THE
GENERAL INFIRMARY AT LEEDS.

ONE HUNDRED AND SIXTIETH ANNUAL REPORT.

1927.

IN-PATIENTS.

The number of patients treated at the Infirmary during 1927 has been 350 more than in the previous year, as indicated in the following figures :—

	1927	1926	1925	1924
Surgical	4,537	4,299	4,342	4,146
Medical	2,894	2,770	2,521	2,465

Remaining in the Infirmary and Ida and Robert Arthington Hospitals at beginning of the year :	509 ...	519 ...	515 ...	490
Total Number Treated ...	13,557 ...	13,207 ...	12,598 ...	11,738

A comparison of the figures for 1927 with those of 1913 is again very remarkable. The number of in-patients treated in 1913 was 9,015, against 13,557 this year, an increase of 4,542 over 50 per cent., and the figures in 1913 were 1,500, or nearly 17 per cent. larger than those of 1911.

The continuous growth in the work of the Infirmary has increased the difficulties of the Management, owing to the want of adequate funds to meet the increased demands. At the end of the year 791 patients were awaiting admission to the Wards. The

smallest number waiting admission at any one time during the year was 791, and there have been as many as 1,536. The rate of mortality amongst in-patients was 6.1 per cent., but after deducting the number of patients who died within forty-eight hours of admission, the percentage is reduced to 4 per cent.

OUT-PATIENTS.

Casualties in 1927 have been fewer, but the attendances for treatment in the various Out-patient Departments were more numerous.

The following are the figures :—

	1927	1926	1925	1924
Out-patients	23,796	23,541	23,005	25,032
Casualties (Accidents and Emergencies)	16,683	19,435	22,656	18,358
In-patients made Out-patients	5,401	5,843	6,338	6,060
Venereal Department	1,567	1,569	1,530	1,327
	47,447	50,388	53,529	50,777
Total Attendances	306,648	298,141	291,542	260,095

These figures indicate that the work of the Infirmary is more needed than ever, but its financial side is still very unsatisfactory. Compared with 1914 and other previous years, the expenditure is still more than double, owing to the increases in the price of food, drugs, labour, and other requisites, whilst the regular income has increased in a much smaller proportion. There has, however, been a marked decrease in the cost of food, drugs, coal, during the past year, and the pro rata cost of treatment of patients should be gradually reduced on this account. Wages and Salaries are always on the increase and to a certain extent nullify savings made in other directions. It is, however, reasonable to expect that the many improvements carried out during the past year will result in greater efficiency and at the same time save considerable sums of money which have had to be spent in bringing the structure and equipment thoroughly up-to-date.

INCOME AND EXPENDITURE.

The Expenditure on provisions in 1914 was £11,153, when 9,319 In-patients were treated, and in 1927 £15,097 when the number of In-patients was 13,557. Whilst the number of patients treated in 1927 shows an increase of 45 per cent. over the number treated in 1914, the increase in the cost of provisions in 1927 was only 35 per cent. Every effort is made to effect economies without interfering with the high standard of work of the Infirmary.

The following statement of the Treasurer's Receipts and Payments gives a clear view of the figures involved :—

All who examine these figures with care must come to the conclusion that the Infirmary is still in a very precarious financial position, and agree that no stone should be left unturned by anyone who has the interest of this great Institution at heart, in doing everything possible to awaken the interest of others in the work carried on for the benefit of the poorer members of the Community.

MOTOR ACCIDENTS.

The number of Motor Accidents has again increased, and during 1927, 1,028 patients were treated as the result of such accidents, compared with 946 in the previous year. Of these 513 were detained, and the cost of their treatment was £4,399. The total amount recovered from these patients last year was £62, leaving a nett dead loss of £4,337. This is a most unsatisfactory state of affairs and should be remedied.

LEEDS WORKPEOPLE'S HOSPITAL FUND.

The Board very greatly appreciate the help which they receive from the workpeople of Leeds through their organization, the Leeds Workpeople's Hospital Fund, which has this year granted us £23,100 from the sum collected during 1927.

EMPLOYERS' CONTRIBUTION FUND.

Under The Employers' Contribution Fund, inaugurated seven years ago for the benefit of this Hospital and the other Medical Charities of Leeds, the employers make a voluntary levy upon themselves of 2s. per annum per employee. With the anticipated improvement in trade, the Board expect greater results from this movement, many works are at present only employing half their number of workers.

VOLUNTARY HOSPITALS FUND.

The Voluntary Hospitals' Fund, which has been established to obtain additional and increased subscriptions from the Professions and Distributive Trades for the benefit of the Medical Charities, is being well received. Over one thousand firms are now contributing and there is a very large number who it is hoped will decide to join. The full result of this Fund has been delayed in consequence of the depression in business.

PATIENTS' PAYMENTS.

Patients' payments shew an increase of £428. In addition to the sums received direct from the patients, some of the Approved Societies made grants towards the cost of maintenance of their members in Hospital to the extent of £3,134.

BENEFACTIONS.

The Board desire to express their gratification at the generous support received from Committees who have arranged demonstrations in various districts and made regular collections on behalf of the Infirmary. These realised over £5,000. A full list of these benefactions is given on page 198.

