THE MIDDLESEX HOSPITAL AND CANCER WING.

THE MIDDLESEX HOSPITAL MEDICAL SCHOOL.

REPORTS FOR THE YEAR 1942.

MORTIMER STREET, LONDON, W. I.

TELEPHONE:-MUSEUM 8333 WELLCOMI LIBRARY Ann Rep WX26 .BE5 .BE5 .BE5

TO SUBSCRIBERS.

To the many Subscribers who have already entered into the 7 Years' Subscription Agreement we offer our warm thanks.

We shall be most grateful to all those Subscribers who have not yet made use of the Agreement, which is for seven years or during life, whichever is the shorter period, if they will do so.

When Income Tax is payable at the full standard rate the Agreement enables the Hospital to recover the Income Tax paid on the Subscription: and it also enables Subscribers liable to Super Tax to deduct the gross amount of their Subscriptions from the income assessable for that tax.

Thus, without any extra expense to themselves, they can benefit the funds of the Hospital very materially, as is shown by the Table, calculating income tax at 10/- in the £, below:—

Nett Am of Ann Subscrip payable Subscrib	ual tion by		Income Tax recoverable by the Hospital.						Gross Amount of Annual Subscription.			
£ s.	d.		£	s.	d.			£	s.	d.		
1.1	0		1	1	0			2	2	0		
2 2	0		-2	2	0			4	4	0		
3 3	0		3	3	0	ž		6	6	0		
4 4	0	a to make	4	4	0			8	8	0		
5 5	0		5	5	0			10	10	0		
10 10	0	***	10	10	0			21	0	0		
21 0	0	owner of	21	0	0	/		42	0	0		
31 10	0		31	10	0			63	0	0		
42 0	0		42	0	0			84	0	0		
52 10	0		52	10	0			105	0	0		

During 1941 many Governors and friends of the Hospital were successful in enlisting new Subscribers for the Middlesex Hospital.

Will all our friends make, this year, a special effort to bring in new Subscribers, and ask them to make use of the Agreement, which adds so materially to the value of their support?

ENDOWMENT of BEDS and COTS.

Benefactors may Endow Beds in the Hospital according to the following scale:—

For One Year Thirty Guineas.

For Life of Donor Three Hundred Guineas.

In Perpetuity One Thousand Guineas.

The scale of Children's Cots in the Hospital, and for Beds in the Convalescent Home, is:—

For One Year Fifteen Guineas.

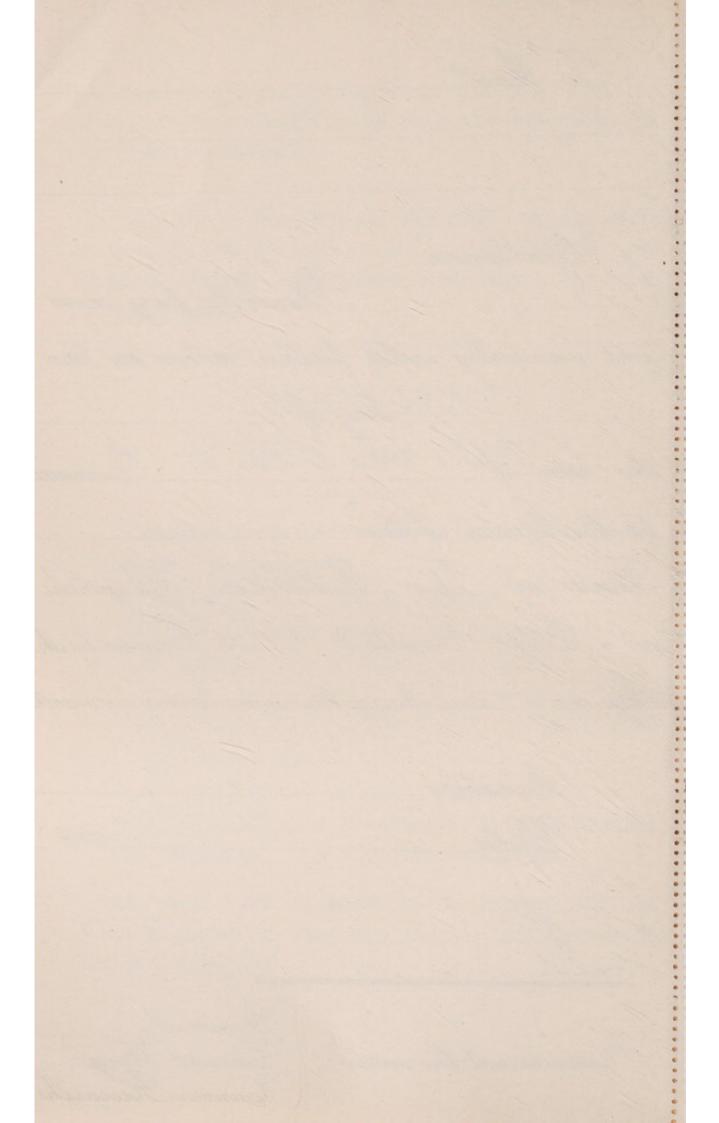

For Life of Donor One Hundred and Fifty Guineas.

