 HEN MAN came first out of the Hands of the great Creator, cloath'd in Body as well as in Soul, with Immortality and Incorruption, there was no Place for Physick, or the Art of Healing. As he knew no Sin, so he knew no Pain, no Sickness, Weakness, or bodily Disorder. The Habitation wherein the angelick Mind, the *Divinae Particula Auræ* abode, although originally formed out of the Dust of the Earth, was liable to no Decay. It had no Seeds of Corruption or Dissolution within itself. And there was nothing without to injure it: Heaven and Earth and all the Hosts of them were mild, benign and friendly to human Nature. The entire Creation was at Peace with Man, so

long as Man was at Peace with his Creator. So that well might the Morning Stars sing together, and all the Sons of GOD shout for Joy.

2. But since Man rebell'd against the Sovereign of Heaven and Earth, how entirely is the Scene changed ? The incorruptible Frame hath put on Corruption, the Immortal has put on Mortality. The Seeds of Weakness and Pain, of Sickness and Death, are now lodged in our inmost Substance: Whence a thousand Disorders continually spring, even without the Aid of external Violence. And how is the Number of these increased, by every Thing round about us ? The Heavens, the Earth, and all Things contained therein, conspire to punish the Rebels against their Creator. The Sun and Moon shed unwholsome Influences from above; the Earth exhales poisonous Damps from beneath: The beasts of the field, the Birds of the Air, the Fishes of the Sea, are in a State of Hostility: The Air itself, that surrounds us on every Side, is replete with the shafts of Death: Yea, the Food

we

we eat, daily saps the Foundation of the Life, which cannot be sustained without it. So has the LORD of All secured the Execution of his Decree, "*Dust thou art, and unto Dust shalt thou return.*"

3. But can there Nothing be found to lessen those Inconveniencies, which cannot be wholly removed? To soften the Evils of Life, and prevent in Part the Sicknes and Pain to which we are continually exposed? Without Question there may. One grand Preventive of Pain and Sicknes of various Kinds, seems intimated by the great Author of Nature, in the very Sentence that intails Death upon us: "*In the Sweat of thy Face shalt thou eat Bread, 'till thou return to the Ground.*" The Power of Exercise both to preserve and restore Health, is greater than can well be conceived: Especially in those who add Temperance thereto; who if they do not confine themselves altogether to eat either "*Bread or the Herb of the Field,*" (which God does not require them to do) yet steadily observe both that Kind and Measure of Food, which Experience shews

to be most friendly to Health and Strength.

4. 'Tis probable PHYSICK, as well as RELIGION, was in the first Ages chiefly traditional : Every Father delivering down to his Sons, what he had himself in like Manner received, concerning the Manner of Healing both outward Hurts, and the Diseases incident to each Climate, and the Medicines which were of the greatest Efficacy for the Cure of each Disorder. 'Tis certain, this is the Method wherein the Art of Healing is preserved among the *Americans* to this Day. Their Diseases indeed are exceeding few; nor do they often occur, by Reason of their continual Exercise, and ('till of late, universal) Temperance. But if any is sick, or bit by a Serpent, or torn by a wild Beast, the Fathers immediately tell their Children what Remedy to apply. And 'tis rare, that the Patient suffers long ; those Medicines being quick, as well as generally infallible.

5. Hence

5. Hence perhaps it was that the Antients, not only of *Greece* and *Rome*, but even of barbarous Nations, usually assign'd Physick a Divine Original. And indeed it was a natural Thought, That He who had taught it to the very Beasts and Birds, the *Cretan* Stag, the *Egyptian* Ibis, could not be wanting to teach Man,

*Sanctius his Animal, mentisque capacius
altæ :*

Yea, sometimes, even by those meaner Creatures : For it was easy to infer, "If this will heal that Creature, whose Flesh is nearly of the same Texture with mine, then in a parallel Case it will heal me." The Trial was made. The Cure was wrought. And Experience and Physick grew up together.

6. And has not the Author of Nature taught us the Use of many other Medicines, but what is vulgarly term'd Accident? Thus one walking some Years since in a Grove of Pines, at a Time when many in the neighbouring Town were af-

flicted with a Kind of new Distemper, little Sores in the Inside of the Mouth, a Drop of natural Gum fell from one of the Trees on the Book which he was reading. This he took up, and thoughtlessly applied to one of those sore Places. Finding the pain immediately cease, he applied it to another, which was also presently healed. The same Remedy he afterwards imparted to others, and it did not fail to heal any that applied it. And doubtless numberless Remedies have been thus casually discovered in every Age and Nation.

7. Thus far Physick was wholly founded on Experiment. The *European*, as well as the *American*, said to his Neighbour, Are you sick? Drink the Juice of this Herb, and your Sickness will be at an End. Are you in a burning Heat? Leap into that River, and then sweat 'till you are well. Has the Snake bitten you? Chew and apply that Root, and the Poison will not hurt you. Thus antient Men, having a little Experience, joined with common Sense, and common Humanity,

manity, cured both themselves and their Neighbours, of most of the Distempers to which every Nation was subject.

