BECHUANALAND PROTECTORATE.

ANNUAL MEDICAL AND SANITARY REPORT.

1 9 3 7.

SECTION 1 - ADMINISTRATION.

1. STAFF.

The authorised staff consists of :-

EUROPEAN:

- 1 Principal Medical Officer.
- 8 Medical Officers.
- 5 Subsidized Medical Missionaries.
- 1 Subsidized Doctor at Mafeking.
- 1 Clerk to the Principal Medical Officer.
- 1 Clerk-Typist.
- 1 Part time Clerk (Chamber of Mines)
- 3 Hospital Matrons.
- 7 Staff Nurses.
- 1 Welfare Officer (Chamber of Mines)
- 1 Hospital Assistant and Dispenser.
- 1 Sanitary Inspector.
- 2 Chauffeur-Mechanics.
- 1 Mechanic.

NATIVE:

- 2 Dispensers.
- 2 Dispenser Interpreters.
- 2 Pupil Dispensers.
- 4 Pupil Sanitary Inspectors.
- 6 Male Nurses (Grade IV)
- 2 Nurse Aids.
- 7 Female Nurses (Grade V)
- 1 Messenger.
- 3 Cooks.
- 5 Washerwomen and Laundry Boys.
- 3 Ward Attendants.
- 3 Staff Housemaids.
- 3 Gardeners.
- 1 Mechanic.

2. APPOINTMENTS, CHANGES, ETC. IN THE STAFF:

Miss M. C. Maddison was appointed as a Staff Nurse on 19th January, 1937.

Miss M. Ford, Matron, left the Service on 15th February, 1937.

Miss C. G. Matthews was appointed as a Staff Nurse on 14th April, 1937.

Dr. R. E. Palmer-Field was appointed as a Temporary Medical Officer on 1st June, 1937.

Miss E. Howard, Staff Nurse, proceeded on overseas leave on 3rd June, 1937, and owing to ill health, did not return.

Dr. J. W. Stirling, Principal Medical Officer, proceeded on overseas leave on 10th June, 1937 and was relieved by Dr. D. Drew as Acting Principal Medical Officer.

Miss D. M. Koolman was appointed as a Staff Nurse on 1st August, 1937.

Dr. R. E. Palmer-Field, Temporary Medical Officer, left the Service on 11th August, 1937.

Miss M. B. Glenday, Staff Nurse, left the Service on 26th August, 1937.

Dr. R. V. de Villiers was appointed as a Temporary Medical Officer on 1st September, 1937.

Miss M. C. Maddison, Staff Nurse, left the Service on 23rd September, 1937.

Miss D. Hurne was appointed as a Temporary Staff Nurse on 22nd October, 1937.

Dr. J. W. Stirling, Principal Medical Officer, returned from overseas leave on 15th November, 1937, and took over from Dr. D. Drew.

Miss C. H. Mitchell, Matron, left the Service on 30th November, 1937.

Miss L. Loftus was appointed as a Staff Nurse on 8th December, 1937 and left the Service on 15th December, 1937.

During the year Doctors Marcus and Foster of the Seventh-Day Adventist Mission arrived in the Territory and Dr. Abbott, of the same Mission, was transferred elsewhere.

3. POSTINGS OF STAFF ON 31st DECEMBER, 1937:

MAFEKING :-

Principal Medical Officer, Dr. J. W. Stirling.
Clerk, Mr. J. Anderson.
Clerk-Typist, Miss D. Mearns.
1 Native Messenger.
1 Native Washerwoman.

FRANCISTOWN:

Medical Officer, Dr. C. G. Hamilton
Acting Matron, Miss M. Ensor-Smith.
Staff Nurse, Miss D. Welman.
1 Native Pupil Dispenser.
4 Native Nurses.
1 Native Ward Attendant.
1 Native Housemaid.
1 Native Laundry Boy.
1 Native Gardener.
1 Native Cook.

