EXTRACTS FROM RULES AND REGULATIONS.

PATIENTS.

Privileges of Contributors.

21. In-patients.—Subject to regulations pertaining to admission of patients, every contributor of £2 annually shall have the privilege of recommending one indoor patient in the year; of £5 annually, three indoor patients in the year; of £10 annually, the privilege of having always one patient in the hospital.

22. Out-patients.—Subject to rules pertaining to out-patients, contributors of £2 annually shall also have the privilege of recommending six outdoor patients for relief from the dispensary; contributors of £5, 12 patients; contributors of £10, 15 patients: Provided that such recommendations shall only be issued by the contributors to persons who cannot pay for medical treatment elsewhere.

23. Life contributors of £20 or more shall have the privileges set out in regulations 21 and 22 estimated as if their annual contribution had been one-tenth of their actual contribution.

24. It shall be optional for contributors to have indoor order forms supplied in lieu of outdoor forms at the rate of one of the former for six of the latter.

25. Recommendations shall only be given to persons who, on account of their straitened circumstances, are proper subjects for hospital treatment.

Admission of Patients.

26. Responsible relatives of or applicants for admission themselves shall furnish particulars of their financial position and make a declaration, on a form supplied for that purpose, to the effect that they are unable to pay for medical treatment and stating whether the applicant is entitled to medical attendance from any benefit society or lodge: Provided that the Board shall have power to refuse admission to any applicant or to charge the cost of maintenance of the applicant in hospital either to the applicant or his responsible relative or guardian.

28. Notwithstanding the provisions of regulation 26, in cases of severe accidents and of emergency, patients may be admitted at all times by the

Resident Medical Officer on duty.

29. No infectious case, or suspected infectious case (other than enteric fever or tuberculosis), or children under 12 years of age, or any infant (on account of the condition of the mother) shall be admitted to the hospital proper except with the consent of the Medical Superintendent, who may admit such patient or child in any case where the life of the patient or of the child would be endangered by his refusal to do so. Cases of infectious diseases, except as provided above, shall be admitted to the Infectious Diseases Block of the Adelaide Hospital.

30. No patient who can be treated at the Out-Patients' Department, or who is obviously incurable, shall be admitted.

- 31. It shall be the duty of the honorary medical officer concerned to discharge a patient when his treatment is completed except as provided for under the regulations for the Medical Superintendent.
- 35. The hours for patients to present their recommendations for admission shall be from 10 a.m. to 4 p.m., except in cases of emergency or accident.

Admission of Patients on Payment of Fees for Maintenance.

- 42. Persons seeking admission whose means will not enable them in any other way to procure such medical attendance as their cases may require may be admitted into the institution upon payment of maintenance fees, not exceeding the rate of 10s. per diem, and upon the patient or a responsible person entering into an agreement with the Lay Superintendent undertaking the payment during the time the patient remains in the institution.
- 43. Every person admitted for treatment at the hospital who has made a declaration or statement in writing that he is unable to pay for medical advice and that he is not entitled to any benefit from any lodge, shall, nevertheless, be liable to pay to the Board a sum not exceeding 10s. for each day during which he receives medical attendance at or from the hospital.

Visitors to Patients.

- 44. Subject to regulations hereinafter contained, relations and friends desirous of visiting patients may be admitted to the institution (by tickets only to be procured in the wards) for that purpose on Tuesdays, Thursdays, and Sundays between the hours of 2 p.m. and 4 p.m., and shall leave the wards punctually at the latter hour.
- 45. Not more than two visitors to each patient shall be allowed on any one day unless with the permission of the medical officer in charge of the case.
- 46. Exceptions to regulations 44 and 45 shall only be allowed by special permission of the Resident Medical Officer or Medical Superintendent in favor of relations or friends of patients in a dangerous state or to Jews on their Sabbath.
- 47. Near relatives and visiting members of friendly societies may be permitted to visit a patient in the evening between the hours of 7.30 p.m. and 8.30 p.m., provided they possess a night visitor's card signed by the Medical Superintendent. Such cards of admission shall be issued only to those visitors who, on account of their employment, or some other good cause, are not able to attend during the day time. The cards must be presented for inspection to the gatekeeper and the nurse in charge of the respective wards.
- 48. No person shall directly give to a patient any food, drinks, or refreshment of any kind whatsoever. All parcels shall be handed to the nurse in charge, who shall inspect them and obtain the approval of the Resident Medical Officer before handing them to the patients.

RELIGIOUS INSTRUCTION.

- 49. Patients shall be at liberty to receive the visits of ministers of the religious denominations to which they respectively belong, and a card indicating the professed religion of the patient shall be placed over the bed on admission. Ministers, however, shall not be allowed to remain in the wards during the professional visits of the medical officers without permission.
- 50. Ministers of religion and other persons visiting the hospital shall not interfere with the repose and quiet of patients.
 - 51. Public religious services shall not be held in the wards of the hospital.
- 52. A room in the hospital shall, when practicable, be available for public worship by the convalescent patients of each religious persuasion.

ANNUAL REPORT. 1926.

The Board of Management of the Adelaide Hospital, in accordance with section 12 (1) of the Hospitals Amendment Act, 1921, has the honor to submit for the information of the Hon. the Minister the fifty-seventh annual report on the administration, showing the condition and progress of the institution for the year ended December 31st, 1926.

The Board has held 57 meetings during the year.

The following information is submitted relating to the treatment of patients, costs, &c.:-

FINANCE.