In Perpetuity Five Hundred Guineas.

A plate, with inscription to be approved by the Board of Governors, may, if desired, be placed over the Bed or Cot endowed.

To Mess ro
Gentlemen,
Please to pay now

SIR ALFRED WEBB-JOHNSON, K.C.V.O., C.B.E., D.S.O., T.D., M.B., CH.B.,
P.R.C.S., F.A.C.S., F.R.A.C.S.

J. H. DOUGLAS WEBSTER, Esq., M.D., CHB., F.R.C.P. C. P. WILSON, Esq., C.V.O., F.R.C.S.

PROFESSOR B. W. WINDEYER, M.B., B.S., F.R.C.S., F.F.R., D.M.R.E.

ADMISSION OF PATIENTS.

Patients are required to contribute in accordance with their means towards the cost of their maintenance. The amount of a Patient's contribution is agreed upon after enquiries made, either before or after admission to the Hospital, from the Patient or the Patient's relatives or friends; but no distinction is made between those who can and those who cannot afford to contribute.

Patients are required to contribute 1/- at each attendance, but are excused from payment if their circumstances warrant it. Further contributions are invited from those attending the Special Departments.

Patients are received for admission, or for Out-Patient Treatment:—
Admissions—Nassau Street Entrance, 11.30 a.m., on any week-day.

Accidents and Urgent Cases—Nassau Street Entrance, at any time of the day or night.

Medical and Surgical Cases—Out-Patient Department, Nassau Street, as follows:—

Medical Cases are seen by the Casualty Medical Officer every week-day at 9.30 a.m. and attended:—On Mondays at 1.30 p.m. by Dr. G. E. S. Ward; on Tuesdays at 1.30 p.m. ; on Thursdays at 1.30 p.m. by Dr. T. Izod Bennett; on Fridays at 1.30 p.m. by Dr H. E. A. Boldero.

Surgical Cases are seen by the Casualty Surgical Officer every weekday at 9.30 a.m. and attended:—On Tuesdays at 1.30 p.m. by Mr. D. H. Patey, on Wednesdays at 1.30 p.m. by Sir Alfred Webb-Johnson, on Thursdays at 1.30 p.m. by Mr. E. W. Riches (urgent cases) and on Fridays at 1.30 p.m. by Mr. R. Vaughan Hudson. Out-Patients can also be seen on Mondays at 1.30 p.m.

Diseases of Children under fourteen years of age are attended by Dr. A. Moncrieff on Mondays at 9.30 a.m.

Infant Welfare Clinic is attended on Mondays at 1.30 p.m., Tuesdays and Fridays at 3.0 p.m.

Diseases of the Skin are attended by Dr. H. MacCormac on Thursdays at 9.30 a.m.

Diseases of the Nervous System are attended by Dr. P. H. SANDIFER on Tuesdays at 1.30 p.m.

Lying-in Patients must attend on Thursdays at 9.30 a.m.

Diseases of Women are attended by Mr. L. C. RIVETT on Fridays at 9.30 a.m., and Mr. W. R. WINTERTON on Mondays at 9.30 a.m.

Diseases of the Eye are attended by Mr. R. Affleck Greeves and Mr. Maurice H. Whiting on Tuesdays at 9.30 a.m., and by Mr. R. Affleck Greeves on Fridays at 9.30 a.m.

Diseases of the Ear, Nose and Throat are attended by Mr. Somerville Hastings and Mr. J. P. Monkhouse on Fridays at 9.30 a.m., and by Mr. C. P. Wilson and Mr. J. P. Monkhouse on Tuesdays at 9.30 a.m.

Diseases of the Rectum are attended by Mr. W. Turner Warwick on Wednesdays at 9.30 a.m.

Diseases of the Genito-Urinary System are attended by Mr. E. W. Riches on Thursdays at 1.30 p.m.

Varicose Veins are attended on Mondays at 1.30 p.m.

Orthopædic Clinic is attended by Mr. Blundell Bankart on Tuesdays at 9 a.m. at the Fracture Clinic, Main Hospital.

Plastic Surgery Clinic is attended by Mr. RAINSFORD MOWLEM on Tuesdays at 9.30 a.m.

Diseases of the Teeth are attended by Mr. J. W. Schofield on Mondays at 9.30 a.m.; by Mr. D. Greer Walker on Wednesdays at 9.30 a.m. and by Mr. A. L. Packham on Fridays at 9.30 a.m.

Cancer.—Out-patients are attended on Wednesdays at 9.30 a.m. and 1.30 p.m. in the Meyerstein Institute.

Tuberculosis Clinic is attended by Dr. H. E. A. Boldero on Fridays at 1.30 p.m.

Venereal Diseases, 1.30 p.m. on Wednesdays. New patients may obtain treatment in the Casualty Department at any time. Daily treatment (Male and Female) by arrangement.

