Ellison Hall Accident Infirmary.

31st ANNUAL REPORT

For Year ending December 31st, 1928.

The Committee have pleasure in submitting to you their Annual Report for 1928.

Medical Report.

There has been 1,841 cases treated during the year, which, with 29 on the books at the end of 1927, make the total 1,870, and the number of attendances and dressings have amounted to 8,475. The foregoing figures show that the Institution has a good reputation and record of which the Committee are very proud, and we have received letters from a large number of patients who speak very highly of the treatment, care and attention bestowed upon them while they have been In-Patients and Out-Patients of the Institution.

There has been 15 Motor Accident cases admitted, and 13 cases treated as Out-Patients during the year. There has also been 22 complete teeth extractions, and may we point out that extractions can be carried out at the Institution by making the necessary arrangements with the Doctor.

Income.

The income for the year has amounted to £1,993 4s. 10d., with the balance £444 13s. 3d. from 1927, makes a total of £2,437 18s. 1d., which compares very favourably with previous years, and we would again take this opportunity of expressing our grateful thanks to the work-people

of the various Firms and to all who have assisted us in money and in kind.

We would also point out to those who have not already commenced to subscribe, how possible it is that they may need the benefits of the Institution, and how necessary therefore, that they should support it financially while they are in a position to do so.

Expenditure.

The expenditure for the year has amounted to £2,094 13s. 8d., which, when compared with £1,872 12s. 5d. for 1927, shows an increase of £222 1s. 3d. This increase is accounted for by your Committee having carried out various alterations and additions in connection with operations, etc., so as to bring our Institution up to date with regard to appliances, etc., on the extending of the activities, particulars of which will be found on page 15 of this report.

Conversion of Stock.

Your Committee have made the following conversion of Stock during 1928 :—

£300 5% War Bonds, which were due 1st February, 1929,
into £318 15s. 0d. 4½% Treasury Bonds, 1932-1934.

At the Annual Meeting, held 29th February, 1928, the question of further opening up the activities of the Institution was considered, and a small Committee were appointed to go fully into the question, and after several meetings, it was decided to submit the following report to the Governors at a special meeting held for the purpose on 30th July, 1928, and the same was unanimously adopted :—

Report.

This Committee was appointed at the Annual Court of Governors of this Institution for the purpose of enquiring into the possibility of increasing the activities of the Infirmary.

We have had several meetings which have been most regularly attended by the members, and have had

some progressive as well as instructive discussions regarding the work for which we were appointed.

It is necessary to take you over the whole of the ground covered by ourselves so that it may be seen what we have actually discussed, and it is the intention of this report to give you our recommendation, both negative and positive.

At the first meeting, after arranging general procedure, we decided that nothing tangible could be done until we had inspected the house and its appointments, accordingly we adjourned until a more convenient date so that this inspection could be carried out in daylight; this inspection took place, and all the Committee agreed that the condition of things ruling in the house was highly satisfactory and reflects credit to the Matron and her staff.

Having the knowledge gained by our view of the Infirmary, we were able to proceed with our next step, and the following questions came up for discussion :

- (1) Was a R.M.O. practicable.
- (2) Could we recommend starting a Maternity Home.
- (3) Adenoids and Tonsils.
- (4) Was it possible to secure a visiting surgeon at a reasonable retaining fee.

After a careful and well sifted discussion around the question of a R.M.O., it was decided that owing to the present construction of the building, together with its inadaptability for structural alterations and the large expense entailed by such a step, we could not recommend the appointment of such an officer.

The question of a Maternity Home was then considered, and the general feeling of the Committee was that as the Infirmary had sufficient work on hand at present and that a separate concern would have to be inaugurated, we would be well advised to refrain from any recommendation in this direction.

The question of Adenoids and Tonsils was dis-

cussed, and, as you know, that matter has now been settled quite apart from this Committee.