Revenue.—The amount of patients' fees on account of the Adelaide Hospital again shows a satisfactory increase, the revenue for 1926 from this source being £1,094 17s. 6d. in excess of the amount received for 1925, or an increase of 11·8 per cent.

The amount of patients' fees for the Adelaide Hospital for the year 1926 was £10,383 6s. 2d., as against £2,630 6s. 8d. for the year 1921, an increase of £7,752 19s. 6d., or 295 per cent.

The fees received towards maintenance of each patient, based on the daily average number of patients, in 1926, were £24–12s. 1d. as against £7–1s. 5d. in 1921.

Patients' fees to the amount of £3,198 12s. 10d. were written off by the Board during the year.

The total receipts from all sources, and including all branches of the Hospital for the year 1926, were £20,714 6s. 11d., as compared with £20,907 6s. 8d for the year 1925, a decrease of £192 19s. 9d.

A large decrease is shown in the fees received for the maintenance of patients in the Infectious Diseases Block, £1,428 14s. 5d.

in 1926, as against £2,851 16s. 1d. in 1925, a decrease of £1,423 1s. 8d. In the year under review 99 cases less were treated than in the previous year.

An amount of £404 5s. on account of Dental Students attending the Dental Hospital was not received in time for inclusion in the year's revenue.

The Dental Branch shows an increase in patients' fees of £300 12s. 6d. over the previous year.

The amount of laboratory fees for 1926 was £187 14s, more than that received for 1925. The total revenue of this branch was 67 per cent. of the expenditure.

Details of revenue for 1925 will be found in Appendix No. 2. A comparison table showing the revenue received for the years 1921-1926 is also shown.

Expenditure.—Details of expenditure will be found in Appendix No. 2. The total expenditure for all branches of the Hospital for the year 1926 was £95,419 9s. 4d., as against £91,356 10s. 7d. for the year 1925, an increase of £4,062 18s. 9d. over the previous year.

Salaries and wages show an increase of £3,014 5s. 5d., whilst there is an increase in contingencies of £1,048 13s. 4d.

POPULATION.

The total number of patients admitted to the Hospital for the year 1926 was 7,580, being 498 more than the number admitted during 1925.

The daily average number of indoor patients was 422, as compared with 401 for the previous year.

The number of indoor patients treated for the year 1926 was 7,901 as against 7,422 in 1925.

The number of new patients attending the Outpatients' Department was 5,753, and the total number of outpatient attendances during the year was 24,943.

In the Consumptive Home the daily average was 63, and in the Infectious Diseases Block, 21.

The total number of attendances at the Dental Hospital for all purposes was 27,149. The admissions for treatment were 3,589.

OBITUARY.

Mr. R. J. Champion, who recently tendered his resignation as Lay Superintendent owing to ill-health. Mr. Champion had been in the Civil Service for over 50 years.

Mr. John Wood, Surgical Mechanic and Instrument Custodian, who had rendered 38 years of faithful service.

MATRON.

Matron Eleanor Harrald, who had been granted nine months' leave of absence, received an extension of three months' leave. Miss Lucy C. Daw continued in the position of Acting Matron for this period.

RENOVATIONS AND IMPROVEMENTS.

Balconies on Eastern Wirg.—The work of providing suitable extensions to the balconies of Flinders and Light Wards has been commenced. Provision has also been made for much needed improved lavatory accommodation for these wards.

The marquee erected last year for the purpose of providing temporary accommodation for 20 patients during the period of building improvements referred to is still in use.

FURNISHINGS AND RENOVATIONS.

The work of renovating and refurnishing the old wards has proceeded during the year, and the following wards completed:— "Martin," "Leopold," and "Wyatt." In addition, a verandah and balcony has been added to Dorcas and Beatrice Wards, together with increased lavatory facilities.

The following is a complete list of wards which have undergone structural alterations, provision of balconies, renovations, and refurnishing since the commencement of the scheme:—Adelaide, Albert, Martin, Victoria, Alexandra, Alfred, Leopold, Wyatt, Dorcas.

BUILDING ADDITIONS.

Bice Building.—The construction of this building has been completed and arrangements made to have it furnished so that it may be occupied in February, 1927.

New Kitchen and Stores Block.—The old kitchen and stores blocks chimney stacks were demolished. Accommodation is provided for cooking purposes in a temporary kitchen erected adjacent to Da Costa Ward. The work of erecting a new building on the same site is being proceeded with.

Operating Theatres.—Plans of new theatres and of alterations and additions to the existing theatre have received further consideration during the year. It is again urged that the necessary funds be provided for this work.

FUTURE BUILDING ADDITIONS.

It is strongly urged that funds be immediately made available for the erection of the following buildings:—

Operating Theatres.

Outpatients' Casualty and Admission Block.

Additional Patients' Block.

Laboratory.—Additions to the laboratory, plans of which were approved some years ago, and which have been urged from time to time, have not yet been proceeded with. The Board considers this work long overdue.

Resident Medical Officers' Quarters.—By the provision of Bice Building the old Resident Medical Officers' quarters will be reserved for nurses' additional sleeping quarters.

AUSTRAL HOUSE.

During the year the property known as "Austral House," situated on North Terrace, opposite the Hospital, was acquired by the Covernment at a cost of £29,128, for the purpose of providing increased accommodation for the nursing staff, &c.

This extra accommodation is needed for the new staff required for the Bice Building and other proposed buildings, including the Hospital for Women.

