Report

FOR THE YEAR ENDING DECEMBER 31st, 1937

—:0:—

THE Committee of the Bristol General Hospital submit their 106th Annual Report to the Governors, together with the Audited Accounts for the year 1937.

The excess of Ordinary Expenditure over Ordinary Income was £15,776, compared with £13,147 and £14,956 in the two previous years, resulting in the overdraft at the bank being increased to £43,113. Further reference to this will be made later in the Report.

The average number of beds in daily occupation was again slightly less than in the previous years, due largely to a reduction in the number of beds in Dod and Guthrie Wards on these being specially set apart for the treatment of radiological cases. In spite of this, however, the total number of admissions exceeded by 145 those of the year 1936, and consequently the average period of residence of each patient was reduced from 17·16 to 16·63 days. The cost per occupied bed has been increased from £163 15s. 10d. to £174 13s. 1d., due in large measure to increases in the wages of certain of the employees and to the costly nature of the treatment undertaken in the new Joint Radiological Department. The cost per in-patient completed has risen from £7 13s. 8d. to £7 19s. 3d.

The demands on the accommodation available have been greater than ever, and your Committee regret to report the large increase in the waiting list which has taken place during the year. The fact that the percentage of beds occupied to beds available was as high as 93·61 clearly indicates the pressure put upon the available accommodation.

The growth of new residential districts on the south and west sides of the city has thrown additional strain on all departments of the hospital, and this factor, together with the great popularity of the hospital, accounts for the heavy waiting list, which is a constant source of anxiety to your Committee.

As referred to in the Report for the year 1936, the Joint Committee of representatives from the Royal Infirmary and the General Hospital decided after very careful consideration to recommend to the Governors the complete amalgamation of the two institutions, and resolutions

unanimously approving of such action were passed at meetings of the Governors of the Royal Infirmary and the General Hospital held respectively on February 23rd and March 15th. Since then a Constitution and Bye-laws have been drawn up governing the amalgamated institutions, to be known in future as the "Bristol Royal Hospital," and formal application has been made to the Charity Commissioners for a scheme of complete amalgamation. This, it is anticipated, will be forthcoming early in 1938, after which the new Council to govern the "Bristol Royal Hospital" will be set up as provided for in the Constitution and Bye-laws.

During the year, as a first move in connection with the amalgamation of the Royal Infirmary and the General Hospital, the National Radium Centre was transferred to the Hospital and the X-ray treatment of cancer and other conditions formerly carried out at both institutions, was centralized at the General Hospital; while all in-patient fracture treatment was transferred to the Royal Infirmary. The beds which have thus been released at the hospital are now devoted to the care of cases requiring treatment by radium, superficial and deep X-ray therapy, and various forms of light therapy. Since this new arrangement started the work has increased to such an extent that to meet the influx of patients requiring X-ray therapy treatment it was found necessary to make preparations for the installation of additional apparatus.

Another change brought about by the amalgamation is the fusion of the two Schools of Massage and Medical Gymnastics and Light Therapy, and in future all the teaching work in this department will be done at the Royal Infirmary.

Your Committee have for some years been gravely concerned at the financial position of the hospital. In spite of the sale of investments in 1936, the overdraft now stands at the large figure of £43,113. The capital reserves of the hospital are being seriously depleted, and the outlook for the future is one of great anxiety. It is not too much to say that the future of the hospital and of the voluntary system in Bristol is in jeopardy.

Last year your attention was drawn to the subject of Contributory Schemes, and the relative smallness of the income derived therefrom as compared with other provincial cities of equal size and importance. During the year under review the Joint Committee have been giving this subject prolonged consideration with a view to enlarging the scope of the existing organizations and establishing a system capable of producing the additional revenue without which the voluntary hospitals cannot long continue to fill their important place in the health services of the city and the surrounding districts. The experience of the post-war years has shown that the voluntary hospitals of England—institutions without parallel in the rest of the world—are

becoming increasingly dependent on the support of the general public who use these hospitals, and this support is most successfully given by those Contributory Schemes which collect small sums weekly from all the potential users of the hospitals, from all the men and women in regular employment in the districts served by the hospitals, and by proportionate grants from the employers of labour.