LOBATSI:

Medical Officers, Dr. D.J.M. MacKenzie
Dr. R.V. de Villiers.
Acting Matron, Miss D. Barr.
Staff Nurses, Miss J. Eales.
Miss D. Hurne.
Miss D. M. Koolman
Part-time Clerk, Miss B. Cocklin
1 Native Dispenser.
5 Native Nurses.
1 Native Ward Attendant.
2 Native Laundry Boys.
1 Native Cook
1 Native Housemaid.
1 Native Gardener.
1 Native Mechanic.

SEROWE:

Medical Officer, Dr. A.A. Morgan,
Dispenser, Mr. H. F. Bennett.
Acting Matron, Miss G. M. Ross
Staff Nurse, Miss C. G. Matthews
Welfare Officer, Miss E. Haile
Mechanic, Mr. P.A. McIntosh
1 Native Pupil Dispenser
4 Native Nurses
1 Native Ward Attendant
1 Native Housemaid
1 Native Cook.
1 Native Washerwoman
1 Native Gardener.

GABERONES:

Medical Officer, Dr. M. Gerber.
1 Native Pupil Dispenser.

MAHALAPYE:

Medical Officer, Dr. M. L. Freedman.
1 Native Dispenser Interpreter.

TRAVELLING DISPENSARY No. 1 (Based on Mafeking)

Medical Officer, Vacant.
Chauffeur-Mechanic, Mr. G. Duhy
1 Native Driver.

TRAVELLING DISPENSARY No. 2 (Based on Francistown)

Medical Officer, Dr. B. T. Squires
Chauffeur Mechanic, Mr. H. R. Gorlt
1 Native Pupil Dispenser.
1 Native Driver.

SANITATION:

Sanitary Inspector, Mr. G. T. Joyce
Pupil Sanitary Inspectors, 3, Natives.

KANYE: (Seventh-Day Adventist Mission)

Subsidized Medical Missionary.
1 European Trained Nurse.

MOCHUDI: (Dutch Reformed Church)

Subsidized Medical Missionary.
1 European Trained Nurse.

MAUN: (Seventh-Day Adventist Mission)

2 Subsidized Medical Missionaries.
1 European Trained Nurse.

KHALE: (Roman Catholic)

Subsidized Medical Missionary.

RAMOUTSA: (Berlin Lutheran Mission)

Subsidized Welfare Worker.

ABSENT ON LEAVE:

Dr. D. Drew Medical Officer.

4. It has again been found necessary to maintain the authorized European Staff by the employment of a certain number of locums, not only to allow the Staff to obtain leave, but also to fill vacancies in the Service.

5. Ordinances and Regulations affecting Public Health enacted during the year:

Proclamation No. 7 of 1937, amending the Bechuanaland Protectorate Medical, Dental and Pharmacy Proclamation (No. 62 of 1934) in respect of the fees payable for registration.

High Commissioner's Notice No. 195 of 1937, approving a schedule of preparations exempted by the Resident Commissioner from the provisions of the Bechuanaland Protectorate Opium and Habit Forming Drugs Regulation Proclamation, (No. 36 of 1922).

6. Financial:

In respect of the financial years ended 31st March 1937 and 31st March, 1938 :-

ORDINARY REVENUE :-

Hospital and Dispensary Fees for year ended 31st March 1937	£1,167. 1. 1
Hospital and Dispensary fees for year ended 31st March, 1938	£1,560.17. 7

ORDINARY EXPENDITURE:

Personal Emoluments	£11,455. 4. 2
Other Charges	8,670.18. 7
For year ended 31st March, 1937	£20,126. 2. 9
Personal Emoluments	£11,920.14. 2
Other Charges	£10,831. 3. 8
For year ended 31st March, 1938	£22,751.17.10
Total expenditure of Protectorate for year ended 31st March, 1937	£167,309.16. 0
Total expenditure of Protectorate for year ended 31st March, 1938	£181,790. 5. 5
Relation of Medical expenditure to total expenditure for year ended 31st March, 1937	12.02%
Relation of Medical expenditure to total expenditure for year ended 31st March, 1938	12.51%

SECTION 11 - PUBLIC HEALTH

7. The general health of the community was, on the whole, fairly good throughout the year.

8. Periodic inspections of the hotels were made, and these inspections have undoubtedly helped to maintain a reasonable standard of cleanliness and comfort.