Domestic Accommodation.

The position in regard to housing the domestic staff is still most unsatisfactory. They are located in various parts of the institution, instead of in one building. In addition, 21 are required to live off the premises.

Women's Block for Obstetrics and Gynaecology.

Suitable land in the vicinity of the Dental Hospital and fronting Frome Road has been allocated for the construction of above proposed building.

TORRENS WARD.

This ward, which was erected some time ago, for the temporary accommodation of patients, being constructed of wood and iron, is considered by the Board to be most unsatisfactory in its present condition. It is urged that this structure be demolished and another temporary ward be provided on a more suitable site.

DENTAL HOSPITAL.

The Commissioners of Charitable Funds have agreed to pay the sum of £400 for the installation of hot water system.

CONSUMPTIVE HOME.

Satisfactory arrangements have been made for the reception of early tubercular male cases at the Bedford Park Sanatorium, thus relieving the institution of these cases. The Board has recommended that additional accommodation for advanced cases be provided at the Consumptive Home by the erection of a shack to accommodate 12 patients, until such time as the new Consumptive Home is erected at Yatala, which the Board urges should be proceeded with without delay.

INFECTIOUS DISEASES BLOCK.

The erection of a new Infectious Diseases Block on land at Northfield is in progress.

PATHOLOGICAL REGISTRAR.

During the year the above position was created. This position is on all fours with the positions of Surgical Registrar and Medical Registrar, one-half salary in each instance being provided by the University Council. A complete system of clinical records is now being maintained.

X-RAY.

The Board again recommends that funds be provided in next year's Estimates for the provision of a portable X-ray plant for use in wards, &c., particularly where it is inadvisable to move patients, and also to relieve the strain on the already overtaxed main plant.

FIRE PRECAUTIONS.

Monthly reports are regularly forwarded and recommendations are made from time to time by the Metropolitan Fire Brigade.

The Board again desires to record its appreciation of the assistance rendered by the Brigade in making regular inspections of all fire appliances and hydrants and for the instructions to Hospital male staff in their use.

OFFICIAL VISITORS.

The following official visitors were re-appointed by the Government for a further term of one year:—

Lady Hackett Moulden.

Mesdames Wallington and E. A. Wilson.

Messrs. F. B. H. Vincent and T. P. Howard.

Their assistance and co-operation is appreciated.

ADVISORY COMMITTEE.

Dr. Bronte Smeaton was appointed a member rice Dr. C. T. C. de Crespigny.

The Board appreciates the valuable advice received from the Committee during the year.

HOSPITAL AUXILIARY.

The lady voluntary workers of the Auxiliary, which includes a sewing circle and a kiosk in the grounds of the Hospital, continue to give excellent service to the Hospital. All the wards have been completely equipped with linen provided by funds of the Auxiliary and made up by the members. All bed linen and garments are made up of good quality materials, and these, together with a color scheme for each ward, has greatly enhanced the comfort of the patients and improved the surroundings generally.

The kiosk is conducted entirely by the voluntary work of the ladies of the Auxiliary, and is open daily for the convenience of patients, visitors to patients, outpatients, and staff.

Refreshments and extra comforts are available at the kiosk at a nominal cost, and the profits from sales are expended on linen.

All money expended by the Auxiliary on linen is subsidised by the Covernment, the amount received as subsidy being paid to a fund for the establishment of an obstetric and gynaecology branch of the Hospital.

Beourst.

The trustees of the late David Mundy, of Campbelltown, allocated the sum of £500 to the Hospital for the purpose of providing minor furnishings and other comforts for patients, principally in the consumptive wards.

The Board appreciates this valuable gift.

DONATIONS.

The Board has pleasure in recording the receipt of a further-donation of £100 from Mr. MacRobertson, confectioner, of Melbourne, received through the proprietors of the S.A. Register.

The Board also thanks the following donors :-

It is noteworthy that Wm. Thorngate's trustees have contributed this sum annually for the past 45 years.

A complete list of contributors who have subscribed to the funds of the Hospital during the past year is enclosed, also a list of life contributors on page 54.

To all these contributors the Board extends its grateful thanks for their generosity.

GIFTS, ETC.

The Board places on record its appreciation of the following gifts, &c.:-

New organ for Hospital Chapel provided by several donors. Spinal cot for female patients from ladies of the Church of England.

Erection of awning in grounds of the Consumptive Home by the Soldiers Mothers' Society.

Medical works, specimens, &c.—Valuable gifts from time to time from Dr. E. Angas Johnson.

Literature and dental specimens to Dental Hospital.—Sir Joseph Verco, Dr. E. Angas Johnson, Dr. A. I. Chapman, Prof. T. G. B. Osborn, Dr. R. H. Pulleine, Dr. Gilbert Brown, Messrs. W. J. Adams, H. J. King, H. Gill Williams, R. J. V. Smith.

Hospital reports.—From kindred institutions in and out of Commonwealth.

Books.—Magazines, clothing, produce, flowers from various benevolent persons and church societies.

Various band concerts.

Flowers, shrubs, &c .- From Director, Botanic Garden.

Newspapers.—Proprietors of the Observer, Church Guardian, M.A.N., War Cry, Patriot, Barrier Daily Truth.

Christmas festivities.—The News Father Xmas Fund; Cathedral Choir; Carol Singers.

The News.—Its efforts in connection with the Football Charity Carnival Committee, by which the institution benefited to the extent of £1,000.

