- A book of singular importance, and the only one published upon the Social Annals of the British people. No work, professing to be a history of England, can pretend to any real value, unless based upon the statistics which show forth the inner life of the masses, and their gradual progress through the phases of civilization. These statistics are collected here; and it may be remarked as a rather curious fact, that the late Mr. Buckle, for whose work these details of domestic history would have been amongst its most valuable ingredients, seems to have been wholly ignorant of Eden's State of the Poor.