9. Towards the end of March a Medical Commission, consisting of Sir Walter Johnson, C.M.G., lately Director of Medical and Sanitary Services in Nigeria, arrived in the Protectorate. The Commission was appointed by the Secretary of State for Dominion Affairs to advise on medical administration in the Territory.

10. Among the suggestions put forward by the Commission were the establishment of a system of Fixed Dispensaries, the construction of a Maternity Hospital, and the carrying out of a Tuberculosis Survey of the Protectorate.

11. The Commission also recommended the provision of extra funds for intensive anti venereal disease measures and for the supply of badly needed equipment at the hospitals.

12. It is hoped that it will be possible to bring the major recommendations of the Commission into effect within the next year or two, as their adoption will increase the value of this Department's services to the community to a much larger extent than is at present possible

13. PLAGUE:

No cases of plague occurred during the year, nor were any suspected cases reported. Constant vigilance is, however, maintained for any signs of a possible outbreak.

14. SCURVY: 168 cases of scurvy were reported as compared with 229 cases in 1936, but it must not be inferred that the decrease in the incidence of this disease is due to better nutrition as, at present, the only certain means of ascertaining its prevalence is from attendances at the dispensaries.

15. TUBERCULOSIS: The following table gives the incidence of pulmonary and other forms of this disease. for the last three years:

	1935	1936	1937
Tuberculosis (Pulmonary)	290	332	324
Tuberculosis (Other forms)	178	103	194

While the above figures indicate a slight decrease in the incidence of Pulmonary Tuberculosis and a considerable increase in the incidence of other forms of the disease, it must be borne in mind that the natives do not, as yet, readily seek the aid of European doctors, and any conclusions may be fallacious.

16. SYPHILIS: The total number of cases of Syphilis treated during the year was 6,061, an increase of 489 over the number treated during the previous year.

It will, however, be seen from the following table that there is again a decrease in the proportion of Syphilis to the number of outpatients:

	Number of cases of Syphilis	Total number of Outpatients' First Attendances	Proportion of Syphilitics to Out-Patients.
1935	6,817	27,662	25%
1936	5,572	27,196	21%
1937	6,061	31,403	19.3%

17. YAWS: The number of cases of Yaws was 17, a considerable decrease on the figures for previous years.

18. GONORRHOEA: The following table shows the number of cases over the last three years:

1935	892 cases
1936	622 cases
1937	693 cases

19. MALARIA: 1,393 cases of Malaria were reported, a decrease on the figures for 1936.

The incidence of Malaria in the Protectorate is very largely governed by the amount and distribution of the rainfall.

20. BILHARZIA: The number of cases treated was 31, a slight decrease on the previous year. The incidence of this disease is mainly confined to the Bakgatla Reserve. A decrease in the annual figures for Bilharzia has been noted for some years past.

21. MEASLES: Only 13 cases of Measles were reported during the year.

22. WHOOPIING COUGH: There was a large increase in the figures for this disease, 444 cases being reported against 268 in 1936. The largest numbers attended were at Serowe (150 cases) and at Molepolole (91 cases).

23. DYSENTERY: 285 cases were reported, an increase over the previous year. As in 1936, most of these cases occurred at Molepolole (118 cases) and at Mochudi (49 cases)

24. ALASTRIM: Two cases occurred at Lobatsi, two at Mochudi and four were seen at the Tati Training Institute by No. 2 Travelling Dispensary. Isolation and vaccination were put into force and the spread of infection was prevented.