APPOINTMENTS TO STAFF.

The following Honorary Medical Officers were re-appointed during the year:—Dr. W. A. Verco, Gynæcologist, Dr. R. E. Magarey, Assistant Gynæcologist; Prof. T. B. Robertson, Bio-Chemist; Dr. H. M. Jay, Aural Surgeon; Dr. W. C. Sangster, Assistant Aural Surgeon; Dr. J. J. O'Grady, Assistant Ophthalmologist; Dr. J. B. Lewis, Assistant Ophthalmologist.

The following honorary appointments were also made:—Dr. E. Angas Johnson, Sanitary Adviser; Dr. C. T. Turner, Assistant Surgeon; Dr. F. Ray Hone, Assistant Physician, Consumptive Home; Dr. J. R. S. G. Beard, Assistant Gynæcologist; Dr. F. E. Terrill, Anæsthetist; Dr. M. Schneider, Anæsthetist; Dr. E. F. West, Anæsthetist.

LEAVE OF ABSENCE.

Leave of absence was granted to Dr. C. T. C. deCrespigny for a period of nine months.

Dr. G. A. Lendon was appointed Honorary Physician (temporarily).

Dr. K. S. Hetzel was appointed Honorary Assistant Physician in the place of Dr. Lendon.

HONORARY DENTAL SURGEONS.

The following Honorary Dental Surgeons were appointed during the year:—Dr. R. Godson, Dr. J. A. O'Donnell, Mr. P. Raymond Begg, Mr. Geo. Hardy, Mr. J. Laybourne Smith.

The following were re appointed: —Dr. A. S. Randell, Dr. H. C. D. Taunton, Mr. H. Gill Williams.

GOLD MEDALLISTS.

The following, who passed first class in all subjects in examinations during probationership, were awarded gold medals:—Nurses D. M. Ward, G. M. Bruce-Smith, D. M. Burden.

RESEARCH IN STOCK DISEASES.

The Council for Scientific and Industrial Research, of Melbourne, allocated the sum of £500 for the investigation of Stock Diseases in South Australia. Dr. L. B. Bull, Director of the Laboratory, with the approval of the Board, has undertaken the supervision of this work, which is to be conducted in the laboratory.

Attached are statistics, reports, &c.

I have, &c.,

B. H. MORRIS, M.B., B.S., Chairman.

APPENDICES.

APPENDIX No. 1.

HOSPITAL STATISTICS FOR THE YEARS 1870 TO 1926, INCLUSIVE.

† For years 1870 to 1923 the amounts shown are the total annual expenditure each year. From the year 1924 the amounts shown are the otal annual expenditure each year. From the year 1924 the amounts shown are the otal annual expenditure each year. From the year 1924 the amounts shown are the otal annual £75,231 9s. 9d., does not include:—Consumptive Home, £5,743 17s. 4d.; Infectious Diseases Block, £3,800 14s. 1d.; S.A. Government Laboratory £3,989 7s. 11d.; and Dental Hospital, £4,881 0s. 3d.

† The fees rec ived do not include Consumptive Home, £925 6s. 7d.; Infectious Diseases Block, £1,428 14s. 5d.; S.A. Govt. Laboratory, £2,676 15s. 4d.; and Dental Hospital, £2,331 0s. 5d.

The total number of deaths (547) does not include Consumptives-

and Cancer Home (111) and Infectious Diseases Block (13).

The statistics for the year as compared with those of 1925, show the following:—Increases—Expenditure, £5,078 18s. 10d.; annual cost of in-patients, £9 4s. 3d.; patients' fees, £1,094 17s. 6d.; number of admissions, 498; number of deaths, 13; attendances of out-patients, 2,249; average daily number of patients, 21.

Three hundred and seventy eight patients have been sent to the Convalescent Hospital, Semaphore. The Da Costa Fund, created by Miss Da Costa, to assist convalescent patients leaving Hospital, paid for

the maintenance of these patients at the Convalescent Hospital.

APPENDIX No. 4.

OPERATIONS, 1926.

OPERATIONS ON BLOOD VESSELS.	
Ligature of arteries	1
Excision of varicose veins	12
" varicocele	15
Blood transfusion	12
Ligature of jugular veins	
The second secon	
OPERATIONS ON MUSCLES, BURSAE, TENDONS, AND NERVES.	
Tenotomy	3
Suturing tendons	18
Opening bursa	2
Excision of bursa	1
Sympathectomy	1
Resection of nerve	1
Suturing nerves	1
Nerve anastomosis	1
OPERATIONS ON BONES.	
(a) Skull—	
Elevation of depressed fracture	5
Exploratory trephine	7
Unilateral subtemporal decompression	4
Ventriculography: drainage of ventricles	2
(b) Spine—Laminectomy	
(c) Fractures— Reduction and setting of fractures (by manipulation only, under	
G.A.)	13
Reduction of fracture and dislocation	1
Wiring of fracture	12
Plating of fracture	4
Removing of plates and wires	1
Suturing patella	î
Correction of malunited fractures (osteoclasis)	5
Freshening ends of ununited fracture	6
Cleaning and setting compound fractures	9
(d) Amputations and excisions—	ald.
Amputation of toes	7
" foot	5
"thigh	- 3
fingers	24
" hand	3
" forearm	1
"upper arm	1
stump	-
Curetting bone	4
Excision of metatarsal bone	14.4
Excision of head of radius	17413
Drainage of medulla	-
	14
Sequestrectomy	11
Sequestrectomy	

