Report of the Committee of Management

NINETEEN HUNDRED AND FORTY has brought us, in common with very many other hospitals, many calamities, but they are almost if not quite outweighed by the number of kindnesses that have been showered upon us.

At the beginning of the year we were maintaining a supplementary Hospital at Rottingdean, under the care of Miss Raynham Smith who insisted on helping us as a voluntary worker. It became necessary to move from Rottingdean and we then found a fresh home in the Guest House of S. Mary's Abbey at West Malling. When the raids became too numerous there we reassembled our patients and staff at Woolwich, and when the Ward Block was partly destroyed by a high explosive bomb the Ministry of Health generously lent us a large house at Chesham. We still retain 22 beds for emergencies in the Mother House and these are rarely empty. The Borough Council of Woolwich had strongly fortified our two lower corridors and one labour room in July, sharing the expense with the Ministry of Health, and it is to their most efficient work that we attribute the absence of casualties. They are now still further strengthening our defences.

Temporary repairs have been carried out by Messrs. Thomas and Edge, under the instructions of our architect, Mr. Hall, at a cost of £275, and we have received a loan of £205 from the Government for this expense. The rebuilding of the Ward Block cannot be undertaken till the end of the war—when that happy moment comes we are hoping to increase our accommodation by adding several small wards and offices to that end of the Hospital.

The expense of maintaining two establishments, with two sets of staff, is of course considerable, but this difficulty has been overcome by the splendid help given by our Appeal Committee. Recognising the impossibility of appealing at such a time for the extension of the Hospital they decided to launch a War Emergency Appeal, the money to be paid into our Maintenance Account, and this new venture has brought in this year no less than £2,000, in addition to paying its own printing and postal expenses.

Our Resident Medical Officer, Dr. Gwendoline Grove, has been placed in charge of our supplementary Hospital, and this has been rendered possible by the valuable help afforded by Dr. Harold Waller and Dr. Eileen Wise, who have made the Hospital their headquarters since the beginning of the war. We are also greatly indebted to Mrs. Tennant and other friends who have worked here as V.A.D.'s at various periods of the year.

We greatly regret the loss of our Hon. Treasurer and Committee Member, Mr. G. L. Walter, who has had to resign his post as Manager

of the Westminster Bank, Woolwich branch, owing to domestic reasons. His place as Hon. Treasurer and on the Committee of Management has been filled by his successor, Mr. D. F. J. Pigott. Our Committee has been further strengthened by the addition of the new Rector of Woolwich, the Rev. Cuthbert Bardsley, Canon Christopher of Eltham, and Mrs. Napier, who still hopes to attend the Meetings, though she has left Woolwich.

We offer our congratulations to our Assistant Secretary, Miss J. M. Wild, on having sat successfully for both parts of the final examination for the Associateship of the Incorporated Association of Hospital Officers.

The research on lactation was continued up to the time when the building was damaged by enemy action, and it was fortunate that Miss Grant had completed the series of analysis on which she had been engaged. Her results together with the supplementary work of Dr. Scott Blair and Dr. Aschaffenberg of the University of Reading will be published as soon as circumstances allow. Meanwhile, financed by our Research Fund, a fresh series of observations, of a different character but in the same connection, are being undertaken in Cambridge.

Report of the Matron

Nineteen hundred and forty has been a very difficult year, but we have been enabled to put through a great deal of work in spite of the handicap of war time: 1,180 mothers were delivered under our care, 145 of them at the evacuation Hospital at Pednor House, Chesham, Buckinghamshire. All but a small fraction passed safely through labour and made a normal recovery. Five Caesarian operations were performed successfully. Ten pairs of twins were born and 31 emergency cases were admitted. 1,882 patients attended the pre-natal clinic and 10,836 attendances were made. 155 cases were admitted for pre-natal treatment, a department of the work that is of the very greatest importance. Gas and air analgesia was administered in 45.8 per cent. of all cases confined and morphine was given in 40.1 per cent of cases. Other analgesic drugs were also used. Three maternal deaths occurred. Two were pre-natal patients who were admitted with acute heart failure in the early months. The third died of heart failure just after the birth of her baby. She also had chronic valvular disease of the heart. The infant clinic attendances have been of course smaller than usual as so many mothers and babies have been evacuated. The total number of infants attending were 669 and the total attendances made were 1,366. The dental clinic too shows some decline for the same reason. 162 patients were treated, and 33 complete dentures were supplied.

At Christmas 1939 the Princess Royal most graciously gave the Hospital an additional oxygen bell-tent for the use of delicate newly-born babies. The gift has already proved its usefulness in saving the lives of several babies. Even the difficult task of transporting the whole apparatus has been carried out, when Dr. Grove employed it for a newly-born infant in the district. The child was enabled to live in an atmosphere of continuous oxygen for three days and nights, and was successfully revived. We are yet further indebted to our President for the gift of an electrically heated mattress for use in the babies' cots. For these valuable additions to our equipment we are deeply grateful.

We must record our gratitude also to Dr. John E. Elam, our Hon. Consulting Anaesthetist, for his gift of a portable Walton Minnitt Gas and Air apparatus to our evacuation Hospital at Chesham.

Dr. Arthur Davies, Hon. Consulting Pathologist, besides conducting post-mortem examinations for us, devoted a whole day to supervising a drip transfusion for a patient who we could not move into a general hospital owing to the great scarcity of beds for civilians at that time. She was admitted in a state of extreme anæmia and acute toxæmia. She made an excellent recovery.

