During the year under review, of the patients admitted, 53 resided in Malton, 81 in Norton, 14 in Old Malton, and 184 in adjacent villages, while 28 came from farther afield, viz. :—York, 2 ; Leeds, 6 ; Driffield, 3 ; Redcar, 1 ; Whitby, 1 ; Ripon, 1 ; Huddersfield, 2 ; Cheltenham, 1 ; Nottingham, 2 ; Bradford, 1 ; Dewsbury, 1 ; Goathland, 1 ; Monkseaton, 1 ; Layerthorpe, 1 ; Hull, 1 ; London, 1 ; Scarborough, 2.

The year has been memorable by reason of the completion of the New Hospital Building. The opening ceremony was performed by the Hon. Mrs. Garforth on the 19th May, 1927, in the presence of a large assembly of people from Malton, Norton and the country around ; the patients having been transferred some days previously from the old Hospital, which was then surrendered to the owner, Earl Fitzwilliam.

The present Accounts, therefore, represent some five months' working of the old Hospital and seven months' only of the new. Although the Monthly Board consider that the balance on Maintenance Account of some £228 at the end of the year against £12 brought into the Account is a matter for hearty congratulation, yet they cannot too strongly insist upon the necessity of increasing the support that has been accorded to the Hospital during the past year. The comparative table with which this Report commences shows that the expenditure was nearly £550 greater than in the previous year. If this increased rate of expenditure is maintained for a full 12 months, it is obvious that last year's income will be wholly insufficient to meet the Hospital's needs. The Board cannot hold out any hope that this expenditure will be reduced, and, therefore, earnestly ask all those who are interested in the Hospital to increase rather than diminish their efforts.

The fact that the Hospital has had so successful a year is to a large extent attributable to the inauguration of the new system of Auxiliary Associations which now number 39. The increased interest and support accorded by the whole district served by the Hospital through these Associations is represented by the large sum of £1,156 in subscriptions during the past year, plus £82 18s. 5d. from the Workpeople's Hospital Committee, making a total of £1,239, against last year's total (including the Workpeople's Hospital Committee contribution) of £425. To the officials of these Associations in particular the Board's warm thanks are accorded.

One disappointing source of income has been "Fees from Private Patients," this being £268 as against £332 last year, but due allowance must be made for the fact that the total of 1926 was higher by nearly £100 than that of 1925 and that with the opening of the new Hospital 'semi-private patients' disappeared.

The fact that 360 patients entered the Hospital as against 296 in the previous year proves its increased usefulness and the Board particularly call attention to the decision to allow medical cases to be treated there, thus supplying a long-felt want in difficult cases requiring proper nursing.

The debt on the Building Fund, which amounted to £2,474 on the 31st December last, has been a matter for anxious consideration by the Board, and it will form one of the subjects of discussion at this meeting. Whatever steps it is deemed advisable to take to reduce the burden on the Hospital will, it is hoped, have the whole-hearted support of the District which the Hospital serves.

Finally, the Board wishes to express its grateful thanks to those on whom the practical working of the Hospital depends, the Hon. Medical Staff, the Matron and the General Staff, whose work has been greatly increased by the change over to the new building. Their thanks are also due to those Ministers of Religion who have allowed collections to be made for the Hospital ; to the organisers of entertainments and competitions ; to the Press for its ready co-operation and help in furthering the Hospital's cause, and to all helpers and subscribers who have made the year a memorable one.

By order of the Monthly Board.

Chairman.