8. But in Process of Time, Men of a philosophical Turn were not satisfied with this. They began to enquire, How they might account for these Things? How such Medicines wrought such Effects? They examined the Human Body, and all its Parts; the Nature of the Flesh, Veins, Arteries, Nerves; the Structure of the Brain, Heart, Lungs, Stomach, Bowels; with the Springs of the several Animal Functions. They explored the several Kinds of Animal and Mineral, as well as Vegetable Substances. And hence the whole Order of Physick which had obtained to that Time, came gradually to be inverted. Men of Learning began to set Experience aside; to build Physick upon Hypotheses; to form Theories of Diseases and their Cure, and to substitute these in the Place of Experiments.

9. As Theories increased, simple Medicines were more and more disregarded

and difused ; 'till, in a Courfe of Years, the greater Part of them were forgotten, at leaft in the politer Nations. In the Room of thefe, Abundance of new Ones were introduced, by reasoning, speculative Men ; and thofe more and more difficult to be applied, as being more remote from common Obfervation. Hence Rules for the Application of thefe, and Medical Books were immenfely multiplied ; 'till at length Phyfick became an abftrufe Science, quite out of the Reach of ordinary Men.

10. Phyficians now began to be had in Admirati^{on}, as Perfons who were something more than human. And Profit attended their Employ, as well as Honour; fo that they had now two weighty Reafons for keeping the Bulk of Mankind at a Distance, that they might not pry into the Myfteries of the Profeflion. To this End, they increafed thofe Difficulties by Design, which began in a manner by Accident. They filled their Writings with Abundance of Technical Terms, utterly unintelligible to plain Men. They
affected

affected to deliver their Rules, and to reason upon them, in an abstruse and philosophical Manner. They represented the critical Knowledge of Anatomy, Natural Philolophy (and what not? Some of them insisting on that of Astronomy and Astrology too) as necessarily previous to the understanding the Art of Healing. Those who understood only, How to restore the Sick to Health, they branded with the Name of Empiricks. They introduced into Practice, Abundance of compound Medicines, consisting of so many Ingredients, that it was scarce possible for common People to know which it was that wrought a Cure: Abundance of Exoticks, neither the Nature nor Names of which their own Countrymen understood: Of Chymicals, such as they neither had Skill, nor Fortune, nor Time, to prepare: Yea, and of dangerous Ones, such as they could not use, without hazarding Life, but by the Advice of a Physician. And thus both their Honour and Gain were secured; a vast Majority of Mankind being utterly cut off from helping either themselves or their Neighbours, or once daring to attempt it.

11. Yet there have not been wanting from Time to Time, some Lovers of Mankind, who have endeavoured (even contrary to their own Interest) to reduce Physick to its antient Standard : Who have laboured to explode out of it all Hypotheses, and fine-spun Theories, and to make it a plain intelligible Thing, as it was in the Beginning : Having no more Mystery in it than this, “ Such a Medicine removes such a Pain.” These have demonstrably shewn, That neither the Knowledge of Astrology, Astronomy, Natural Philosophy, nor even Anatomy, itself, is absolutely necessary to the quick and effectual Cure of most Diseases incident to Human Bodies : Nor yet any Chymical, or Exotick, or Compound Medicine, but a single Plant or Fruit duly applied. So that every Man of common Sense (unless in some rare Cases) may prescribe either to himself or his Neighbour ; and may be very secure from doing Harm, even where he can do no Good.

12. Even to the last Age there was something of this Kind done, particularly
by

by the great and good Dr. *Sydenham* : And in the present, by his Pupil Dr. *Dover*, who has pointed out simple Medicines for many Diseases. And some such may be found in the Writings of the learned and ingenious Dr. *Cheyne* : Who doubtless would have communicated many more to the World, but for the melancholy Reason he gave one of his Friends, that prest him with some Passages in his Works, which too much countenanced the modern Practice, “ O Sir, We must do something to oblige the Faculty, or they will tear us in Pieces.”

13. Without any Regard to this, without any Concern about the obliging or disobliging any Man living, a mean Hand has made here some little Attempt, toward a plain and easy Way of curing most Diseases. I have only consulted herein, Experience, common Sense, and the common Interest of Mankind. And supposing they can be cured this easy Way, who would desire to use any other ? Who would not wish to have a Physician always in his House, and one that attends with-

without Fee or Reward? To be able (unless in some few complicated Cases) to prescribe to his Family, as well as himself?

14. If it be said, But what Need is there of such an Attempt? I answer, The greatest that can possibly be conceived. Is it not needful in the highest Degree, to rescue Men from the Jaws of Destruction? From wasting their Fortunes, as Thousands have done, and continue to do daily? From pining away in Sickness and Pain, either through the Ignorance or Knavery of Physicians? Yea, and many Times throwing away their Lives, after their Health, and Time, and Substance?

