NOTE.

Subscribers living in the Country or Suburbs upon whom the demand for orders for admission or treatment as out-patients is not great would confer a great favor on many necessitous cases by signing their order forms and forwarding them to the Secretary of the Adelaide Benevolent and Strangers' Society, Morialta Street, Adelaide.

MATRON.

ELEANOR HARRALD

MEDICAL OFFICERS, 1930.

HONORARY CONSULTING MEDICAL AND SURGICAL STAFF.

Physicians:

RICHARD SANDERS ROGERS, M.A., M.D., M.S.	HARRY SWIFT, M.D., Cantab.; M.R.C.S., Eng.
SIR JOSEPH C. VERCO, K.B., M.D., F.R.C.S.	ALFRED AUSTIN LONDON, M.D., ETC.
EDWARD ANGAS JOHNSON, M.D., Ch.D., Gottingen; M.R.C.S., Eng., L.R.C.P., Lond.	

Surgeons:

PROFESSOR ARCHIBALD WATSON, M.D., F.R.C.S.	ARTHUR E. SHEPHERD, D.S.O., O.B.E., L.R.C.P. & S., Edin.; L.F.P. & S.
WILLIAM ANSTAY GILES, M.B. Ch.M.	ARTHUR M. CUDMORE, M.B., B.S., Adel.; F.R.C.S., Eng.
W. R. CAVANAGH-MAINWARING, S.E., F.R.C.S., Eng., Etc.	

Gynaecologists:

ARTHUR F. LYNCH, M.B., B.S., Adel.	
THOMAS GEORGE WILSON, M.D., Ch.M., Syd.; F.R.C.S., Edin.; F.A.C.S.	WILLIAM ALFRED VERCO, M.B., B.S., Adel.

Ophthalmic Surgeon:

A. W. HILL, M.D., Brux., M.R.C.S., L.R.C.P., Eng.

Aural Surgeon:

GEO. A. FISCHER, M.B., B.S., Adel.

Bacteriologist:

PROFESSOR JOHN BURTON CLELAND, M.D.,
Ch.M., Syd.

Radiologist:

WILLIAM RAY, B.Sc., Oxon.; M.B., B.S.,
Adel.

Consulting Anatomist:

VACANT.

HONORARY MEDICAL AND SURGICAL STAFF.

Honorary Physicians:

C. T. C. DE CRESPIGNY, D.S.O., M.D., B.S.,
Melb.; F.R.C.P., Lond.
WILLIAM RAY, B.Sc., Oxon.; M.B., B.S., Adel.
FRANK S. HONE, B.A., M.B., B.S., Adel.
D. R. W. COWAN, M.B., B.S., Adel.

Honorary Assistant Physicians:

GUY A. LONDON, M.D., Adel.; M.R.C.P.,
Lond.
ALBERT RAY SOUTHWOOD, M.D., B.S., Adel.
SAMUEL ROY BURSTON, C.B.E. D.S.O.
M.B., B.S., Melb.
HENRY KENNETH FRY, C.B.E., D.S.O., M.B.,
B.S., Adel.

Honorary Assistant Physician to Infectious Diseases Block:

FRANK HOWARD BEARE, M.D., B.S., Adel.

Honorary Assistant Physician to Consumptive Home:

FRANK RAYMOND HONE, B.Sc.; M.D., B.S., Adel.

Honorary Surgeons:

SIR HENRY SIMPSON NEWLAND, K.B., C.B.E.,
D.S.O.; M.B., M.S., Adel.; F.R.C.S., Eng.
BRONTE SMEATON, M.B., B.S., Adel.;
M.R.C.S., L.R.C.P., Eng.
JOHN CORBIN, M.R.C.S., Eng.; L.R.C.P.
Lond.; succeeded by IVAN BEDE JOSE,
M.B., M.S., Adel.; F.R.C.S., Eng., Etc.
MALCOLM LESLIE SCOTT, M.B., M.S., Adel.;
F.R.C.S., Eng.

Honorary Assistant Surgeons:

IVAN BEDE JOSE, M.B., M.S., Adel.;
F.R.C.S., Eng.; F.R.C.S., Edin.; succeeded
by ALAN T. BRITTEN JONES, M.B., B.S.,
Adel.; F.R.C.S., Edin.
CHARLES TREVOR TURNER, M.B., B.S., Adel.
PHILIP SANTO MESSENT, M.B., M.S., Adel.
LEONARD C. E. LONDON, M.B., M.S., Adel.;
F.R.C.S., Eng.; F.R.C.S., Edin.

Honorary Gynaecologists:

RUPERT ERIC MAGAREY, M.B., B.S., Adel.
JACK R. S. G. BEARD, M.B., B.S., Adel.;
F.R.C.S., Edin.

Honorary Assistant Gynaecologists:

J. B. DAWSON, M.D., F.R.C.S., Eng.;
L.R.C.P., Lond.
BRIAN HERBERT SWIFT, M.B., B.S., Cantab.;
F.R.C.S., Edin.

Honorary Ophthalmologist:

H. F. SHORNEY, M.D., Melb.; F.R.C.S., Eng.

Honorary Assistant Ophthalmologists:

JOHN JAMES O'GRADY, L.R.C.P. & S., Edin.; L.F.P. & S., Glas.; D.O., Oxon.
JAMES BROOK LEWIS, M.B., B.S., Melb.

MEDICAL OFFICERS, 1930—continued.

HONORARY MEDICAL AND SURGICAL STAFF—continued.

Honorary Clinical Assistants to the Ophthalmic Department :

JAMES ALEXANDER ROLLAND, M.B., B.S., Adel.
ALFRED LADYMAN TOSTEVIN, M.B., B.S., Adel.; D.O., Oxon.

Honorary Aural Surgeon:

HUBERT M. JAY, M.B., B.S., Adel.

Honorary Assistant Aural Surgeons:

WILLIAM C. SANGSTER, M.D., B.S., Melb.
ROBERT McMAHON GLYNN, M.B., B.S.,
Adel.; F.R.C.S., Edin.

Honorary Clinical Physiologist:

PROFESSOR CEDRIC STANTON HICKS, M.Sc., M.B., Ch. B., Etc.

Honorary Dermatologist:

FRANK HUMPHREY MAKIN, M.B., B.S., Melb.

Honorary Bio-Chemist:

Vacant.

Honorary Sanitary Adviser.

EDWARD ANGAS JOHNSON, M.D., Ch.D., Gott.; M.R.C.S., Eng.; L.R.C.P., Lond.

Honorary Pathologist:

PROFESSOR JOHN B. CLELAND, M.D., Ch.M.,
Sydney.

Honorary Assistant Pathologists:

HARRY WYATT WUNDERLY, M.D., Melb.;
M.R.C.P., Lond.
ALLAN FRANK HOBBS, M.B., B.S., Adel.;
F.R.C.S., Eng.

Honorary Radiologist:

HARRY CAREW NOTT, M.B., B.S., Adel.; D.M.R.E., Camb.

Honorary Deep X-Ray Therapist:

JOSEPH STANLEY VERCO, M.B., B.S., Adel.

Honorary Radium Therapist:

HAROLD ALEXANDER MCCOY, M.B., Ch.M.,
Syd.; D.M.R.E., Camb.

Honorary Assistant to Honorary Officer-in-Charge of Electro-Cardiograph:

ERIC FRANK GARTRELL, M.B., B.S., Adel.; M.R.C.P., Lond.