We were then left with the possibility of engaging a visiting surgeon, and it was agreed to gather as much information as possible regarding the working of other institutions in this respect. After considering the information received, it was agreed to proceed with our work on the lines of making such an appointment.

Our first care, therefore, was to find out if the Doctors already engaged on work in the Infirmary were in agreement with these views, we accordingly invited them to attend a meeting, and they willingly agreed to come and meet us. We put the matter of the appointing of a visiting surgeon before them, and they expressed the opinion that such a step would be very desirable and suggested that one of themselves would get into touch with a surgeon in Newcastle so that we could ascertain under what terms he would be willing to accept such an appointment. These terms were given to us, and we decided to make the following recommendations to this meeting :—

- (a) That we engage Mr. Hindmarsh as visiting surgeon at a figure of £50 per annum, to cover his expenses. His duties being to perform a limited number of operations free of all charge, and to consult with the local doctors regarding patients admitted into the Institution at the discretion of the local doctors.
- (b) That the statutes be altered so that the Infirmary can admit a limited number of patients who are subscribers free of charge, they being other than accidents.
- (c) That the Institution admit as many private patients for surgical treatment as is workable, and that the charge per private patient be not less than 8/6 per day.
- (d) For purposes of an emergency ward a partition be constructed across the nurses' dining-room, and that the door which is at present closed up be re-opened to give access to the lavatories.

It was also resolved that Committee recommend the running of an Annual Carnival and Sports for the purpose of raising funds. The Committee expressed their willingness to co-operate in the management and arranging of such efforts.

A. GIBSON, Chairman.
 J. CAMPBELL, Vice-Chairman.
 THOMAS BECK, Secretary.
 J. DUTCH,
 W. E. BUCKLEY, }
 J. M. COULL, } Committee.
 W. S. SHIELD, }
 ANNIE MICHAEL, }

The sum of £19 has been received, being the result of the Hebburn Council Day Schools' Collection. The Committee appreciate this very much, as it is made up of small amounts by the children, and our thanks are due to Mr. T. Priestland, Headmaster Hebburn New Town School, who has so kindly succeeded Mr. G. Fletcher as Hon. Secretary of this Fund. Mr. Fletcher, owing to leaving the district, resigned the position as Secretary. Our thanks are hereby tendered to Mr. Fletcher who was always very deeply interested in the work of the Infirmary, also to the staff of the various Schools for their valuable assistance.

Miss Holt (Matron) wishes to tender her sincere thanks to the teachers and scholars of the Hebburn Schools, also her many friends, for their valuable assistance in collecting silver paper, for which she has received the sum of £3 15s. 9d., and the Matron would be pleased to receive any quantities of silver paper at any time at the Infirmary.

The Committee desire to pay tribute to the late William Plumb, who died 11th July, 1928. He was a Life Governor for many years, and is deeply mourned.

The Committee have expressed their sympathy with the family.

The House and Finance Committee have carefully controlled all items of income and expenditure and at the same time are keeping up the requirements of the Institution with every consideration for the comfort of the patients and staff.

We desire to record our sincere thanks to Messrs. A. Reyrolle & Co. for their valuable services in looking after the electric light, also for supply of the necessaries in connection therewith at cost price.

A Flower Day was arranged for the 8th September, and the amount realised was £50 6s. 0d., and as the weather on this date was very unpleasant, your Committee thought this amount was highly satisfactory; and we would place on record our grateful thanks to all who rendered assistance in the taking of the collections, etc.

The sixth Annual Whist Drive and Social was held in St. Andrew's Institute, Hebburn, on Friday, November 30th, 1928, which again proved very successful; the amount realised being £50. The music was provided by Mr. James Hart's Orchestra free of charge for which we tender to them our most sincere thanks.