Is it enquired, But are there not Books enough already, on every Part of the Art of Medicine? Yes, too many, ten Times over, considering how little to the Purpose the far greater Part of them speak. But beside this, they are too dear for poor Men to buy, and too hard for plain Men to understand. Do you say, But there are enough of these Collections of Receipts. Where? I have not seen One yet, either
in

in our own or any other Tongue, which contains only safe and cheap and easy Medicines. In all that have yet fallen into my Hands, I find many dear and many far-fetch'd Medicines: many of so dangerous a Kind, as a prudent Man would never meddle with. And against the greater Part of those Medicines there is a further Objection: They consist of too many Ingredients. The common Method of compounding and decomposing Medicines, can never be reconciled to common Sense. Experience shews, That one Thing will cure most Disorders, at least as well as twenty put together. Then why do you add the other nineteen? Only to swell the Apothecary's Bill: Nay, possibly, on purpose to prolong the Distemper, that the Doctor and he may divide the Spoil.

But admitting there is some Quality in the Medicine proposed, which has Need to be corrected: Will not one Thing correct it, as well as twenty? It is probable, much better. And if not, there is Sufficiency of other Medicines, which need no such Correction. How

How often, by thus compounding Medicines of opposite Qualities, is the Virtue of both utterly destroyed? Nay, how often do those joined together destroy Life, which single might have preserved it? This occasioned that Caution of the great *Boerhaave*, against mixing Things without evident Necessity, and without full Proof of the Effect they will produce when joined together, as well as of that they produced when asunder: Seeing (as he observes) several Things, which separately taken, are safe and powerful Medicines, when compounded not only lose their former Powers, but commence a strong and deadly Poison.

15. As to the Manner of using the Medicines here set down, I should advise as soon as you know your Distemper, (which is very easy, unless in a Complication of Disorders, and then you would do well to apply to a Physician that fears GOD) First, use the first of the Remedies for that Disease which occurs in the ensuing Collection; unless some other of them be easier to be had, and then it may do
just

just as well). Secondly, After a competent Time, if it takes no Effect, use the second, the third, and so on. I have purposely set down (in most Cases) several Remedies for each Disorder; not only because All are not equally easy to be procured at all Times and in all Places: But likewise because the Medicine which cures one Man, will not always cure another of the same Distemper. Nor will it cure the same Man at all Times. Therefore it was necessary to have a Variety. However, I have subjoin'd the Letter *I.* to those Medicines, which are said to be infallible.---Thirdly, Observe all the Time the greatest Exactness in your Regimen, or Manner of Living. Abstain from all mixt, all high-season'd Food. Use plain Diet, easy of Digestion: And this as sparingly as you can, consistent with Ease and Strength. Drink only Water, if it agrees with your Stomach; if not, good clear Small-beer. Use as much Exercise daily, in the open Air, as you can without Weariness. Sup at Six or Seven on the lightest Food: Go to Bed early, and rise betimes. To persevere with Steadiness

ness in this Course, is often more than half the Cure, Above all, add to the rest, (for it is not Labour lost) that old, unfashionable Medicine, PRAYER. And have Faith in GOD, who “*killeth and maketh alive, who bringeth down to the Grave and bringeth up.*”

16. For the Sake of those who desire, through the Blessing of GOD, to retain the Health which they have recovered, I have added a few plain easy Rules, chiefly transcribed from Dr. *Cheyne*.

I. 1. The Air we breathe is of great Consequence to our Health, Those who have been long abroad in Easterly or Northerly Winds, should drink some thin and warm Liquor going to Bed ; or a Draught of Toast and Water.

2. Tender People should have those who lie with them or are much about them, sound, sweet and healthy.

3. Every one that would preserve Health, should be as clean and sweet as possible in their Houses, Cloaths and Furniture.

II. 1. The

II. 1. The great Rule of Eating and Drinking is, To suit the Quality and Quantity of the Food to the Strength of our Digestion ; to take always such a Sort and such a Measure of Food, as fits light and easy on the Stomach.

2. All pickled or smoaked or salted Food, and all high-season'd is unwholsome.

3. Nothing conduces more to Health, than Abstinence and plain Food, with due Labour.

4. For studious Persons, about eight Ounces of Animal Food, and twelve of Vegetable in twenty-four Hours is sufficient.

5. Water is the wholsomest of all Drinks ; quickens the Appetite and strengthens the Digestion most.

6. Strong, and more especially spirituous Liquors, are a certain though slow Poison.

7. Experience shews, there is no Manner of Danger, in leaving them off all at once.

8. Strong

8. Strong Liquors do not prevent the Mischiefs of a Surfeit, nor carry it off so safely as water.

9. Malt Liquors (except clear Small-beer of a due Age) are exceeding hurtful to tender Persons.

10. Coffee and Tea are extremely hurtful to Person who have weak Nerves.

III. 1. Tender Persons should eat very light Suppers ; and that two or three Hours before going to Bed.

2. They ought constantly to go to Bed about Nine, and rise at Four or Five.

IV. 1. A due Degree of Exercise is indispensably necessary to Health and long Life.

2. Walking is the best Exercise for those who are able to bear it. Riding for those who are not. The open Air, when the Weather is fair, contributes much to the Benefit of Exercise.

3. We

3. We may strengthen any weak Part of the Body by constant Exercise. Thus the Lungs may be strengthened by loud speaking, or walking up an easy Ascent: The Digestion, and the Nerves by Riding: The Arms or Hams by strongly rubbing them daily.

4. The Studious ought to have stated Times for Exercise, at least two or three Hours a Day: The one half of this before Dinner, the other before going to Bed.

