H.R.H. the Princess of Wales uses the AMMONIAPHONE.

H.R.H. Princess Louise (Marchioness of Lorne) uses the AMMONIAPHONE.

The Right Hon. W. E. GLADSTONE, M.P. (England's silver-toned Premier), uses the AMMONIAPHONE.

"10, Downing Street, Whitehall, May 15, 1885.

"Sir,—Mr. Gladstone has received your letter of the 9th, and desires me to thank you for your kind offer to recharge his AMMONIAPHONE. When exhausted he will bear it in mind.—I am, Sir, yours obediently,
"H. W. PRIMROSE."

Lady S. MACNAMARA, Kensington Palace, writes:—
"Thursday, Jan. 29,

"Lady S. Macnamara begs to thank Mr. Harness for his letter, and will certainly inform him when the AMMONIAPHONES want replenishing. At present they are in good order."

Madame ROSE HERSEE writes:—

"Lee-place, 102, Lee High-road, Lewisham, S.E.,
April 4th, 1885.

"Dear Sirs,—Although at one time strongly prejudiced against Dr. Carter Moffat's AMMONIAPHONE, I am bound by a sense of justice to say that I have found it a most valuable invention. Recently it enabled me to conquer a prolonged hoarseness which threatened to prevent my fulfilment of an operatic engagement. I have also tried its effects on some of my pupils with striking success."

MADAME ROSE HERSEE

Mdme. ADELINA PATTI writes:—

"July 15, 1885.

"I have used your AMMONIAPHONE and find its effect most beneficial."

Madame MARIE ROZE writes:—

"Hawthorn Lodge, Finchley New-road, London,
"Oct. 25, 1884.

"Dear Sir,—I have tried your AMMONIAPHONE, with the most wonderful results. I consider it the most marvellous invention of the age for strengthening the voice and improving the tone."

Madame LOUISE LIEBHART writes:—

"67, Warwick-road, Maida-vale, London, N.W.

"I have pleasure in stating that I have given your AMMONIAPHONE a thorough trial on myself and pupils, and am perfectly satisfied with the result."

LADY MACFARREN, (wife of Sir G. A. Macfarren, the distinguished President of the Royal Academy of Music), writes:—

"7, Hamilton-terrace, N.W.,
"Oct. 22, 1884.

"I consider the AMMONIAPHONE to have a wonderfully bracing effect on the vocal organs, and shall have great pleasure in recommending it to such as have weak or relaxed throats; indeed, I have already done so."

Professor C. J. PLUMPTRE, Author of "King's College Lectures on Elocution," writes:—

"36, Hamilton Terrace, Maida Vale, N.W.

"I have now had the AMMONIAPHONE in use for some time, and I feel bound to speak in the highest terms of the results which have followed from its employment.

"I have during the past month of cold, trying cast winds, been using my voice from morning till night, lecturing, teaching, and giving recitals; but my vocal powers have remained quite unimpaired under all these unfavourable conditions.

"No one can use the AMMONIAPHONE without being struck with the wonderful increase in the volume, roundness, resonance, and flexibility of the voice.

"I feel assured that to clergymen, barristers, and, indeed, all who have to use their voices in public, it will be a great boon; and I shall not fail to recommend its use whenever I can find a fitting opportunity."

Very Rev. Dr. VAUGHAN, Dean of Llandaff, writes:—

"Nov. 5th, 1884.

"Dear Sir.—My voice has now nearly recovered its tone, and I have certainly derived benefit, though not suddenly or rapidly, from the use of your AMMONIAPHONE."

CHARLES WYNDHAM, Esq., Criterion Theatre, Piccadilly, Jan. 15, 1885, writes:—

"I have now used the AMMONIAPHONE which you forwarded me about a fortnight ago, and, although rather sceptical at first, I am bound now to confess it is of very great service to me."

Mr. J. GREENHILL (the well-known teacher of singing, and special voice trainer), writes:—

"89, Upper Gloucester-place, Regent's Park, London, July 3, 1885.

"From an eight months' trial of Dr. Carter Moffat's AMMONIAPHONE, I am enabled to say that it is indeed a remarkable invention. It clears and strengthens the voice, imparting marked improvement to the tone, and assists greatly in extending the compass. It also possesses the power of conserving the voice and sustaining one during prolonged vocal exertion, and of rendering the throat largely insusceptible to atmospheric influences and changes of temperature."

Dr. A. S. KENNEDY, L.R.C.P., L.R.C.S. &c., writes:—

"14, Conduit Street, London, W.,

"The two AMMONIAPHONES that I had from you have given very good results. Apart from improved timbre, resonance, and extension of register, which are undeniable, I have found the AMMONIAPHONE most useful in cutting short catarrhal and laryngeal troubles, and of great benefit in removing huskiness. Several patients have tried the AMMONIAPHONE at my suggestion, and are all pleased with the improvement in their voices."

THE TWO ROSES.

UNITED

IN PRAISE OF

DR. CARTER MOFFAT'S

AMMONIAPHONE.

Rev. W. HAY M. H. AITKIN writes:—

"33, Lansdowne-road, Bedford.

"Will you kindly recharge my AMMONIAPHONE? I have derived much benefit from its use. It certainly does clear the voice in a remarkable way, and enables me to get through my work, preaching two or three times a day, and sometimes oftener, with much less trouble and fatigue."

"Eastfield, Southville, Bristol.

"Dr. LOGAN sends his AMMONIAPHONE to be re-charged according to your circular, and begs to express his entire satisfaction. Before its use he was subject to relaxed throat, which has now almost entirely gone, and the effect it has upon the high notes of the register is almost marvellous."

Dr. CARTER MOFFAT attends daily at the Rooms of the MEDICAL BATTERY COMPANY, Limited, 52, OXFORD STREET, LONDON, to demonstrate the extraordinary utility of the Ammoniaphone. Write for the "HISTORY OF THE AMMONIAPHONE," an Eighty-page Treatise, post free on application.

Dr. CARTER MOFFAT'S AMMONIAPHONE (Harness' Patent) will be sent free by post to any part of the United Kingdom on receipt of P.O.O. or Cheque (crossed "London and County Bank") for 21s., and payable to C. B. HARNESS.