RESIDENT MASSEUSE

MISS E. M. ASHTON.

ANNUAL REPORT, 1930

The Board of Management of the Adelaide Hospital, in accordance with section 12 (1) of the Hospitals Act Amendment Act, 1921, has the honor to submit for the information of the Minister, the Sixty-first Annual Report on the administration, showing the condition and progress of the institution, for the year ended December 31st, 1930.

The Board held 54 meetings during the year. In addition, the Chairman and members frequently and continuously throughout the year pay visits to the Hospital in connection with the administrative work. The condemnation of worn-out and useless stores is under their supervision.

The following information is submitted relating to the treatment of in-patients, &c. :—

ADELAIDE HOSPITAL.

IN-PATIENTS.

Admitted—	1929.	1930.
Remaining in Hospital on January 1st	435	400
Admissions during year	9,181	8,858
Total number of in-patients treated during year	9,616	9,258
Discharges during the year—		
Recovered	1,146	1,049
Relieved	6,155	5,843
Unrelieved	1,093	941
Other causes	180	425
Died	642	598
Remaining in Hospital on December 31st	400	402
	9,616	9,258
Average number resident daily throughout the year	467	465
Average number of days each patient was resident in the Hospital	17.5	18.9

Cost of Treatment.

	Expenditure 1929.			Expenditure 1930.		
Maintenance.	£	s.	d.	£	s.	d.

FINANCE.

Revenue.—The total receipts from all sources, including all branches of the Hospital, for the year 1930, were £43,443 8s. 7d., as against £43,009 12s. 10d. for the year 1929, an increase of £433 15s. 9d.

The amount of patients' fees on account of the Adelaide Hospital was £11,102 15s. 9d. for the year 1930, as compared with £11,690 2s. 5d. for the year 1929, a decrease of £587 6s. 8d. This result is considered very satisfactory in view of the prevailing financial depression.

Patients' fees to the amount of £9,553 10s. 1d. were written off by the Board during the year. The amount written off during the previous year was £4,357 17s. 6d.

The fees received toward the maintenance of each patient, based on the daily average number of patients, in 1930 were £23 17s. 6 2/5d., as against £25 0s. 7 4/5d. in 1929.

Patients' fees received on account of the Consumptive Home show an increase of £150 15s. 10d. over the previous year, £1,191 11s. 9d. in 1930 as against £1,040 15s. 11d. in 1929.

The fees received for maintenance of patients in the Infectious Diseases Block were £118 9s. less than the previous year, £1,194 7s. 5d. in 1930 as compared with £1,312 16s. 5d. in 1929.

Laboratory fees were £2,542 19s. 1d. for 1930, as compared with £2,604 18s. 5d. for 1929. The revenue from this branch amounts to 51.5 per cent. of the expenditure.

The fees from the Dental Branch were £291 6s. 5d. less than the previous year, £775 16s. in 1930 as compared with £1,067 2s. 5d. in 1929. Increasing numbers of persons, unable to contribute anything towards their treatment, have been dealt with during the year. A large number of patients from other Government institutions is also treated.

Details of revenue for 1930 will be found in Appendix No. 2. A table of comparisons of revenue for the years 1921-1930 is also shown.

Expenditure.—Details of expenditure will be found in Appendix No. 2.

The total expenditure for maintenance on all branches of the Hospital for the year 1930 was £114,769 9s. 10d., as compared with £113,381 5s. 3d. for the previous year, an increase of £1,388 4s. 7d.

Salaries and wages were £4,092 3s. 2d. more than the previous year, whilst there is a reduction on the amount spent for provisions, medicines, etc., of £2,703 18s. 7d.

RATING FOR HOSPITAL PURPOSES ACT, 1919.

An amount of £22,547 10s. 10d. was received during the year from district councils and corporations in the metropolitan area. The rate has now been discontinued by the Government.

POPULATION.

The number of new patients admitted to the Hospital for the year 1930 was 8,858, being 323 less than the number admitted during the year 1929.

The daily average number of indoor patients was 465, as compared with 467 for the previous year.

The total number of in-door patients treated during the year 1930 was 9,258, as compared with 9,616 in 1929.

The number of new patients attending the Out-Patients' Department was 11,718, as compared with 10,258 for the previous year. The total number of out-patient attendances in 1930 was 61,473, as against 53,455 in 1929.

At the T.B. Clinic 192 persons were under treatment during the year as compared with 139 for the previous year.

In the Consumptive Home and Cancer Block the daily average was 73, and in the Infectious Diseases Block 26.

The total number of attendances at the Dental Hospital for all purposes was 41,651, as against 31,964 for the previous year. The admissions for treatment were 6,611, being 1,824 more than the year 1929.

HONORARY STAFF.

Dr. F. H. Beare, Honorary Assistant Physician, Infectious Diseases Block, was granted twelve (12) months' leave of absence to enable him to proceed abroad.

Dr. O. W. Frewin was appointed Temporary Bacteriologist in Charge of the Vaccine Department in the place of Dr. Helen M. Mayo, on three (3) months' leave.

Professor J. B. Cleland, Honorary Pathologist, was granted six (6) months' leave of absence, and Dr. F. R. Hone was appointed as *locum tenens* to supervise the pathological work.

The following members of the Honorary Staff who retired by effluxion of time on June 30th, 1930, were re-appointed for a further term of three (3) years, viz. :—

Drs. D. R. W. Cowan and C. T. C. de Crespigny, Physicians ; A. R. Southwood, Assistant Physician ; R. E. Magarey, Gynaecologist ; H. C. Nott, Radiologist ; F. H. Makin, Dermatologist ; H. W. Wunderly, Assistant Pathologist ; A. D. Lamphee and G. E. Jose, Anaesthetists ; Professor C. S. Hicks, Clinical Physiologist ; R. M. Glynn, Clinical Assistant to Aural Department ; E. F. Gartrell, Assistant to Honorary Officer in Charge of Cardiograph ; H. R. Pomroy, Clinical Assistant to the Venereal Clinic (Male Section) ; A. P. R. Moore and Messrs. J. L. Eustace, G. Hardy, M. S. Joyner, L. S. Rogers, R. J. Brazil-Smith and F. M. Swan, Dental Surgeons.

The following Honorary appointments were also made, viz. :—Dr. I. B. Jose, Surgeon, *vice* Dr. J. Corbin ; Dr. A. T. Britten-Jones, Assistant Surgeon, *vice* Dr. I. B. Jose ; Dr. A. F. Hobbs, Assistant Pathologist (extra appointment) ; Dr. F. H. Beare (on leave), Curator, Medical Section ; Dr. H. R. Pomroy, Curator, Surgical Section ; Dr. J. B. Dawson, Curator, Gynaecological and Obstetrical Section ; Dr. R. M. Glynn, Curator Eye, Ear, Nose and Throat Section ; Dr. R. M. Glynn, Assistant Aural Surgeon ; Dr. N. S. Gunning, Dr. O. W. Frewin, Temporary Clinical Assistants to Ophthalmological Department, *vice* Drs. Tostevin and Lewis, on leave ; Mr. C. R. Forder, Dental Surgeon, *vice* Dr. Randell.

The Board records with regret the death of Dr. John Corbin, who rendered many years of valuable service in the Surgical Section of the Hospital.

ADVISORY COMMITTEE.