In-Patients are expected to be provided with clean and suitable clothing and change of linen. They also have to provide themselves with washing materials. In all cases where the Patients are too poor to provide themselves with these articles they are supplied to them by the Lady Almoner from special funds which she has at her disposal for the purpose.

Any Officer, Sister, Nurse, Servant, or person employed in any Department of the Hospital accepting Money, or Presents of any kind, from a Patient, or relative or friend of any Patient, on any pretence whatever, is liable to dismissal.

The following Cases are not admitted into the Hospital:-

- 1. Those which are, upon due examination, deemed *Incurable*, as Advanced Consumption, etc.
- 2. Complaints so tedious of cure as to preclude for a long time the admission of more urgent cases, as Chronic Ulcers of the Legs, etc.
- 3. Disorders to the cure of which other establishments are devoted, as Persons of Unsound Mind, etc.
- 4. Those which are more properly objects for Public Assistance, as wanting Food and not Medicine.
- 5. Those whose admission might endanger the other Patients, as persons suffering from Infectious Diseases.
- 6. Complaints likely to be aggravated rather than relieved by confinement within the walls of a Hospital, but such cases, if deemed proper objects, may receive advice and medicine as Out-Patients.

Prior to sending up Patients from the Country, the Resident Medical Officer should be applied to, in order to learn whether there is room, and such application should be accompanied by a medical certificate setting out fully the nature of the case.

THE MIDDLESEX HOSPITAL CANCER WING.

ADMISSION OF PATIENTS.

- 1. Out-Patients suffering from cancer are specially attended in the Meyerstein Institute on Wednesdays at 9.30 A.M. and 1.30 P.M.
- 2. No patient can be admitted unless previous application has been made and the case considered.

VISITING DAYS.

MATERNI	TY	Y	11.19	al avi	{	Sundays Fuesdays	2 4	to	3 5	p.m.
Thursdays					10	i i angi	4	to	5	p.m.
Tuesdays				m	·	01,0.000	4	to	5	p.m.
Sundays			3			1 01	2	to	4	p.m.

N.B.—Every patient on admission to the Hospital is supplied with two visiting cards, and on no account can more than two visitors be allowed to see a patient at the same time.

REPORT

OF THE

BOARD OF GOVERNORS

OF THE

MIDDLESEX HOSPITAL, 1942.

The year 1942 in the Hospital World was notable for the introduction, in spite of the war, of four major questions, each concerned with the future development of the national health service.

They were :--

- (1) The Beveridge Report.
- (2) The Report of the Joint Committee of the British Hospitals
 Association and the British Hospitals Contributory
 Schemes Association on Hospital Income Limits and,
 ultimately, "all-in" cover for all classes.
- (3) The Goodenough Committee on post-war medical education.
- (4) The Rushcliffe Report on Nursing Salaries and Emoluments.

The first three are under consideration; the last has been accepted and adopted by all hospitals.

Any one of these would have been a first class issue in pre-war days. Their emergence together is evidence, not confined to this field, of an awakening of the social conscience without precedent in the past.

Of the Beveridge Report it may be said that that part dealing with a uniform health service, which vitally concerns us, as it does the Medical Profession, is at once the most complicated as it is the least pressing. We need the implementation of social security, and quickly, if we are not to find ourselves after this war as we were after the last with no adequate plans. But we already have a

REPORT. 15

good, if somewhat unrelated, health service and can safely take time to work out the practical and generally acceptable co-ordination and development of the existing and the proposed new arrangements.

There are, as we showed last year, many instances of a new spirit of co-operation between hospitals, both as between the Voluntary Hospitals themselves and between them and Municipal Institutions. Perhaps the most striking of these was the Interim Report issued by a Joint Committee of the B.H.A. and the B.H.C.S.A. on Income Limits and the many questions incidental to them. This report was considered and accepted by all the Hospital Regions, and by the Association of Contributory Schemes. Such virtual unanimity on an important matter of policy has not been known in the Hospital World before. The report has not been implemented officially, as it awaits acceptance of the terms, both for patients and for the Medical Profession, of a Provident Scheme to cover all above the ordinary Hospital income limits. It must wait also for such adaptation as may be necessary when the Minister of Health has agreed with all the bodies concerned upon the outlines of the National Health Service.

A major issue is that of post-war clinical education, now before the Goodenough Committee. It is a subject of vital importance to the Teaching Hospitals and their medical schools and must involve, as does the Beveridge Report, financial assistance from Public Funds. At the same time it is essential in the interest of Medicine itself, of the Medical Profession, of the Hospitals, and consequently of all patients, whether in Voluntary or Municipal Hospitals, that freedom of thought and practice be preserved, freedom of teaching, freedom of research. None of these should come under the control of Local Authorities, however close collaboration can be managed on the general administration of the Health Service. A Memorandum on this subject was prepared by the Committee of Chairmen of the London Teaching Hospitals, which was subsequently adopted by the Teaching Hospitals of Scotland and the Provinces, who added notes on some points peculiar to

themselves. The Deans of the Medical Schools have submitted a memorandum, and both bodies, together with others interested in education, are to give oral evidence.