The thanks of the Board are also due to :—

Leeds University Union, part proceeds of "Annual Charity Rag" for endowment of bed £1,086

Miss Mary Ann Reynolds, of Leeds, for the endowment of a bed in memory of her family £1,000

Part Proceeds of "Donkey Derby" ... £645

Col. and Mrs. Gascoigne, of Aberford, for the endowment of a cot in memory of Miss E. S. Rogers £500

West Ardsley Cot Committee, for the endowment of a cot to be known as the "West Ardsley Cot." £203

Sir Edward and Lady Le Marchant, Nottingham, balance for endowment of cot £200

Mrs. S. E. Smith, of West Park, Leeds, for erection of a Verandah between Wards 9 and 7, in memory of her son, the late Ernest Berry Smith £105

Anonymous, for purchasing a Metal X-Ray Tube for the Electro-Therapeutic Department £100

Mr. T. Turnbull, for Fenton Street Improvement £100

Mr. F. R. Turner, for Collar and Shirt Ironing Machine £50

Collingham and Linton Cot Committee, for the endowment of a cot to be known as the "Collingham and Linton Cot" ... £30

Mr. J. A. Johnson, for Emulsion Mixing Machine £16

Lady Harewood and her Committee, for their successful effort in collecting eggs for the Medical Charities of the district. The General Infirmary received 83,162.

STUDENTS' UNION.

The Board very greatly appreciate the efforts of the Medical Students, who by their Annual "Rag" raise funds for the General Infirmary, during the past six years they have provided £4,596. In recognition of this four beds have been named.

The Students are continuing their efforts and hope to provide sufficient funds within a few years to name the whole of the beds in Ward 20.

DERMATOLOGICAL DEPARTMENT.

As intimated in the report of 1926, the Board have established a Dermatological Department for the special treatment of Skin Diseases, and Dr. J. T. Ingram, M.D., M.R.C.P., has been appointed Honorary Physician in charge of the Department.

CONVALESCENT CASES.

The Board desire to record their thanks to the Adult Convalescent Committee and the Children's Convalescent and Summer Holiday Fund for their assistance. During 1927, the Adult Convalescent Committee arranged for convalescent treatment of 51 adults, in many cases providing financial assistance. The Children's Convalescent and Summer Holiday Fund last year arranged similarly for 139 children, visiting the homes and financially assisting those whose parents were unable to provide the necessary funds.

ALMONERS' DEPARTMENT.

The work of the Almoner's Department has increased during the past year as the system has been extended to the Light Department. A small newly-endowed "Samaritan Fund," administered through the Almoners at the Infirmary and Public Dispensary, has been of great service in giving help with fares, enabling those in poor circumstances to attend regularly for treatment. Apart from this, and from the usual assistance and advice, and the visiting and after care of cancer cases and others, it has been possible to try the experiment of asking for donations for X-Ray films and also for Electrical treatment and Artificial Sunlight where patients feel able and willing to contribute. The Almoner to this Department was appointed in April, and up to the end of December the sum of £356 has been raised. These donations are entirely voluntary and the Board deeply appreciate them, and will be grateful for any increase in the amount given. In other departments where an Almoner is appointed, donations are suggested where it is felt the patient can afford something for a series of treatments, and in cases of Tonsil and Adenoid operations

it has been found parents are most willing to give what they can spare, however small. The sum received from these departments during the year amounted to £631 14s. 3d.

There are now five Almoners, each in charge of a special department. The work increases in proportion to the realisation by the medical and nursing staff of the importance of the social conditions and after-care of the patients in their relation to the whole treatment.

It is hoped in the near future to extend the Almoner's System to the Wards, where so far very little has been done for the after-care of patients on discharge from the Wards.

The Almoner's Department is greatly indebted to all members of the medical and nursing staff for the kind co-operation and help received, and also to all the outside agencies, voluntary and municipal, without whose help much of the Almoner's work would be valueless.

DENTAL HOSPITAL.

The Leeds Dental Hospital still occupy accommodation in the Infirmary, and during last year received 10,163 new patients, with an attendance of 26,646. These figures are not included in the Infirmary figures given on an earlier page.

The new Leeds Dental Hospital building is nearing completion, and it is hoped they will be installed in their new premises in the summer of 1928.

NURSING STAFF.

The Diploma in Nursing has been awarded by the University of Leeds to Nurse Florence Margaret Mawson, who trained at the General Infirmary at Leeds.

In fulfilment of the arrangement with the Committee of the Leeds Maternity Hospital, 11 Nurses have this year been enabled to get the Certificate of the Central Midwife's Board.

Miss Duff-Grant, who held the post of Sister Tutor for five years, has been appointed Assistant Matron, in succession to Miss Helen Dey, who, as intimated in last year's report, was appointed Matron at St. Bartholomew's Hospital, London.

Miss S. J. Wainwright, Second Assistant Matron, has been appointed Matron to the New Infirmary at Castleford. Miss Wainwright commenced her nursing career at the Infirmary and has held respectively the posts of Ward Sister, Night Sister, and Home Sister, and she held the post of Second Assistant Matron for three years.

Miss Margaret Salton, recently Sister Tutor at the Royal Victoria Infirmary, Newcastle-upon-Tyne, one of our own trained nurses, has been appointed Second Assistant Matron.

RESIGNATIONS.