Dr. E. Angas Johnson was appointed as a member of the Committee, *vice* the late Mr. W. T. McCoy, B.A. The Board records its appreciation of the advice of the Committee rendered from time to time.

OFFICIAL VISITORS.

The following official visitors were appointed for a further term of twelve (12) months, viz. :—

Lady Hackett-Moulden

Mesdames M. Wallington and M. B. Martin

Mr. T. P. Howard

BUILDING ADDITIONS.

All proposed building additions, plans of which have been approved, were held over owing to the lack of funds.

RADIUM AND DEEP X-RAY THERAPY.

The Deep X-Ray Therapy plant has been installed during the year, funds being provided by the General Committee for Cancer Treatment and Research.

The following have been appointed to act in conjunction with the Committee, viz. :—Drs. A. A. Lendon, B. Smeaton, I. B. Jose, F. S. Hone, R. E. Magarey, H. M. Jay, F. H. Makin, L. C. E. Lindon.

LIGHT WARD.

A balcony has been erected on the eastern side of the Sick Nurses' Ward at a cost of £185, provided by the Commissioners of Charitable Funds from T. F. Hyland Bequest.

SURGICAL APPARATUS.

The following surgical appliances were provided by the Commissioners of Charitable Funds :—

	Approximate.		
	£	s.	d.
Diathermy apparatus	140	0	0
Cystoscope	18	0	0
Microscope	69	0	0
Urethroscope	15	0	0

CONSUMPTIVE HOME.

The new Consumptive and Cancer Home at Northfield for advanced cases is nearing completion.

INFECTIOUS DISEASES HOSPITAL.

The new Infectious Diseases Hospital at Northfield, which will be under the management of a Board of Representatives of municipal bodies, is nearing completion.

HOSPITAL AUXILIARY.

The Adelaide Hospital Auxiliary continues to perform very valuable work for the benefit of the Hospital and patients. The kiosk in the Hospital grounds is open each day from 9 a.m. to 5 p.m. when refreshments, &c., are on sale.

The Sewing Circle Branch continues to provide Hospital bed linen, quilts, bed jackets, &c.

The Board desires to express its sincere appreciation of the continued efforts of the voluntary lady workers.

MATRON HARRALD.

Miss Eleanor Harrald relinquished the position of Matron on reaching the retiring age. The Board appreciates the many years of valuable service rendered by her.

Miss L. C. Daw was appointed Matron and Miss G. E. Barnes Assistant Matron.

GOLD MEDAL.

Probationer Nurse M. H. Pomroy, having passed first class in examinations, was presented with a gold medal.

DONATIONS AND BEQUESTS.

The Board has pleasure in recording the receipt of the following donations and bequests:—

<i>Donations.</i>		£	s.	d.
Trustees of the late William Thorngate		30	0	0
S.A. Railways Employees' Hospital Fund (donation to Sick Nurses' Fund)		10	10	0
<i>Bequests.</i>		£	s.	d.
Mary Whitbread		850	3	4
		192	15	3
		1,042	18	7
Jane C. Dunn		102	11	6

GIFTS, ETC.

The Board places on record its appreciation of the following gifts:—

Junior Red Cross Circle, Wellington Road Public School—Six bedside tables.

Books, magazines, clothing, produce, flowers, &c., from various benevolent persons and societies.

The assistance rendered by Toc. H., lady visitors, musical bodies, etc., is much appreciated.

Attached are statistics, reports, &c.

I have the honor to be, Sir,

Your obedient servant,

BEDLINGTON H. MORRIS, M.B., B.S., &c.,
Chairman, Adelaide Hospital Board.

APPENDIX No. 1.

HOSPITAL STATISTICS FOR THE YEARS 1870 TO 1930, INCLUSIVE.

Year.	Number of Cases Admitted.	Number of Deaths of In-Patients.	Average Daily number of Beds Occupied.	Average number of Days Patients Discharged during the Year have been in Hospital.	Annual Cost of per Bed *Occupied.	Number of Attendances of Out-Patients Treated.	Actual Cost of Maintenance.	Amount of Fees Received for Maintenance of Patients.	Fees received towards Maintenance of each patient (based on daily average of Patients, and not deducted in calculating "Annual Cost of each Patient").

* The cost per head is arrived at by making allowance for attendance and medicines supplied to the out-patients, etc., viz., £3,938 15s. 1d.

† For years 1870 to 1923 the amounts shown are the actual expenditure each year. From the year 1924 the amounts shown are the actual cost of maintenance for each year. The years 1929 and 1930 include expenditure on repairs, &c., by the Architect-in-Chief's Department, which was not previously shown.

The amount of £94,470 16s. 9d. for the year 1930 does not include:—Consumptive Home, £6,088 11s. 3d.; Infectious Diseases Block, £3,440 19s.; S.A. Government Laboratory, £4,928 19s. 9d.; Dental Hospital, £5,840 3s. 1d.

+ The fees received for 1930 do not include Consumptive Home, £1,191 11s. 9d.; Infectious Diseases Block, £1,191 7s. 5d.; S.A. Govt. Laboratory, £2,542 19s. 1d.; Dental Hospital, £999.

The total number of deaths (598) does not include Consumptives and Cancer Home (102) and Infectious Diseases Block (36).

Three hundred and eighty-three (383) patients have been sent to the Convalescent Hospital, Semaphore. The Da Costa Fund, created by Miss Da Costa, to assist convalescent patients leaving Hospital, paid for the maintenance of 317 of these patients at the Convalescent Hospital.

The number of cases of enteric fever treated, showing percentage of mortality over same :—

In 1887 there were 161 cases and 19 deaths = 11·8 per cent.

APPENDIX No. 3.
STATISTICS FOR YEAR 1930.
Medical Statistics, 1930.

	Males.	Females.	Total.
Remaining in Hospital on December 31st, 1929	227	173	400
Admissions during the year 1930	4,372	4,486	8,858
	4,599	4,659	9,258
Discharges during the year 1930—			
Recovered	1,049		
Relieved	5,843		
Unrelieved	941		
Other causes	425		
Died.....	598		
Remaining in Hospital on December 31st, 1930—Males, 225; females, 177	402		
			9,258
Average number resident daily throughout the year			465
Mean residence of each patient in days			18·9
Number of out-patients attended during the year— new cases			11,718
Number of attendances of out-patients during the year.....			61,473

Patients passed through casualty room, 33,030. Of this number 5,140 (males, 3,979; females, 1,161) were treated or advised. The remainder were either admitted to the Hospital or sent on to the Out-Patients' Department.

CLASSIFICATION OF DISEASES OF PATIENTS TREATED FOR YEAR ENDING DECEMBER 31st, 1930.

NOTE.—Concurrent Diseases.—The figures in this column represent the number of patients in whom the disease was of secondary importance or was a complication.

GROUP 1.—GENERAL DISEASES.

