FOREWORD.

GENERALLY speaking, one can hardly claim that *Annual Reports and Accounts* make reading of any great interest, yet it is hoped that all who receive a copy of this particular Report will find a few moments in which to read its contents, for however plain and matter-of-fact the Report may appear, it is the symbol of a year's great work, of self-sacrifice, and service by a great body of voluntary workers and donors, but for whose aid the Hospital could not exist.

A minimum subscriptions of one guinea is the qualifying subscription for governorship. Letters of Recommendation are issued at one per guinea subscribed.

Income Tax and Annual Subscriptions.

By virtue of the Income Tax Act, 1918, and subsequent Finance Acts it is possible for the Hospital to effect an increase in its income by the recovery from the Inland Revenue Department of the Income Tax that has been paid by its Subscribers in respect of their subscriptions. To enable a Hospital to do this, however, it is necessary that a Subscriber should enter into a legally binding contract to pay to the Hospital an annual subscription of a definite amount during a period of at least seven years.

Should any Subscriber wish to adopt the above system, the Secretary will be only too pleased to forward full particulars.

EXPENDITURE PER PATIENT.

The expenditure per patient per day was 7/6 $\frac{1}{4}$, as compared with 7/9 in 1933.

ORDINARY INCOME.

It is satisfactory to see that the ordinary Income amounted to £9,389 10s. 9d., as compared with £8,693 11s. 8d. in 1933.

Annual Subscriptions shew a slight increase on the previous year, but it becomes more and more difficult to maintain this level. The need for new subscribers is a very urgent one and the Committee would be grateful for any help in increasing their number.

It is disappointing to notice a drop in the receipts from entertainments. The Committee know how much work these entail and would especially like to thank those responsible.

For some years past the income from Hospital Sunday and Church Parades had been steadily declining, and it is pleasant to note that this year it shews an increase.

Alexandra Day arranged by the Stroud and District Association of Hospital Contributors resulted in £130 being handed over to the Hospital, and the Committee thank the District Organisers and 260 Collectors for their valuable help.

The 1d. in the £ Fund again shews an increase and congratulations and thanks are offered by the Committee to Executive Committee, Officers and Collectors of the Contributors' Association for their great work.

Receipts on account of services rendered to patients have increased, especially the fees received in respect of the treatment of patients in the Private Wards.

LEGACIES.

The Committee gratefully acknowledge the following Legacies:—

Mr. Wm. Cratchley	£500
Mr. Alfred Edmonds	10

EXPENDITURE.

The Expenditure has increased by £710. Of this amount £259 has been spent in the provision of New Bedsteads and Bed Lockers; Expenditure in the X Ray Department has increased by nearly £80, and the cost of patients sent for treatment to other Hospitals has cost £179 more than the previous year.

The cost of milk, since the Milk Marketing Board commenced operations, has increased very considerably. This year it has cost £54 more than in 1933, although the consumption has decreased by 250 gallons.

IMPROVEMENTS.

The following improvements, in addition to those mentioned under the heading "Expenditure," have been effected during the Year:—

Installation of "Aga" Cookers and	
Alterations to the Kitchen £316
Relaying Wood Block Floors £205

Gas Appliances to the value of £100, kindly offered last year by the Stroud Gas Light and Coke Company in commemoration of their centenary, have now been installed and consist of a cooker, a vegetable steamer and three water boilers.

The Committee Room has also been refurnished.

X RAY DEPARTMENT.

Dr. M. R. Clark concluded her appointment as Radiologist on the 31st August, and the Committee have placed on record their appreciation of the valuable services she rendered the Hospital during the 8½ years she held the appointment.

The question of the appointment of a successor to Miss Clark was one to which the Committee devoted considerable time, and information was obtained from practically every Hospital in the Country of a similar size. It was eventually decided that for a trial period of 6 months an Honorary Visiting Radiologist should be appointed and that he should be paid an Honorarium to cover travelling expenses, together with a percentage of the fees received, and at a Special Meeting of the Council, held on 29th September, Dr. S. L. Mucklow, M.B., Ch.B., D.M.R. & E., of Cheltenham, was unanimously appointed. An X Ray Sister, who is also a qualified Masseuse, has also been appointed.