25. CEREBRO SPINAL MENINGITIS: 13 cases were reported during the year, 5 of which occurred in the Kalahari Desert. There were only two deaths. From investigations made it

was concluded that infection had originated in the Banwaket-si Reserve. The necessary precautions were immediately taken to limit the spread of this disease as far as possible.

26. ONYAIAI: No cases were reported during the year.

27. LEPROSY: Reported cases of Leprosy increased to 28. The distribution of these cases was Ngamiland (20 cases), Francistown (5 cases) and Kanye (3 cases). The Medical Mission of the Seventh Day Adventists at Maun have in view a scheme for the establishment of a small Leper Colony.

28. RABIES: No cases were reported during the year.

SECTION 111 - VITAL STATISTICS

29. The total population, according to the 1936 Census, was 260,064. It is not possible to obtain vital statistics in respect of the Native population, but the following figures, obtained from the District Commissioners, give the available figures for Europeans:-

Total European Population	1,914
Total European births	44
Total European deaths	19
European birth rate, per thousand	22.9
European death rate, per thousand	9.9

SECTION IV - SANITATION AND HYGIENE

30. There has been considerable improvement in the sanitary conditions of many of the native villages since the appointment of a Sanitary Inspector.

31. Much remains to be done, in this direction, and progress must necessarily be slow. The large villages in which the Bechuana congregate present a very difficult problem and Serowe, the largest of these, has practically no sanitation at all.

32. The vast size of the Protectorate, the primitive conditions in which many of the natives live, and the fact that they do not, and can hardly be expected to, realise the value of sanitation, all tend to retard the work. The teaching of Hygiene in the schools continues to make good progress and it is from this generation that one may expect a more enlightened outlook with regard to sanitation generally.

33. Talks on sanitation, persuasion, and securing the interest and good will of the Chiefs, are the principal weapons at our command and the results are definitely encouraging.

34. Social and Welfare Work: The steady increase in the work carried out at the Social and Welfare Centre at Serowe continues and the fact that numbers of the Bamangwato women are surely but slowly obtaining a knowledge of Hygienic maternity and of proper ante-natal methods, in addition to practical help in child birth and sickness is beginning to bear fruit in that women now come into the Maternity Huts at Serowe from the lands for their confinements.

35. During the year 959 huts were visited by the Welfare Nurse. The number of maternity cases attended was 203, and the number of persons who attended the ante-natal clinic was 225.

SECTION V - HOSPITALS AND DISPENSARIES

36. The total number of outpatient attendances at the Government and Medical Mission Hospitals and Outstations was 79, 179. Of these, 31,403 were first attendances, the highest figure yet recorded.

37. The following table shows the number of attendances at each Station:-

<u>Station</u>	<u>First Attendances</u>	<u>Subsequent Attendances</u>	<u>Total</u>
LOBATSI	2,107	2,323	4,430
GABERONES	2,091	4,866	6,957
SEROWE	4,898	10,525	15,423
FRANCISTOWN	3,738	1,372	5,110
NGAMILAND	1,372	3,434	4,806
(a) MAFEKING	2,175	1,367	3,542
TRAVELLING DISPENSARY No. 1.	1,166	1,280	2,446
TRAVELLING DISPENSARY No. 2.	1,407	169	1,576
KANYE	2,556	1,678	4,234
MOCHUDI	2,876	9,275	12,151
MOLEPOLOLE	4,199	11,487	15,686
(b) KHALE	2,541		2,541
(b) RAMOUTSA	277		277
TOTAL:	<u>31,403</u>	<u>47,776</u>	<u>79,179</u>

(a) Includes 1,649 Railway employees on the Mafeking-Palapye Section

(b) Complete figures not available.

38. HOSPITALS: The number of inpatients who were treated during the year was 2,134, an increase of 383 over the previous year.

The number of operations performed was 1,189, of which 226 were major and 963 minor operations.