The Board deeply regret to announce that in consequence of a serious breakdown in health, the General Manager, Mr. Fred J. Bray has been compelled to resign his position after holding the office for 18 years. Since Mr. Bray took up his duties in 1909, important extensions have been carried out by the erection of the King Edward Memorial Ward, Princess Mary Ward, the enlargement of the Nurses' Home, and the erection of a new boiler house, and Mr. Bray's experience of building construction has been very helpful in the carrying out of these extensions. The Board are retaining Mr. Bray in a consultative capacity.

The Board also regret to announce that in consequence of ill health, Mr. J. A. Coupland, Honorary Surgeon, was compelled to retire from his office last May. Mr. Coupland received his training at the Leeds Medical School, was a Member of the Resident Staff of the Infirmary, and in 1910 was elected Honorary Assistant Surgeon until 1920 when he was elected Surgeon-in-charge of Out-patients, and he became a full member of the Staff in 1926. The Board desire to place on record their appreciation of the valuable services Mr. Coupland rendered to the Institution and the patients.

IMPROVEMENTS.

Verandahs.

Very important improvements have been carried out during the past year in providing open Shelters or Sun Verandahs between Wards 5 and 7, also 7 and 9, which are a great boon to the patients in those Wards, who are now brought out into the fresh air and sunshine on suitable occasions. The Board are indebted to Mrs. S. E. Smith, for providing the cost of the Verandah between Wards 7 and 9, and it is hoped some other kindly disposed donor will provide the cost of the one between Wards 5 and 7.

Laundry.

The remodelling of the Laundry and its equipment with the additional latest labour saving machinery, has been an urgent matter for years. The whole of this work has been carried out during the past year, and it is believed the Infirmary has now one of the best Hospital Laundries in the country, the average number of articles passing through being approximately 25,000 per week, with a capacity to handle at least 25 per cent. more if required.

The total number of articles washed last year was 1,306,187, at a cost of £3,512. This works out at less than ¾d. per article, irrespective of size.

New Workshops.

The erection of the New Workshops foreshadowed in last

year's report is now completed, and they were brought into use in August last. They are a great improvement upon the old separate workshops, being commodious, light, and well ventilated, in which the whole of the repairs to building and equipment can be carried out in the most efficient manner.

The Board are very grateful to the following firms, who have so generously given the necessary machinery and equipment for the workshops :—

Wilson Bros.	Morticing Machine.
J. Birdsell & Sons ...	Power Drilling Machine.
T. W. Ward, Ltd. ...	Power Band Saw.
F. Wigglesworth & Co.	Shafting, coupling and bearings.
Wm. Stoner	Smiths' Bellows.
J. & H. Smith, Ltd. ...	Steam Glue Kettle.
Ellison	Electric Equipment for Motor.
Anonymous	Smiths' Hearth and Tools.

Improvements have been carried out between Wards 5, 7 and 9, and the old Nurses' Home, some of this space was previously used as a coal dump, which, besides being unsightly, was a great source of dust and dirt, the rest was a damp and untidy waste. The whole of this has now been taken in hand, a tar macadam road has been made where necessary for carting, red concrete laid as a sidewalk against the buildings, with a view to keeping the foundations dry and clean. The rest has been levelled and covered with new turf, or planted with shrubs and rockeries. The whole of these improvements have been made possible by the gifts of generous friends, such as timber, bricks, stones, turf, soil, plants, etc., and part of the wages paid for labour in carrying out the work.

The whole of the material used in building the boundary walls in Fenton Street and Calverley Street down to the Out-patients' entrance, is the gift of three firms. When completed, the whole of this section of the Infirmary should be free from any further expenditure for many years to come.

The Board are very grateful to the following firms who have so generously given the materials to carry out these improvements :

Illingworth Ingham & Co., Ltd.	Teak timber.
Joseph Walker, Ltd.	Timber.
Tunstalls, Ltd.	Roof Covering.
T. Hargreaves	Golden Privet Trees.
Leeds Fireclay Co., Ltd. ...	Vases and Pillars.
M. Smith	Wire Fencing.
George Green	1 Set Panic door bolts.

Anonymous	10 tons Ingleton Rockery Stone.
J. Harvey	Cartage Charges for Soil Turf, etc.
R. J. Anderson	Cost of Labour Laying Rock Garden.
George Armitage & Sons, Ltd. ...	25,000 Bricks and 260 feet Stone Coping.
Middleton Estate & Colliery Co., Ltd.	35,000 Bricks.
J. & C. Boyle, Ltd.	15,000 Bricks.

URGENT PROPOSED EXTENSIONS.

The Board very much regret that, in consequence of continued bad trade, it has not been possible to issue the appeal foreshadowed in last year's report for a sum of money to enable them to provide the very much needed accommodation by the erection of a New Ward Block for the treatment of ordinary patients and the erection of a Ward Block for the reception of paying patients, with the necessary additions to Nurses' Homes and enlargement of the kitchens.

For the proposed extensions, as outlined by the Chairman at the last Annual Meeting, designs and tentative plans were prepared embracing every section of the Infirmary to increase its accommodation from 632 to 800 beds. The whole scheme is divided into 25 sections, each a separate unit, six of which are already being dealt with, it is hoped individual donors will take up and be responsible for the cost of one or more of the remaining units, which can be erected and completed without in the least interfering with the regular work of the Infirmary.

Copies of the appeal and drawings of each section are being sent out privately, and copies may be had on application to the Treasurer, who will be pleased to give further information to anyone interested in seeing these urgent extensions carried out.

