25, SOUTHAMPTON BUILDINGS, HOLBORN.

Price 1s.

1873.

A.D. 1872, 12th AUGUST. N^o 2403.

Medicinal Compound.

LETTERS PATENT to Alexander Melville Clark, of 53, Chancery Lane, in the County of Middlesex, Patent Agent, for the Invention of "**A NEW OR IMPROVED MEDICINAL COMPOUND.**"—A communication from abroad by Claude Victor Viard, of Paris, France.

Sealed the 4th February 1873, and dated the 12th August 1872.

PROVISIONAL SPECIFICATION left by the said Alexander Melville Clark at the Office of the Commissioners of Patents, with his Petition, on the 12th August 1872.

I, **ALEXANDER MELVILLE CLARK**, of 53, Chancery Lane, in the
5 County of Middlesex, Patent Agent, do hereby declare the nature of the said Invention for "**A NEW OR IMPROVED MEDICINAL COMPOUND,**" to be as follows:—

This Invention relates to the preparation of a medicinal compound consisting of condensed milk and Vichy salts. I first take pure milk
10 from the cow and deprive it of or extract its aqueous portion, and then add pounded sugar together with a sufficient quantity of Vichy salts to render the aliment useful for the treatment of those maladies in which

Clark's Improved Medicinal Compound.

said salts are employed. I may also dispense with the sugar and simply add Vichy salts in order to render the aliment thus obtained more efficacious in the treatment of diabetes. The ingredients of the compound are to be well mixed, and then put immediately into tins and soldered up. The product (which combines the medicinal properties of both milk and Vichy salts) will keep in this form for an indefinite period in any climate, and will be found to be of great service both as a hygienic and medical preparation. 5

SPECIFICATION in pursuance of the conditions of the Letters Patent, filed by the said Alexander Melville Clark in the Great Seal Patent Office on the 11th February 1873. 10

TO ALL TO WHOM THESE PRESENTS SHALL COME, I, ALEXANDER MELVILLE CLARK, of 53, Chancery Lane, in the County of Middlesex, Patent Agent, send greeting.

WHEREAS Her most Excellent Majesty Queen Victoria, by Her Letters Patent, bearing date the Twelfth day of August, in the year of our Lord One thousand eight hundred and seventy-two, in the thirty-sixth year of Her reign, did, for Herself, Her heirs and successors, give and grant unto me, the said Alexander Melville Clark, Her special licence that I, the said Alexander Melville Clark, my executors, administrators, and assigns, or such others as I, the said Alexander Melville Clark, my executors, administrators, and assigns, should at any time agree with, and no others, from time to time and at all times thereafter during the term therein expressed, should and lawfully might make, use, exercise, and vend, within the United Kingdom of Great Britain and Ireland, the Channel Islands, and Isle of Man, an Invention for "**A NEW OR IMPROVED MEDICINAL COMPOUND,**" a communication to me from abroad by Claude Victor Viard, of Paris, France, upon the condition (amongst others) that I, the said Alexander Melville Clark, my executors or administrators, by an instrument in writing under my, or their, or one of their hands and seals, should particularly describe and ascertain the nature of the said Invention, and in what manner the same was to be performed, and cause the same to be filed in the Great Seal Patent Office within six calendar months next and immediately after the date of the said Letters Patent. 15 20 25 30 35

Clark's Improved Medicinal Compound.

NOW KNOW YE, that I, the said Alexander Melville Clark, do hereby declare the nature of the said Invention, and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement (that is to say) :—

- 5 This Invention relates to the preparation of a new medicinal compound consisting of condensed milk and Vichy salts. I first take pure milk from the cow and deprive it of, or extract its aqueous portion, and then add pounded sugar together with a sufficient quantity of Vichy salts to render the aliment useful for the treatment of those maladies in which
- 10 said salts are employed. I may also dispense with the sugar and simply add Vichy salts in order to render the aliment thus obtained more efficacious in the treatment of diabetes. The ingredients of the compound are to be well mixed, and then put immediately into tins and soldered up. The product, which combines the medicinal properties of
- 15 both milk and Vichy salts, will keep in this form for an indefinite period in any climate, and will be found to be of great service both as a hygienic and medicinal preparation.

Having described the nature of the Invention, and in what manner the same is to be performed, I declare that what I claim as the Inven-

20 tion to be protected by the herein-before in part recited Letters Patent is, the new medicinal compound consisting of condensed milk and Vichy salts with or without the addition of sugar, as and for the purposes herein specified.

In witness whereof, I, the said Alexander Melville Clark, have

25 hereunto set my hand and seal, this Eleventh day of February, in the year of our Lord One thousand eight hundred and seventy-three.

A. M. CLARK. (L.S.)