We would also place on record our high appreciation for the splendid services rendered in connection with the supper by Mrs. Purves, Mrs. Anderson and the various members of the Hebburn Quay Co-operative Women's Guild. To the donors of prizes for whist drive and other gifts in kind which were collected by Mrs. Purves, Mrs. Anderson, and members of the Guild; also to the Committee of St. Andrew's Institute for again granting the use of their Institute free of charges, which in itself is a good donation towards our funds. Also to the members of the Hebburn and District Radio Society for their kindness in looking after and keeping in repair the wireless set free of all charges.

The amount received from the Football Cup Competition for 1927-28 season is £8 10s. 0d., and we are greatly obliged for a donation of £2 from Messrs. Hawthorn, Leslie's Medical Fund, which makes the total £10 10s. 0d.

Mr. Geo. H. Watson has, owing to leaving the district, resigned the position of Secretary of the Competition, to whom we tender our sincere thanks for his deep interest for

many years in the Football Cup Competition.

We have received the sum of £5 from the investment of £100 5% War Stock, presented by the members of the Hebburn Sewing Party, which has been primarily used for the upkeep of the bed dedicated to the memory of our local lads who paid the supreme sacrifice in the Great War.

In carrying out the conditions of the investment of the £140 in North Eastern Railway 3 per cent. irredeemable stock by the friends of the late Alfred Fellows, the dividend derived therefrom has been used for the upkeep of the Alfred Fellows Cot which is placed in the Ellison Infirmary. We are helped by so many people that we are unable to print all their names, but we are none the less grateful to all.

We desire also to place on record our appreciation and thanks to the Wallsend & Hebburn Coal Company for supply of coal, Messrs. Palmers & Co., Hebburn, for firewood.

In acknowledging the generous contributions, the Committee desire to thank all who have contributed in any way, also the firms and companies for the facilities afforded for deducting the contributions from wages, and to all officials of the same for their valuable services.

We desire to again record our thanks to Mr. R. McConway, manager of the Hebburn Branch Bank of Martins, Limited, for his valuable services as Hon. Treasurer of our Institution and he will be pleased at any time to receive subscriptions at the Bank, Prince Consort Road, Hebburn.

In conclusion, the Committee expresses its grateful thanks to all who have shown their sympathy with the work of the Institution during the past year, whether by individual subscriptions or by the promotion of benefit entertainments; and we trust that the work which it has been their privilege to carry on, may continue to receive the liberal support of all who have the interests of the Institution at heart.

On behalf of the Committee,

A. GIBSON, President.

THOS. BECK, Secretary.

- 1927—T. W. ROWLINSON.

INSTRUCTIONS TO PATIENTS.

Immediate admission in all cases of accident, night or day. No letters of admission are required.

All patients must at all times obey the instructions of the Surgeon or Matron or those in charge for the time being, and strictly conform to the Rules of the Institution.

Out-patients must attend at the time and place appointed, and obey the instructions of the Surgeon in charge of the case.

It is strictly forbidden, under any pretence whatever, to take spirits or liquor of any sort into the Institution. Any person detected in doing so, the patient for whom it was intended will not be allowed to receive any visitors again without permission from the House Committee.

Visiting days are as follows:—

Sunday, Wednesday, and Saturday, 2 to 4 p.m.

Monday, Tuesday, and Thursday, 6 to 7 p.m.

The Matron will be pleased to accept old linen, etc., which is very useful and much needed. Men's cast-off shirts are very useful and would be thankfully received.

ELLISON HALL ACCIDENT INFIRMARY,
HEBBURN-ON-TYNE,

.....19.....

To Mr. Thomas Beck, Secretary.

You may enter my name as an Annual Subscriber of
£ s. d. to the above Institution, it being
understood such subscription may cease without notice
whenever I find it desirable.

Signed....

Address.....

FORM OF LEGACY.

Persons who may be disposed to contribute to the Infirmary are requested to adopt the following Form of Bequest :—

I bequeath to the Ellison Hall Accident Infirmary the sum of £ , and I direct that the foregoing bequest shall be paid free from all duties, and that the receipt of the Treasurer for the time being of the said Institution shall be a sufficient discharge to my Executors or Trustees for the sum stated.
