1. The first part of the book is devoted to a general
description of the country, its climate, soil, and
resources. It is a very interesting and useful
work, and is highly recommended to all who
are interested in the history and geography of
the country. The second part of the book is
devoted to a description of the principal cities
and towns, and the third part to a description
of the principal rivers and lakes. The book is
very well written, and is highly recommended
to all who are interested in the history and
geography of the country.
