(SEE ILLUSTRATIONS, PLATE NOS. XXXIII. AND XXXIV.) **£180**

Exceedingly rare complete, only very occasionally single impressions of the genuine original issue appearing for sale.

"Goya's etched work comprises 268 pieces. The best known of these groups is Los Caprichos. These Caprices represent the most spontaneous expression of Goya's temperament and of his attitude towards the life and the society of his day. At the same time the designs were executed with due deliberation worked out in drawings in which every effect was carefully calculated and assured.

It is in this set that the creative quality of Goya's imagination is most demonstrated. The best proofs are those of the First Edition (OF WHICH THE SET DESCRIBED IS ONE) many of which were pulled by the Artist himself."—Charles H. Caffin.

\*\*\* Only 200 Copies of this magnificent Work were privately Issued by Mr. Tomkinson.

These volumes contain notices of many thousands of objects, which, while differing as to the material of which they are composed, the treatment to which the material has been subjected, and the date of their production, are yet alike in representing the **Art of Japan**, though under very varied aspects. The collection has not been limited to antique specimens, and in no case has mere rarity been a sufficient passport for admission. While in most instances the various objects are typical examples of the finest work of old Japan, others are set among them to show that even in these days the hand of the Artist has in no wise lost its cunning.