	Male.	Female.	Cured.	Relieved.	Unrelieved.	Other Causes.	Died.	Remaining Dec. 31st.	Total.	Concurrent Disease.
A.—SPECIFIC INFECTIOUS DISEASES.										
Enteric	14	10	8	6	—	—	3	7	24	—
Malaria	2	—	—	1	—	—	—	1	2	—
Measles	—	—	—	—	—	—	—	—	—	1
Scarlet fever	—	1	—	—	—	1	—	—	1	—
Glandular fever	1	2	1	1	—	1	—	—	3	—
Pertussis	—	—	—	—	—	—	—	—	—	—

B.—DISEASES OF THE BLADDER.										
Cystitis—										
Acute	8	7	—	11	1	1	1	1	15	17
Chronic	6	9	—	10	3	—	2	—	15	20
Foreign body in bladder	—	1	—	1	—	—	—	—	1	—
Ulcer of bladder, simple	—	—	—	—	—	—	—	—	—	—
Neurosis of bladder (dysuria, incontinence, spasm)	2	4	—	3	2	1	—	—	6	—
Retention of urine	14	—	—	6	2	—	3	3	14	44
Rupture of bladder (non-traumatic)	—	—	—	—	—	—	—	—	—	—
Innocent tumour of bladder	5	3	—	4	3	—	1	—	8	—
Diverticulum of bladder	1	—	—	1	—	—	—	—	1	—
C.—DISEASES OF THE URETHRA.										
Urethritis (non-gonorrhoeal)	1	—	—	1	—	—	—	—	1	4
Periurethral abscess	4	1	—	3	—	2	—	—	5	5
Abscess of Cowper's gland	—	—	—	—	—	—	—	—	—	—
Urethral caruncle	—	5	—	3	2	—	—	—	5	—
Foreign body in urethra	—	—	—	—	—	—	—	—	—	—
Urethral stricture	42	—	2	33	2	—	2	3	42	4
Rupture of urethra, extravasation of urine (non-traumatic)	3	1	—	3	—	—	1	—	4	3
D.—URINARY FISTULAE.										
Rectovesical	—	—	—	—	—	—	—	—	—	1
Vesicovaginal	—	1	—	1	—	—	—	—	1	1
Urethral	—	—	—	—	—	—	—	—	—	1
Other urinary fistulae	3	—	—	1	2	—	—	—	3	3
E.—DISEASES OF THE PROSTATE (NON-VENEREAL).										
Prostatic abscess	4	—	—	1	—	1	2	—	4	2
Prostatic hypertrophy	59	—	9	27	5	—	15	3	59	2
Prostatitis, acute and chronic	3	—	—	2	1	—	—	—	3	3

**GROUP 6—NON-VENEREAL DISEASES OF THE GENITO-URINARY SYSTEM
AND ADHESA—continued.**

	Male.	Female.	Cured.	Relieved.	Unrelieved.	Other Causes.	Died.	Remaining Dec. 31st.	Total.	Concurrent Disease.
F.—DISEASES OF THE MALE GENITAL ORGANS (NON-VENEREAL).										
Hydrocele	12	—	6	5	—	—	—	1	12	4
Haematocele	2	—	1	—	—	—	—	—	2	—
Orchitis and epididymitis	6	—	1	1	2	—	—	2	6	8
Paraphimosis	3	—	—	3	—	—	—	—	3	—
Innocent tumours of testicle	5	—	—	5	—	—	—	—	5	—
Testicular Neuralgia	—	—	—	—	—	—	—	—	—	—
Others	—	—	—	—	—	—	—	—	—	1
G.—GYNAECOLOGICAL.										
<i>Uterus—</i>										
Metrorrhagia, Menorrhagia	—	34	—	25	3	6	—	—	34	—
Benign tumours of uterus (fibroids) ..	—	66	9	48	6	—	—	3	66	17
Polypus	—	9	2	7	—	—	—	—	9	5
<i>Displacements of uterus—</i>										
Prolapsus uteri	—	44	2	37	2	—	1	2	44	—
Retrodisplacements	—	89	11	72	—	—	—	6	89	55
Other displacements	—	3	—	1	2	—	—	—	3	2
Fibrosis uteri	—	26	3	21	—	—	—	2	26	3
Endocervicitis	—	85	—	78	4	1	—	2	85	32
Endometritis (non-puerperal)	—	21	—	20	1	—	—	—	21	2
Menstrual disorders (dysmenorrhoea, menopause) ..	—	17	—	14	3	—	—	—	17	2
Metritis (subinvolution)	—	18	3	13	2	—	—	—	18	7
<i>Tubes, Ovaries, and Ligaments—</i>										
Displacement of ovary	—	—	—	—	—	—	—	—	—	—
Tumours and cysts, benign	—	59	7	49	1	—	—	2	59	46
Tubo-ovarian abscess	—	—	—	—	—	—	—	—	—	1
Oophoritis	—	30	1	28	—	1	—	—	30	—
Sclerosis of ovary (fibrosis)	—	—	—	—	—	—	—	—	—	—
<i>Salpingitis (non-gonorrhoeal)—</i>										
Acute	—	84	1	79	2	—	1	1	84	3
Chronic	—	32	—	28	4	—	—	—	32	18
Purulent (pyosalpinx)	—	8	1	7	—	—	—	—	8	5
Hydrosalpinx and haematosalpinx ...	—	3	—	3	—	—	—	—	3	1
<i>Pelvic Peritoneum and Fascia—</i>										
Pelvic adhesions	—	19	—	16	3	—	—	—	19	—
Perimetritis (pelvic peritonitis)	—	7	—	5	—	1	—	1	7	5
Parametritis (pelvic cellulitis and abscess) ..	—	20	—	19	—	—	1	—	20	11
<i>Vagina and Vulva—</i>										
Abscess of vulva (Bartholin's)	—	21	2	18	1	—	—	—	21	1
Pruritus vulvae	—	1	—	1	—	—	—	—	1	3
Vaginismus	—	—	—	—	—	—	—	—	—	—
Benign tumours and cysts	—	1	—	—	1	—	—	—	1	2
Cystocele, rectocele	—	43	3	37	3	—	—	—	43	27
Foreign bodies in vagina	—	—	—	—	—	—	—	—	—	—
Vaginitis	—	4	—	4	—	—	—	—	4	4
Vulvovaginitis	—	1	—	1	—	—	—	—	1	—
Vulvitis	—	1	—	1	—	—	—	—	1	—
Vaginal Stricture	—	1	—	1	—	—	—	—	1	—
H.—DISEASES OF THE BREAST (NON-PUERPERAL).										
<i>Mastitis—</i>										
Acute	—	6	—	6	—	—	—	—	6	—
Chronic	1	5	4	2	—	—	—	—	6	—
Suppurative abscess (non-puerperal) ..	—	6	1	5	—	—	—	—	6	—
Tumours and cysts, benign	—	11	4	6	1	—	—	—	11	1
Total	348	965	91	963	105	16	86	52	1,313	472

GROUP 7.—PUERPERAL CONDITIONS.