As certain of the equipment in the Department was out of date and required renewal it has been decided to spend £850 on the purchase of New Plant. Mr. Stanley S. Marling has very generously given the sum of £500 towards this expenditure, and the Committee wish to place on record their grateful appreciation of his valuable help, at the same time they earnestly appeal to Friends of the Hospital to supplement this amount by further donations in order that the whole cost may be defrayed without depleting the Funds of the Improvements Account.

LADIES' LINEN LEAGUE.

The Ladies' Linen League and also the Sewing Party have again given a great deal of assistance to the Hospital, and the Committee express their warm appreciation of this very practical help.

RELIGIOUS SERVICES.

Religious Services for the patients were commenced in January, 1934, and in this connection and for their personal services the Committee gratefully acknowledge the good work of friends of the Churches of all Denominations.

GENERAL THANKS.

The Committee desire to express their thanks to their supporters generally and especially to the following:—

The Honorary Medical and Dental Staff for the splendid services they have voluntarily rendered during the past year.

Messrs. Dudbridge and Sons for again acting as Honorary Auditors.

The Officers and Men of the Stroud Men's Detachment of the British Red Cross Society.

The Clergy, Ministers and Congregations of the various Places of Worship for Collections and Harvest Festival Gifts, and to the Stroud Holloway Original Benefit Society for arranging Church Parades.

The Committee of the Stroud Hospital Football Cup Competition.

Toc H for undertaking the collection of Tinfoil.

And the Many generous friends whose names are to be found in the detailed lists elsewhere in this Report.

It is the sympathy and generosity of the public that has made it possible to present another satisfactory report, and the Committee ask, with every confidence, for continued support to make provision for the sick and suffering as complete as possible.

T. E. SANDERS, Chairman.

C. FORD SPENCER, Secretary.

RADIOLOGIST'S REPORT, 1934.

During the past year 1,086 Out-Patients have undergone X-ray examinations.

Fresh applications of the science of radiology are continually being discovered, while new methods of technique are being evolved, and new apparatus is being manufactured to meet the demands made by increased scientific knowledge.

The coming year will see the installation of a new radiographic apparatus in the Hospital, and it is to be expected that this will result in an increase in the number of the more complicated examinations.

REPORT OF THE CHILD GUIDANCE CLINIC

(Established June, 1932).

Since its inception in 1932 the Child Guidance Clinic has dealt with 66 cases who now attend only occasionally, so that it is possible to form some idea of the results so far obtained.

The conditions for which the children have required treatment may be classed under the headings of Behaviour Disorders, Personality Deviations, Habit Disorders, Mental Defect, and symptoms associated with other organic disease. Behaviour Disorders include temper outbursts, lying, stealing, wandering, etc.

Personality Deviations consist in emotional disturbance, day dreaming, etc.

Habit Disorders comprise enuresis, nail biting, stammering, etc. Mental Defect denotes that the intelligence quotient has been found to be below 70.

Since only the after history will show whether a cure has been effected, the term "much improved" has been used instead. According to these criteria the results are as follows:

	Much Improved.		Improved.		Unchanged.		Total.	
	No.	P.c.	No.	P.c.	No.	P.c.	No.	P.c.
Behaviour Disorders... ..	6	40	3	20	6	40	15	100
Personality Deviations ...	2	22	7	78	0		9	100
Habit Disorders	2	12.5	9	56	5	31	16	100
Mental Defect			5	50	5	50	10	100
Organic Difficulties	1	10	3	30	6	60	10	100
Magistrates' Cases	4	66	2	33	0		6	100
Total	15	23	29	44	22	33	66	100

It is convenient to place Magistrates' cases in a class by themselves. The favourable results obtained are probably related to the ease with which, in a comparatively small district, contact can be maintained with them. In addition to the above table, eight patients attended only once, two for purposes of diagnosis. There was also one case of acute mental disease, for which the Clinic does not cater.