The number of pupils trained has been very small compared with other years, due partly to the shortage of applicants but more to the longer training which has just come into force. Eleven pupils have passed the State examination and 3 failed. In November, 4 refugee nurses and 3 English pupils were presented, and only 1 failed. This result is most creditable as they had to study under such difficult conditions. Often after a long day's work they were to be seen in the basement shelters lying on their mattresses, books and notes open, studying by candle light. The way in which the whole nursing staff has met and overcome the heavy and difficult tasks which the war has added to their work, calls for mention. The restricted lighting and ventilation of the wards demanded extra vigilance in their care of both mothers and babies. Raids played havoc with the usual routine for with each warning all patients had to be moved at once to the protection of passages and basement, and back again when the raiders passed. Often and often they passed but to return, and the whole manœuvre had to be repeated day and night. These duties were met with the greatest willingness and with a show of indifference that carried reassurance to the patients. No trace of panic has appeared in the Hospital and it is a real satisfaction to be able to report that the standard of care has been well maintained.

The Borough Council strengthened our labour room and also the basement shelter with steel joists and pillars, and it has been a matter for great thankfulness to have these places in which to put patients during raids. The night we were hit we had 60 patients and about 50

babies and no one was hurt, although the part of the ward block that normally contained 40 beds is a total wreck. If the routine practice of taking the patients to shelters had not been carried out, heavy casualties would have been inevitable. Within a few hours the Ministry of Health had taken 30 of our most newly confined mothers in ambulances to Farnborough Hospital and 15 of the staff with them, and the next morning a party of the nursing staff were off to Chesham to prepare for the reception of 25 expectant mothers who arrived in three days. To our domestic staff also gratitude is due. They never relaxed in spite of fatigue, and no more skilful and alert fire watchers and fighters can exist than those Mr. Conway, our engineer, has organised and directed so untiringly from the outset.

We are left at Woolwich with a maximum of 22 beds, the Clinics—a big job—and the shelters. Our pupil midwives alternate between here and Chesham as their Clinic experience has to be gained here. At the beginning of the bombing of London we felt we must keep an open door for any emergency midwifery case and for any distressed or ill pre-natal cases who were not fit to be in the public shelters or their own Andersons. It has been a very happy part of our work. At first during September and October our basement was crowded, but now that the public shelters have been made more comfortable, we are not too full. In the relief work that we have been privileged to do we have been greatly assisted by many kind friends who have helped to get suitable billets for mothers and babies on leaving us and to find places for the many whom we could not take for their confinements. We cannot as a rule send mothers down to Chesham until they are within ten days of term owing to the press on the beds there.

The American Red Cross has given us £50 to relieve bombed-out patients and their families and they also sent the most glorious parcel of clothing, men's, women's, and children's; strong boots and shoes, overcoats, underwear, stockings and socks, besides babies' clothing. Could they but see the stunned look fade from the sufferers' faces as they are given immediate help, warmth and hope! Often a mother would burst into tears of utter relief. Our British relief services do marvels, but it all takes time and it has been priceless to have these means of comfort ready to our hands. We must not use much printing or paper or it would be easy to go on and on to tell of the many friends who have helped or are helping us to do a little to pick up the pieces for a few of the distressed.

We have been fortunate to secure the services of Miss Jennie Mennie, S.R.N., S.C.M., as Matron, first of the evacuation Home at West Malling, and then when the bombing became too hot there, she led the party who so quickly got Pednor House under way and ready for the reception of patients three days after we were bombed.

List of Presents

We were again honoured by a gift of primroses from Their Majesties, the Queen and Queen Mary.

The Shilling Fund

A 1/- Fund, initiated by Dr. Waller at the end of 1938 for the purchase of an extremely up to date Gas and Air Apparatus, the McKesson, was brought to a triumphant conclusion, the total sum collected being £69 15s. od., the price of the Apparatus. Our most cordial thanks are due to all the many contributors who have by its means greatly reduced the sorrows and trials of our Dental Department.

* Executive Appeal Committee Report WAR EMERGENCY FUND

Since the beginning of the war the Executive Appeal Committee has devoted its efforts to support the general work of the Hospital through the War Emergency Fund and the Chairman, the Countess of Stamford and members of the Committee wish to take this opportunity of expressing their gratitude to all those who have so generously supported this important department of the Hospital.

It will be necessary to abbreviate the report to a few sentences as we wish to comply with the Government's instructions to conserve as much as possible the use of paper during the war. The annual list of subscriptions and donations have also been arranged to meet this end; it has been decided to express the Committee's appreciation of the kind support of the work through the medium of the Press and thus avoid the additional expense of sending to each individual a copy of the report. During the year, practically all the special functions which would have taken place have had to be cancelled and the only medium through which we might solicit financial aid has been by letter. In the Report of the Committee of Management the Hon. Secretary has told how appreciative the General Committee are to the War Emergency Fund Committee for the addition of £2,000 to the Maintenance Account.

The Committee are also grateful to the friends in America and the Colonies who have and are continuing to send substantial financial assistance, it is hoped to set aside at the end of the year a special report with the list of names of those friends who have sent gifts from overseas. Special thanks should be expressed also to the following who have sent special grants to this department during the past year :—

	£
The Fitton Trust (per Mr. J. F. Morton)	250
The Granada Cinema, Woolwich -	109
The Worshipful Company of Goldsmiths	100
The International Time Recording Co. -	100
Mrs. Thomas Benskin - - -	90

The Albert Levy Benevolent Fund (per Lady Levy) - - - -	50
Mrs. Ernest Cooper - - - -	50
D. G. Ryder, Esq. - - - -	36
The Odeon Cinema, Haverstock Hill -	31

The Committee looks forward with confidence to the continued support of this department during 1941, additional funds will be required as the increased costs in every direction will make this necessary. The work of the Hospital in Woolwich must continue and will serve as a centre of national importance both in the community and the nation.