5. They should frequently shave, and frequently wash their Feet.

6. Those who read or write much, should learn to do it standing; otherwise it will impair their Health.

7. The fewer Cloaths any one uses, by Day or Night, the hardier he will be.

8. Exercise, first, should be always on an empty Stomach; secondly, should never be continued to Weariness; thirdly, after it, we should take Care to cool by Degrees. Otherwise we shall catch Cold.

9. The

9. The Flesh-brush is a most useful Exercise, especially to strengthen any Part that is weak.

10. Cold-bathing is of great Advantage to Health. It prevents Abundance of Diseases. It promotes Perspiration, helps the Circulation of the Blood, and prevents the Danger of catching Cold. Tender People should pour Water upon the Head before they go in, and walk in swiftly. To jump in with the Head foremost, is too great a Shock to Nature.

V. 1. Costiveness cannot long consist with Health. Therefore Care should be taken to remove it at the Beginning: and when it is removed, to prevent its Return, by soft, cool, opening Diet.

2. Obstructed Perspiration (vulgarly called catching Cold) is one great Source of Diseases. Whenever there appears the least Sign of this let it be removed by gentle Sweats.

VI. 1. The

VI. 1. The Passions have a greater Influence on Health than most People are aware of.

2. All violent and sudden Passions dispose to, or actually throw People into acute Diseases.

3. The slow and lasting Passions, such as Grief and hopeless Love, bring on chronical Diseases.

4. 'Till the Passion which caused the Disease is calm'd, Medicine is applied in vain.

5. The Love of God, as it is the sovereign Remedy of all Miseries, so in particular it effectually prevents all the bodily Disorders the Passions introduce, by keeping the Passions themselves within due Bounds. And by the unspeakable Joy and perfect Calm, Serenity and Tranquillity it gives the Mind, it becomes the most powerful of all the Means of Health and long Life.

P O S T S C R I P T.

1. **I**T was a great Surprize to the Editor of the following Collection, That there was so swift and large a Demand for it ; that three Impressions were called for in four or five Years ; and that it was not only re-published by the Booksellers in a neighbouring Nation, but also inserted by Parts in their publick Papers, and so propagated through the whole Kingdom. This encouraged him carefully to revise the whole, and to publish it again, with several Alterations, which it is hoped may make it of greater Use to those who love common Sense and common Honesty.

2. Those Alterations are still in Pursuance of my first Design, To set down cheap, and safe, and easy Medicines ; easy to be known, easy to be procured, and easy to be applied by plain unlettered Men. Accordingly, I have omitted a
B
considerable

considerable Number, which, tho' cheap and safe, were not so common or well known; and have added almost an equal Number, to which that Objection cannot be made: Which are not only of small Price, and extremely safe, but likewise easily to be found, if not in every House or Yard, yet in every Town, and almost every Village throughout the Kingdom.

3. It is because they are not safe, but extremely dangerous, that I have omitted (together with Antimony) the four Herculean Medicines, Opium, * the Bark, * Steel, and the various Preparations of Quicksilver. Herculean indeed! Far too strong for common Men to grapple with. How many fatal Effects have these produced, even in the Hands of no ordinary Physicians? With Regard to four of these, the Instances are glaring and undeniable. And whereas Quicksilver, the fifth, is in its native Form, as innocent as Bread or Water, has not the Art been discover'd, so to prepare it, as to make it the most deadly of all Poisons? These, Physicians have justly termed edged Tools. But they

* Except in One Instance.

have not yet taught them to wound at a Distance : And honest Men are under no Necessity of touching them, or coming within their Reach.

4. Instead of these, I have once more ventured to recommend to Men of plain unbiassed Reason, such Remedies as Air, Water, Milk, Whey, Honey, Treacle, Salt, Vinegar, and common English Herbs, with a few foreign Medicines, almost equally cheap, safe and common. And this I have done on that Principle, whereby I desire to be governed in all my Actions, "Whatsoever ye would that Men should do unto you, the same do unto them."

5. At the Request of many Persons, I have likewise added plain Definitions of most Distempers ; not indeed accurate or philosophical Definitions, but such as are suited to Men of ordinary Capacities, and as may just enable them, in common, simple Cases, to distinguish one Disease from another. In uncommon or complicated Diseases, or where Life is more immediately in Danger, I again advise every Man, without Delay, to apply to a Physician that fears GOD.

A
COLLECTION
OF
RECEIPTS.

1. *Abortion, (to prevent).*

1. **U**SE daily a Decoction of *Lignum Guaiacum*.

2. *For an Ague. †*

2. Go into the *Cold Bath* just before the **Cold Fit**.

B 3

3. Or,

† An *Ague* is, An *Intermitting Fever*, each *Fit* of which is preceded by a cold *Shivering* and goes off in a *Sweat*.