	Male.	Female.	Cured.	Relieved.	Unrelieved.	Other Causes.	Died.	Remaining Dec. 31st.	Total.	Concurrent Disease.
Normal pregnancy	—	27	—	12	14	1	—	—	27	25
Normal labor	—	2	—	1	1	—	—	—	2	—
Abnormal labor—										
Premature	—	2	—	1	—	—	1	—	2	—
Child in abnormal position	—	—	—	—	—	—	—	—	—	—
Abortion—										
Threatened	—	51	—	48	2	—	—	1	51	1
Inevitable	—	8	3	5	—	—	—	—	8	—
Incomplete	—	366	133	217	5	1	5	5	366	11
Septic	—	22	4	16	—	—	—	2	22	—
Extra-uterine gestation—										
Tubal abortion	—	10	4	5	—	—	1	—	10	2
Ruptured	—	27	6	21	—	—	—	—	27	—
Unruptured	—	7	1	5	—	1	—	—	7	—
Eclampsia—										
Ante-partum	—	3	1	2	—	—	—	—	3	—
Post-partum	—	—	—	—	—	—	—	—	—	—
Hyperemesis gravidarum	—	9	—	9	—	—	—	—	9	—
Hydatidiform mole	—	1	—	1	—	—	—	—	1	—
Albuminuria of pregnancy	—	15	—	12	3	—	—	—	15	—
Pyelitis with pregnancy	—	—	—	—	—	—	—	—	—	—
Ante-partum haemorrhage	—	—	—	—	—	—	—	—	—	—
Placenta praevia	—	—	—	—	—	—	—	—	—	1
Post-partum haemorrhage	—	—	—	—	—	—	—	—	—	—
Subinvolution of uterus	—	3	—	3	—	—	—	—	3	—
Laceration of cervix—										
Recent	—	1	—	1	—	—	—	—	1	—
Old	—	5	—	5	—	—	—	—	5	12
Laceration of perineum and vagina—										
Recent	—	—	—	—	—	—	—	—	—	—
Old	—	9	2	7	—	—	—	—	9	8
Puerperal sapraemia	—	1	—	1	—	—	—	—	1	1
Puerperal septicaemia	—	12	—	8	—	1	3	—	12	6
Puerperal diseases of breast (abscess)	—	28	6	22	—	—	—	—	28	—
Puerperal thrombosis	—	—	—	—	—	—	—	—	—	1
Other puerperal conditions	—	6	—	2	4	—	—	—	6	2
Total	—	615	160	404	29	4	10	8	615	70

GROUP 8.—DISEASES OF THE SKIN AND CELLULAR TISSUES

Gangrene	9	2	—	5	1	—	3	2	11	11
Furuncle	12	8	8	11	—	—	—	1	20	7
Carbuncle	11	7	2	15	—	—	1	—	18	4
Abscesses	16	14	6	23	—	—	—	1	30	8

APPENDIX No. 4.

OPERATIONS FOR 1930.

OPERATIONS ON BLOOD VESSELS.

Ligature of arteries	2
Excision of varicose veins	2
Excision of varicocele	6
Venesection	1
Blood transfusion	45
Injection of artery	1

OPERATIONS ON MUSCLES, BURSÆ, TENDONS, AND NERVES.

Tenotomy	6
Suturing tendons	16
Excision of neuroma	2
Excision of bursa	2
Freeing nerve from calculus	2
Excision of ganglion	6
Injection into nerve	5
Excision of gasserian ganglion	2
Sympathectomy	1
Tendon transplantation	—
Nerve anastomosis	—
Suturing tendons	—
Resection of nerve	7

OPERATIONS ON BONES.

(a) Skull—	
Elevation of depressed fracture	1
Exploratory trephine	6
Suboccipital decompression	2
Unilateral subtemporal decompression	15
Ventriculography—Drainage of ventricles	17
Drainage of cerebral abscess	2
(b) Spine—	
Laminectomy	3
Lumbar puncture	12
Excision of coccyx	2
(c) Fractures—	
Reduction and setting of fractures (by manipulation only, under G.A.)	16
Reduction of fracture and dislocation	6
Wiring of fracture	18
Plating of fracture	1
Removing of plates and wires	8
Suturing patella	—
Removal of callus	—
Correction of malunited fracture (osteoclasis)	—
Freshening ends of united fracture	—
Cleaning and setting compound fractures	16
(d) Amputations and excisions—	
Amputation of—	
Toes	7
Foot	4
Leg	11
Thigh	3
Fingers	10
Hand	2

OPERATIONS ON BONES—*continued.*(d) Amputations and excisions—*continued.*

Amputations of—	
Forearm	2
Upper arm	—
Stump	2
Astragelectomy	—
Tarsectomy	1
Excision of metatarsal bone	—
Bone graft	4
Incision of Periosteum	1
Drainage of medulla	12
Sequestrectomy	17
Osteotomy	16
Excising and curetting sinuses	1
Aspiration of T.B. abscess (Bone dis.)	12
Removal of bony spurs	6
Curetting bone	1
Excision of osteophytes	—
Other excisions	3

OPERATIONS ON JOINTS.

Reduction of dislocation (by manipulation)	3
Reduction of dislocation (by open operation)	—
Aspirating joint	—
Arthrotomy	10
Arthrectomy	1
Arthrodesis	1
Moving of stiff joints	22
Excision of semilunar cartilage	7
Correction of hallux valgus—Bunion	5
Correction of hammertoe	2
Exploration of T.B. sinus	—
Arthroplasty	1
Removal of loose bodies	3

OPERATIONS ON GLANDULAR SYSTEM.

Excision of gland (diagnostic)	8
Excision of glands (therapeutic) (specify)	21
Incision for suppuration	—
Partial thyroidectomy	31
Removal of thyroid adenoma or cyst	2
Removal of thyroglossal cysts and other cysts of neck	5

OPERATIONS ON ALIMENTARY SYSTEM.

Mouth, tongue, lips, &c.—	
Extraction of teeth	2
Excision of lip (partial or complete)	3
Excision of lip and glands	8
Partial or complete excision of tongue	—
Partial or complete excision of tongue and glands	—
Diathermy to mouth	1
Excision of jaw (lower) and glands of neck	—
Harelip	1
Excision of jaw (upper)	—
Closing of salivary fistula	—
Oesophagoscopy	7
Removal of F.B. from oesophagus	1
Incision or excision of ranula	1
Removal of salivary calculus	2
Removal of dentiferous cyst or epulis	3
Operation for oesophageal diverticulum	2
Repair of cleft palate	1

OPERATIONS ON ALIMENTARY SYSTEM—*continued.*

Stomach and intestines—

Gastrectomy	9
Gastrostomy	6
Gastroenterostomy	28
Closing perforated peptic ulcer	11
Excision of peptic ulcer	4
Exploratory laparotomy	64
Freeing abdominal adhesions	3
Paracentesis abdominis	—
Closing colostomy	4
Closure of intestinal perforation	3
Colostomy	15
Drainage of bowel	1
Enterectomy	10
Pyloroplasty	2
Entero anastomosis	5
Enterostomy	3
Appendicectomy	458
Appendicectomy with drainage	75
Drainage of appendical abscess	5
Drainage of Subphrenic abscess	1
Appendicostomy	1
Drainage of other abdominal abscess	20
Caecostomy	1
Fixation of caecum	3
Relief intestinal obstruction	10
Repair of faecal fistula	6

Hernia—

Inguinal hernia. Radical cure	158
Inguinal hernia. Strangulated	14
Femoral hernia. Radical cure	6
Femoral hernia. Strangulated	3
Ventral hernia. Radical cure	17
Ventral hernia. Strangulated	1
Incisional hernia	—
Umbilical hernia	7

Liver, gall bladder, spleen, pancreas—

Incision and drainage hepatic abscess	1
Hydatid cyst	4
Repair ruptured liver	1
Cholecystostomy	13
Cholecystectomy	101
Cholecystenterostomy	5
Linectomy	1
Repair of ruptured spleen	—
Choledochostomy	3

Rectum and Anus—

Haemorrhoids. Radical cure	49
Injection of haemorrhoids	4
Fistula in ano. Excision	15
Dilutation of stricture	—
Ischiorectal abscess. Incision and drainage	20
Excision of papilloma rectum	6
Excision of rectum	1
Sigmoidoscopy	8
Proctoscopy	2
Fissure in ano	2
Repair of Prolapse of rectum	3

OPERATIONS ON URINARY SYSTEM.