The scientists, as the philosophers, tell us that the old dialectic difference between "kind" and "degree" has broken down. However, they are still convenient generalisations for the layman and will serve here. The difference between the Voluntary Hospital system and the Municipal system is not one of "degree" of service to the public, but of "kind" of organisation. The Local Authorities are elected to carry out lines of public policy. They may know nothing of Medicine or hospital administration, except what they learn from their Medical Officers of Health at their Committees. The Medical Officer is responsible to his Committee, his Hospital Superintendents are in turn responsible to him. Their Medical Officers again are, except in a few instances, which are by grace and not by right, under the Medical Superintendent's authority. They must conform to his wishes in using this method of treatment or not using that. Medical opinion has no expression. A new practice may have been adopted by the Teaching Hospitals and the Medical Press, but it may not reach down to the wards of the Municipal Hospitals. The Medical Officer of Health is in most instances too absorbed in his many administrative responsibilities to be able to keep up with modern ideas, and in any case no one man can be up-to-date in the dozen or more branches of medicine and surgery.

The Voluntary Hospitals on the other hand have active medical committees on which all members of the Honorary Staff serve. On them all new ideas are discussed, the crank is controlled, and the pioneer encouraged. They are governed by men and women who voluntarily give their time and their support because of their keen interest in hospital work, and are eager to find the finance for and promote all new developments. The Teaching Hospitals in particular recruit the best brains to their medical staff and have the practical and sympathetic support of enlightened laymen.

REPORT. 17

There can be no question as to which system is the better. We learn that efforts are being made, as, for example, by the L.C.C., to free their medical staffs from the strait waistcoat of tradition. But until this is done, and an effective central Medical Advisory Committee appointed to the Minister of Health, it would by folly to interfere with the freedom of the Voluntary Hospitals, and above all of the Teaching Hospitals and their Medical Schools.

And finally the Rushcliffe Report, as we have said, has been universally adopted. It had for years been recognised that the Nursing Profession was under-paid. But for the war, however, and the immensely increased demand by the Ministry and the Services for nurses, trained and in training, it would not have been possible, financially, to do much to improve the position. Now, however, with the Government paying 50% of the increased cost of carrying out the Rushcliffe recommendations this has been done, though the additional burden on the hospitals will be a formidable consideration after the war. To the Middlesex Hospital alone the 50% of the increase which it now carries amounts to £3,300 whilst when all its wards are open again and all its nurses back from the Sector Hospitals, the annual 50% charge on the Hospital funds will amount to £8,500.

Whilst on these major issues, raised mostly from without, the Hospitals of the country have found their own views and voice in their politics, they have also organised themselves. The B.H.A. in whose activities the Hospitals take far more interest and part than was the case in the years of peace, now speaks on most questions for the Hospitals as a whole, and meets the Ministry with authority, on E.M.S. matters, on the future organisation of the Hospital service and on the countless matters of supplies, administration, wages and so on, which war conditions raised in an acute form. In London the Voluntary Hospitals Committee, which is a constituent body of the B.H.A. has been greatly strengthened and deals with most matters directly affecting London Hospitals and their particular problems. The Teaching Hospitals have their

peculiar responsibilities, their combination of research and the applications of its results for the benefit of their patients on the one hand and their teaching functions, both of doctors and nurses on the other. They too, have come together and eliminated much of the unnecessary rivalries and competition of the past. Whilst for years they have had a Committee of the Deans of their Medical Schools, they have now set up a Committee of Chairmen of Teaching Hospitals. Much valuable work has already been done.

So much for general Hospital policy, external and internal.

As regards the Middlesex Hospital's own affairs, permission having been obtained from the Ministry of Health to repair the damage to the upper floor of the East Wing, the Materaity Department was able to return to its own unit in August. We have now, including the provision of cubicles for Officers' Wives, more beds for this department than before the war, a most valuable development.

There is no change, however, in the number of general beds in the Middlesex Hospital to report, but we now have an additional 200 in our Country Branch in the grounds of Mount Vernon Hospital at Northwood. These are staffed by our own Medical Staff, Sisters and Nurses, and the Convoy System, which we hope may be perpetuated in some form after the war, makes it possible to get patients away from London sooner than in the past. In addition we share with five other large hospitals, north of the Thames, who, like us, specialise in Radio-Therapy, in 150 beds at Mount Vernon set aside for this treatment. They are under the direction of our own Professor of Radiology.

And we are hoping shortly to re-open 40 more beds-two wardsin the Middlesex itself. The greatest difficulty there is in the universal shortage of domestic staff. But from this review it will be realised that we have restored to the public much the greater part of the service curtailed by the provision in early days of beds for casualties, and by the clearing of upper wards for safety's sake during the blitzes. REPORT. 19

Though the position as regards In-Patients steadily improves, the loss of two-thirds of our Out-Patient Annexe in Cleveland Street by bombs and fire in 1940/41 has made this work most difficult. We hope to recondition part of these buildings in the near future, which will lesson the strain on the Staff and reduce delays and some discomfort for patients. Meantime an adequate service is maintained, in spite of shortage of staff due to absence of members on service, the spreading of the rest of the staff over the Sector Hospitals and the difficulty of obtaining Clinical Assistants and retaining the younger qualified men.