OPERATIONS ON JOINTS.	
Reduction of dislocation (by manipulation)	2
Reduction of dislocation (by open operation)	1
Arthrotomy	10
Arthrectomy	4
Arthrodesis	1
Moving stiff joints	5
Excision of semilunar cartilage	6
Correction of hallux valgus: bunion	1
Correction of hammertoe	1
Removal of loose bodies	2 3
Exploration of tuberculous sinus	3
OPERATIONS ON GLANDULAR SYSTEM.	
Excision of gland (diagnostic)	-
Excision of glands (therapeutic) (specify)	17
Incision for suppuration	2 8
Partial thyroidectomy	. 8
removal at they load adenoma of cyst	1
OPERATIONS ON ALIMENTARY SYSTEM.	
Mouth, tongue, lips, &c	
Extraction of teeth	
Excision of lip (partial or complete)	2
Excision of no and glands	13
Partial of complete excision of tongue	6
Partial of complete excision of tongue and glands	2
Excision of Jaw (lower) and glands of neck	_
Excision of law (upper)	1
Closing salivary fistula	2
Oesophagoscopy	1
Removat of dentigerous cyst or epulis	1
:Stomach and intestines—	
Gastrectomy	3
Gastrostomy	4
Gastroenterostomy	63
Closing periorated peptic ulcer	7
Excision of peptic filter	2
Exploratory laparotomy	64
Freeing abdominal adnesions	4
Latacencesis abdominis	-
Closure of intestinal perforation	2
Colostomy	17
Enterectomy	6
Entero anastomosis	2
Appendectomy with dail	285
Appendectomy with drainage	17
Drainage of appendical abscess	13
subphrenic other abdominal abscess	-
Cacostomy	6
Cæcostomy	5
Repair of fæcal fistula	6
Opening colostomy	5
Closing colostomy	2 2
Enterostomy	1
Lateral anastomosis	3
Removal of F.B. in intestine	9
	-

OPERATIONS ON ALIMENTARY SYSTEM—continued.	
Hernia—	
Inguinal hernia. Radical cure	
Inguinal hernia. Strangulated	
Femoral hernia. Radical	
Femoral strangulated	Madbons.
Ventral hernia. Radical cure	
Ventral hernia. Strangulated	
Incisional hernia	
Umbilical hernia	· da sour
Liver, gall blader, spleen, pancreas— Incision and drainage hepatic abscess	To toyons
Incision and drainage hepatic abscess	ide terolo
Hydatid cyst	(
Repair ruptured liver	28
Cholecystostomy	
Cholecystectomy	48
Cholecystentrostomy	the topical
Linectomy	· AA Holek
Repair of ruptured spleen	aces in Ty
Drainage of pancreas	14 12 7000
Rectum and anus—	0.1
Hæmorrhoids. Radical cure	
Fistula in ano. Excision	
Dilutation of stricture	1111
Ischiorectal abscess. Incision and drainage	TATALAN IN A SECOND
Excision of papilloma rectum	Managar .
Excision of rectum	
Sigmoidoscopy	2
Fissure in and excision	
Prostoscopy	4
to the second se

GYNÆCOLOGICAL OPERATIONS.

Vulva—	
Incision of Bartholin's abcess	4
Excision of cysts and new growths	6-
Perineorrhaphy	34
Vaginal—	
Ant. colporrhaphy	9
Post colporrhaphy	4
Plastic for fistulæ	- 1
Post colpotomy	95
Uterus—	00
Dilatation of cervix	8
Currettage	280
Tuesholombanhy	26
Trachelorrhaphy	5
Myomeotomy	26
Subtotal hysterectomy	
Total hysterectomy	10 2
Wertheim's op.	4
Removal of polyp	4
Cauterisation of new growth	
Suturing perforated uterus	-
Shortening of round ligts	55
Ventrosuspension	1
Ventrofixation	2
Ovary and tubes—	
Excision of ovarian cyst	22
Oophorectomy	10
Salpingectomy	37
Salpingoophorectomy	32
Vaginal examination (under G.A.)	34
Salpingostomy	2
Induction of labour	1
Cæsarean section	2
Removal of ovarian tumour	1
Freeing of pelvic adhesions	9
Repair of ruptured ectopic gestation	12
OPERATIONS ON THE BREAST.	
Incision of abscess	4
Incision of tumour of breast	6
Amputation of breast	7
Ampletion of breast with along	
ampuration of preast with diands	1
Amputation of breast with glands

Excision and suture of wound	68
Burying radium at operation	23
Application of plasters, &c	6
Snipping for microscopic examination	6

X-RAY DEPARTMENT.

Honorary Radiologist . . Dr. H. C. Nott.

Radiographer Mr. C. H. Marshall.

The work demanded of the X-ray Department continues to increase, as indicated by the number of films used, as follows:— 15×12 , 3,260; 12×10 , 3,684; 10×8 , 2,995; $8\frac{1}{2} \times 6\frac{1}{2}$, 1,212; $6\frac{1}{2} \times 4\frac{3}{4}$, 18; dentals, 89; total 11,258.

The number of examinations carried out was as follows:—Opaque meals, 364; opaque enemata, 41; urinary tracts, 251; chests, 590; cholecystographs, 36; miscellaneous, 2,538; total, 3,820.

Patients treated with X-rays	123
Treatments given	364
Patients treated with Radium	82
Treatments given	170

MASSAGE DEPARTMENT.

