**Chemical Compounds for the Cure of Scorbatic  
and other Affections.**

---

**LETTERS PATENT** to Charles William Hockaday, of Port Hall, Brighton, in the County of Sussex, Gentleman, for the Invention of "CERTAIN CHEMICAL COMPOUND OR COMPOUNDS, APPLICABLE AS A REMEDY OR REMEDIES FOR SCORBUTIC AND OTHER AFFECTIONS OF THE HUMAN BODY."

Sealed the 18th January 1854, and dated the 5th December 1853.

---

**COMPLETE SPECIFICATION** filed by the said Charles William Hockaday at the Office of the Commissioners of Patents, with his Petition and Declaration, on the 5th December 1853, pursuant to the 9th section of the Patent Law Amendment Act, 1852.

5 **TO ALL TO WHOM THESE PRESENTS SHALL COME, I, CHARLES WILLIAM HOCKADAY, of Port Hall, Brighton, send greeting.**

**WHEREAS** I am in possession of an Invention for a "CERTAIN CHEMICAL COMPOUND OR COMPOUNDS, APPLICABLE AS A REMEDY OR REMEDIES FOR SCORBUTIC AND OTHER AFFECTIONS OF THE HUMAN BODY," and have  
10 petitioned Her Majesty to grant unto me, my executors, administra-

*Hockaday's Chemical Compounds for the Cure of Scorbatic Affections, &c.*

tors, and assigns, Her Royal Letters Patent for the same, and have made solemn declaration, that I verily believe myself to be the true and first Inventor thereof :

**NOW KNOW YE**, that I, the said Charles William Hockaday, do hereby declare that the following Complete Specification, under my 5 hand and seal, fully describes and ascertains the nature of my said Invention, and the manner in which the same is to be performed, viz<sup>t</sup> :

The nature of my said Invention is as follows:—

First, I use for the complaint commonly known as scurvy, the following proportions of hyd. oxymur, five grains; acid muriat., fifteen 10 grains; viri antimonii, half ounce; aqua dist., two drachms; sacch. ust., q. s. For an adult I consider that twenty drops in a wine glass of water, and taken twice a day, to be proper and sufficient; for the age of seven years, five drops to be used; for the age of fourteen, ten drops; for twenty-one years, fifteen drops. 15

For an odontalgic tincture, I combine of acid nitros, ten drops; finct. pyreth., twenty drops; and apply the same by means of a feather, camel hair pencil, or by any other suitable means.

For the venereal complaint, gonorrhœa, I take of pulv. pot. nit., half ounce; pulv. cubeba, one ounce; pulv. trag. co., half ounce. 20 These proportions I combine, and divide the mixture into twelve powders, one to be taken three times a day in a wine glass of water.

For ringworm, I mix intimately of oxungia, one ounce; sulph. præ., two drachms; kreosote, two scruples; rose pink, ten grains. This should be applied twice a day. The above is also good in what is 25 known as grocers' itch.

For worms, I combine of pulv. scam., half drachm; hyd. submur., one scruple; sacch. alb., one drachm; misce. Doses to be taken as follows:—For the age of two years, eight grains; for the age of four, ten grains; for the age of seven, fifteen grains; and for fourteen 30 years, and over, twenty grains. One dose to be taken every other night.

For a corn plaster, I mix of plumbi superacetatis, fourteen drachms and one scruple; emp. hyd., half a pound; emp. plumbi, half a pound; emp. resinæ, half a pound; pulv. opii, two drachms. 35

*Hockaday's Chemical Compounds for the Cure of Scorbutic Affections, &c.*

---

For tooth paste, I form by a mixture of the following ingredients :—  
test. vel cretæ pp<sup>t</sup>, two drachms; pulv. irridis, two drachms; pulv.  
corralli, two drachms; alum exsicati, two scruples; cocci cacti, two  
scruples; ol. caryoph., eight drops; ess. bergam., four drops; mel. rosæ,  
5 two ounces.

Having now described the nature of my Invention, and the manner  
in which the same is carried into effect, it is to be understood that I do  
not confine myself to the precise details herein described, so long as the  
peculiar character of the said Invention or any part thereof be retained.  
10 And I do not claim the several parts of the compound or compounds  
taken separately and not combined for the purposes aforesaid. But  
what I claim is, the combination of the herein-before mentioned com-  
pound or compounds, combined and mixed in the herein-before stated  
equivalents and proportions, to accomplish the purpose for which each  
15 compound or compounds is or are intended, as before described.

In witness whereof, I, the said Charles William Hockaday, have  
hereunto set my hand and seal, this First day of December, in  
the year of our Lord Eighteen hundred and fifty-three.

CHARLES WILLIAM HOCKADAY, (L.S.)

Medical Compound for the Cure of Rheumatic Affections, &c.

For tooth paste, I form by a mixture of the following ingredients:—  
test. red oxide of iron, two drachms; galy. white, two drachms; pot.  
corall. two drachms; alum calcin'd, two scruples; rosei card. two  
scruples; oil. sweet, eight drops; ess. bergam., four drops; mol. rosei,  
two ounces.

Having now described the nature of my Invention, and the manner  
in which the same is carried into effect, it is to be understood that I do  
not confine myself to the precise details herein described, so long as the  
peculiar character of the said Invention or any part thereof be retained.  
And I do not claim the several parts of the compound or compounds  
taken separately and not combined for the purposes aforesaid. But  
what I claim is the combination of the herein-before mentioned com-  
pound or compounds, combined and mixed in the herein before stated  
equivalents and proportions, to accomplish the purpose for which each  
of the compound or compounds is or are intended, as before described.

In witness whereof, I, the said Charles William Hockaday, have  
hereunto set my hand and seal, this first day of December, in  
the year of our Lord eighteen hundred and fifty-three.