It may not be generally known how far Bristol is behind other provincial centres in this most important source of hospital revenue, and it is the hope—and will be the earnest endeavour of your Committee—that 1938 will be a year of marked progress in Bristol and that results more comparable with those achieved elsewhere will be obtained.

The steady transference of the population from the district immediately adjacent to the hospital to the new housing sites at Knowle and Bedminster Down has occasioned a new departure in connection with the outside maternity work of the hospital. The maternity district has now been extended to include these new areas, and two hospital midwives are residing in Knowle West in a house, No. 24, Hartcliffe Road, which has been rented from the Bristol Housing Committee and furnished by the hospital. This arrangement made under agreement with the Corporation of Bristol will result in a great saving of time and is proving of inestimable value to the patients residing in these districts. This innovation may well provide a lead to the large General Hospitals of other cities to establish more of such out-posts.

In connection with the extended period required for the training of Midwives under the new regulations of the Central Midwives Board, discussions have taken place with the Board with regard to their recognition of the Bristol Royal Infirmary and the General Hospital, the Maternity Hospital and Southmead Hospital as a Joint Training Centre for both the first and second parts of the course. It is anticipated arrangements for this will be satisfactorily concluded during the year 1938.

The new Clinic for Chiropody referred to in the Report for 1936 was opened for the reception of patients on February 4th, and during the year 168 cases have received attention. The Clinic deals only with cases referred by members of the Honorary Staff.

The Queen Victoria Jubilee Convalescent Home received 720 patients during the year, and your Committee again express their appreciation of this great assistance in relieving the pressure on the hospital beds.

Your Committee regret to report the death on April 26th of Dr. George Parker, Honorary and Consulting Physician to the Hospital, and would place on record their great appreciation of the services he rendered to the Hospital since his appointment as an Honorary Assistant Physician in the year 1892.

At a meeting of the Joint Election Committee held on May 25th, Dr. Gilbert B. Bush, B.A. (Camb.), M.B., Ch.B. (Bristol), D.M.R.E. (Camb.), F.B.A.R., and Dr. Stanton B. Adams, Ph.D., B.Sc., M.B., Ch.B. (Bristol), D.M.R. (Lond.), were appointed Honorary Radiologists in the Radiological Department.

Your Committee regret to report the resignation of Dr. Charles Corfield of his appointment as Honorary Anæsthetist, and they have extended to him their very sincere thanks for his valuable services to the hospital since the year 1909.

Appointments and re-appointments were made by your Committee during the year as follows :—

Dr. A. T. SPOOR, Medical Officer-in-Charge, Physiotherapy Department.

Dr. J. V. BLACHFORD, Medical Officer-in-Charge of Out-patient Mental Clinic.

Professor T. B. DAVEY, Honorary Pathologist.

Dr. E. K. ABBOTT, Radio-Diagnostician in the Joint Department.

Rev. S. E. SWANN, Chaplain.

Mr. J. A. POCOCK, Resident Surgical Officer and Registrar.

The Hospital Scholarships for the year have been awarded as follows : Clarke's Surgical Scholarship, Mr. C. R. G. Howard ; Lady Haberfield Prize, Mr. M. B. Dworkis ; Martyn Memorial Pathological Scholarship, Mr. A. M. Spencer ; Sander's Scholarship ; Henry Marshall Prize ; Barrett Roué Scholarship, Mr. P. B. Ryan.

The Committee's Medals were awarded as follows : Gold Medal, Mr. J. W. E. Snawdon ; Silver Medal, Mr. P. B. Ryan.

The following is a summary of the Income and Expenditure and the statistics relating to patients treated and their costs for the year 1937 as compared with the previous year. Full details will be found in the audited accounts, see pages 32-37.