Senior Masseuse MISS E. M. ASHTON.	
The number of patients treated were:-	1926.
In-patients	228
Out-patients	378
Total	606
A Marian Company of the State o	
Average number of patients each day	42
The actual number of treatments given 13	,006
Patients under treatment in Hospital, December 31st,	
1926 (20 in and 63 out)	83
Cases treated were as follows:-	
Fractures	325
Loss of muscular tone	20
Sprains and injuries	122
Paralysis	36
Rheumatism	67
Neuritis	19
Various	17

ELECTRICAL.

ELECTRICAL.	
The number of patients treated were:-	1926.
In-patients	52
Out-patients	127
Treatments given	3,977
Daily average	13
Separate cases treated were :-	
Reactions tested	29
Paralysis	44
Neuritis	18
Fractures	15
Injuries	16
Rheumatism	66
Muscular weakness	5
Synovitis	8
Various	8

W. E. ROGERS, Auditor-General.

REPORT ON DENTAL DEPARTMENT, 1926.

Superintendent-T. D. CAMPBELL, D.D.Sc.

Senior Dental Surgeon and Demonstrator—J. F. Clark, B.D.S. Dental Surgeon—A. D. Cocks, B.D.S.

Dental Surgeon (Half-time)—G. O. LAWRENCE, B.D.Sc. Senior Dental Mechanic—L. A. M. BROUGHAM.

STAFF.

The following alterations in the staff took place during 1926 :-

Mr. J. F. Clark was transferred from his position as Dental Surgeon to State Children's Department, to this institution as Senior Dental Surgeon and Demonstrator.

Mr. A. D. Cocks was transferred from the Dental Staff of

the Education Department to this institution.

Sister L. Rinder was appointed as an additional member to the Nursing Staff as from July.

An additional female clerk was appointed as from April.

HONORARY OFFICERS.

The resignation of Dr. P. R. Newling as an Honorary Dental

Surgeon was accepted.

Messrs. P. R. Begg, B.D.Sc.; J. Laybourne-Smith, M.A.C.D.; Geo. Hardy, B.D.Sc.; J. A. O'Donnell, B.D.S., D.D.Sc.; and R. Godson, D.D.S. were appointed as additional Honorary Dental Surgeons.

LIBRARY AND MUSEUM.

During the year many additions have been made to the Library and Museum. Many members of the profession have generously donated specimens for the Museum, and the Library is rapidly growing in its contents. A fine assortment of periodicals presented by The Commonwealth Dental Supply Co., and Messrs. Bosch, Naylor, Pty., Ltd., has helped to make this section of the Library remarkably well stocked and representative.

STUDENTS.

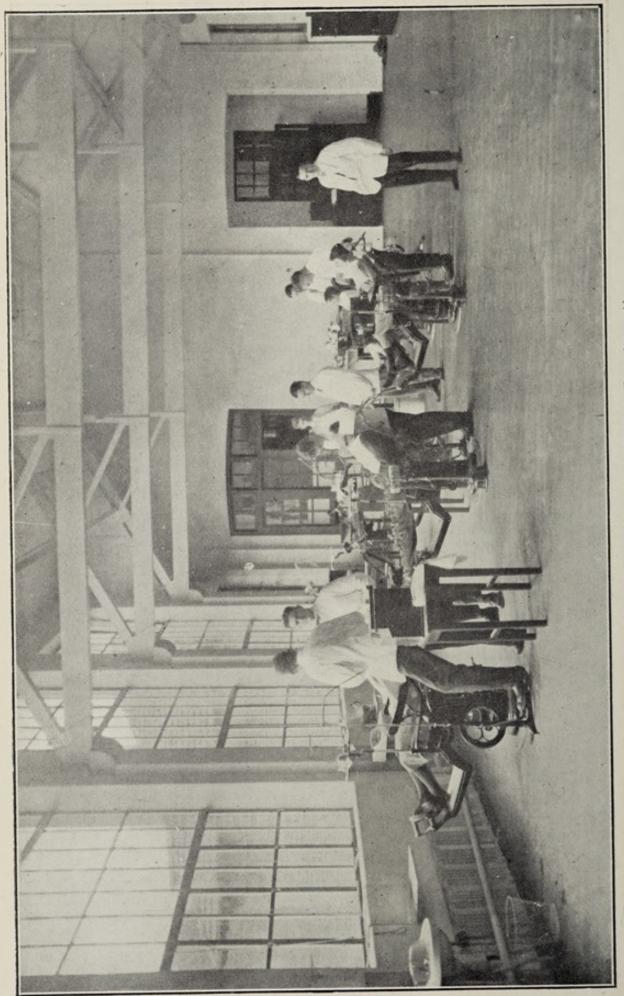

Students attending the practice of the Hospital were as follow:—First year, five; second year, seven; third year, five; fourth year, five.

In the final examinations five students graduated for the Degree of Bachelor of Dental Surgery, University of Adelaide.

GENERAL REMARKS.

The State Dental Society continued to hold its monthly meetings at the Hospital, and senior students were extended the privilege of attendance.

THE DENTAL DEPARTMENT (Front View of the Building).

THE OPERATING ROOM (Patients Under Treatment).

Throughout the year many distinguished visitors of the Medical and Dental professions have taken the opportunity of looking through the Hospital and have expressed great satisfaction at

the appearance and equipment of the whole institution.