39. The following table shows the number of inpatients who were treated at the various hospitals during 1937, as compared with the number treated during 1936:

	<u>1936</u>	<u>1937</u>
LOBATSI	528	515
SEROWE	341	440

	<u>1936</u>	<u>1937</u>
FRANCISTOWN	376	440
NGAMILAND	37	205
KANYE	172	165
MOCHUDI	103	123
MOLEPOLOLE	180	231
RAMOUTSA	14	17
	<u>1,751</u>	<u>2,134</u>

40. MEDICAL MISSIONS: The hospital of the Seventh Day Adventist Mission at Maun, in Ngamiland, was opened by the District Commissioner, Ngamiland, representing the Resident Commissioner, on the 15th February.

41. The hospital, which has two European and twenty Native beds, was constructed in part from a Government grant of £2,500 from the Colonial Development Fund, the balance of the cost being provided by the Mission. The Government contributes £1,000 per annum towards the upkeep of the hospital.

42. This hospital should prove a most useful addition to the means at our disposal for improving the health of the community, as it will serve a large area which previously lacked proper hospital facilities.

43. The fact that inpatient treatment could be given to 205 persons during the first year of the Maun hospital's existence, as against 37 persons during 1936, indicates the value of the services which may be expected in the future.

44. The work done by the other Medical Mission hospitals and dispensaries in the territory continues to be most valuable and there is, on the whole, a steady increase in the number of patients treated, as will be seen from the tables in this report.

45. The Mission hospitals and dispensaries now functioning in the Protectorate are at Kanye and Maun (Seventh Day Adventists), Molepolole (United Free Church of Scotland), Mochudi (Dutch Reformed Church), Ramoutsa (Roman Catholic) and a small station also at Ramoutsa, which is maintained by the Berlin Lutheran Mission. All are doing excellent work by bringing relief to sections of the population which are beyond the reach of established Government Institutions.

46. With the exception of the United Free Church of Scotland hospital at Molepolole, all these Medical Missions receive Government subsidies.

47. It is a matter for regret that it was not found possible for the hospital of the London Missionary Society, which is being built with the assistance of a grant from the Colonial Development Fund, to be completed during the year, but it will be ready early in 1938.

48. TRAVELLING DISPENSARIES: Both units gave good service during the year and brought medical help to parts of the Territory which are, at present, beyond the reach of ordinary medical facilities.

49. In computing the value of the work performed, due regard must be given to the great distances which have to be covered in very difficult country. For example, during 1937, each vehicle of No.1 unit travelled nearly 16,000 miles in the Kalahari Desert, entailing tremendous wear and tear on the vehicles and a considerable amount of hardship on their crews.

50. OFFICIAL VISITS: His Honour the Resident Commissioner visited the hospital at Molepolole on the 14th May, and the hospital at Maun on the 18th July.

51. Sir Walter Johnson, C.M.G., visited all the hospitals and dispensaries during the tour carried out by the Medical Commission.

52. The Principal Medical Officer inspected the Government and Mission hospitals at various times during the year.

SECTION VI - PRISONS AND ASYLUMS.

53. PRISONS: The prisons are well maintained and the health of the prisoners has been good.

54. ASYLUMS: There are no asylums in the Protectorate. Harmless mental patients are cared for by their relatives and friends. Dangerous lunatics are transferred to institutions in the Union of South Africa.

During the year two Europeans and seven Natives were detained in these institutions.

J. W. STIRLING

PRINCIPAL MEDICAL OFFICER.
BECHUANALAND PROTECTORATE.

MAFEKING,

28th July, 1939.

APPENDIX "A"

RETURN OF DISEASES - OUTPATIENTS.

FOR THE YEAR 1937.

