... if a Naval force is wanted for the Coast of Italy that England must find it for the Russian Admiral has told me his ships cannot keep the sea in the winter and I see no desire to go to Sea in the Summer. The Turks are returned to Constantinople. . . . If I am left in the command even for a few months I shall send those French frigates which cannot be manned to England. . . . My mind is fixed, that I will not keep one Ship in the Med. that is not fit for any service during the Winter, those half fit, drain us of all the Stores and render us all useless. . . . ... I am aware that the first moment any insult is offered to the British Flag is to get as large a force as possible off Algiers and seize all his cruisers but if in such a contest any English vessel is taken I know what will be said against me but my dear Admiral where the object of the actor is only to serve faithfully I feel superior to the smirks or frowns of any Board . . . but I see clearly that they wish to shew I am unfit for this command, I will readily acknowledge it and therefore they need have no scruple about sending out a commander-in-chief.

. . . I am doomed to be placed in the background and I have only to thank myself for keeping my head above water so as to be noticed by the world. Ill health is now obliging me again to return to England, and it is very probable that my Flag will never be hoisted unless Lord St. Vincent can establish that a Commander in Chief is a sinecure place and that he may place a *Deputy* to do the duty *without pay or reward*. . . . Ours is the course of *Justice* and I hope there is still virtue enough left in a British jury to render it against *money* or influence.

... Jamaica is in danger, my warning comes from good authority and I have told it to Ministers. A word to the wise is enough. We all feel comfortable in Jamaica being in this critical moment under your care. I hope we shall have peace for the present. There is not a man in the world that rejoices more at the happy conclusion you have given to the French expedition to St. Domingo than myself.

We gained our just cause in a high stile over the Earl. My health has been but very indifferent but I hope to hold out to beat your friend Admiral La Touche-Tréville who took the command at Toulon the moment of his arrival, he was sent for on purpose as he beat me at Boulogne to meet me again but he seems very loth to try. . . .

... I know no more of Politicks than a newspaper but it appears that Buonaparte is mounted on such a capering mad horse that I think notwithstanding many think that he has got a good seat that he will get a fall never to rise again, this country I trust and believe will hold a dignified conduct not desirous of War but not submitting to insult. . . .

Sir William and Lady Hamilton join me in every kind wish. . . .

 I am much afraid our two young Field Marshals have allowed Soult to escape. . . . The conduct of the Austrian Army is to me incomprehensible. Certainly there must be something more than want of skill in the Commanders or want of courage in the troops to account for the rapid progress which Buonaparte is allowed to make towards Vienna.

- 337 Goldsmith (O.) The Deserted Village, a poem. By Dr. Goldsmith, (*sig. A, 12 ll.*) 12mo. London: printed for W. Griffin, at Garrick's-head, in Catharine-Street, Strand, 1777; bound with the sixth and eighth 4to editions, cloth, uncut Henry Bradshaw's copy

** The printer's ornaments and the type-setting on the title-page differ from the 1770 issues, but there is no period after "Dr", line 2 of the poem reads "cheer'd," line 37 reads "tyrant's head," line 67 "ally'd," line 152 "wandering" and line 186 "pluck'd"; in fact it has all the readings of the so-called first issue. In view of this the reading "tyrant's hand" in the 1770 issues may be the earlier one.

LARGE COPIES OF THESE RARE WORKS [275 mm. by 195 mm.]

Throughout the volume are numerous manuscript marginal notes by George Boorde and Thomas Gryffith, the former a member of a well-known but now extinct Sussex family. On the recto of the first leaf is an inscription:

"George Boorde

This Booke was given to George Boorde by his
Master Johon Sakevyle, the fyrst yere of
King Edwarde ye Syxt."

The donor was John Sackville, of Chiddingly Park, Sussex, who died in 1557 and was buried at Withyham. On recto of the first leaf of the second work is another inscription:

"George Boorde berythe name to be owner of this Booke 1556."

At the end of the "Natura Brevium" is drawn an open hand with a slashed sleeve from which proceed two lines written perpendicularly:

"Ffortune be ffrendly
Qd. Thomas Gryffith."

with a tricking of the arms and quartering of the Pelham family on same page. Opposite the last page of "Tenores" is a memorandum:

"Md. I was Admyttyd yn Grey's Inne"

but as the name of George Boorde is not to be found in the records of that Inn, the note was probably made by Thomas Griffith.

Contemporary pen flourishes and grotesques in some margins.
