**S**OCIETAS PHARMACOPOEORUM LONDINENSIVM *utilitati Publicæ consulens; ne cuiquam nocumentum, ex Materiæ Medicæ inscitia, oriatur provida; Quo Tyrones in Arte Pharmaceuticâ instituendi, Botanicâ etiam scientiâ (quoad rem Medicam, saltem, spectat) quam facillimè imbuantur, Stirpium officinalium Demonstrationes publicas, in Horto Chelseiano, statuit; atque Indicem sequentem typis mandari jussit. Opusculi rationem perpaucis sciat Lector.*

IN prima serie, nomina Plantarum usitatiora, ordine Alphabetico, numeris progressivis præfixis, digesta sunt; quemadmodum & Plantæ in Horto Societatis disponuntur; his synonyma officinalia (literis *Italicis*) subjiciuntur: Hoc adminiculo perfacile fuerit addiscere Plantas usuales; Stirpem enim ipsam, a primâ germinatione, cum Nomine, uno quasi intuitu, ad libitum, contemplari licet. Nihilominus ut magis pateat, studiis Botanicis vacantibus, ad rem Herbariam aditus; Appellationem specificam, Auctoris cujusdam lauda-

laudatissimi, semper annexi ; & subinde  
 Nomen genericum, scriptoribus nuperi-  
 methodicis usitatum (charactere Romano,  
 cum citatione notas etiam genericas indi-  
 cante. His subjunxi enumerationem par-  
 tium quæ usibus medicinalibus præcipuè  
 adhibentur : Nec illas annotare prætermisi,  
 quæ nuncupatione quadam communi com-  
 plectuntur : Neque inutile fore duxi Ap-  
 pellationes nonnullas obsoletiores (quæ tamen  
 in Scriptoribus pharmaceuticis, superioris  
 ævi, satis idoneis frequenter occurrunt)  
 interspergere, & Nominibus usitatoribus  
 accommodare. Sit satis hæc præfari.

Ex voto mihi omnino esset, si quod præstiti  
 consilio Societatis competeret ; & lapsus  
 ignoscere dignaretur Lector.