Diseases by Systems or Groups.		Principal Diseases	Male	Female
I. EPIDEMIC, ENDEMIC AND INFECTIOUS DISEASES:		1. Enteric Group:		
		(a) Typhoid Fever	1	
		3. Relapsing Fever	3	
		5. Malaria:		
		(a) Tertian	745	374
		(e) Blackwater	1	
		6. Smallpox:		
		Alastrim	5	5
		7. Measles	3	3
		8. Scarlet Fever	2	1
		9. Whooping Cough	186	224
		10. Diphtheria	1	
		11. Influenza	386	298
		13. Mumps	14	22
		16. Dysentery:		
		(a) Amoebic	34	18
		(c) Undefined or due to other causes	124	86
		20. Leprosy	20	6
		21. Erysipelas	1	6
		22. Acute Poliomyelitis	1	
		24. Epidemic Cerebro-spinal Fever	8	2
		25. Other Epidemic Diseases:		
		(a) Rubeola (German Measles)	3	
		(b) Varicella (Chicken-pox)	24	15
		(g) Yaws	8	8
		27. Anthrax	1	
		29. Tetanus	2	
		31. Tuberculosis, Pulmonary and Laryngeal	163	83
		32. Tuberculosis of the Meninges or Central Nervous System	1	1
		33. Tuberculosis of the Intestines or Peritoneum	2	
		34. Tuberculosis of the Vertebral Column	22	6
		35. Tuberculosis of Bones and Joints	14	5
		36. Tuberculosis of other organs:		
		(b) Bones	2	2
		(c) Lymphatic System	24	18
		(e) Other organs	44	43
		38. Syphilis:		
		(a) Primary	97	58
		(b) Secondary	705	647
		(c) Tertiary	1716	2399
		Total carried forward	4365	4330

I. EPIDEMIC, ENDEMIC AND
INFECTIOUS DISEASES:

Male

4964

Female

4760

Diseases by Systems or Groups.		Principal Diseases	Male	Female
		Brought forward	4365	4330
I. EPIDEMIC, ENDEMIC AND INFECTIOUS DISEASES: (Contd.)		36. Syphilis:		
		(d) Hereditary	79	137
		(e) Period not indicated	61	67
		39. Soft Chancre	16	
		40. A. Gonorrhoea and its complications	407	207
		B. Gonorrhoeal Ophthalmia	16	12
		C. Gonorrhoeal Arthritis	12	5
		41. Septicaemia	2	
		42. Other Infectious Diseases	5	2
		43. Cancer or other malignant Tumours of the Buccal Cavity	2	3
		44. Cancer or other malignant Tumours of the Stomach or Liver	2	1
		45. Cancer or other malignant Tumours of the Peritoneum Intestines, Rectum		1

		(a) Diseases of the Eye	78	44
		(b) Conjunctivitis	346	295
		(c) Trachoma	21	24
		(d) Tumours of the Eye	11	4
		(e) Other affections of the Eye	251	213
		86. Affections of the Ear or Mastoid Sinus	279	259
IV. AFFECTIONS OF THE CIRCULATORY SYSTEM:		88. Acute Endocarditis or Myocarditis	6	7
		89. Angina Pectoris	2	1
		90. Other Diseases of the Heart		
		(a) Mitral	31	27
		Aortic	5	6
		Tricuspid	1	
		Pulmonary	2	
		(b) Myocarditis	25	31
		91. Diseases of the Arteries:		
		(a) Aneurism	1	
		(b) Arterio-Sclerosis	21	4
		(c) Other Diseases	1	
		92. Embolism or Thrombosis (non-cerebral)	3	
		93. Diseases of the Veins:		
		Haemorrhoids	17	6
		Varicose Veins	6	10
		Phlebitis	2	1
		94. Diseases of the Lymphatic System:		
		Lymphangitis	4	2
		Lymphadenitis, Bubo (non- specific)	44	39
		95. Haemorrhage of undetermined cause	3	6
		96. Other affections of the Circulatory System	10	6
		Total carried forward	7255	6890

