Charity should be set on Foot in a Time therein limited.

The Loss of Five Hundred Pounds, and the Danger of losing Five Hundred Pounds more, occasioned several well disposed Persons to meet and open a Subscription; which succeeded so well, that a House was agreed to be hired, and furnished, for the Reception of as many of the diseased Poor as it could conveniently contain. This was accordingly done, and Servants were hired, several Patients were admitted into the House, and several others who could

not be admitted, were relieved by the Advice and Medicines which they received from thence.

The Numbers that were cured, and the good Usage with which they had been treated, soon gave the Infirmary a Reputation, and the Number of Subscribers and Benefactors accordingly increased.

The Legacy of Five Hundred Pounds left by Lady *Elizabeth Hastings* being received, and several other considerable Benefactions sent in ; it was thought necessary to purchase a Piece of Ground in some convenient Place, in, or near the City of *York*, in Order to erect a new Infirmary, which, being built by a Plan contrived for that very Purpose, in which all the Offices would be disposed in the best Manner, might be much more convenient than any House that could be hired.

A Piece of Ground near *Monk-Bar* was accordingly bought, and a general Meeting of all the Subscribers was appointed, to consider in what Manner, and to whom the Land should be conveyed ; when it was agreed, that the Estate should be vested in Thirteen of the Subscribers ; who were then named and appointed, *viz.*

GEORGE FOX, Esq;  
 BACON MORRITT, Esq;  
 THOMAS FAIRFAX, Esq;  
 PHILIP HARLAND, Esq;  
 PETER JOHNSON, Esq;  
 CHARLES SLINGSBY, Esq;  
 Rev. Mr WM. TOMLINSON.

 Sir WILLIAM WENTWORTH, Bart.

In Trust for a Publick Infirmary for the  
 County of *York* : Subject to the Regula-  
 tions which should be made, for the Go-  
 vernment thereof, by a Court of Governors,  
 with the Consent of a Majority of the  
 Trustees. As likewise, that the Number  
 of Trustees should be always kept com-  
 pleat, by electing new ones from amongst  
 the Subscribers, in the Room of such as  
 should die, or resign their Trust.

This Conveyance being signed, a Com-  
 mittee was appointed to consider of a Body  
 of Rules for the future Government of the  
 Infirmary, to be reported on a certain Day,  
 to which the Meeting was adjourned. The  
 Report was made, and the following Rules  
 agreed to.

## VIII.

They, or a Committee appointed by them, must be present at the General Audit, which shall be once in a Year; namely, on the second *Tuesday* in *May*: The Quarterly Courts to be on the same Day of *August*, *November*, and *February*, respectively at three o'Clock in the Afternoon.

## IX.

If in stating the Accounts of the preceding Year, it appears that the Current Expences have exceeded the Annual Income of the Hospital, the Trustees shall have a Power of striking off, or lessening such Articles as they think least necessary, so as to reduce the Expences to agree with the Income of the preceding Year.

## X.

## X.

Upon the Demise or Resignation of any Trustee, a Week's Notice shall be given (by the Governors) to the rest, who at a Court appointed by themselves for that Purpose, shall chuse a new One, within the Space of three Months; which new One shall be chosen out of such as are, and were Governors before the Demise, or Resignation above-mentioned; who shall have the same Power as those mentioned in the Deed of Trust.

ing held for that Purpose, of which a Week's Notice shall be given, to appoint a proper Person to supply such Vacancy, till a new One be chosen, by the joint Consent of the Trustees and Governors, according to the true Intent and Meaning of the Indenture, that the Progress of the Hospital be not interrupted.

*RULES and ORDERS relating to  
the GOVERNORS, in Pursuance of the  
Indenture above-mentioned.*

I.

III.

A Week's Notice shall be given of every

ry General Court, which shall meet four Times every Year, at the Times specified in the 8th Article of the Orders, relating to the Trustees.

## IV.

They may appoint other Meetings at such Times as they judge convenient, and appoint a Committee with full Powers, whose Acts shall be binding till the next General Court.

## V.

The Court shall nominate a Chairman, and appoint its own Ways of Proceeding, except in electing or discharging the principal Officers, which shall always be done by Ballot, as mentioned in the Articles relating to the Trustees, and in case the Votes are equal, the Chairman shall have a Casting Vote.

## VI.

The Court shall have the Cognizance and Direction of all Matters relating to the Receipt or Disbursements of Money, for the current Expences of the Hospital, independent of the Trustees, except in the Case specified, at the General Audit ; but to all new and uncommon Expences, or what relates to building, repairing, or fitting up the Hospital, the Concurrence of the Trustees also shall be necessary.

## VII.

The Court may chuse the Housekeeper, Cook, Nurses, and under Servants, or remove them as they think convenient, without the Consent of the Trustees.

## IX.

The Court may elect a Treasurer, two Physicians, two Surgeons, one Apothecary, and a Steward; and recommend them to the Trustees, at the General Quarterly Courts; all which must have the Approbation of the Trustees also, before they can act as such.

## X.

All future Orders (except the Powers herein before specified) agreed on by the Court of Governors, shall be sent to the Court of Trustees for their Approbation, and be sign'd by them also, otherwise be null.

## XI.

That as the Governors are a more numerous and variable Body than the Trustees, all Orders pass'd in the Court of Governors,

nors, requiring the Concurrence of the Trustees, shall be sign'd by Five of their Body, in the Name of the whole, and be brought to the Trustees by them, for their Concurrence.

SINCE the Publishing the Account of the Hospital, some Things have been done, which it is necessary the Subscribers should be acquainted with, but as they are not of Consequence enough to require a Republication of the fore-mentioned Account, it is thought convenient, in order to save the Hospital all the Expence that may be, to publish such Alterations, &c. Printed on the same Paper, and in the same Size as the Account, in order to be stitch'd up with it.

In Page 21st of the printed Account of the Hospital, *after*, which is pretty well advanced, *add*, being now cover'd in, and, it is hoped, will in a short Time be fit to receive Patients.

In Page 22d, blot out, *It is also proposed to allow a Sallary to a Clergyman, &c.* And amongst the Officers of the Hospital, Page 20 and 21, insert, *The Reverend Mr Eccles, Chaplain to the Hospital, with a Salary of Ten Pounds per Annum.*