Treasurer.

Assistant General Manager.

THE 160TH ANNUAL MEETING,

MARCH 21st, 1928.

The Chairman, in moving the adoption of the Report and Statement of Accounts, said the work of the past year had been accomplished in face of great difficulties due to the lack of sufficient money with which to carry out the improvements necessary to bring the institution to the highest point of efficiency. It would be seen by the Report that the total attendances at the Infirmary in 1927 were roughly 8,500 more than in 1926, thus showing the continuous growth in the work of the hospital. The cost of nearly all stores, food stuffs, chemicals, coal and so on had been less than in 1926, which had enabled the larger number of cases to be treated without any appreciable increase in the maintenance cost of running the hospital. Indeed, it was remarkable to notice how little the maintenance cost had varied during the past three or four years, and looking to the future, he thought they were justified in anticipating a further reduction in the price of stores and materials.

Similarly, there was but slight variation from year to year in the income of the institution, such variation as had manifested itself being happily in an upward direction. The total income last year was £79,457 as against £77,518 in 1926, or an advance of nearly £2,000. On the expenditure side the difference was less marked, the total for 1927 being £104,686 as against £104,259 in the preceding year. In other words, they had treated a larger number of persons at practically the same cost as for the previous year.

The legacies actually received were slightly less than in 1926, but the income from endowments was slightly more—about £130. The receipts from the Lord Mayor's Fund showed a slight increase ; this money came to the Infirmary as the spread-over contributions of various donors to Sir Edwin Airey's Fund, established a few years ago, and income from this source would continue until the instalments were completed.

NON-RECURRING EXPENDITURE.

On the expenditure side, certain items accounting in all for £7,000 were non-recurring—the new electric supply mains ; the water mains at the Ida and Robert Arthington Hospitals, replacing the old pumping system and giving to these places town's water ; repairs and alterations to the administrative block ; purchase of property—an investment ; and alterations to Preston House. This latter had been brought about by the gift of the site for a new Dental

Hospital. Originally, it was intended that the Infirmary's contribution to this project should be something like £8,000, but it was found that they had to compensate the tenants who had to be moved from the site, and the alterations to the property to which the tenants were moved had cost rather more than was anticipated. New laundry machinery, wanted for many years, has now been installed, bringing this dept. thoroughly up-to-date, and capable of dealing with a larger volume of work in the most efficient manner; the present equipment should last for many years. Those items were all non-recurring.

Eliminating these, they arrived at a total ordinary expenditure of £104,686, as against an income of £79,457, leaving a deficit of £25,228—practically a repetition of what had been occurring for several years. Unhappily, this was a groove they did not seem able to get out of, and it was naturally very disturbing to feel that the debt of the Infirmary was accumulating year by year, and at such a rapid rate. Various schemes had been tried to bring the income more into conformity with the maintenance expenditure, but, unfortunately, it was found that success in one direction was nullified by increased expenses elsewhere, and in the end the result was much the same. Something drastic would have to be done, and it appeared that the only alternative to drawing further upon the generosity of those who gave large sums in special donations, was to get more from those who received the benefits of the institution. All would agree that to have an annual income from regular subscribers to cover the maintenance costs was far better than having to rely upon sums given more or less spasmodically.

BURDEN OF MOTOR-CAR ACCIDENTS.

One source of expense concerned the cost of motor accidents, and this was put rather plainly in the Report. It would be noticed that again there was an increase in the number of motor cases admitted—1,028 as against 946 in 1926. The cost of treating these cases last year was £4,399, and although public attention had been drawn to this form of expense through the medium of the Press, it was extremely regrettable that in Leeds they had only been able to collect from the patients or their friends the small sum of £62. It seemed most absurd that people who owned motor cars, many of them with plenty of money, should put this hospital to a cost of £4,400, and yet reimburse the Institution to the extent of only £62. ("Shame.") Words failed him to express his feelings. It exhibited a surprising degree of callousness on the part of the patients or those who were actually responsible for the accidents, yet the hospitals were quite helpless. All over the country hospitals were crying out, meetings were being held, and public opinion was being aroused. Various schemes of insurance had been put forward. In

his opinion, there was only one sensible way of dealing with it, namely, an ultimatum to the Government that the cost of treating in voluntary hospitals such cases—many of them luxury cases—should be paid for out of the Road Fund. (Hear, hear.) If hospitals could render an account to the Ministry of Transport of the cost of motor cases, and a sum sufficient to cover such cost were allocated from the Road Fund, that would solve the difficulty, otherwise, there ought to be compulsory insurance among motorists to cover the cost incurred by hospitals in treating the people knocked down by cars. They could not, of course, threaten the Government to turn such cases away, because, unlike local poor-law institutions, they were obliged to keep their doors open. They might, indeed, close their doors to them, but it would lead to endless trouble.

Something had to be done ; the subject was one upon which he felt very strongly. If they looked at the balance sheet they would see that the ordinary subscriptions amounted to £6,944 from people in the suburbs and all round. It meant that these people's contributions were being called upon to meet an expense of £4,400 from motor accidents—a liability that had arisen only within the past 25 years. It was utterly wrong that the people of the city and the surrounding districts should be saddled with all this expense, equal in aggregate to a large share of the ordinary subscriptions. He might speak still more strongly on this matter, but he feared it would do no good, until a collective effort was made to have this great grievance remedied.