MEDICAL RESEARCH.

Bland-Sutton Institute of Pathology.

Research work has continued on much the same lines as last year and includes such items as the following:—

One important study has been the continuation of our work on the mechanism of the resistance of the normal tissues to tumour invasion. Some tumours incite a great increase in the number of the white cells in the blood and the increase appears to be proportional to the malignancy of the tumour.

The factors necessary for the initiation of tumours are likewise being investigated. Normal tissues were made more susceptible by injecting various chemical substances. The chemical substances which produced the greatest susceptibility were those that called forth a vigorous cellular reaction.

New methods of microscopical resolution are being applied to the study of the morphology of viruses. This work is naturally slow because of the impossibility of obtaining pure virus in concentrated form.

Histological investigations have been continued on the morphology of tumours and on the effects of treatment by radiation.

Bacteriological research has been mainly concerned with the application of antiseptics and chemo-therapeutic remedies and the prevention of hospital infection. Endeavours have been made to get more efficient chemo-therapeutic substances for application to wounds. We have advised the use of a mixture of sulphathiazole and proflavine and this mixture is now undergoing actual test in war conditions.

Another urgent item is the study of the development of resistance in bacteria to drugs which is not an uncommon complication following the clinical application of these substances. From these studies it is hoped to gain further insight into the nature of the action of these drugs on bacteria.

With regard to the possibility of the transmission of syphilis by blood transfusion, tests have been carried out to determine how long the causal organism can survive. It has been concluded that under the current conditions of the preparation and storing of transfusion fluids the risk of transmitting syphilis by transfusion is negligible.

Barnato Joel Laboratories.

Closely related to the cancer problem is the work of the Barnato Joel Laboratories on the bearing of physics upon the treatment of patients by means of X-rays and radium. As a result of this study it is now probably true to say that doses of radiation are dispensed to-day with just as much care and to a large extent with the same degree of accuracy as drugs used in the treatment of other diseases.

Courtauld Institute of Biochemistry.

During the last year, the work of the Institute has been carried on as before, but in addition we have been able to increase the volume of both the routine and the research work.

The routine investigations of in-patients and out-patients has now increased to more than half of what it was in pre-war days. A large number of investigations have been conducted, particularly in connection with the biochemistry of Graves' disease.

Observations have also been made on the calcium intake and output in pregnancy and hyperthyroidism, and the effect of the administration of various forms of calcium salts have been observed.

REPORT. 21

Chemical research has been along the lines already pursued namely, the preparation of further compounds of oestrogenic activity. A number of derivatives of the highly active oestrogens such as stilboestrol, hexoestrol and dienoestrol have been prepared with a view to modifying their rate of absorption and action.

An entirely new line of work has been brought to publication stage. A number of substances have been synthesised which possess a morphine-like activity. It is hoped that by the continuation of this work, new therapeutic agents may be evolved.

Work on the relationship between the pituitary and the ovary has also continued in the department.

The Nursing Service.

The Nursing Staff of this Hospital continues to render splendid service under great difficulties. The shortage of domestic staff referred to has thrown more work upon them, had for long prevented us from opening another floor of the Woolavington Wing and still prevents us from opening the two wards of 40 beds. The Ministry of Labour still regards Hospital service as a secondary consideration, even though it is now considering putting the Nursing service into the 1st Priority class—but one is dependent upon the other— and the Exchanges press women to take up Services or Factory work rather than Hospital Service.

Applications for nursing training have, however, been well maintained and an additional Preliminary Training School is now held to increase the number of qualified nurses. The results of State and other examinations continue to be excellent.

We take this opportunity of congratulating our Matron on the well-deserved honour of the O.B.E. conferred upon her.

Medical Staff.

The University of London has agreed to the establishment of a Chair of Radiology (Therapeutic) tenable at the Middlesex Hospital Medical School, and we are pleased to report that Mr. B. W. Windeyer has been elected to the Chair. Professor Windeyer will, however, continue to hold the appointment of Officer in Charge of the Meyerstein Institute of Radio-Therapy, and in addition acts as Director of the joint Radio-Therapy unit of 150 beds at Mount Vernon.

A most notable list of Distinctions, Awards and Honours appears in the Medical School Report, but we would here like to offer our congratulations to Sir Alfred Webb-Johnson on his reelection as President of the Royal College of Surgeons and the honour of K.C.V.O. conferred upon him, and to Dr. H. E. A.Boldero on his election as Registrar of the Royal College of Physicians. These and many other distinctions do honour alike to their Hospital and to the recipients.

Chapel.

We deeply regret the death in August last of the Rev. W. R. Cargill, Honorary Chaplain and Member of the Board.