Kidney—

Exploration of kidney.....	6
Nephrectomy	14
Draining perinephric abscess	4
Removal of stone from kidney	7
Nephropexy	2
Perineal cystotomy.....	1
Cystoscopy	244
Cystectomy	1
Suprapubic cystotomy	34
Perineal Prostatectomy	1
Vesical Calculus. Lithotomy	3
Calculus, Lithetritry	1
Passing bladder sound or catheter	27
Internal urethrotomy	8
External Urethrotomy	7
Excision of urethral stricture	2
Excision of urinary fistula	—
Incision of prostatic and periurethral abscess.....	5
Repair of ruptured urethra	1
Lavage of renal pelvis.....	7
Removal of stone from ureter	—
Removal of vesical tumour	2
Supra pubic prostatectomy	39
Application of diathermy to bladder	1
Removal of F.B. from bladder	3
Excision of urethral caruncle.....	—
Transplantation of ureters	—

OPERATIONS ON MALE GENITAL ORGANS.

Incision of prepuce	—
Circumcision	9
Reduction	—
Paraphimosis	—
Radical cure. Undescended testicle	1
Radical cure of hydrocele.....	18
Amputation of penis	—
Orchidectomy	2
Epididymectomy	1

GYNAECOLOGICAL OPERATIONS.

Vulva—

Incision of Bartholin's abscess	2
Excision of cysts and new growths.....	—
Perineorrhaphy	108

Vaginal—

Ant. colporrhaphy	43
Post colporrhaphy	17
Plastic for fistulae	—
Post colpotomy	44
Insertion of pessary.....	4

Uterus—

Dilatation of cervix	19
Curettage	495
Painting of cervix	10
Trachelorrhaphy	45
Myomectomy	9
Subtotal Hysterectomy	64
Total hysterectomy	28

GYNAECOLOGICAL OPERATIONS—*continued.*Uterus—*continued.*

Amputation of cervix	4
Wertheim's operation	14
Removal of polyp	6
Cauterisation of new growth	4
Suturing perforated uterus	—
Shortening of round ligts.	116
Fothergill's operation	24
Ventrosuspension	8
Ventrofixation	6

Ovary and tubes—

Excision of Ovarian cyst	19
Oophorectomy	39
Salpingectomy	77
Salpingo-oophorectomy	55
Vaginal examination (under G.A.)	30
Salpingostomy	1
Excision of ovarian tumour	1
Induction of labour	3
Caesarean section	1
Partial resection	23
Freeing of pelvic adhesions	49
Ligation of tubes and sterilisation	4
Repair of ruptured ectopic gestation	17
Craniotomy	1

OPERATIONS ON THE BREAST.

Incision of abscess	9
Excision of tumour	15
Amputation of breast	10
Amputation of breast with glands	6

OPERATIONS OF THE THORAX.

Thoracotomy—Drainage	23
Hydatid.....	1
Removal of F.B. from pleural cavity	1
Thoraco-plasty	4

OPERATIONS OF THE EYE.

Excision of tumours	33
Plastic operations on lids	22
Removal of pterygium	75
Incision and drainage of dacryocystitis	12
Removal of tear sac	—
Tenotomy	3
Tenotomy with advancement	—
Advancement	6
Tarsectomy	12
Encucleation of globe	22
Evisceration	5
Relief of lacrima duct obstruction	3
Extraction of lens	35
Peritomy	1
Iridectomy	12
Removal of foreign body	14
Trephine	25
Posterior Sclerotomy	2
Tattooing leucoma	—
Keratotomy	4
Needling lens	22

OPERATIONS ON EAR, NOSE, AND THROAT.

Removal of aural polyp	10
Paracentesis Tympani.....	3
Excision of furuncle of ext. meatus	1
Operations on mastoid antrum—	
Palliative.....	37
Radical	6
Operations on Maxillary antrum—	
Palliative.....	87
Radical	44
Operations on sphenoidal, ethmoidal, and frontal sinuses	8
Excision of turbinal bone	6
Resection of nasal septum	63
Removal of nasal polyp	26
Tonsillectomy	298
Tonsillectomy and adenoidectomy	122
Adenoidectomy	11
Laryngotomy	2
Removal of Papilloma of Larynx	—
Removal of F.B. from air passages	—
Tracheotomy	3
Bronchoscopy	26
Other operations of ear, nose, and throat	5

GENERAL.

Plastic operations on ear, lips, and cheek	3
Plastic operations on jaw, palate, and nose	3
Skin grafts	14
Other plastic operations	15
Removal of superficial tumours and rodent ulcer	28
Incision of abscess and cellulitis	65
Removal of F.B. from soft parts	31
Excision of sinus and scar tissue.....	7
Excision of suture of wound	82
Burying radium at operation.....	139
Application of plasters, &c.	13
Snipping for microscopic examination	33
Dressing wounds under anaesthesia.....	1
Canterization	88

Grand total 5,202

X-RAY DEPARTMENT.

Honorary Radiologist .. DR. H. C. NOTT.*Radiographer* MR. C. H. MARSHALL.

Examinations.

Plates Used.

Opaque Meals	501	15 x 12 ..	5,137
" Enemata	93	12 x 10 ..	4,681
Urinary Tracts	423	10 x 8 ..	3,725
Chests	1,369	8½ x 6½ ..	2,115
Cholecystograms	204	6½ x 4¾ ..	39
Miscellaneous	3,486	Dentals ..	86
Total	6,076	Total ..	15,783

Plates used per examination for 1930 = 2.597. (Average plates used per examination for 1927, 1928, 1929 = 2.831.)

Therefore 6,076 examinations at 2.831 plates per examination = 17,200 plates. Therefore approximate saving of plates = 1,417 plates.

1,417 plates at present prices represent a saving of £115. Sizes proportionate to plates used in previous three years.

The large increase in the number of 8½ x 6½ films used in 1930, compared with the previous three years, represents another large saving, which it is impossible to estimate.

The X-Ray treatment plant has been re-created, and since starting work on September 9th, 1930, seventeen treatments have been given to eight patients.

Since the establishment of the Radium Department the photographic work has very largely increased, 180 photographs being taken in 1930.

MASSAGE DEPARTMENT.

Senior Masseuse Miss E. M. ASHTON.

The number of patients treated were:—	1929.	1930.
In-patients	222	213
Out-patients	409	385
Total	631	598
Average number of patients each day	33	36
The actual number of treatments given	10,317	11,316
Patients under treatment in Hospital, December 31st, 1930 (22 in and 70 out)	66	92
Cases treated were as follows:—		
Fractures	278	294
Loss of muscular tone	30	23
Sprains and injuries	122	96
Paralysis	50	49
Arthritis	62	55
Fibrositis	40	20

	258	430
Patients under treatment in Hospital, December 31st, 1930 — In-patients, 9; Out-patients, 40		
	35	49

REPORT ON THE ACTIVITIES OF THE RADIO-THERAPEUTIC DEPARTMENT FOR 1930.

Total new cases	442
Total visits	3,305

The work of this Department has continued along the lines adopted in 1929, new cases coming up each Tuesday afternoon for examination and discussion by a Committee of Honorary Medical Officers, while cases already treated present themselves for examination and progress report. The meetings have been held with great regularity, and have been uniformly well attended. We have had the misfortune, however, to lose the services of our Honorary Director of Treatment, Dr. A. A. Lendon, owing to an illness which we sincerely hope to be of a temporary nature only. In his absence Dr. F. S. Hone has carried out the duties of Acting Chairman.