WORKPEOPLE'S HOSPITAL FUND.

Turning to the Workpeople's Hospital Fund, they were all delighted to note the splendid effort made by the Committee last year in spite of adverse trade conditions, especially in the engineering works. The Fund had been able to allocate to the Infirmary the magnificent sum of £23,100—a record of which both the Committee of the Fund and this meeting might be justly proud. (Hear, hear.) Nor was it the end, for it had always been the ambition of the officials of the Fund—Sir William Middlebrook and the very able secretary, Mr. Wormald—to reach the £50,000 mark (hear, hear) ;

and he was absolutely sure that in the course of the next few years that figure would be reached.

"I do not know any Workpeople's Fund in the country that comes anywhere near to the one in Leeds. The work is all done voluntarily, largely in the evenings, and every penny of the money is collected from working people. This is very creditable to them, and you will wish me to express to them our grateful thanks for what they have done." (Hear, hear.)

The Employers' Contribution Fund had been affected by the bad state of trade. The Fund was based on each employer making a voluntary levy upon himself in respect of each person employed. Many works, however, which formerly employed 500 workpeople, now had no more than 150 or 200 on their books. Yet the overhead charges were much the same, and many of these firms had found it was utterly impossible to make a profit on the smaller turn-over. Those, however, who in spite of this drawback had paid the levy were much to be admired, and the institution was very grateful to them.

Coming next to the Voluntary Hospitals Fund, it had been a source of regret to him that of the 4,000 firms in the city—taking all the trades and the professional classes together—less than 1,500 utilised this means of contributing to the Leeds Infirmary and to the other hospitals of the city supported by the Fund. At the outset, the Fund had a splendid start. About a thousand firms joined up practically at the beginning, since when, however, it had been impossible to raise the total beyond 1,200 or 1,400. As soon as new ones were secured, others dropped out, and so the thing stuck. One reason, no doubt, was the gradual absorption of old-established, individual businesses by multiple shop firms, whose plea, on being asked to contribute, was that if they did it in Leeds they would have to do it all over the country where they had branches, and that would run away with their profits. It would have to be pointed out that, if this went on, the time might come when they would have to get grants from the municipality or from the state, to run institutions like this ; and grants of that kind could only come out of the taxation in one form or another. On the other hand, a more strenuous attempt to get in the remainder of the firms, must be made so as to bring an access to the revenue from this source.

INADEQUATE COLLIERY AND MINERS' CONTRIBUTIONS.

Much the same applied also to the Collieries ; and he mentioned this more particularly because he did not think the Collieries were treating the Infirmary as they should do. True, colliery owners were under the blackest cloud in the history of their industry, but, none the less, patients from the mining districts continued to come in large numbers to the Infirmary, and the Infirmary had to stand

the brunt of treating them. Yet it was impossible to get, either from the owners or their workpeople, anything like adequate contributions towards the expense. Taking the colliery districts of West Yorkshire, and part of the South, he should say that the cost which the Institution was put to in the treatment of their cases was anything from £8,000 to £10,000 a year more than was being contributed both by masters and men. Efforts had been made to arouse interest in the matter, but it was like pouring water on a duck's back. He himself sent out 52 letters to colliery owners in West Yorkshire in the early part of December, pointing out the serious lack of support during the year, asking them to do what they could to reduce the debit balance at the end of the year, and only one reply had been received—£250 from Messrs. Pope and Pearson. The others did not even apologise for being unable to contribute ; in fact, they took no notice whatever of the appeal.

A list of the contributions from Colliery Owners and their workpeople is given in this years' report, for the five years 1922 to 1926, with the number of patients for each year, and cost of treatment of the workpeople and their dependents.

The students of Leeds University deserved the thanks of the meeting for the efforts made by them through the medium of their summer "rags." They had done splendidly, and had an additional incentive in the example of Glasgow, where the students were able to raise £15,000. Glasgow, however, was a city of over a million people, with a greater number of rich and middle-class people to draw upon.

One other matter to which reference might be made was the opening of the new Dental Hospital—one of the greatest forward steps ever taken in the City. (Hear, hear.) Probably 25% of the patients lying in hospital to-day from various forms of ailments were there in consequence, in the first place, of faulty teeth, for if one could not masticate one's food, trouble was bound to ensue. The new hospital was the outcome of a smaller one carried on for some time at the Dispensary by dental surgeons of the city ; this school was later removed to the Infirmary. The work had grown very rapidly and was now housed in the magnificent hospital recently opened, where dental students would be trained for their profession, to the advantage of the people of the future, and their thanks were due to the Dental Committee for carrying their great scheme to fruition.

They were also proud to know that once again the Infirmary had been able to supply another hospital with its Matron. This time it was Castleford. When hospitals were wanting matrons or assistant matrons, Leeds always seemed to be in the forefront in providing them. (Hear, hear.)

NURSES' PENSION SCHEME.