The Rev. A. E. Bloore has been appointed to the post of Resident Chaplain and took up his duties on 1st December.

On Hospital Sunday, June 7th, the evening service was broadcast from the Hospital Chapel. The Service was conducted by Mr. Cargill and the Lesson was read by Sir Alfred Webb-Johnson.

Finance.

Subscriptions have been well maintained and receipts from legacies exceed the amounts received in the years 1940 and 1941.

Alexandra Day under the Chairmanship of Mrs. Baer produced a record collection of £1,066 and this has been made up to £1,100 by the Alexandra Day Committee.

Mrs. Patey kindly undertook the organisation of the Hospital Flag Days and the total collected of £1,000 was also a record.

Among the many notable benefactions for 1942 was the sum of £309 3s. 3d. raised by the Seven-a-Side Competition organised by the Middlesex County Rugby Football Union. It has meant much hard work and generous expenditure of time to keep this football event going during the war.

In these days of paper economy it is not possible to thank all our friends by name. We assure them we are not unmindful, nor ungrateful. REPORT. 23

Services, Appeals, Functions.

The British Empire Cancer Campaign continues to support our Cancer Research work, and the value of this help is partly reflected in the brief notes on Research work now proceeding. We offer our grateful thanks to the Council of the Campaign.

Report of the Ladies' Association.

The Ladies' Association is still serving the Hospital to the best of its ability. Though the number of active members is naturally reduced, the activity of those who remain is much increased and no opportunity to serve the Hospital has been lost.

By the death of Lady Bland-Sutton, whose name is so indissolubly connected with the Middlesex, the Association has unhappily lost one of its founders and most generous and enthusiastic workers.

On May 12th, 1942, a General Meeting was held in the Nurses' Home. We were very proud and pleased to have amongst us again the President of the Association, Her Royal Highness Princess Arthur of Connaught, as also the ever welcome presence of Lady Violet Astor, who accepted our cheques on behalf of the Hospital. Since then the Association has completed the £1,000 necessary to endow the 2nd Ladies' Association Bed. This has been possible through the hard work of the Honorary Treasurer and on account of the unexpected fact that the Out-Patient Canteen, whilst charging considerably less for a cup of tea than anywhere outside ('Best and cheapest cup of tea in London', as one often hears) has contributed notably to the General Fund.

The Work Society has overcome all difficulties, notably the absence from Town of most of the Committee, and its Honorary Secretary has promptly met all Matron's requirements.

The Library, as always, is greatly appreciated by the patients and we are very lucky, in these hard times, to be able to keep up the full peace time service; this has been managed by the remaining Librarians giving far more time than previously. The work of the Ladies' Ambulance, though still diminished, is carried out with the old skill and enthusiasm.

The most outstanding feature of the year's activities has been the rapid development of the Out-Patients Canteen, which goes on from strength to strength and has become well established in the affection of those it caters for. The Honorary Organiser of the National Emergency branch still helps in the Blood Transfusion Service and has, in addition, found a member to attend the Nurses' Dental Clinic, whose services have been greatly appreciated. The College mending is still being done by this Branch and other offers to mend and sew have been gratefully utilised.

Some of our branches are still on a war-time basis and their hopes are fixed on rapid expansion once the Hospital resumes its full peace-time activities and calls on their services.

All Help League.

The generous help of the League members during the year 1942 resulting in the sum of £1,276 2s. 2d. being credited to the General Funds was most encouraging and showed an increase of over £100 on the previous year's total. This is a most creditable effort when one realises that many members have had to drop out and that there are many now serving with the forces who cannot give their support as formerly. To balance this, however, we have enrolled more than 100 new members who we hope will work as well on our behalf as have those in the past.

This year the sum raised by the sale of Tinfoil was £65 10s. 4d. which although a lesser amount than last year, represents actually a larger collection of the commodity. We hope that our members and their friends will continue to help us by sending in large and even larger parcels.

The response made by our London members for help for Emblem and Alexandra Days was, once again, very gratifying. There is much to be done in the organising before the event and also REPORT. 25

on the day and workers came early and remained late and did not seem to notice fatigue in what we all realise is a very tiring task. The largest proportion of sellers were "All Help Leaguers" and they certainly did their part well in bringing in a large number of heavily laden collecting tins.

It is fitting that we should record our special thanks to Mr. J. H. Maunder who has now collected over £300 by weekly box collections and Mr. G. Day who regularly helps with the sorting, filling and stacking of Tinfoil sacks.

We hope that the coming year may hold no less success than did the preceding one, and we thank our ex-patients and their friends for the invaluable assistance they bring to "their" Hospital.

Lady Almoner's Department.