Your Committee would again extend their thanks to the Independent Workpeople's Schemes which have contributed a sum of £2949 18s. 11d. during the year in addition to £2955 2s. 9d. towards the cost of the maintenance of members receiving either in- or out-patient treatment.

The B.M.I.C.S. has again received the thanks of your Committee for contributing £3301 and making payments amounting to £2957 3s. 0d. during the year in respect of members of the Scheme who received treatment in the Wards and Out-patient Department of the hospital.

The Ladies' Needlework Guild provided 5162 articles and £398 in subscriptions during the year, and the grateful thanks of your Committee have again been extended to the members of the Guild for their continued help, the value of which it is not possible to estimate. The employees at the factories of Messrs. W. D. & H. O. Wills, J. S. Fry & Sons Ltd., and Franklyn Davey & Co., have continued to render assistance to the Guild by attending at the hospital to undertake the repair and provision of bedding, linen, etc., and the thanks of your Committee have again been expressed to them, as also to the members of the Ex-83rd Bristol Company of Rangers and friends for their weekly attendance to assist in the preparation of surgical dressings, etc.

The report of the Almoner will be found in detail on page 22. The work of this department continues to extend, and the aid of the Samaritan Fund in helping necessitous cases after leaving the hospital is gratefully acknowledged by your Committee.

The year under review has shown a marked decline in the number of applicants desirous of entering the nursing profession, and from a scrutiny of the syllabus of training, coupled with the accounts in the Press of the supposed hardships and unfavourable conditions appertaining to nursing, it is not surprising parents hesitate to advise their daughters to take up nursing.

Another important requirement has arisen and comes into force on January 1st, 1938. All candidates must pass an entrance examination set by the General Nursing Council unless they have obtained the School-leaving Certificate or its equivalent before being accepted for training in a hospital. Training in preliminary schools will not exempt candidates from this entrance examination, and the position is difficult and serious.

An Inter-departmental Committee on the Nursing Services has recently been appointed, and it is to be hoped that arrangements to co-operate with educational bodies will be considered and a scheme formulated for potential candidates. During the last year of school life they might attend a course of lectures in Anatomy, Physiology, and Hygiene and sit for a preliminary examination to be recognized by the General Nursing Council. It is the first year of training at a hospital that is so strenuous, and probationers relieved of many lectures would have more time to devote to the practical work of nursing. In addition, senior girls from the schools should be encouraged to visit Nursery Schools and Hospitals, films on nursing might be

exhibited, and talks concerning the wide field of work and the opportunities open to trained nurses should be given.

The resignation was received with much regret of Miss I. Swift, Assistant Matron, on her appointment as Matron to the Torbay Hospital, and in congratulating her on her new appointment the thanks of your Committee were extended to her for her services to the hospital over a period of nineteen years. To fill the vacancy your Committee appointed Miss Freda M. Baldwin, of St. Thomas's Hospital.

During the year 240 applications for training were received and 36 candidates selected and entered the Preliminary Training School for the eleven weeks' course, and 33 passed the qualifying examination and entered the hospital wards for the three years' training.

In the **State Examinations** 32 candidates passed the Preliminary and 24 the Final examination, 26 Nurses completed their training, of whom 23 joined the private Nursing Staff and 3 left for private reasons.

The **Annual Nurses Prize-giving** was held at the hospital on December 7th, when Mrs. P. G. Robinson kindly presented the following medals and prizes: Gold Medal for General Proficiency, Nurse Rosemary J. Garrett; Silver Medal, Nurse Margaret Foskett; Certificates of Efficiency, Nurses Joan Panrucker, Elsa M. E. Tapper, E. Monica Webber.

The Bernard C. Lucas prizes, kindly given by Mr. Bernard C. Lucas for the most proficient first- and second-year probationers, were awarded to Nurses Doris L. Pile and Juanita B. Rule respectively, and the following for the Hospital examinations: Medical Nursing, Elsa M. Tapper, Leonora E. E. Price; Surgical Nursing, Nurses Mary E. Carpenter and Elizabeth M. Bruce; Anatomy, Nurses Lucy N. Knapp and Margaret Harris; Physiology and Hygiene, Nurses Betsy J. Sawyer and Lillian M. Bartlett; Practical Nursing, Nurses Monica Webber and Dora M. Webber.

