Report of the Monthly Board.

The Twenty-second Annual Report and Statement of Accounts is presented herewith.

The number of Patients for the past four years with the relative cost and other details and comparisons is as follows :

Year.	No. of Patients.		Total Cost.		Total Income	
1923	...	260	...	£1509	...	£1651
1924	...	301	...	£1430	...	£1394
1925	...	252	...	£1324	...	£1378
1926	...	296	...	£1320	...	£1240

	1926.	1925.	1924	1923
Average stay of each Patient in Hospital	days.	days.	days.	days.
	10·68	12·85	12·7	15·9
Daily average number of beds occupied (accommodation is 10 beds, 2 cots)	8·66	8·87	10·41	11·33
Average cost per head per day, including staff	s. d.	s. d.	s. d.	s. d.
	4 5½	4 5¼	4 3½	4 4½
Average daily cost of provisions per head, including staff	10·52d.	11·87d.	11·11d.	13·41d.

Of the Patients admitted during the year under review, 57 resided in Malton, 74 in Norton, 6 in Old Malton, and 139 in adjacent villages, while 20 came from farther afield, viz., 7 from York, 3 from Hull, 2 from Leeds, and 1 from each of the following — Doncaster, Glasgow, Bingley, Houghton-le-Spring, Old Penshaw, Bradford, Aysgarth, Leyburn.

It will be seen from the Maintenance Fund Accounts for the year 1926, printed below, that at the end of the year the balance in hand apart from the Special Colby Fund amounted to a little more than £12 against a credit balance at the opening of the Account of over £90. In 1926, however, the contribution paid to the Treasurer by the Workpeople's Hospital Committee was £150 only, against £300 in 1925. The other sources of income were well maintained and the item of fees from patients showed an increase of more than £100, whilst expenditure remained practically the same as in 1925. In view of the continued efforts of the area served by the Hospital on behalf of the Building Fund during the period, the result cannot be considered unsatisfactory. At the same time the Board would again call attention to the certainty of increased expenditure in maintaining the new Hospital of 26 beds, which is to be opened in May, 1927. It is impossible to give an accurate estimate of what such expenditure will be, but the Board ask for an annual income of £2,000 to start with.

As regards the new Hospital Building Fund, on December 31st, 1926, the Hon. Treasurer had received from all sources, including money promised but not then received, £15,717 13s. 2d. The original estimate for the cost of building and equipping the new Hospital was £16,000. The Building Committee have added various items and they anticipate that the final cost will be about £17,000 complete.

Since the last Annual Meeting in March, 1926, New Rules for the management of the Hospital have been passed by a Special Meeting of Governors. These were drawn up with two main ideas—

1. To raise a larger income for the Hospital by increasing the number of Subscribers.
2. To enable Subscribers generally to have a more direct share in the management of the Hospital.

It is hoped that the new Rules will result in a greater public interest.

The Board wishes to record its appreciation of the excellent work of the Honorary Medical Staff, of the Matron and general Staff of the Hospital during the year and to express its gratitude to those who have helped in the maintenance of the Hospital by Subscriptions and gifts in money or in kind; to those Ministers of Religion who have caused collections to be made on behalf of the Hospital; to organizers of various entertainments and competitions by means of which the Hospital has benefited; to the Press for its kindness in publishing the Accounts from time to time and in other ways and to the various officers concerned in the administration of the Institution. Owing to the largely increased funds of the Hospital and the greater responsibilities entailed in the administration of them it is provided by the new Rules that in future the Hospital Accounts be audited by a Chartered Accountant. This, unfortunately, entails parting with the Hospital's excellent Hon. Auditors who have done such painstaking work during many years in the audit of the Accounts.

Finally, the Board desires to express its gratitude to the Workpeople's Hospital Committee for its contributions to the Hospital Funds during the year and to say that if this Committee in consequence of the new constitution of the Hospital disappears or is merged in the Auxiliary Associations the work it did for the Hospital during many anxious years will not readily be forgotten.

T. G. GIBSON,

Chairman.

Malton Cottage Hospital Workpeople's Committee

SEVENTEENTH ANNUAL REPORT and BALANCE SHEET, 1926 - 1927.

Report.

In presenting our 17th Annual Report, the Workpeople's Hospital Committee wish to express thanks to all who have so cordially supported them during the 17 years they have been in existence. This is also the last Report we shall issue.

The first meeting was held on April 17th, 1910. Since then the Committee have had no easy time. Lectures were commenced in 1912 and continued for seven years. We began as propagandists for patients; we succeeded so well in overcoming prejudice that at one time during the war we had 30 patients waiting for beds. As the number of patients increased, the money had to be found in larger quantities. Year by year we improved till 1920, when for the first time during the years 1914 onwards we had a balance in hand of £56 odd. Our contribution was £550. Since then we have always been able to clear any shortage the Board had at the end of each year. This year, which has already finished, we have handed over to the Hospital Treasurer £150, and we have another £80 odd to pay in at once. This will make £3,982 to Maintenance Fund and £147 6s. 8d. to New Hospital Fund, making a total of £4,129 odd we have handed over to the General Hospital Fund.

Allow me personally to express my great indebtedness to the most loyal helpers during the 17 years.

The Workpeople's Committee has now ceased to exist, and again thanking all our supporters for their help during a strenuous time, we bid you all Farewell.

Yours sincerely,

FRED H. WILKINSON,