The work in this department continues satisfactorily, and the number of patients attending and requiring help shows a marked increase on the early days of the war. We are very glad that the important work of visiting patients suffering from Cancer has not had to cease entirely—though transport difficulties necessarily curtail it. Undoubtedly the most important work of the Almoner is to assist the patient, in the Hospital, about to leave the Hospital, or in the Home. But, under present arrangements, the Almoner's Department is also entrusted with the collecting from Patients and their Schemes, their contributions to their cost of maintenance, treatment, of course, being given free. These contributions show another most satisfactory increase:—

			£	s.	d.
Direct Co	ntributi	ons	 8,218	0	0
H.S.A.			 12,377	0	0
H.S.F.		•••	 810	0	0
			£21,405	0	0

Infant Welfare Department.

The work of this department continues to be of great importance and as the appended figures show advice is sought by mothers in an increasing volume. The number of children on the books and the total attendances have risen since 1941. Thanks are due to the faithful voluntary helpers who make the work of the Welfare Clinic possible and especially to Mrs. Precope who interprets for our Cypriot mothers. The Mothers' Union of St. Luke's Church, Kew Gardens, continues to help by making clothes.

				1941	1942
Children on Books				343	401
Attendances				2,557	3,430
New Cases				156	161
Expectant Mothers a	ttending	g Class		244	308
Home Visits		****		1,584	1,379
Visits by Mothers to	Welfare	for Ad	vice	1,145	1,339

Again we end a year as we began it, with our profession of faith in the vital importance of the Voluntary Hospital System. And we believe we have reason to be proud of the share in its political support which the Middlesex Hospital is giving, just as we are grateful for all the support given to us by our friends to maintain and extend our own service to the public.

J. J. ASTOR,

Chairman.

The Medical School (1941-42).

Pre-Clinical Students.

Students studying the pre-clinical subjects are again being taught in the Medical School in London, having returned from Leeds in October, 1942. During the Summer vacation the Departments concerned were made ready for their reception, thus enabling the teaching staff and students to continue their work without delay.

We are most grateful to the Authorities of the University of Leeds for the kind way in which they so readily and so generously afforded our staff and students accommodation during their stay of two years in Leeds, from October 1940 to July 1942. The teaching, athletic, and Union facilities afforded were excellent and were most welcome at a time when teaching in London was made difficult by enemy action. We are, therefore, glad to make this permanent record of our appreciation for all that the Vice-Chancellor and officers of the University of Leeds did for Middlesex students during their stay.

Clinical Students.

The distribution of our students during the period of their clinical training remains unchanged and the standard of teaching has been maintained. We are happy again to acknowledge that the continued goodwill and co-operation of the Middlesex County Council, the Buckinghamshire County Council, and the Board of Governors of Mount Vernon Hospital, have played a very large part in making this possible.

The arrangement with the Royal Hospital, Wolverhampton, which began in 1940, and which provided for a limited number of clinical students to receive instruction there, continues to be a most satisfactory one for us.

Deaths.

It is with very deep regret that I record the death on February 10th, 1943, of Lady Bland-Sutton. Her late husband Sir John Bland-Sutton, Bart., did much to advance the Medical School, and the status it enjoys to-day is in some measure directly due to his foresight and generosity.

Lady Bland-Sutton did much to support and further his work for the Medical School and by bequests in her Will, has carried out her distinguished husband's wishes. A large proportion of his personal estate is left for the endowment of the Bland-Sutton Institute, which he built at a time when few realised the future of Pathology.

Appointment.

It gives me much pleasure to report that the Senate of the University of London appointed Dr. B. W. Windeyer on October 1st, 1942, to the University Chair of Radiology (Therapeutic) tenable at the Middlesex Hospital Medical School. Thus Dr. Windeyer receives the title of Professor of Radiology in the University of London, with the status and designation of appointed teacher. The post also carries with it Membership of the Faculty of Medicine and of the Board of Advanced Medical Studies.

Research Work and Investigations.

The continued encouragement and generous support again afforded us during the past year by the Medical Research Council, the British Empire Cancer Campaign, and the Sir Halley Stewart Trust, is gratefully acknowledged. This continued support is particularly appreciated, and is necessary, if we are to maintain essential research work in spite of war conditions.

Distinctions and Honours.

Sir Alfred Webb-Johnson has been re-elected President of the Royal College of Surgeons of England. We are also pleased to report that H.M. The King has conferred the honour and rank of K.C.V.O. upon Sir Alfred.

- Dr. H. E. A. Boldero has been elected Registrar of the Royal College of Physicians of London.
- Mr. E. W. Riches, F.R.C.S., has been awarded the Jacksonian Prize for 1942 and has been offered a Hunterian Professorship for 1943.
- Dr. E. A. Cockayne has been elected President of the Royal Entomological Society.
- Dr. G. E. S. Ward has been appointed a Censor of the Royal College of Physicians.
- Professor E. C. Dodds has been awarded by the University of London, The William Julius Mickle Fellowship.
- Dr. J. W. Brown has been nominated by the President of the Royal College of Physicians, Bradshaw Lecturer for 1943.

The following Middlesex men have been elected Fellows of the Royal College of Physicians:—

Dr. H. Joules, Dr. M. Kremer, Dr. R. H. Parry, Dr. K. Robson, and Dr. J. L. Lovibond.

War Distinctions and Honours.