The treating of cases in this Department has been expedited by the loan of four beds for male patients in Leopold Ward. The nominal control of the Incurable Cancer Block has also been vested in the Cancer Treatment Committee, thus giving them increased facilities for the observation of patients who have had treatment at a previous date. A Registrar for the Department, Dr. B. S. Hanson, commenced his duties on January 1st, 1930.

RADIUM DEPARTMENT (DR. H. A. MCCOY).

Total cases treated	376
Total treatments given	621

The year was signalised by the acquisition of increased equipment in the form of a further grant of radium from Canberra, and the installation of a special lead-lined radium safe set in barium concrete. Although further radium in relatively large pieces would be of great value at times, with the normal influx of patients sufficient of the element has now been received to carry out most of the treatments desired.

Together with various other small pieces of equipment, we have added a lead carrier for the transportation of needles to and from the Theatre.

Success in treatments with radium has been not inconsiderably aided by the prompt and complete co-operation of members of the Honorary Staff with the Radium Department.

DEEP THERAPY DEPARTMENT (DR. J. STANLEY VERCO).

Total cases treated	149
Total treatments given	1,028
Total courses of treatment	236
Incomplete treatments	32

The installation of a deep-therapy plant was a much needed addition to the armamentarium of the Hospital for the treatment of Cancer and allied conditions, and was carried out at the end of March of this year. It usurped the place of the superficial therapy machine, which has since been erected in new quarters. The period of usefulness of the new machine has been somewhat curtailed by mechanical trouble and a difficulty in the supply of new tubes towards the end of the year, but it is hoped that these troubles will be overcome in the near future.

A large amount of experimental and standardising work, essential for the successful operation of a new unit such as this, has been carried out by Dr. Verco during the year. Several rather expensive specialised instruments would help him in this work, and it is hoped to obtain these—possibly with the aid of the Cancer Research Committee at the University.

that I have audited the accounts of the Commissioners of Charitable Funds in connection with
W. E. ROGERS, Auditor-General.

REPORT ON DENTAL DEPARTMENT, 1930.

Superintendent.—T. D. Campbell, D.D.Sc.

Senior Dental Surgeon and Demonstrator—J. F. Clark, B.D.S.

Dental Surgeons—J. V. Christopherson, B.D.S. ; A. E. Bolt.

Dental Surgeon (Half Time)—Miss W. E. Preedy, B.D.S.

Senior Dental Mechanic—L. A. M. Brougham.

CHANGES IN STAFF.

Mr. K. Wilson was appointed temporary Laboratory Assistant.

STUDENTS.

Students attending the practice of the Hospital were as follows:—First year, nil ; second year, 6 ; third year, 5 ; fourth year, 4 ; total, 15.

In the final examinations four students graduated for the Degree of Bachelor of Dental Surgery, University of Adelaide.

GENERAL REMARKS.

The accompanying appendices show that the demand for treatment continues to increase over that of previous years. The applications for treatment and admissions to the clinic are considerably higher. As a result, the Department has been quite unable to keep pace with the conservation and artificial denture work on hand. This congestion is augmented not only by the increased demand for treatment, but also owing to the necessity of more time being devoted to immediate relief work, such as extractions and treatment of septic conditions.

Recommendations for relieving the stress of work of the Hospital have been forwarded to the Government.

Returns show a still further decrease in revenue, a feature which is largely due to the fact that over 70 per cent. of the patients admitted are in receipt of rations, pensions, and Government relief, or are inmates or wards of Government and charitable institutions.

T. D. CAMPBELL, Dental Superintendent.

THE CONSUMPTIVES' HOME.

Within the home are rooms set apart for library (with hundreds of books, periodicals, and magazines), smoking, billiards, billatelle, and other games. A piano and organ are provided, in fact everything is done to give the patient all the comforts of a good home, together with the best medical and nursing skill procurable. There is accommodation for 62 patients.

Provision is also made for the treatment of cancer cases, there being 20 beds available.

The majority of cases pass through the Consulting Room, or are transferred from the wards of the General Hospital.

The number of new cases admitted during the year (570) was 95 more than the previous year.

The deaths total 36, a mortality rate of 6.06 per cent. on the number treated for the year.

The diphtheria cases were six more than the previous year, 157 cases in 1930 and 151 in 1929. There was one (1) death.

There were 19 cases of Scarlatina treated in 1930, as against 23 in 1929. There were no deaths.

The number of cases of measles treated was 13 less than the previous year, 74 in 1930 and 87 in 1929. There were four deaths, being a mortality rate of 5.4 per cent.

The number of cases of Erysipelas was 88, as compared with 57 for the previous year, an increase of 31. There were six deaths, a mortality rate of 6.81 per cent.

The Block has accommodation for 144 cases.

LABORATORY OF BACTERIOLOGY AND PATHOLOGY, ADELAIDE HOSPITAL.

STAFF.

Director :

LIONEL B. BULL, D.V.Sc., Melb.

Deputy Director :

E. McLAUGHLIN, M.B., B.S., Adel., M.R.C.P.

Bio-Chemist :

R. J. COWAN, B.Sc.

Bacteriologist in Charge of Vaccine Department :

HELEN M. MAYO, M.D., Adel.

Honorary Pathologist.

JOHN B. CLELAND, M.D., Ch.M., Sydney.

The work of the laboratory is clearly separated into two main divisions, viz., work done for patients admitted to the Adelaide Hospital for treatment and that done for private medical practitioners, boards of health, Stock Department, and other public institutions. All the work in these two main divisions is more or less of a routine character, but wherever possible, research or investigational work is carried out on diseases of man and animals, and also on the improvement of laboratory methods used in the diagnosis of disease. As far as possible this work is summarised in the following table, but this summary does not represent all the activities of the staff, which, in addition, concerns itself in the care and maintenance of apparatus; the preparation of staining solutions, culture, media, &c., for use by students both in the Hospital and at the University; assistance to the Honorary Pathologist in the building up and maintenance of a museum and pathological and bacteriological examinations in connection with the *post mortem* room; the maintenance of a library of current scientific publications on pathology, bacteriology, bio-chemistry, and related subjects.

It is not possible to give a very accurate picture of the activities of the laboratory staff and the work done by giving the actual number of examinations made, for one examination may involve, for example, 10 times the amount of time that another does. For the most part, however, such a summary does convey, particularly to those familiar with laboratory work, some idea of the main activities of the staff.

Summary of Work, 1930.

Adelaide Hospital—

Clinical Pathological Examinations—

(a) Histopathological	801

*Summary of Work, 1930—continued.**Adelaide Hospital—continued.*

Vaccines prepared—		
Adelaide Hospital	160	
Private patients	102	
		262
		18,702
Less examinations mentioned twice	—	1,169
Grand total		17,533

The *Clinical Pathological* examinations performed for the Adelaide Hospital include—(1) The histological diagnosis of pathological tissues, several of which were immediate examinations performed during operations (such examinations are done in order to help the surgeon in determining the extent and nature of the operation necessary); (2) the examination of urine to detect abnormal chemical and morphological elements; (3) the examination of faeces to detect the presence of abnormal elements; (4) the examination of cerebro-spinal fluid to detect cellular and chemical change (this examination is extremely useful in detecting syphilis of the central nervous system); (5) the examination of the blood to detect the presence of the various anaemias and leukaemias; (6) the examination of material for the detection of *spirochoeta pallida* in the diagnosis of syphilis; (7) the examination of fluids from various cavities and cysts to determine their nature.