Diseases by Systems or Groups.		Principal Diseases	Male	Female
		Brought forward	7255	6890
V. AFFECTIONS OF THE RESPIRATORY SYSTEM:		97. Diseases of the Nasal Passages:		
Male	Female	Adenoids	7	1
		Polypus	5	5
1773	1758	Rhinitis	24	35
		Coryza	193	145
		98. Affections of the Larynx:		
		Laryngitis	66	69
		99. Bronchitis:		
		(b) Chronic	378	508
		100. Broncho-pneumonia	725	675
		101. Pneumonia:		
		(a) Lobar	49	47
		(b) Unclassified	37	17
		102. Pleurisy, Empyema	9	8
		103. Congestion of the Lungs	38	25
		104. Gangrene of the Lungs	6	4
		105. Asthma	34	41
		107. Other affections of the Lungs	202	178
VI. DISEASES OF THE DIGESTIVE SYSTEM:		108. A. Diseases of Teeth or Gums:		
Male	Female	Caries, Pyorrhoea, etc.	357	333
		B. Other affections of the Mouth:		
2627	3066	Stomatitis	45	46
		Glossitis, etc.	3	5
		109. Affections of the Pharynx or Tonsils:		
		Tonsillitis	239	315
		Pharyngitis	116	130
		110. Affections of the Oesophagus		1
		111. A. Ulcer of the Stomach	7	4
		B. Ulcer of the Duodenum	1	4
		112. Other affections of the Stomach:		
		Gastritis	24	18
		Dyspepsia, etc.	459	652
		113. Diarrhoea and Enteritis:		
		Under two years	169	154
		114. Diarrhoea and Enteritis:		
		Two years and over	166	164
		Colitis	16	16
		116. Diseases due to Intestinal Parasites:		
		(a) Cestoda (Taenia)	25	15
		(b) Trematoda (Flukes)	2	
		(c) Nematoda (other than Ankylostoma) Ascaris		2
		Oxyuris	3	4
		(e) Other parasites	2	4
		117. Appendicitis	26	28
		118. Hernia	47	21
		Total carried forward	10735	10564

Diseases by Systems or Groups	Principal Diseases	Male	Female
	Brought forward	10735	10564
VI. DISEASES OF THE DIGESTIVE SYSTEM (Contd):	119. A. Affections of the Anus, Fistula, etc.	10	8
	B. Other affections of the Intestines: Enteroptosis	1	
<u>Male</u> <u>Female</u>	Constipation	820	1041
2627 3066	120. Acute Yellow Atrophy of the Liver	1	
	122. Cirrhosis of the Liver: (a) Alcoholic	4	
	123. Biliary Calculus	1	4
	124. Other affections of the Liver: Hepatitis	14	8
	Cholecystitis	5	21
	Jaundice	3	5
	127. Other affections of the Digestive System	61	63
VII. DISEASES OF THE GENITO-URINARY SYSTEM (NON- VENERAL):	128. Acute Nephritis	14	26
	129. Chronic	29	39
	130. B. Schistosomiasis	23	8
	131. Other affections of the Kidneys: Pyelitis, etc.	10	22
<u>Male</u> <u>Female</u>	132. Urinary Calculus	4	
318 1332	133. Diseases of the Bladder: Cystitis	117	131
	134. Diseases of the Urethra: (a) Stricture	13	
	(b) Other	48	38
	135. Diseases of the Prostate: Hypertrophy	10	
	Prostatitis	8	
	136. Diseases (non-Veneral) of the Genital Organs of Man: Epididymitis	4	
	Orchitis	15	
	Hydrocele	6	
	Ulcer of Penis	5	
	137. Cysts or other non-malignant Tumours of the Ovaries	12	11
	138. Salpingitis: Abscess of the Pelvis		226
	139. Uterine Tumours (non- malignant)		29
	140. Uterine Haemorrhage (non- Puerperal)		75
	141. A. Metritis		45
	B. Other affections of the Female Genital Organs: Displacements of Uterus		80
	Amenorrhoea		98
	Dysmenorrhoea		385
	Leucorrhoea		78
	142. Diseases of the Breast (Non puerperal): Mastitis		21
	Abscess of Breast		20
	Total carried forward	11973	13046