I should like to refer to the proposed new Nurses' Pension scheme. As you are aware, a scheme has been set up in London covering about 300 hospitals, and this was now being extended to the provinces. It should be explained that the London scheme comprises administrative as well as the nursing staffs. The London hospitals are fortunate in being able to get grants from the King Edward Hospital Fund—grants which were not available to hospitals in the provinces. The most serious point was this : that if any provincial hospital did not fall into line, nurses would be likely to gravitate to London, or to those hospitals which adopted the scheme. Hence, this matter would have to be very carefully considered. The basis of contribution was ten per cent. from the institution, and five per cent. from the staff. In the case of the Leeds Infirmary, this would entail a cost of £2,776 per annum. Should the scheme be generally adopted, serious consideration would have to be given to this matter if they were to continue to keep their staffs. Information as to what other hospitals were doing was being obtained, and probably within the next few months some scheme would have to be formulated.

GENERAL MANAGER.

Owing to a serious breakdown in health, Mr. F. J. Bray has had to resign his position as General Manager, a step which was viewed with the keenest regret by every member of the Board and the staff of the Institution. No one regretted it more than he (Mr. Braime) did, as since his association with the work of the Infirmary, he had always found Mr. Bray an excellent man to get on with, very capable and of sound judgment. A new General Manager had been appointed in Mr. Kingsley Pearce, of the South Devon and East Cornwall Hospital, at Plymouth. Mr. Pearce has had a very wide experience of hospital work.

INFIRMARY EXTENSIONS.

A year ago the urgency of the extensions to the Infirmary was pointed out. Plans had been prepared covering every phase of the required extensions divided into 25 sections. During the past year they had been able to carry out part of the minor sections, and they were now about to proceed with the extension to the instructional block for students, the cost of which was being met by the University. When these alterations have been completed, including the enlargement of the old Board Room into a first-class Lecture Hall, the Infirmary would have one of the finest teaching blocks for medical students in the country.

One of the next most urgent needs was the provision of new isolation wards. The present isolation quarters were really not suitable, and a proposal before the Board was to put a new

ward on the top of the King Edward wing. This would cost something like £5,000. The situation there would be most suitable for the purpose. The site—over Ward 22—would accommodate, roughly, twelve males and twelve females, and he was hoping that someone would come forward and provide the money for this ward or other suitable accommodation which was so urgently needed. The next most important extension required, however, is the provision of a new block of 3 wards similar to the King Edward extension, in order to deal with the long waiting list of patients ; it is estimated this could be built and equipped for £50,000. A further extension to the kitchen would be required, the present kitchen being worked to its fullest capacity.

MR. BRAIME'S RESIGNATION.

In conclusion, Mr. Braime said that when, two years ago, he was placed in the honourable position of Chairman and Treasurer, he made it clear that his term of office would be limited to two years. That period expired to-day. In resigning, he would like to say that no Chairman and Treasurer had every relinquished the post with greater regret than he did. He had had the greatest possible help from the members of the Board, from the Faculty, and from every one in the Institution. He still hoped, however, to be able to attend the monthly meetings, and his successor—whoever he might be—could rely upon receiving from him every assistance it was in his power to give. In the past two years a lot of work—necessary work—had been carried out that would not require to be done again. Plans had been prepared, covering every phase of the extension required, and it would be for his successor to carry them out, or modifications of same, thus providing for the Infirmary what he had always pictured—a total of 800 beds—which was the maximum a city such as Leeds should be asked to provide for as a voluntary hospital, and was about as many as the site would accommodate. In his opinion, a hospital of that size was quite big enough for one body of men to manage. Once again he thanked them for the many kindnesses extended to him during his Chairmanship, and he moved :—

> "That the Report and Statement of Receipts and Expenditure for the year 1927, as now submitted, be taken as read, and that the same be adopted."

THE LORD MAYOR.

The Lord Mayor of Leeds (Ald. George Ratcliffe), in seconding the motion, said the administration of the Infirmary was conducted on most economical lines, in proof of which he pointed to the remarkable fact that the patients and staff were fed at the very

low cost of 11d. per day. They were all sorry, of course, the income continued to lag so far behind the expenditure. Certain phases of that expenditure had been mentioned by the Chairman, particularly to the one relating to the cost of treating motor accidents. To own a motor car was usually a sign of opulence, and it was surely not asking too much that people so circumstanced should meet the liability which the increasing use of motor cars imposed upon Institutions such as this, and, indeed, upon all hospitals in the country. Possibly, a collective charge would be the best way of meeting the problem, though personally he did not think there was a " cat's chance " of getting anything out of the Road Fund. (Laughter). For one thing, a substantial part of its surplus had already been devoted to purposes not originally intended, which was quite wrong. One cheering feature in the Report related to the help received from the Workpeople's Hospital Fund—one of the most wonderful movements they had in the city, and all the more to be commended because it was entirely voluntary. Indeed, the thing that had increasingly impressed him during his year of office was the immensity of the work done voluntarily in the city to help to bring a little more sunshine into the lives of others. Day by day this notion grew upon him. Even before he became Lord Mayor he thought that he knew something of the public life of Leeds, but what he had since seen had filled him with an added love and admiration for the city. (Hear, hear.)

The Vicar of Armley (the Rev. H. Lovell Clarke) supported the motion, saying that he did so in the absence of the Vicar of Leeds, who was, unfortunately, incapacitated for the time being. Speaking as one whose parish was inhabited almost entirely by working-people, and whose time was much devoted to visiting the sick, he was able to testify to the high esteem in which the Infirmary was held. In the whole of his five years' experience of Armley, he had never come across a single instance of a patient from the Infirmary who was not filled with thankfulness for the care and attention experienced in the Institution.

