oftquam recentiori hoc ævo folerti multorum opera ad Summum Res Herbaria fastigium est evecta, priscis seculis ignotam obtinuit lucem; generibus enim.per folidos characteres determinatis, nominata planta, ex dato ipsi nomine, mox innotescit.

Cumque accidat hoc ævo, quod præstantisfimi Viri, non raro, opera fua, imprimis occonomica, & non raro medica, vernacula lingva confignare loleant; qua occasione etiam plantis nomine inqvilino determinatis fit, ut quando Nationes aliæ libros propria fingulis gentibus lingva fcriptos, in suam utilitatem legunt, consulendi sæpe fint Boranici, qvænam planta hoc vel illo nomine intelligatur. At vero præstantissimi Botanici fæpe ad nomina indigena hærent, cum neque in Caspari Baubini Pinace, neque in Synonomiis usitatissimis reperiantur. Hinc Botanicis patriæ non inutilem, ut spero, operam navaturus sum, dum propoluero

posuero homonymias plantarum nominibus Gallicis, Anglicis, Belgicis & Germanicis, qvo qvivis, ad lectionem ejusmodi librorum, primo intuitu eruat, ad quodnam genus singula spectent.

SVECANA heic prætermisi, utpote quæ dudum in Flora Svecica copiose sunt enumerata.

ITALICORUM difficillime obtinentur, præter ea, quæ in *Flora* fua *Verozenfi* tradidit, Clariff. Seguierus; quum etiam hoc tempore floræ Italicæ longæ funt rariffimæ, ut, excepta Veronenfi, vix ulla Italica nomine digna occurrat.

HISPANICA & LUSITANICA nomina vix in ullo folido scripto Botanico reperire potui,

DANICA Svecanis & Germanicis adeo sunt adfinia, ut ex his pleraque mixta sint.

In hoc Nomenclatore conficiendo idem apud cæteras gentes, quod in nostratibus, usu venire perspexi, eandem nempe plantam in diversis ejusdem regni provinciis diversa sortiri nomina. Cum vero chartarum hæc angustia copiam dicendorum non admittat, præstantiorem tantum elegi dialectum, utque viam tenerem tutissimam, Summos Botanicos in patria suas plantas adscribentes, sum secutus, atque adeo pleraque GALLICA, a Tournefortio, ANGLICA a Rajo, BELGICA a Gortero, GER-MANICA a Ruppio, Boebmero aliisque sum

MENTZELIUS (Christianus) in indice polyglotto sistit Græca, Italica, Hispanica, Gallica, Anglica, Auglica, Germanica, Danica, Bohemica, Polonica, Arabica, aliarum lingvarum nomina plantarum fummo studio collecta; cum vero nomenclaturam ejus a Boranicorum jam nominatis, non raro majorem in modum dissentire deprehenderim, ipsi adhærere minus consultum duxi.

Nomina Latina tantum Generica recensui, ad species enim exspatiari nimis mihi diffusum foret argumentum, quod aliis libenter relinquo. In his recentendis imprimis plantas Europæas assums , & præter cas, quæ in bortis Europæarum vulgatissima sunt. Plantas enim Indicas Europæis nominibus enumerare superssum duxi; Europæi enim in Indias delati nomina Europæa plantis imponunt ob qualemcunque cum Europæis convenientiam, cum tamen sepius vix minima cum iisdem intercedat cognatio.

Plantarum Europæarum plurima funt genera, quæ vulgus innominata reliquit, quum nec fingulari fapore aut odore, nec qvopiam Oeconomico aut Medico ufu fe commendent, nec magnitudine, nec fpeciofis floribus, nec infigni alia nota vulgo innotefcant, Hinc multis nulla nomina indigena impofita fuere, ut Saginæ, Moehringiæ, Peplis, & ejusmodi pluribus.

Ut meos intra chartulam hanc angustam coarctarem limites, genera secundum sexualem disposui methodum, synonymis per columnas designatis. Si lector ex hoc sibi conficiat, secundum distinctas lingvas, distinctos indices alphabeticos, facilius eruat nomen Botanicis usitata lingva vulgare; quod arcti heic limites non admittunt.

Mon très cher Frere!

Il n'y a personne au monde, qui n'approuve lajoie, que l'on fait éclater aux avantages, que ies amis & ses parents peuvent remporter. C'est pourquoi, Mon cher Frere, qu'etaut autorise, je ne puis me dilpenser de vous temoigner la mienne, à l'occasion de la dissertation, que vous allez donner au public, & par la quelle vous ferez mis au rang des perfonnes Euridiques, qui n'aiment pas a croupir dans la paresse. L'etroite liaison qui est entre nous, ne me permet pas de vous accorder les éloges qui vous sont deuës. Mais ce que je crois me convenir le mieux; c'est de vous feliciter de la façon la plus convenable à ma modestie & à la votre. Plut à Dieu! que ces premices de vos travaux academiques soient d'aussi bon augure pout l'avenir, qu'ils les sont pour le prèsent, & que vous puissiez jouir de tout le bonheur, qui peut remplir Vos desirs, & ceux de Vos proches. Au reste, mon cher Frere, Vous devez étre persvadé, que personne ne prendra plus de part, dans tout ce qui Vous arrivera d'honneur, que moi, qui svis du fond de l'ame,

Mon très cher Frere

Votre très humble Serviteur & très fidele Frere. JEAN BERZELIUS,