Diseases by Systems or Groups	Principal Diseases	Male	Female
	Brought forward	11973	13046
VIII. PUERPERAL STATE:	143. A. Normal Labour		289
	B. Accidents of Pregnancy:		
	(a) Abortion		56
	(b) Ectopic Gestation		2
	(c) Other accidents of Pregnancy		196
<u>Female</u> 576	144. Puerperal Haemorrhage		5
	145. Other accidents of Parturition		1
	146. Puerperal Septicaemia		5
	147. Phlegmasia Dolens		5
	149. Sequelae of Labour		11
	150. Puerperal affections of the Breast		6
IX. AFFECTIONS OF THE SKIN AND CELLULAR TISSUES.	151. Gangrene		1
	152. Boil: Carbuncle	49	38
<u>Male</u> <u>Female</u>	153. Abscess:		
	Whitlow	81	59
	Cellulitis	50	48
992 949	154. A. Tinea	16	6
	B. Scabies	420	318
	155. Other Diseases of the Skin:	193	249
	Brythema	35	43
	Urticaria	43	66
	Eczema	79	95
	Herpes	11	10
	Psoriasis	3	9
	Elephantiasis	1	2
	Myiasis	11	5
X. DISEASES OF BONES AND ORGANS OF LOCOMOTION (OTHER THAN TUBERCULOUS)	156. Diseases of Bones Osteitis	19	7
	157. Diseases of Joints: Arthritis	96	60
	Synovitis	75	38
<u>Male</u> <u>Female</u> 257 171	158. Other diseases of Bones or Organs of Locomotion	67	66
XI. MALFORMATIONS:	159. Malformations: Hydrocephalus		2
<u>Male</u> <u>Female</u> 2 4	Spina Bifida, etc.	2	2
XII. DISEASES OF INFANCY:	160. Congenital Debility	32	58
<u>Male</u> <u>Female</u> 57 83	162. Other affections of Infancy	21	21
	163. Infant neglect (infants of three months or over)	4	4
	Total Carried forward	13281	14829

Diseases by Systems or Groups		Principal Diseases		Male	Female
		Brought forward		13281	14829
XIII.	AFFECTIONS OF OLD AGE:	164.	Senility: Senile Dementia	17	3
	<u>Male</u> <u>Female</u>				
	17 3				
XIV.	AFFECTIONS PRODUCED BY EXTERNAL CAUSES:	166.	Corrosive Poisoning (intentional)		1
	<u>Male</u> <u>Female</u>	168.	Suicide by Hanging or Strangulation	1	
	1282 836	175.	Food Poisoning: Botulism	1	
		176.	Attacks of poisonous animals: Snake Bite	6	2
			Insect Bite	24	19
		177.	Other accidental Poison- ings	3	2
		178.	Burns (by Fire)	151	134
		179.	Burns (other than by Fire)	46	47
		180.	Suffocation (accidental)	1	
		182.	Drowning (accidental)	2	
		183.	Wounds, (by Firearms war excepted)	7	
		184.	Wounds (by cutting or stabbing Instruments)	109	47
		185.	Wounds (by Fall)	136	77
		186.	Wound (in Mines or Quarries)	102	2
		187.	Wounds (by Machinery)	26	7
		188.	Wounds (crushing, e.g. Railway accidents, etc.)	16	14
		189.	Injuries inflicted by Animals, Bites, Kicks, etc.	123	40
		192.	B.Hunger or Thirst		3
		194.	Exposure to Heat: Heatstroke	1	1
			Sunstroke	1	
		196.	Murder by cutting or stabbing Instruments	1	
		201.	A.Dislocation	10	4
			B.Sprain	29	11
			C.Fracture	39	14
		202.	Other external Injuries	447	411
XV.	ILL-DEFINED DISEASES:	204.	Sudden Death (cause unknown)	3	
	<u>Male</u> <u>Female</u>	205.	A.Diseases not already specified or ill-defined:		
	77 111		Ascites	2	2
			Oedema	1	1
			Asthenia	44	100
			Shock	1	3
			Hyperpyrexia	3	5
			B.Malingering	23