The following awards have been conferred by H.M. The King upon old students of the Middlesex Hospital:—

- Major P. B. Ascroft, R.A.M.C., awarded the M.B.E. (Military Division), in recognition of gallant and distinguished services in the Middle East.
- Surg. Lt. Cdr. H. G. Rees, R.N.V.R. awarded the O.B.E., "For endurance and devotion to duty when H.M. ships Cornwall and Dorsetshire were sunk by Japanese air attacks in the Indian Ocean."
- Captain R. D. I. Beggs, R.A.M.C., awarded the M.C. in recognition of gallant and distinguished services in the Middle East, and mentioned in dispatches for similar services.
- Surgeon Lieutenant R. C. R. Gethen, R.N.V.R., has received a commendation for bravery during an enemy air attack.

Flt. Lt. T. H. Cullen, R.A.F.V.R. awarded the M.B.E. for gallant and courageous services during the Allied withdrawall from Crete, while he was himself suffering from dysentery.

Flt. Lt. B. J. O. Winfield, R.A.F.V.R. awarded the A.F.C.

Captain P. J. Wormald, I.M.S., mentioned in dispatches im recognition of gallant and distinguished services im Waziristan.

We acknowledge with gratitude the following legacies and

sorship)	D. SLOME, M.A., PH.D., M.B., CH.B.
Lecturer in Pharmacology and Therapeutics	C. A. KEELE, M.D., M.R.C.P.
Applied Physiology	PROFESSOR SAMSON WRIGHT, M.D., F.R.O.P.
Damoneteston	PROFESSOR W. B. TUCK, D.Sc., F.I.C.
Demonstrator Physics (Joel Professorship)—	W. H. S. CHEAVIN.
Theoretical and Practical Research Assistant Demonstrator	PROFESSOR SIDNEY RUSS, C.B.E., D.Sc. J. E. ROBERTS, PH.D., B.Sc. J. C. JONES, B.A.
Blology (University Readership)	J. H. WOODGER, D.Sc.
Demonstrator Radiology (Diagnostic)	C. L. FOSTER, M.SC. H. K. GRAHAM HODGSON, C.V.O., M.B., B.S., F.R.C.P. D.M.R.E.
Radio-Therapy	J. H. DOUGLAS WEBSTER, M.D., CH.B., F.R.C.P. (ED:). PROFESSOR B. W. WINDEYER, M.B., B.S., F.R.C.S., F.F.R., D.M.R.E.
Physical Medicine	BRIGADIER FRANK HOWITT, C.V.O., M.A., M.D., B.OHIR
Practical Pharmacy	F.R.C.P., R.A.M.C. S. H. WHITE, PH.O., M.P.S.

# THE MIDDLESEX HOSPITAL MEDICAL SCHOOL.

THREE Casualty Medical and Two Casualty Surgical Officers. Eight Resident Officers to the Special Departments, Ten Resident House Surgeons, Ten Resident House Physicians, Two Resident Gynæcological House Surgeons, Two Resident Officers to the Maternity and Children's Dept., Thirteen Registrars, Three Resident Anæsthetists, one Resident Dental House Surgeon and one Clinical Research Assistant to the Courtauld Wards, are normally appointed annually from among the qualified Students of the Hospital.

During the war the number of appointments at the Hospital is reduced, but additional appointments are available at Hospitals in the Sector.

There are awarded annually, two Open Entrance Scholarships value £100 each, one in Arts and one in Science. Two Scholarships value £100 each open to Students of Oxford and Cambridge Universities who have completed their Anatomical and Physiological studies. Two Scholarships endowed by the late Sir Edward Meyerstein, value £100 each, open to University of London Students who have at the Middlesex Hospital Medical School completed the curriculum for the 2nd M.B., Examination. The Freer Lucas Scholarship and the Asher Asher Prize to a Pupil of Epsom College who has passed the 1st M.B., Examination. The Colin Mackenzie Prize value £10 10s., Anatomy and Physiology. The Hetley Clinical Prize of £25, the Leopold Hudson Prize value £11 11s., Surgical Pathology and Bacteriology, the Kingston Fowler Prize value £15, Pathology, Bacteriology, and Morbid Histology. The Lyell Medal and Scholarship value £55 5s., for proficiency in Surgical Anatomy and Dissection, etc. Two Broderip Scholarships, value £60 and £40 respectively, for proficiency in Clinical knowledge. The Freeman Scholarship value 430, Gynæcology and Obstetrics. The John Murray Medal and Scholarship value £25, Theoretical and Practical Medicine, awarded every third year. Numerous Research Scholarships and Class Prizes are also awarded.

The Tutors superintend and assist Students in their studies without extra fee, and thus the necessity of obtaining private instruction away from the Medical School is obviated.

#### FEES :-

A.	Entrance Fee	 		 	 	 	£15 15	0
В.	Annual Fee	 	/	 	 	 	£50 0	0

For the subjects of the Entrance Scholarships and any additional information please apply to the Dean of the Medical School or to the School Secretary.