THE OUTSIDE DISTRICTS.

The Rev. J. G. Sutherland (Belgrave Church) also supported the motion. He recalled that on the occasion of Hospital Sunday he ventured, in an address to his people, to say something about the Infirmary—not in the nature of criticism of a destructive nature, for he was a great lover of the work carried on there, and had too much admiration for the Board of Management to say anything that would tend to reflect upon what they did. But the Chairman had just mentioned the danger of getting into ruts, and it seemed to him that in this Institution they had got into some ruts. Personally, he had a horror of debt, and he had often wondered whether the

annual income could not be increased if the Board of Management were enlarged to include some representatives from the outside districts. He believed it was true to say that the income from Leeds was sufficient to pay for Leeds cases. It was the outside districts that created the disparity between cost and income, and he thought it was fair to assume that if the outside districts were represented on the Board, more interest could be aroused in those localities. Not long ago, for instance, he was taking a service in the adjoining township of Pudsey. Pudsey contained quite a number of wealthy people, and it occurred to him that if Pudsey had a representative on the Board of Management such representative would be a missionary in that large industrial area, and a good deal of money might be got in that way. The same applied, of course, to other localities. On the other hand, objection might be taken that this would make the management of the Institution too clumsy, but the difficulty might be got over by electing a small Executive from the Board of Management which would concern itself with the details of administration. Then again, he thought they had not exhausted the resources of the Churches. Last year only a little over £1,000 was contributed by the churches of the city. This was hardly worthy of them. One reason, perhaps, was that a collection was taken on one given Sunday of the year. If the weather happened to be fine, a substantial amount was raised, but if it was a bad day the collections suffered accordingly. A much better plan would be to appoint collectors in the Churches, if this could be done. These suggestions, he added, were made in no spirit of criticism, but from a desire to help. Lastly, he expressed deep regret at the resignation of Mr. Braime from the chair, and thanked him for the strenuous work he had put in during his period of office.

The Chairman, after thanking Mr. Sutherland for his kind personal references, said the idea of enlarging the Board of Management had been under consideration for the past two or three years, with a view of enlisting a larger interest in the outside districts and among business men, and the suggestion now made would not be lost sight of.

The motion to adopt the Report and accounts was then put and carried.

THANKS TO THE CHAIRMAN.

Mr. F. J. Kitson next moved the following resolution :—

"The Meeting learns with regret that, in consequence of indifferent health and stress of business, Mr. Braime is unable to continue as Chairman and Treasurer beyond the time specified when he accepted the office.

"At the same time, the Governors desire to place on record

their appreciation of the service which Mr. Braime has rendered to the Infirmary during the period he has held the office of Treasurer, and wish him a speedy and complete recovery.

"The Governors hope that when Mr. Braime's health is improved, and the stress of business is relieved, they may have the advantage of his continued assistance."

Mr. Kitson explained that, whatever pride a man might feel in occupying the Chairmanship—and it was a position to excite pride—yet, none the less, it entailed a great amount of work; much more than attending the weekly Board Meetings. This work Mr. Braime had willingly and cheerfully performed, no detail being too small for him to see into. Moreover, the office of Treasurer had its anxieties. It was not right that the man at the head of an Institution of this size and importance should be in the position of not knowing where the next penny was to come from. To put the Infirmary on a proper footing would require a sum of £250,000, and after all, that was not a large sum when compared with the amount of human suffering that the Infirmary was the means of alleviating. If the inhabitants in the area covered by the Infirmary were to put their hands into their pockets, all difficulties could be removed in ten minutes. Mr. Braime had referred to the new organisation within the Infirmary, but he had not told the whole truth about it. Reference, for instance, had been made to the new workshops, and reorganization of the laundry, etc. Mr. Braime was a very good beggar, and they were grateful to him and to the men who had given part of the machinery. All were grieved to know the reason which had prompted him to retire from the Chairmanship. Really, it was due to over-work, and it would be the sincere wish of the meeting that he might be speedily restored to health.

MORE BEDS WANTED.

Dr. T. Wardrop Griffith, in seconding the resolution, said he was glad Mr. Kitson had underlined the remarks made by Mr. Braime with regard to the new equipment, the full story of which the Chairman had, with characteristic modesty, refrained from unfolding. He was also glad that in his speech Mr. Braime had put in the forefront what the Infirmary ought to aim at, namely the provision of more beds, because, after all, that was the most important thing—if it could be done. Certainly, the way to it had been paved by the provision of better workshops and more extensive laundries, which, indeed, were a necessary preliminary to increasing the number of beds. Leeds was almost unique among the large cities in Great Britain in having but one large general hospital, and that was the justification he always advanced when

he was told by people that the Infirmary was always wanting money. Of course, it was always wanting money, and he hoped it always would. More beds were badly needed now. Mr. Braime had put the maximum at 800. This led him to recall that Mr. Benson Jowett—a far-seeing man who occupied the Chair of the Infirmary for 20 years—said as far back as 1894: "The time has come when we really ought to pause." Yet since then, under the chairmanship of Mr. Charles Lupton, the size of the Institution had been nearly doubled. Eight hundred beds was a very good goal to aim at, but it was better to look upon it as a conceivable and possible instalment. He added his personal hope that Mr. Braime would be given strength by his holiday for continuing his membership of the Board, and so enable him to help in the acquisition of the large sum of money necessary for carrying on the Institution.