JOINT RADIOLOGICAL DEPARTMENT

1937.

During the year, pending complete amalgamation of the Bristol Royal Infirmary and the Bristol General Hospital, a Joint Radiological Department was formed, and all radio-therapeutic work was transferred to the Bristol General Hospital. This has concentrated all X-ray and Radium therapy under one roof, and two Wards comprising 9 male and 11 female beds have been set aside for the work. The old Dispensary has been adapted to provide some of the necessary accommodation for the Radium work and the Department now consists of :—

1. A Clinic room where Out-patients are attended.
2. A mould room where radium applicators are made.
3. A room where private patients requiring treatment are seen, and when necessary, wait for their treatment to be carried out.
4. Out-patient Radium treatment room.
5. Records Office.
6. A Strong Room where the radium safe is housed.

489.28 mg. of radium loaned by the Radium Commission is now available at the Joint Department in addition to 420 mg. owned by the Hospital and 200 mg. by the Bristol Royal Infirmary. National Radium is not available for hire outside the Institution. Radon can be obtained from London when required.

Regulations for Patients.

IN-PATIENTS.

Such persons only shall be eligible for admission as In-patients as are unable to pay for medical attendance and support outside, according to the urgency of the case and the accommodation available.

With the exception of necessitous cases, In-patients are required to contribute 21s. per week towards the cost of their maintenance; free treatment will, however, be given as heretofore to all patients who satisfy the Almoner of their inability to pay the above charge.

Patients shall present themselves with the necessary notes for admission between 10.30 and 11 a.m. daily (Sundays excepted). They are to be clean, to bring a change of linen, brush and comb, soap and towel. It is most essential, and will often prevent disappointment and inconvenience, if patients living at a distance from the Hospital, and wishing to be admitted, will first forward their notes, together with a certificate from their own doctor, to the Secretary at the Hospital, and notice will then be sent when there is a vacant bed.

Visiting days—Tuesdays, 6 to 7 p.m.. Thursdays and Sundays, 3 to 4 p.m.

Patients suffering by casualties or other sudden emergencies requiring immediate attention shall be at all times admissible without notes.

Lying-in notes may be obtained free of charge on application at the Hospital on Mondays, Wednesdays, and Fridays at 11 a.m.

Report of Needlework Guild Committee for the Year 1937.

IN presenting our Thirty-fifth Annual Report, we record another prosperous year. The number of articles sent in was 5559, and the subscriptions amounted to £431 8s. 2d. The articles being forty less, but the subscriptions £32 more than in the preceding year, and reaching £400 for the first time. This was an obvious increase in total results, for which we are very thankful.

The Exhibition of Work, held on November 4th, was the usual success. The President of the Hospital, Miss Hilda Wills, welcomed the members, and told them that the help they rendered the Hospital was invaluable. Mr. Herbert Baker, Chairman, was also present. We are deeply indebted to the Matron and her Staff for all their work in connection with the Tea, for we realize that the success of the afternoon was, as usual, largely due to them.

There are few changes to report on the Committee. We much regret the loss by death of Mrs. Ashdown, who started the branch at Wrington fifteen years ago, but we are pleased to say that Miss Organ has kindly consented to carry on the work. Mrs. Burnett, of Highbridge, has resigned, and we are very grateful to her for all she has done. We are sorry, too, to lose Mrs. Gough, of Calne, but are pleased to welcome Mrs. Pound in her place.

We wish to thank all who have helped in any way towards the wonderful achievements of the Guild, which are all the more valuable because we feel sure that they are the expression of real interest and goodwill. These are very difficult days, there is a great feeling of tension everywhere, and administration was probably never more complex. Let us see that we do not slacken our efforts to lessen the heavy burden of our own Finance Committee during the coming year, by increasing still further our contribution to the Funds.