3. Or, take a Handful of *Groundsell*, shred it small, put it into a Paper Bag, four Inches square, pricking that Side which is to be next the Skin full of Holes. Cover this with a thin Linnen, and wear it on the Pit of the Stomach, renewing it two Hours before the Fit : Tried.
4. Or, apply a Handful of *Yarrow* in like Manner :
5. Or, a large *Onion* slit :
6. Or, boil *Yarrow* in new Milk, 'till it is tender enough to spread as a Plaister. An Hour before the cold Fit, apply this to the Wrists, and let it be on 'till the hot Fit is over. If another Fit comes, use a fresh Plaister : this often cures a *Quartan*.
7. Or, drink a Quart of *cold Water*, just before the cold Fit. Then go to Bed and sweat :
8. Or, make six middling Pills of *Cobwebs*. Take one a little before the cold Fit : Two a little before the next Fit : The other three, if Need be, a little before the third Fit. I never knew this fail :
9. Or, two Tea-spoonfuls of *Sal Prunellæ* an Hour before the Fit. It commonly cures in thrice taking :
10. Or, a Tea-spoonful of *Spirits of Hartshorn*, in a Glass of Water :
11. Or, eat a *Lemon*, Rind and all :
12. Or, drink a Pint of Decoction of *Camomile*, sweeten'd with Treacle. Take it warm in Bed, and sweat two Hours.

☞ It is proper to take a gentle *Vomit* before you use any of these Medicines. If this is taken two Hours before the *Fit* is expected, it generally prevents that *Fit*, and sometimes cures an *Ague*: Especially in Children. — It is also proper to repeat the Medicine (whatever it be) about a Week after, in order to prevent a *Relapse*.

3. *A Tertian Ague.* ¶

13. Boil a Handful of *Ribwort* in Whey. Drink this warm an Hour before the *Fit* comes, and lie down and sweat:

14. Or, use the *Cold Bath*. (Unless you are of an advanced Age, or extremely weak.) But when you use this, on any Account whatever, it is proper.

1. To bleed or purge, before you begin:
2. To go in cool; to immerge at once; to stay in only two or three Minutes, (or less at first.)
3. Never to bathe on a full Stomach:
4. To bathe twice or thrice a Week at least, 'till you have bathed nine or ten Times:
5. To sweat immediately after it (going to Bed) in *Palsies*, *Rickets*, and all Diseases wherein the Nerves are obstructed:
6. You may use yourself to it, without any Danger, by beginning in *May*, and at first just plung-

ing in, and coming out immediately. Tho³ many have begun in Winter, without any Inconvenience.

4. *A Quartan Ague.* §

15. Apply to the Suture of the Head, when the Fit is coming, *Wallfoly Flowers* beating together Leaves and Flowers with a little Salt. Keep it on 'till the hot Fit is over. Repeat this, if Need be.
16. Use *strong Exercise* (as Riding or Walking, as far as you can bear it) an Hour or two before the Fit. If possible, continue it 'till the Fit begins. This alone will frequently cure.
17. Or, apply to the Wrists a Plaister of *Turpentine*:
Or of bruised *Garlick* :
18. Or, of bruised *Pepper*, mixt with *Treacle*.

5. *St. Anthony's Fire.* †

19. Take a Glafs of *Tar-Water* warm, in Bed, every Hour, washing the Part with the same.

Tar-

§ That is, An *Ague* which misses two Days coming on *Monday* (suppose) and again on *Thursday*.

† *St. Anthony's Fire* is a Fever attended with a red and painful Swelling, full of *Pimples*, which afterwards turn into *small Blisters*, on the Face or some other Part of the Body. The sooner the Eruption is, the less Danger—. Let your Diet be only *Water-Gruel*, or *Barley-Broth*, with roasted Apples.

☞ *Tar-Water is made thus.*—Put a Gallon of cold Water to a Quart of Norway Tar. Stir them together with a flat Stick for five or six Minutes. After it has stood cover'd for three Days, pour off the Water clear, bottle and cork it.

20. Or, drink a Pint of *Sea-Water* every Morning for seven Days. It seldom fails.

21. Or, take a Decoction of *Elder-Leaves*, as a Sweat :

22. Or, of *wild Thyme*, applying to the Part a Cloth dipt in *Lime-Water*, mixt with a little *camphorated Spirits* of Wine.

☞ *Lime-Water is made thus.*—Infuse a Pound of good quick Lime, in six Quarts of Spring Water for twenty-four Hours. Decant and keep it for Use.

23. Or, take two or three gentle Purges. No acute Fever bears repeated Purges better than this, especially when it affects the Head.

24. Or, (using the Internal Medicine at the same Time) apply a Plaister of *Venice Treacle* :

25. Or, wash it with Water wherein Bran is boiled:

26. Or, boil a Handful of *Sage*, two Handfuls of *Elder-leaves* (or *Bark*) and an Ounce of *Allum* in two Quarts of Forge Water, to a Pint. Anoint with this every Night.

6. *The Apoplexy.* †

27. To prevent, use the *Cold Bath*, and drink only Water.

B 5

† An *Apoplexy* is, A total Loss of all Senses, and voluntary Motion, commonly attended with a strong Pulse, hard Breathing and Snorting.

28. In the Fit, blow Powder of *white Hellebore* up the Nose, and fix a *Cupping Glass*, without scari-
fying, to the Nape of the Neck, and another to
each Shoulder. But send for a good Physician
immediately.
29. If the Fit be soon after a Meal, do not bleed,
but vomit.
30. Rub the Head, Feet, and Hands strongly, and
let two strong Men carry the Patient upright,
backwards and forward about the Room.
31. A *Seton* in the Neck, with low Diet, has often
prevented a Relapse.