An important feature of the Hospital during the year was its absorption of all the activities previously carried out by the State Children's Department Dentist. This Department, therefore, also now embraces in its activities, attention to all State children, inmates of the Mental Hospital, Parkside, Yatala Labor Prison, Adelaide Gaol, Enfield Receiving Home.

Increased treatment over the previous year has been executed in all sections of the Department, and also an appreciable increase in revenue, even though the Department has been saddled with considerable extra work which is unproductive of actual cash

returns.

Throughout the year the fresh applications for treatment have been so considerable that many refusals for admission have

had to be made to prevent congestion of the work.

Large numbers of school children are continually receiving treatment at this Hospital so that its activities must be considerably relieving the burden of the Education Department's scheme for providing dental examination and attention to children of school-going age.

THE CONSUMPTIVES' HOME.

Within the home are rooms set apart for library (with hundreds of books, periodicals, and magazines), smoking, billiards (full-sized table), billatelle, and other games. A piano and organ are also provided, in fact everything is done to give the patient all the comforts of a good home, together with the best medical and nursing skill procurable. There are 23 cubicles, three rooms for two patients each, one ward for eight patients, one ward for nine patients, one large bungalow for 12 patients, and four tents for one patient each—giving accommodation for 62 patients.

The buildings have verandahs on both sides, are thoroughly ventilated, the walls and ceilings are varnished and the floors

covered with linoleum.

Average dully resident, 63.

Provision is also made for the treatment of cancer cases, there

being 14 single bedrooms devoted to this purpose.

The majority of cases pass through the Consultation room, or are transferred from the wards of the General Hospital.

INFECTIOUS DISEASES BLOCK.

The number of new cases admitted to the Block (404) shows

a decrease of 98 cases, as compared with the previous year.

The deaths totalled 13, a mortality rate of 3.09 per cent. A large decrease is shown in the number of cases of measles treated, 10 in 1926, as compared with 282 in 1925.

There were 65 cases of erysipelas treated, as compared with 60

for the year 1925.

The diphtheria cases were 65 more than the previous year—106 cases in 1926, 41 in 1925. There were five deaths, being a

mortality rate of 4.7 per cent.

There were 75 cases of scarlatina treated in 1296, as against 53 in 1925, an increase of 22. There was one death, the mortality rate being 1.3 per cent.

There is accommodation for 144 patients.

LABORATORY OF BACTERIOLOGY AND PATHOLOGY, ADELAIDE HOSPITAL.

STAFF.

Director:

LIONEL B. BULL, D.V.Sc., Melb.

Honorary Bio-Chemist:

T. BRAILSFORD ROBERTSON, Ph.D., D.Sc.

Bio-Chemist:

C. A. FINLAYSON, M.B., B.S., Melb., and from August, 1925, M. E. Long, B.Sc.

> Bacteriologist in charge of Vuccine Department: Helen M. Mayo, M.B., B.S., Adel.

The work of the laboratory is clearly separated into two main divisions, viz., work done for patients admitted to the Adelaide Hospital for treatment and that done for private medical practitioners, boards of health, Stock Department, and other public institutions. All the work in these two main divisions is more or less of a routine character, but wherever possible, research or investigational work is carried out on diseases of man and animals and also on the improvement of laboratory methods used in the diagnosis of disease. As far as possible this work is summarised in the following table, but this summary does not represent all the activities of the staff which, in addition, concerns itself in the care and maintenance of apparatus; the preparation of staining solutions, culture media, &c., for use by students both in the Hospital and at the University; assistance to the Honorary Pathologist in the building up and maintenance of a museum and pathological and bacteriological examinations in connection with the post mortem room; the maintenance of a of current scientific publications on pathology, library bacteriology, bio-chemistry, and related subjects.

It is not possible to give a very accurate picture of the activities of the laboratory staff and the work done by giving the actual number of examinations made, for one examination may involve, for example, 10 times the amount of time that another does. For the most part, however, such a summary does convey, particularly to those familiar with laboratory work, some idea

of the main activities of the staff.

The Clinical Pathological examinations performed for the Adelaide Hospital include—(1) The histological diagnosis of pathological tissues, several of which were immediate examinations performed during operations (such examinations are done in order to help the surgeon in determining the extent and nature of the operation necessary); (2) the examination of urine to detect abnormal chemical and morphological elements; (3) the examination of fæces to detect the presence of abnormal elements; (4) the examination of cerebro-spinal fluid to detect cellular and chemical change (this examination is extremely useful in detecting syphilis of the central nervous system); (5) the examination of the blood to detect the presence of the various anæmias and leukæmias; (6) the examination of material for the detection of spirochæta pallida in the diagnosis of syphilis; (7) the examination of fluids from various cavities and cysts to determine their nature.

The bio-chemical examinations performed for the Adelaide Hospital include—(1) The estimation of the amount of sugar in the blood (this examination is made as an aid to the diagnosis of diabetes, and is made either after a fasting period or after the administration of glucose when several examinations are made to trace the rise and fall in the blood sugar); (2) the estimation of the urea nitrogen in the blood; (3) the examination of the gastric contents after a test meal, either one sample at the end of one hour or smaller samples at more frequent intervals over a period of two and a half hours; (4) colloidal gold curves on cerebrospinal fluids; (5) the estimation of the basal metabolism of patients; (6) chemical examinations of various body fluids.