The resolution was then cordially adopted, and Mr. Braime briefly returned thanks.

BOARD OF MANAGEMENT.

Dr. Vining then moved:—"That the following governors be elected to form the Board of Management for the ensuing year, in conjunction with the Treasurer and the honorary officers: Mr. Henry Barran, Mr. T. F. Braime, Mr. R. M. Currer-Briggs, Col. J. C. Chambers, Mr. W. McLaren Couper, Mr. F. J. Kitson, Mr. Charles Lupton, Mr. Edgar Lupton, Miss Elinor G. Lupton, Mrs. Horace Marshall, Mr. J. Tate, Mr. T. L. Taylor, Mr. Harold Tetley and Mr. Gladstone Wilson."

Mr. J. C. MacDonald seconded the resolution.

The Rev. J. G. Sutherland suggested that the number might be increased to 20, but the Chairman explained that it would first be necessary to alter the rules, which could not be done without notice.

The motion to elect the Board of Management was thereupon carried.

On the motion of Mr. John Peel, seconded by Mr. John Treen, the following were elected members of the special Committee for the appointing of Honorary Medical Officers:—Sir John Eaglesome, Mr. Chas. F. Ratcliffe, and Mr. J. H. Portway.

On the motion of Mr. M. Naylor, seconded by Mr. S. Wade, Messrs. J. W. Close, Hirst & Co., were re-appointed auditors.

This concluded the meeting.

Any person desirous of bequeathing a Legacy to the Infirmary is respectfully requested to make use of the following

FORM OF BEQUEST

"*I give and bequeath to the* TREASURER *for the time being of the* GENERAL INFIRMARY AT LEEDS, *the sum of* , *free of Legacy Duty, to be applied to the general uses of the said Infirmary.*"

NOTE.—Property of all kinds, including Land, and Money lent on Mortgage may, by the Mortmain and Charitable Uses Act, 1891, now lawfully be given by Will to this Charity.

The Infirmary is entitled to 75 Free Annual Recommendations to Cookridge Convalescent Hospital, in consideration of Donations having been given to the said Convalescent Hospital, as follows:

Insured persons with SLIGHT accidents will receive immediate attention and must afterwards obtain treatment by a Medical Practitioner outside the Infirmary.

EXTRACTS FROM THE RULES AND BYE-LAWS

REGULATING THE PRIVILEGES OF BENEFACTORS, SUBSCRIBERS, ETC.

2. A Benefactor of Twenty Guineas or upwards, in one or two payments, shall be a Governor for Life. An Annual Subscriber of Two Guineas or upwards shall be a Governor during the continuance of the Subscription. A Benefactor of Ten Guineas in one payment, who also subscribes One Guinea annually, shall be a Governor during the continuance of the Subscription.

3. When Partners, or other Persons, jointly become Benefactors or Annual Subscribers, the first-named Partner or Person shall have the rights of a Governor in respect of such joint Benefaction or Subscription; and if the amount be sufficient to qualify more than one Governor, the next in order of such joint Benefactors or Subscribers shall have the rights of a Governor so far as the sums subscribed will extend to qualify

4. The Chairman of any Public Body, Body Corporate, or Society, subscribing Three Guineas or upwards annually, shall be a Governor during the continuance of the Subscription; but no privilege shall attach to such Chairman in respect of any Benefaction. Twenty-four Governors may be appointed by the Leeds Workpeople's Hospital Fund Committee, in virtue of the contributions derived by the Infirmary through the agency of such Committee. Executors of Wills under which the Infirmary benefits to the extent of £100, may have one of their number appointed a Governor.

6. All Subscriptions shall be considered due in advance on the 1st day of January in each year; and shall be supposed to continue, unless the Subscriber gives notice to the contrary.

7. The Vote of any Subscriber, whose subscription has not been paid before the 1st of July in any year, shall not be received unless the same be paid at the time of voting.

33. Persons who are able to pay for medical advice, domestic servants and apprentices whose masters are able to provide for them, and soldiers and militiamen whose officers and others engage to pay for them, may be admitted, by order of the Weekly Board, upon payment of such charge as the said Board may direct.

34. No one shall be admitted or suffered to remain as an In-patient who is capable of receiving equal benefit as an Out-patient.

36. No woman near the time of her confinement (except in extraordinary cases, or where some surgical operation is required), no persons disordered in their senses, subject to epileptic fits, suspected to have the small-pox or other infectious distemper, having habitual ulcers, or the venereal disease (unless in the cases hereafter excepted), no persons in consumption, nor any who are adjudged incurable, shall be admitted as In-patients, or, if inadvertently admitted, shall be suffered to remain.

54. The Diet of the Patients shall be under the regulation of their respective Physician or Surgeon; and no provisions or liquors shall be brought into the House to the Patients on any pretence whatever. The friends of any patient offending against this Rule shall not again be allowed to visit the Patient.

55. The friends of Patients will be admitted into the wards, with leave of the General Manager, on Tuesdays and Saturdays, between the hours of Two and Four.

68. Any Patient, or any person bearing office or serving in the Infirmary, who shall directly or indirectly give to or take from any Tradesman, Patient, Servant, Stranger, or other person whatsoever, any fee, reward, or gratuity for any service connected with the Infirmary, shall be liable to expulsion.