7. *Canine Appetite.* §

32. “ If it be without Vomiting, is often cured by
a small Bit of Bread dipt in Wine, and applied to
the Nostrils.” Dr. *Schomberg*.

8. *The Asthma.* ||

33. Take a Pint of *cold Water* every Night, as you
lie down in Bed :
34. Or, a Pint of *cold Water* every Morning, *wash-*
ing the Head therein immediately after, and u-
sing the *Cold Bath* once a Fortnight :

35. Or,

§ An insatiable Desiring of Eating.

|| An *Asthma* is a Difficulty of Breathing, from a
Disorder in the Lungs. In the common (or moist)
Asthma, the Patient spits much.

35. Or, half a Pint of *Tar Water* twice a Day :
36. Or, drink a Pint of *Sea Water* every Morning :
37. Or, live a Fortnight on boiled *Carrots* only.
It seldom fails.
38. Or, a Spoonful of *Nettle-juice*, mixt with clarified *Honey* :
39. Or, take an Ounce of *Quicksilver* every Morning, and a Spoonful of the *Gas of Sulphur*, in a large Glass of *Spring-Water* at Five in the Evening, and at Bed-time, 'till you are well. *I.*
40. For present Relief, Vomit with a Quart or more of *warm Water*. The more you drink of it the better.
- ☞ Do this whenever you find any Motion to vomit, and take Care always to keep your Body open.

9. *A Dry or Convulsive Asthma.*

41. Juice of *Radishes* relieves much ; so does
42. A Cup of strong *Coffee*.
43. Or, *Garlick*, either raw or preserved, or in Syrup :
44. Or, Tea made with *Hyssop*, *Ground-Ivy*, *Daisy-Flowers* and *Liquorish* :
45. Drink a Pint of *new Milk* Morning and Evening.—That has cured an inveterate *Asthma*.
46. Use the *Cold Bath* thrice a Week :
47. Or, beat fine *Saffron* small, and take eight or ten Grains every Night :
48. Or,

48. Or, dry and powder a *Toad*. Make it into small Pills, and take one every Hour 'till the Convulsions cease.

|| It is a sure Rule, that all Madmen are Cowards, and may be conquered by binding only, without beating.—Dr. Mead.

139. *The Bite of a mad Dog.*

457. Apply Ashes of *Trefoil* mixt with *Hog's lard*.
This has cured one that was bit on the Nose :
458. Or, plunge into *cold Water* daily for twenty Days, and keep as long under it as possible.
This has cured, even after the *Hydrophobia* was begun † :
459. *Galen* says, none ever failed of a Cure who took two Spoonfuls of *Ashes of Craw-Fish* daily for forty Days :
460. Or, apply Juice of *Dracuntia* mixt with *Vinegar*, outwardly, and drink of the same Morning and Evening, five or six Days :
461. Mix powder'd *Liver-wort* four Drams, *black Pepper* two Drams. Divide this into four Parts, and take one in warm Milk for four Mornings, fasting.

140. *The Measles* *.

462. Drink only thin *Water-gruel*, or *Milk and Water*, the more the better ; or, *Toast and Water* :
463. If the Cough be very troublesome, take frequently a Spoonful of *Barley-Water* sweetened with *Oil of sweet Almonds* newly drawn, mixt with Syrup of *Maiden-bair* :
464. After :

† If this is really a Nervous Disorder, what Wonder, if it should be cured by *Cold Bathing* ?

* This Distemper is always preceded by a violent Cough, often fourteen Days before the red Spots come out.

464. After the Measles, for some Weeks, take Care of catching Cold, use light Diet, and drink Barley-water instead of Malt-drink.

141. *Menses Obstructed.*

465. Take half a Pint of strong Decoction of *Penny-Royal* every night at going to Bed:
466. Or, a Spoonful of Juice or Syrup of *Brook-lime*, Morning and Evening:
467. Or, a Tea-spoonful of *Columbine-seeds* powder'd, thrice a Day:
468. Or, boil five large Heads of *Hemp* in a Pint of Water to half. Strain it, and drink it going to Bed two or three Nights. It seldom fails.
469. Or, take from eight to twelve Grains of *Calomel*, in a Pill, for two or three Nights taking Care not to catch Cold. It vomits and purges.
470. Or, burn a little *Sulphur of Antimony* on a Chafing-Dish of Coals, and receive the Smoke by a Funnel. In a few Minutes it will take Effect.
- ☞ *Let any of these Medicines be used at the regular Time as near as can be judged.*

142. *Menses Nimii.*

471. Drink nothing but *cold Water*, with a Spoonful of fine *Flour* stirred in it. At the Time drink a Glass of the coldest Water you can get, and apply a thick Cloth dipt in cold Water:

472. Or,

472. Or, put the Feet into *cold Water* :
473. Or, apply a Sponge dipt in *Red Wine* and *Vinegar* :
474. Or, *bleed* in the Arm. Stop the Orifice often with the Finger, and then let it bleed again :
475. Or, boil four or five Leaves of the *Red Holy Oak* in a Pint of Milk, with a small Quantity of Sugar. Drink this in the Morning; if the Person can afford it, she may add a Tea-spoonful of *Balm of Gilead*:—This does not often fail :
476. Or, after a small *Rubard* Purge, boil the Peel of seven *Seville Oranges* in three Pints of Spring Water to a Quart. Take ten Spoonfuls sweetened with white Sugar, four Times a Day :
477. Or, use daily Decoction, Syrup, or Powder of *Horse-tail*, *Nettles*, or *Plantane*.

