OF THE
I N F I R M A R Y

For the RELIEF of the
S I C K and L A M E P O O R
Of the C O U N T I E S of

Durham, Newcastle upon Tyne and Northumberland.

Newcastle, Dec. 28, 1751.

AMONG the many different CHARITABLE FOUNDATIONS established for the Benefit of our DISTREST FELLOW CREATURES, none better deserve the Encouragement and Regard of every benevolent and good Man, than HOSPITALS or INFIRMARIES. To relieve the Sick and Lame Poor, and restore so many Members that would otherwise be lost to the Community, is not only the greatest Charity, but of
the

the utmost publick Utility. Indeed the great Advantages of these excellent Institutions are sufficiently shewn, by the printed annual Accounts of the several INFIRMARIES, in this Kingdom.

IN *January* 1750-1, a Letter signed *B. K.*, appeared in the *Newcastle News Papers*, strongly recommending the beginning a Subscription here for an INFIRMARY for the Counties of *Durham, Newcastle upon Tyne, and Northumberland*, in Consequence of which, on the 9th of *February* following, a Subscription was opened for that Purpose, and with such Success, that in a few Days the Benefactions and annual Subscriptions amounted to a very considerable Sum.

ON the 22d of *February* was held, a General Meeting of the Subscribers, when a Committee was chosen to solicit Contributions, and take every other Step they might think proper to promote the Charity. This Committee having applied personally in *Newcastle*, and by Letter to the Nobility, Clergy, and Gentry, who were at a Distance, great Additions were daily made to the Subscription Roll.

ON the 21st of *March* a second General Meeting was held, when it was resolved to carry this Charity into immediate Execution, and a House was accordingly taken, situate in
Gal-

Galligate, without the Walls of *Newcastle*, in which there are 23 Beds, with all the necessary Offices. At the same Time, Statutes, Rules and Orders for the Government of it, which had been before prepared, by the Committee, were confirmed and are the same which are hereto annexed, save some few Alterations, which have been since found by Experience to be necessary.

ON the 13th of *April* was held the first General Quarterly Court of the Governors for the Election of a House Committee, (to sit weekly) Physicians, Surgeons, an Apothecary, a Secretary and Matron; and on the 23d of *May* following the House was opened for the Reception of Patients.

THUS, by the ready and generous Encouragement of the Subscribers and great Diligence of the several Committees, this valuable Charity was carried into Execution in little more than three Months from the opening the Subscription, a Circumstance not to be equalled by any Undertaking of this Kind. What Benefit has already accrued from it, will appear by the Account of Patients subjoined; but it may be proper further to observe, that of those who have receiv'd their Cures, some have been eight or ten, and others even fifteen or twenty Years ill, a convincing Proof of the Necessity there was for such an Institution here.

THE Management of this Charity is entirely in the Hands of the Subscribers, so that it cannot be perverted or misapplied. Two of the Contributors are appointed weekly, by the Committee, who visit the House by Turns every Day, to examine the Conduct of the Servants, and see that the Patients are duly attended and properly taken Care of. By an Order of a General Court, every Governor has a Right to attend and vote at all Committees, and it will be the greatest Favour done the Charity if they will often make Use of that Privilege.

BESIDES the usual Advantages of proper Diet, good Lodging, Advice and Medicine, the Patients in this INFIRMARY are constantly and regularly attended by the Clergy of *Newcastle*, who have generously engaged to read Prayers twice a-week, give the Communion at proper Times, and perform the other Duties of their Function by Rotation, so that it may reasonably be hoped that this Charity will have the best Consequences on the Religion and Morals, as well as the Health and Constitution, of the industrious Poor. It has likewise been ordered, that Persons of other Persuasions may be attended in the Manner they desire.

ALTHO', by one of the Rules, it is ordered, that all Patients be discharged within two Months, unless an Order be made for continuing them longer, the Committee have
never

never failed to give such Order for their Continuance, when the Physicians or Surgeons thought it proper that they should be continued.

A GREATER Number of Patients having offered than could be received into the House, the Committee hired several Rooms in the Neighbourhood, so that since the 16th of *August*, from thirty to forty Patients, and upwards, have been entertained in the House, &c. at one Time; notwithstanding which, the Committee have frequently been obliged to advertise that the House was full, and desire the Governors to forbear recommending-In patients till further Notice.

INDEED it was always foreseen that the present House, tho' the best that could be met with, would not compleatly answer the Occasions of the three Counties; so that as early as at the General Meeting in *March*, Application was made to the Corporation of *Newcastle* for a Piece of Ground on the *Forth Banks*, in order to erect a new INFIRMARY, which was generously granted: And at the Quarterly Court in *April*, a Subscription was opened for the Building, which with the Sums that Day subscribed, and the Additions since made to it, amounts to 966*l.* 19*s.*

A PLAN of a new Building, capable of containing 80 Beds for Patients, having been
con-

concerted and agreed upon, by a Committee chosen for that Purpose, on *Thursday* the 5th of *September*, the Foundation Stone was laid by the Right Reverend the Lord Bishop of *Durham*, Grand Visitor of this Society, and the Building has since been continued to the Height of the Basement Story.

BUT as the Sum subscribed for this Purpose is far short of what will be wanted for the compleating this necessary Design, we hope this Consideration will have its due Weight with all charitable and well disposed Minds, especially such Gentlemen of Property in the three Counties as have not already contributed to this useful Work.