The Bacteriological Examinations performed for the Adelaide Hospital include—(1) The examination of sputum for the detection of tubercle bacilli and other bacteria, and also for hydatid hooklets; (2) the examination of blood for the Widal reaction (this examination is important in assisting in the diagnosis of typhoid fever); (3) the examination of swabs taken from the throat and nose to detect the presence of diphtheria bacilli; (4) the examination of urine to detect the presence of tubercle bacilli, colon bacilli, and other bacteria; (5) the examination of inflammatory fluids, for the detection of bacteria, e.g., pleuritic fluid, for tubercle bacilli; (6) examination of cerebro-spinal fluid to detect the presence of tubercle bacilli, meningococci, and other bacteria; (7) the cultural examination of blood to detect the presence of bacteria in the circulation; (8) the examination of fæces and urine for the detection of typhoid bacilli and other pathogenic bacteria; (9) the examination of pus for the detection of gonococci, actinomyces, and other bacteria. Bacteria isolated from the various fluids and materials are often used in the preparation of autogenous vaccines.

The Wassermann Reaction was performed on Thursday in each week. This reaction is of great value in the diagnosis and treat-

ment of syphilis. The Griffith & Scott technique is employed

throughout.

The examinations performed and classified under the head Private Work include in the main such examinations as described under clinical pathological, bio-chemical, and bacteriological examinations. Much work was done for the Board of Health. Included in the examinations are also—(1) Examination of various foodstuffs for the detection of bacterial contamination; (2) examination of drinking water to determine its suitability for drinking purposes. Included under this head are regular examinations for the Hydraulic Engineer's Department and for the Adelaide Local Board of Health; (3) the examination of disinfectants to determine their germicidal power; and (4) medicolegal examinations.

The routine examinations for the Stock Department include—
(1) Bacteriological examination of cow's milk for the detection of tubercle bacilli and other bacteria; (2) morbid tissues for histopathological examination; (3) examination of fæces to determine the presence of parasitism; (4) examination of cow's blood for the diagnosis of contagious abortion by the agglutination test; (5) specimens removed post mortem from animals

dying from various causes, &c.

Investigations were carried out in connection with endemic hæmaturia in cattle, arthritis in sheep, botulism or forage poisoning, "swelled-head" in rams, photo-sensitization in sheep,

and other diseases of stock.

The Vaccine Department, as well as preparing 276 separate vaccines, also administered inoculations of vaccine to hospital patients. During the year 169 hospital patients were under treatment. The majority of these patients visited the laboratory twice a week during their course of treatment, when they received their injections. In all, 1,102 doses of vaccine were administered; also 245 doses of tuberculin were given to 12 patients. Vaccines were prepared for 172 patients under the care of private practitioners and 2,106 doses (including 158 doses of tuberculin and 205 doses of T.A.B. and B.C.C.) were supplied in bulk to private practitioners.

During the year various laboratory methods have been under investigation preliminary to accepting or rejecting them as useful and reliable procedures. Of these the Colloidal Benzoin reaction and the Complement Fixation test for Gonorrhæa are the more important, but up to the present complete satisfaction has not

been obtained with them.

Summary.—The figures show that, approximately, the same number of examinations were made as during the previous year, or a general decrease of 1.3 per cent. This is due to the fewer bio-chemical and clinical pathological examinations made for the Adelaide Hospital. There is an increase of 937 examinations made for private practitioners and public bodies.

VENEREAL DISEASES.—NIGHT CLINICS.

REPORT FOR YEAR ENDED SEPTEMBER 30TH, 1926.

Improved accommodation for the treatment of venereal

diseases is urgently necessary.

The Venereal Diseases Act, passed by Parliament in 1920, has not yet been proclaimed. The provisions of the Act could not be effectively carried out until accommodation for the treatment of both indoor and outdoor patients is provided.

It is considered that this Act should be proclaimed as soon as possible, but failing such action in the near future, improved accommodation and facilities for treating patients are necessary

at the existing clinic.

REPORT OF OPERATIONS FOR THE YEAR ENDING SEPTEMBER 30TH, 1926.

Male Section.

Surgeon-Dr. G. H. Burnell, B.S., M.D.

With the increasing number of male patients attending, the need for larger and better accommodation is becoming more and more evident.

On some evenings 110 patients have had to be dealt with and under present conditions this leads to great over-crowding with hurried treatment.

It is to be hoped that it will be possible shortly to carry on this work under conditions suitable for treatment of such large

numbers of patients.

The total number of patients for the year was 801, and the total number of attendances was 8,731. There were 147 cases of syphilis and 557 cases of gonorrhœa treated. Not included in the above were 11 persons who had both gonorrhœa and syphilis, and 86 patients attended on account of diseases which were shown to be other than venereal.

Female Section.

Surgeon—Dr. R. F. Matters, M.B., Ch.M., F.R.C.S.

Considerable help is rendered to patients who are unable to attend to their requirements at home by the clinic being opened on Thursday and Saturday evenings.

Occasional cases occur which would be assisted by indoor treatment for two or three days from time to time, if two beds

were available for the Night Clinic Department.

Accommodation for proper treatment is still inadequate in the present department, but the results have been very gratifying

especially in view of the limited accommodation.

The total number of patients for the year was 154, and the number of attendances was 2,076. There were 67 cases of syphilis and 67 of gonorrhæa treated. Not included in the above was one patient who had both gonorrhæa and syphilis, and 19 patients attended for diseases which on examination were found to be non-venereal.

Attached are details of attendances and statement of ex-

penditure.