143. *To resolve Coagulated Milk.*

478. Cover the Woman with a Table-cloth, and hold a Pan of *bot Water* just under her Breast; then stroke it three or four Minutes. Do this twice a Day 'till it is cured.

144. *To increase Milk.*

479. Drink a Pint of *Water* going to Bed :
480. Or, drink largely of *Pottage* made with *Lentils*.

145. *To make Milk agree with the Stomach.*

481. If it lie heavy, put a little *Salt* in it; if it curdle, *Sugar*. For bilious Persons, mix it with *Water*.

146. *Nervous Disorders.*

482. Are of two Kinds; 1. Those which proceed from the Nerves being compress'd by the Swelling of the muscular Flesh: Or, 2. When the Nerves themselves are disorder'd. In the former Case, Temperance and Abstemiousness will generally cure: In the latter, when the Nerves perform their Office too languidly, a GOOD AIR is the first requisite. The Patient also should rise early, and as soon as the Dew is off the Ground, walk: Let his Breakfast be *Mother of Thyme-Tea*, gather'd in *June*, using half as much as we do of common Tea. It should be drunk with the finest Sugar; and Cream may be added if he please: Coffee must be avoided. When the Nerves are too sensible, let the Person breathe a proper Air. Let him eat Veal, Chickens, or Mutton. Vegetables should be eat sparingly; the most innocent is the French Bean whilst young, and the best Root the Turnip. Wine should be avoided carefully: So should all Sauces.

Some-

Sometimes he may breakfast upon a Quarter of an Ounce of the Powder of *Valerian-root* infus'd in hot Water, to which he may add Cream and Sugar. Tea is not proper. When the Person finds an uncommon Oppression, let him take a large Spoonful of the Tincture of *Valerian-root*.

☞ *The Tincture should be made thus. Cut to Pieces six Ounces of wild Valerian-root gather'd in June, and fresh dried. Bruise it by a few Strokes in a Mortar, that the Pieces may be split, but it should not be beat into a Powder: Put this into a Quart of strong white Wine; cork the Bottle and let it stand three Weeks, shaking it every Day; then press it out and filtre the Tincture thro' Paper.*

483. Take also as much as will lie on a Shilling of the powder of *Mistletoe*, twice a Day, when the Stomach is most empty, fasting two Hours after it; then once a Day, and afterwards every other, or every third Day, 'till there is no more Need of Medicines.

☞ *Let this Plant be gather'd in May, and the Leaves and Bark dried carefully in the free Air, without Sun, till they are brittle. Let them then be reduced to a fine Powder, and kept in that Form.*

Dr. Uvedale.

484. But I am firmly persuaded, there is no Remedy in Nature, for Nervous Disorders of every Kind, comparable to the proper and constant Use of the *Electrical Machine*.

147. *An old stubborn Pain in the Back.*

485. Steep Root of *Water-Fern* in Water, till the Water become thick and clammy. Then rub the Parts therewith Morning and Evening.

148. *The Palsy* ||.

486. Use the *cold Bath*, if you are under Fifty, rubbing and sweating after it:

487. Or, shred *white Onions*, and bake them gently in an earthen Pot, 'till they are soft. Spread a thick Plaister of this, and apply it to the benumb'd Part, all over the Side, if need be. *I.*

488. Or, take *Tar-water*, Morning and Evening:

489. Or, boil *white* and *red Sage*, a Handful of each in a Quart of *white Wine*. Strain and bottle it. Take a small Glass Morning and Evening. This helps all Nervous Disorders.

490. Or, apply to the Parts boil'd *Sage-leaves* hot: and drink Decoction of *Sage* Morning and Evening:

491. Or, of *Water-dock*, applying the *boil'd Leaves*.

149. *Palsy of the Hands.*

156. *The Plague (to prevent.)*

511. Eat *Marigold Flowers* daily, as a Sallad, with *Oil* and *Vinegar* :
512. Or, a little of the tops of *Rue* with Bread and Butter, every Morning :
513. Or, infuse *Rue*, *Sage*, *Mint*, *Rosemary*, *Wormwood*, of each a Handful, in two Quarts of the sharpest *Vinegar*, over warm Embers for eight Days. Then strain it through a Flannel,
and

and add half an Ounce of *Campfire*, dissolved in three Ounces of rectified *Spirits of Wine*. With this wash the Loins, Face, and Mouth, and snuff a little up the Nose when you go abroad. Smell to a Sponge dipt therein, when you approach infected Persons or Places.