We have been encouraged by the fact that the whole family situation has, in one instance, been altered for the better as a result of co-operation between a Juvenile Court and the Clinic.

On the other hand, a second child from an unsatisfactory home has come for treatment. So that it would appear that adjustment of a child's environment is preferable and less costly than the sending of successive children to institutions, and that the Clinic therefore meets a need.

We have been fortunate in having Miss F. Blake as voluntary social worker, as her long experience of children's difficulties, and her previous intimate knowledge of the homes from which cases have come, have been factors of inestimable value in the work of the Clinic.

Mr. G. P. N. Goodwin, M.A., Careers' Master at Wycliffe College, has voluntarily taken on the psychological testing of the children, so that we look forward to consolidating the results and improving the quality of the work done during the coming year.

We desire to express our thanks to the London Child Guidance Clinic, who have on all occasions been most ready to help.

REPORT OF LADIES' LINEN LEAGUE, 1934.

President:—Lady Marling.

Vice-Presidents:—Mrs. H. Drysdale Woodcock and Mrs. P. Jolly.

Chairman:—Miss E. Eltringham.

Hon. Secretary:—Mrs. A. W. Stanton, Field Place, Stroud.

Hon. Treasurer:—Mrs. C. L. Coode, Carlton House, Stroud.

The Linen League was founded in 1924 for the purpose of keeping the Hospital supplied with a suitable stock of linen and bedding, and consists of Members who each undertake to be responsible for collecting gifts in money and kind from at least five Associates. Members also meet at the Hospital on the first Tuesday in each month for the purpose of sewing and repairing garments.

The interest in the Linen League has been well maintained.

The contributions of some members have decreased owing to their Associates leaving the neighbourhood, other members by interesting newcomers have collected more. A special donation of £10 from Mrs. Talbot, Lypiatt Park, has been the greatest help, making the income the best since 1929. The Matron is proud of her Linen, and the Linen League up to the present has always been in a position to give her what she needs. The Linen League appreciate her careful buying and care of the Linen.

INSTRUCTIONS TO GOVERNORS.

Relating to issue of Letters of Recommendation.

An Annual Subscription of one guinea constitutes an individual Subscriber a Governor.

Letters are issued at the rate of one per guinea subscribed. Subscriptions are due on the 1st January, in advance, and except those paid under Bankers' Order, should be paid direct to the Secretary, Stroud General Hospital.

CASUALTY CASES.—As far as the accommodation of the Hospital will permit, all casualty cases requiring immediate surgical aid will be admitted at all times with or without Letters of Recommendation. Letters should, however, be secured at the earliest opportunity.

ONE Letter entitles the applicant (if a fit case) to Four Consecutive weeks' treatment, if necessary, as an Out-patient, or to consult the Honorary Dentists and have extractions with anæsthetic if advisable.

(Persons insured under the National Health Insurance Act requiring dental treatment should apply to their Approved Societies for assistance).

TWO Letters entitle the Applicant (if a fit case) to treatment as an In-patient for a similar period. At the expiration of Four Weeks the Patient will be discharged unless fresh Letters are procured.

A Letter must be properly filled in with the Patient's name, age and address, and must be signed. Governors are earnestly requested to ascertain the circumstances of those who apply to them for these Letters, so that the benefits of the Institution may not be misapplied. Letters cannot be used for the benefit of a Recommender or his family.

Patients not contributing to the "1d. in the £" Fund (and in employment or in receipt of an income) needing institutional treatment for themselves and their dependents will be asked to contribute towards the cost of their maintenance, i.e., for the nursing, food, laundry, etc.

Non-contributors attending the Out-Patient Department will be asked to contribute 6d. for each visit towards the costs incurred.

NECESSITOUS. The Stroud General Hospital, being a voluntary hospital, primarily intended for the institutional treatment of the necessitous, will at all times render to such persons free in and out-patient treatment within the scope of a general hospital.

HELPED OTHERS not so fortunate