The bio-chemical examinations performed for the Adelaide Hospital include—(1) The estimation of the amount of sugar in the blood (this examination is made as an aid to the diagnosis of diabetes, and is made either after a fasting period or after the administration of glucose when several examinations are made to trace the rise and fall in the blood sugar); (2) the estimation of the urea nitrogen in the blood; (3) the examination of the gastric contents after a test meal, either one sample at the end of one hour or smaller samples at more frequent intervals over a period of two and a half hours; (4) colloidal gold curves on cerebro-spinal fluids; (5) chemical examinations of various body fluids.

The *Bacteriological Examinations* performed for the Adelaide Hospital include—(1) The examination of sputum for the detection of tubercle bacilli and other bacteria, and also for hydatid hooklets; (2) the examination of blood for the Widal reaction (this examination is important in assisting in the diagnosis of typhoid fever); (3) the examination of swabs taken from the throat and nose to detect the presence of diphtheria bacilli; (4) the examination of urine to detect the presence of tubercle bacilli, colon bacilli, and other bacteria; (5) the examination of inflammatory fluids, for the detection of bacteria, *e.g.*, pleuritic

fluid for tubercle bacilli ; (6) examination of cerebral-spinal fluid to detect the presence of tubercle bacilli, meningococci, and other bacteria ; (7) the cultural examination of blood to detect the presence of bacteria in the circulation ; (8) the examination of faeces and urine for the detection of typhoid bacilli and other pathogenic bacteria ; (9) the examination of pus for the detection of gonococci, actinomyces, and other bacteria. Bacteria isolated from the various fluids and materials are often used in the preparation of autogenous vaccines.

The *Wassermann Reaction* was performed on Thursday in each week. This reaction is of great value in the diagnosis and treatment of syphilis. The Griffith & Scott technique is employed throughout.

The examinations performed and classified under the head *Private Work* include in the main such examinations as described under clinical pathological, bio-chemical, and bacteriological examinations. Much work was done for the Board of Health. Included in the examinations are also :—Examinations of various foodstuffs for the detection of bacterial contamination ; (2) examination of drinking water to determine its suitability for drinking purposes. Included under this head are regular examinations for the Hydraulic Engineer's Department and for the Adelaide Local Board of Health ; (3) the examination of disinfectants to determine their germicidal power ; and (4) medico-legal examinations.

The routine examinations for the *Stock Department* include—(1) Bacteriological examinations of cow's milk for the detection of tubercle bacilli and other bacteria ; (2) morbid tissues for histopathological examination ; (3) examination of faeces to determine the presence of parasitism ; (4) examination of cow's blood for the diagnosis of contagious abortion by the agglutination test ; (5) specimens removed *post mortem* from animals dying from various causes, &c.

During the year investigations were continued on "swelled head" in rams, and a prophylactic vaccine was prepared and administered to animals in the field. Investigations were also made into diseases of unknown etiology in sheep, poultry, and pigs.

The Vaccine Department, as well as preparing 262 separate vaccines, also administered inoculations of vaccine to hospital patients. During the year 290 hospital patients were under treatment. The majority of these patients visited the laboratory twice a week during their course of treatment, when they received their injections. In all, 1,862 doses of vaccine were administered ; also 301 doses of tuberculin were given to 12 patients. Vaccines were prepared for 102 patients under the care of private practitioners, and 1,008 doses (including 141 doses of tuberculin and 176 doses of T.A.B. and B.C.C.), and 382 c.c., were supplied in bulk to private practitioners.

The Vaccine Department continued to undertake the work of testing asthma and hay fever patients for sensitization against various extraneous substances, and to carry out the appropriate treatment. During the year 90 patients were tested against the various pollen, protein, and epithelial extracts. Nine patients were treated and received 109 doses; three patients received 73 doses of peptone, and two patients received 24 doses of adrenalin.

During the year arrangements were made whereby the sterilization and preparation of catgut for surgical use in the hospital was undertaken in the laboratory.

Summary and Comments.—The figures show that there has been an increase of 1,413 examinations over those made during the previous year. The increase is due to the larger number of examinations made for patients in the Adelaide Hospital. The increase in the number of histopathological examinations made is partly due to the number of these examinations required by the Radium Department, 131 examinations being made during the year.

Under the head of private work 402 fewer examinations were made, which represents a fall of approximately 7 per cent. This is a small decrease considering the depression in trade.

VENEREAL DISEASES.—NIGHT CLINICS.

REPORT FOR YEAR ENDED DECEMBER 31ST, 1930.

Improved accommodation for the treatment of venereal diseases is urgently necessary.

The Venereal Diseases Act, passed by Parliament in 1920, has not yet been proclaimed. The provisions of this Act could not be effectively carried out until accommodation for the treatment of both in-door and out-door patients is provided. It is considered that the Act should be proclaimed as soon as possible.

REPORT OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31ST, 1930.

Male Section.

Surgeon.—Dr. G. H. Burnell, B.S., M.D.

Honorary Clinical Assistant—Dr. H. R. Pomroy, M.B., B.S.,
F.R.C.S.

During the year under review the work has been carried on in the new temporary building. With the new facilities at hand the treatment of increasing number of patients has been more satisfactory and considerably more expeditious. The maximum number of patients treated in one evening is 180, and the average about 140-150. Permission has been given for the purchase of up-to-date instruments and equipment, and when these arrive the conditions under which the patients are treated should be satisfactory.

As will be seen from the subjoined table, a large number of patients not suffering from venereal disease were seen, and it is an encouraging fact that use is made of the clinic by such people to detect the probable outbreak of venereal trouble in its earliest stages, because the whole outlook in venereal disease depends on the stage the patients have reached before they seek treatment.

The total number of patients for the year was 919, and the total number of attendances 15,143. There were 233 cases of syphilis and 476 cases of gonorrhoea treated. Not included in the above were 55 persons who had both gonorrhoea and syphilis, and 140 persons attended on account of diseases which were shown to be other than venereal.

Female Section.

Surgeon—Dr. R. F. Matters, M.B., Ch.M., F.R.C.S.

A review of the work of the Female Night Clinic for 1930 is most satisfactory.

There were many cases of tertiary syphilis who had been under treatment for years, and most of these have been discharged during the year.

Some cerebrospinal treatment of syphilis has been undertaken with very good results, but there is some difficulty regarding these cases owing to the time that each one requires.

It would accelerate the treatment of some cases of syphilis if one or two beds were available for treatment on pyrexial lines plus arsenical compounds.

The installation of the diathermy apparatus has made a wonderful difference in the treatment of gonorrhoea and the average time of treatment has been reduced by as much as four months.

The Sisters and Nurses have co-operated magnificently in carrying out the work. This is the best report which has been given from the Female Night Clinic for some years.

The total number of patients for the year was 280, and the number of attendances 4,928. There were 128 cases of syphilis and 109 of gonorrhoea treated. Not included in the above were 24 patients who had both gonorrhoea and syphilis, whilst nine (9) patients attended for diseases which on examination were found to be non-venereal.

Attached are details of attendances and statement of expenditure and revenue.