157. *The Plague (to cure.)*

514. *Cold Water* alone, drank largely, has cured it :
515. Or, an Ounce or two of the Juice of *Mari-golds* :
516. Or, take a Dram of *Angelica* powder'd every six Hours. It is a strong Sweat :
517. Or, after bleeding fifty or sixty Ounces, drink very largely of *Water* sharpened with Spirit of *Vitriol* :
518. Or, a Draught of *Brine* as soon as seized ; sweat in Bed ; take no other Drink for some Hours.
519. Use *Lemon-juice* largely in every Thing.

158. *The Pleurisy* *.

520. Apply to the Side *Onions* roasted in the Embers, mixt with *Cream* :

521. Or,

* A *Pleurisy* is a Fever attended with a violent Pain in the Side, and a Pulse remarkably hard.

521. Or, take out the Core of an Apple, fill it with white *Frankincense*; stop it close with the Piece you cut out, and roast it in Ashes. Mash and eat it, *I*.
522. Or, a Glass of *Tar-water*, warm, every half Hour:
523. Or, of Decoction of *Nettles*; and apply the Herb, hot, as a Poultis:
524. Or, a Plaister of *Flour of Brimstone* and *White of an Egg*.

539. Or, *Tar-water* Morning and Evening:
540. Or, steep six or seven Cloves of *Garlick* in half a Pint of white Wine. Drink it lying down. It sweats, and frequently cures at once:
541. Or, mix Flour of *Brimstone* with *Honey*, equal Quantities. Take three Tea-spoonfuls at Night, two in the Morning; and one afterwards Morning and Evening, 'till cured. This succeeds oftner than any Remedy I have found:
542. Or, take Morning and Evening as much *Lignum Guaicum* powder'd, as lies on a Shilling:
543. Or, as much *Flour of Sulphur*, washing it down with Decoction of *Lignum Guaiacum*:
544. Or, live on *New Milk Whey* and *white Bread* for fourteen Days. This has cured in a desperate Case.

165. *To restore the Strength after a Rheumatism.*

545. Make a strong Broth of *Cow-beels*, and wash the Parts with it warm twice a Day. It has restored one who was quite a Cripple, having no Strength left either in his Leg, Thigh, or Loins.

166. *The Rickets (to prevent or cure.)*

546. Wash the Child every Morning in cold Water.

167. *Ring Worms.*

547. Rub them with *Oil of Paper* :

548. Or, with Juice of *House-leek* :

549. Or, wash them with Decoction of *Soap-wort* ;
or *Hungary-water* camphorated.

Set this in a Kettle of cold Water, and put it over a Fire, 'till it has boiled three Hours. Let it stand in the Kettle 'till cold. When it has stood one Night drink daily half a Pint, new Milk warm, fasting, and at Four in the Afternoon. Wash with a little of it. In three Months all the Sores will be dried up.

179. *The Scurvy.†*

568. Live on *Turnips* for a Month:

569. Or, an entire *Milk Diet*, for six Months:

E 2

570. Or,

* Such a Degree of the *Scurvy*, as causes the Flesh to waste away, like a *Consumption*.

† The *Scurvy* is known by Heaviness of Body, Weariness, Rottenness of Gums, and yellow, lead or violet-colour'd Spots on the Legs.

575. Or, use Infusion or Powder of *Wall-rue*, Morning and Evening.—See Art. 430.
576. Or, pound into a Pulp *Sevil Oranges* sliced, Rind and all, and Powder Sugar, equal Quantities. Take a Tea-spoonful three or four Times a Day. *I.*
577. Water and Garden Cresses, Mustard, and Juice of Scurvy-grats help in a cold Scurvy :
578. When there is a continual salt Taste in the Mouth, take a Pint of *Lime-water* Morning and Evening.

180. *A Broken Skin.*

579. Bind a dry *Oak-leaf* upon it.

181. *The Shingles.**

580. Drink a Pint of *Sea-Water* every Morning for a Week; toward the Close, bathe also.

Sickness

* A Kind of *Ring-Worm*, which incircles the Body, like a Belt, of an Hand's Breadth.

182. *Sickness in the Morning.*

581. Eat nothing after Six in the Evening.

183. *Skin rubbed off.*

582. Apply pounded *Self-heal*. — It seldom needs repeating.

184. *Small Pox.*

583. Drink largely of *Toast* and *Water* :

584. Or, let your constant Drink be *Milk* and *Water* mixt.

585. The best Food is *Milk* and *Apples* :

586. Or, *Bread* dipt in *Milk* and *Water*.

587. Take care to have a free, pure, and cool Air. Therefore open the Casement every Day, only do not let it chill the Patient.

588. If they strike in, and Convulsions follow, drink a Pint of *cold Water* immediately. This instantly stops the Convulsions, and drives out the Pock.

185. *A Sore Mouth.*

589. Apply the White of an *Egg*, beat up with *Loaf-sugar*.

590. Or, gargle with Juice of *Cinquefoil*.

186. *A Sore Throat.*

591. Take a Pint of *cold Water*, lying down in Bed:
592. Or, apply a Chin-stay of *roasted Figs*:
593. Or, a Flannel sprinkled with Spirits of *Hartsborn* to the Throat, and rub *Hungary-water* on the Top of the Head:
