THE MIDDLESEX HOSPITAL MEDICAL SCHOOL.

REPORTS FOR THE YEAR 1941.

MORTIMER STREET, LONDON, W. 1.

TO SUBSCRIBERS.

To the many Subscribers who have already entered into the 7 Years' Subscription Agreement we offer our warm thanks.

We shall be most grateful to all those Subscribers who have not yet made use of the Agreement, which is for seven years or during life, whichever is the shorter period, if they will do so.

The Agreement enables the Hospital to recover the Income Tax paid on the Subscription : and it also enables Subscribers liable to Super Tax to deduct the gross amount of their Subscriptions from the income assessable for that tax.

Thus, without any extra expense to themselves, they can benefit the funds of the Hospital very materially, as is shown by the Table, calculating income tax at 10/- in the £, below :—

Nett Amount of Annual Subscription payable by Subscriber.		Income Tax recoverable by the Hospital.	Gross Amount of Annual Subscription.
£ s. d.		£ s. d.	 £ s. d.
1 1 0		1 1 0 .	 2 2 0
2 2 0		2 2 0	 4 4 0
3 3 0		3 3 0	 6 6 0
4 4 0		4 4 0	 - 8 8 0
5 5 0	···· ·	5 5 0	 10 10 0
10 10 0		10 10 0	 21 0 0
21 0 0		21 0 0	 42 0 0
31 10 0		31 10 0	 63 0 0
42 0 0		42 0 0	 84 0 0
52 10 0		52 10 0	 105 0 0

During 1941 many Governors and friends of the Hospital were successful in enlisting new Subscribers for the Middlesex Hospital.

Will all our friends make, this year, a special effort to bring in new Subscribers, and ask them to make use of the Agreement, which adds so materially to the value of their support ?

ENDOWMENT of BEDS and COTS.

Benefactors may Endow Beds in the Hospital according to the following scale :—

For One Year	_Thirty Guineas.
For Life of Donor	Three Hundred Guineas.
In Perpetuity	One Thousand Guineas.

The scale of Children's Cots in the Hospital, and for Beds in the Convalescent Home, is :—

For One Year	Fifteen Guineas.
For Life of Donor	One Hundred and Fifty Guineas.
In Perpetuity	Five Hundred Guineas.

A plate, with inscription to be approved by the Board of Governors, may, if desired, be placed over the Bed or Cot endowed.

To Mess ro Gentlemen, Please to pay now and annually until further notice on the day of_ Guineas the sum of to the Gredit of the Fund of The Middlesex Hospital, at Messres Coutto & C.º 16, Cavendish Square, W. 1, and charge the same to my account. Signature.. Date____ 194 "Please insert the words. "General." "Cancer Wing." "Cancer Research."

ADMISSION OF PATIENTS.

Patients are required to contribute in accordance with their means towards the cost of their maintenance. The amount of a Patient's contribution is agreed upon after enquiries made, either before or after admission to the Hospital, from the Patient or the Patient's relatives or friends; but no distinction is made between those who can and those who cannot afford to contribute.

Patients are required to contribute 1/- at each attendance, but are excused from payment if their circumstances warrant it. Further contributions are invited from those attending the Special Departments.

Patients are received for admission, or for Out-Patient Treatment :--

Admissions-Nassau Street Entrance, 11.30 a.m., on any week-day.

Accidents and Urgent Cases-Nassau Street Entrance, at any time of the day or night.

Medical and Surgical Cases—Out-Patient Department, Nassau Street, as follows :---

Medical Cases are seen by the Casualty Medical Officer every weekday at 9.30 a.m. and attended :--On Mondays at 1.30 p.m. by Dr. G. E. S. WARD; on Tuesdays at 1.30 p.m. by Dr. R. A. YOUNG; on Thursdays at 1.30 p.m. by Dr. T. IZOD BENNETT; on Fridays at 1.30 p.m. by Dr. H. E. A. BOLDERO.

Surgical Cases are seen by the Casualty Surgical Officer every weekday at 9.30 a.m. and attended :—On Tuesdays at 1.30 p.m. by Mr. D. H. PATEY, on Wednesdays at 1.30 p.m. by Sir ALFRED WEBB-JOHNSON, on Thursdays at 1.30 p.m. by Mr. E. W. RICHES (urgent cases) and on Fridays at 1.30 p.m. by Mr. R. VAUGHAN HUDSON. Out-Patients can also be seen on Mondays at 1.30 p.m.

Diseases of Children under fourteen years of age are attended by Dr. A. MONCRIEFF on Mondays at 9.30 a.m.

Infant Welfare Clinic is attended on Mondays at 1.30 p.m., Tuesdays and Fridays at 3.0 p.m.

Diseases of the Skin are attended by Dr. H. MACCORMAC on Thursdays at 9.30 a.m.

Diseases of the Nervous System are attended by Dr. P. H. SANDIFER on Tuesdays at 1.30 p.m.

Lying-in Patients must attend on Thursdays at 9.30 a.m.

Diseases of Women are attended by Mr. L. C. RIVETT on Thursdays at 9.30 a.m., and Mr. W. R. WINTERTON on Mondays at 9.30 a.m.

Diseases of the Eye are attended by Mr. R. AFFLECK GREEVES and Mr. MAURICE H. WHITING on Tuesdays at 9.30 a.m., and by Mr. R. AFFLECK GREEVES on Fridays at 9.30 a.m.

Diseases of the Ear, Nose and Throat are attended by Mr. SOMERVILLE HASTINGS and Mr. J. P. MONKHOUSE on Fridays at 9.30 a.m., and by Mr. C. P. WILSON and Mr. J. P. MONKHOUSE on Tuesdays at 9.30 a.m. Diseases of the Rectum are attended by Mr. W. TURNER WARWICK on Wednesdays at 9.30 a.m.

Diseases of the Genito-Urinary System are attended by Mr. E. W. RICHES on Thursdays at 1.30 p.m.

Varicose Veins are attended on Mondays at 1.30 p.m.

Orthopædic Clinic is attended by Mr. BLUNDELL BANKART on Tuesdays at 9 a.m. at the Fracture Clinic, Main Hospital.

Plastic Surgery Clinic is attended by Mr. RAINSFORD MOWLEM on Tuesdays at 9.30 a.m.

Diseases of the Teeth are attended by Mr. J. W. SCHOFIELD on Mondays at 9.30 a.m.; by Mr. D. GREER WALKER on Wednesdays at 9.30 a.m. and by Mr. A. L. PACKHAM on Fridays at 9.30 a.m.

Cancer.—Out-patients are attended on Wednesdays at 9.30 a.m. in the Meyerstein Institute.

Tuberculosis Clinic is attended by Dr. H. E. A. BOLDERO on Fridays at 1.30 p.m.

Venereal Diseases, 1.30 p.m. on Wednesdays. New patients may obtain treatment in the Casualty Department at any time. Daily treatment (Male and Female) by arrangement.

In-Patients are expected to be provided with clean and suitable clothing and change of linen. They also have to provide themselves with washing materials. In all cases where the Patients are too poor to provide themselves with these articles they are supplied to them by the Lady Almoner from special funds which she has at her disposal for the purpose.

Any Officer, Sister, Nurse, Servant, or person employed in any Department of the Hospital accepting Money, or Presents of any kind, from a Patient, or relative or friend of any Patient, on any pretence whatever, is liable to dismissal.

The following Cases are not admitted into the Hospital :--

1. Those which are, upon due examination, deemed Incurable, as Advanced Consumption, etc.

2. Complaints so tedious of cure as to preclude for a long time the admission of more urgent cases, as *Chronic* Ulcers of the Legs, etc.

3. Disorders to the cure of which other establishments are devoted, as Persons of Unsound Mind, etc.

4. Those which are more properly objects for Public Assistance, as wanting Food and not Medicine.

5. Those whose admission might endanger the other Patients, as persons suffering from *Infectious Diseases*.

⁶6. Complaints likely to be aggravated rather than relieved by confinement within the walls of a Hospital, but such cases, if deemed proper objects, may receive advice and medicine as *Out-Patients*.

Prior to sending up Patients from the Country, the Resident Medical Officer should be applied to, in order to learn whether there is room, and such application should be accompanied by a medical certificate setting out fully the nature of the case.

THE MIDDLESEX HOSPITAL CANCER WING.

ADMISSION OF PATIENTS.

1. Out-Patients suffering from cancer are specially attended in the Meyerstein Institute on Wednesdays at 9.30 A.M.

2. No patient can be admitted unless previous application has been made and the case considered.

VISITING DAYS.

Sundays	 				2	to	4	p.m.
Tuesdays	 				4	to	5	p.m.
Thursdays	 	• •••			4	to	5	p.m.
MATERNITY	 		{\$	undays uesdays	24	to to	35	p.m. p.m.

N.B.—Every patient on admission to the Hospital is supplied with two visiting cards, and on no account can more than two visitors be allowed to see a patient at the same time.

REPORT

OF THE

BOARD OF GOVERNORS OF THE

MIDDLESEX HOSPITAL, 1941.

Our report this year deals, both from the National and from our individual point of view, with adjustments in the Hospital Services after the hasty but satisfactory adaptations of 1940. In both cases, the foundations of both National and Voluntary systems having proved solid and capable of supporting efficient co-operation, we are looking forward to the planning of a post-war system which shall embody the general and the particular advantages of both.

The National development is to-day first in all our minds. It is indeed only in days of stress that more than a minority of the public are roused to look outside their immediate interests, as we to look outside the Hospital boundaries, upon broad issues.

The survey of Hospital services now being carried out by the Ministry of Health looks even further ahead than the schemes for Regionalisation which were already taking shape in the Provinces with the help of the Nuffield Trust. It is not now so much a matter of making the best in the various areas of the existing pre-war facilities as of considering the requirements of the population of areas and of extending here and curtailing there to meet them adequately and economically. The old rivalries between Hospital and Hospital, between area and area, between Public Authorities and Voluntary Hospitals are disappearing.

In the total survey of Hospital needs and Hospital services the distinction between the origin and management of Hospitals gives way to the difference between what one Hospital or another,

REPORT.

to whichever authority it may belong, can give or is most capable of being extended or developed to provide. The converse of such development is equally under review. Where services are redundant, a curtailment must be conceded : when even large institutions overlap, their functions must be reconsidered, in order to provide between them efficiently and economically for the various services required in a complete medical service.

What part the Middlesex Hospital itself will play in such a reorganisation is, in these times, a matter of conjecture only. We can, however, feel sure that as a great Teaching Hospital, with a notable record in Medical education and research with some of the most modern special departments, such as that of Radio-Therapy backed by the world-famous cancer research work of the Laboratories, it will at least be a leading and useful part in many directions. In such development, in a post-war period of stringency, some form of State-aid to comply with State aims is inevitable. But the generosity of the public and the reputation of the Hospital, combined with the increasing contributions of all classes, through Contributory and Provident schemes, should assure us of our elasticity and independence, just as the Universities, supported by grants from the University Grants Committee, have retained them in the wider field of general education.

From these notes on the general position we pass to a review of the year in the life of the Middlesex Hospital, and it will become apparent that the co-operation to which we have referred is, in many directions, a matter of fact and not merely of anticipation.

From the beginning to the end of 1941 the records of the War Emergency Committee, set up as will be remembered to simplify and concentrate the direction of the Hospital, on policy for the Board, on finance for the Finance Committee, and on medical matters requiring quick decisions for the Medical Committee, are full of instances of the development of co-operation in medical services, and in many directions.

As between Hospital and Hospital we have requests from other Hospitals, lacking facilities or staffs, to train Sisters, Students and others, as, for instance, from the North Staffordshire Hospital, St. Andrew's Hospital, and from the Bergman Osterburg P.T. College. We have agreed to exchange services or accommodation in difficulties as with St. Bartholomew's Hospital, the London Hospital and University College Hospital, or to lend equipment, as to the Officers' Wives Maternity Hospital. In conjunction with the scheme of the Ministry of Health to open Radio-Therapy centres for the period of the war north and south of the Thames, we are lending the great majority of Radio-Therapy plant, tubes and equipment to the Northern Radio-Therapy Centre. This Centre, with the co-operation of the Hospitals accustomed to provide this treatment, is to be opened shortly at Northwood, Middlesex, and our own officer in charge of the Meyerstein Radio-Therapy Institute, Mr. Windeyer, has been asked to control the treatment at this Centre.

This provision of specialised Medical treatment on a large scale might equally be instanced as one of the ways in which the Voluntary Hospitals co-operate with the Ministry of Health and with Public Institutions to provide in combination a better service than, in many cases, they could supply individually. There are many other such instances, apart from First Aid Posts and the like, of which the Scabies Clinic, run in association with the Borough of St. Marylebone, or the loan of our Convalescent Home to Clacton Urban District Council as a refugee centre are examples. Again, arrangements have been made with local authorities to provide experienced clerical assistance in the recording and following-up of casualties, which indicate the readiness on both sides to use each other's services to supplement their own.

One of the more important of these co-operative agreements is that made between the London Voluntary Hospitals and the London County Council. There had been, before the war and until recently, competition between individual Voluntary Hos-

REPORT.

pitals which differed considerably in their rates of salaries and wages. There was also competition between the Voluntary Hospitals and the London County Council. Agreement has now been reached to standardise maximum and minimum rates, though with wide limits which will allow for varying circumstances, in very many classes.

In a recent report issued by the London Voluntary Hospitals' Committee almost every comparable class of Hospital employee has been included, and the standards proposed by their representative bodies, whether Radiographers, Pharmacists, Porters, Domestics, and others, have had careful consideration. These standard rates recommendations, though purely a war-time agreement, link the greatest of London authorities, the London County Council, with the representative body of the Voluntary Hospitals, and, whilst bringing up the lowest rates to a fair average, put a stop to competition for services which threatened to become fantastic.

It may well be hoped that the friendly agreements reached in these matters of service, equipment, and wages, will be consolidated and prolonged into the post-war period, to the great advantage of all authorities concerned, and to the greater security of, and consideration for their various grades of employees. And, of course, to us, effective co-operation between the Middlesex Hospital and Hospitals in the Sector is an obvious success. It affects all sides of Hospital and School life, and works equally well in each.

We have loaned some thousands of pounds worth of equipment, both from the Hospital and from the Medical School, through the Sector for the use of up-graded Hospitals. The loan, and provision to replace loss or depreciation, is guaranteed by the Ministry of Health, and the guarantee applies either to long-life apparatus and equipment, or to what comes under the somewhat vague description of "consumable" stores.

THE MIDDLESEX HOSPITAL,

But there are other loans which are far more important than these, the transfer of members of our Honorary Staff, of our Sisters and Nurses, of Medical Students, of Radiographers, of Technicians, Almoners and many others. We are now responsible for the staffing of beds, in some cases the great majority of them at three main E.M.S. Hospitals. There were more originally but we have now been able to concentrate our efforts at these points in the Sector with advantage, not least to the Students who take part: of their training in the Medical School and Hospital, and part: under their teachers outside London.

At Mount Vernon Hospital, Northwood, there were generally during this period 8 members of the Honorary Staff, 76 Nurses, and 35 Students, besides Technicians and others. These members: are growing with the coming into commission of more huts, and will be increased again when we have our own Country Branch there, and when the Radio-Therapy Unit opens. At Tindall House, Aylesbury, we have 8 members of the Honorary Staff, 85 Nurses and 45 Students, and at Stoke Mandeville 7 memberss of the Honorary Staff, 92 Nurses, 22 Nurses in the Preliminary Training School, 36 Massage Students, and 3 X-ray Students. Att St. Andrew's, Dollis Hill, we had a number of staff and Students, as at the Central Middlesex, and elsewhere, but they are now concentrated at these three Hospitals, with two members of the Honorary Staff still serving St. Andrew's.

Most of these new inter-hospital links, and the new links between the Voluntary and Public Authorities, are closely related to the development by the Ministry of Health of the Emergency Medical Service and other war-time measures for the promotion of public health and security. They may well survive them, if we see a return after the war to some modified form of the social services as we knew them in peace. Certainly regional planning and public assistance will simplify and improve the occasionally chaotic over-lapping of the last twenty years.

REPORT

In short, we think that the development of co-operation between the various Health Services of the country is proceeding most satisfactorily and we augur nothing but good from it for the future.

Within the Hospital itself the record of the year's work is, within the limits imposed by war-time curtailments, satisfactory.

Aid from the United States of America.

In January the British War Relief Society of America presented the country with a gift of $\pounds 5,000$ to increase Radon supplies and the Middlesex, which for years has undertaken this work for the Medical Research Council and the King's Fund, was asked to make itself responsible. The Branch of our Physics Department which draws off Radium emanations for this purpose was moved into the country and continues to supply this essential service to a large number of other Hospitals.

More aid from America came in February with a gift of $f_{1,000}$ from Bundles for Britain for the maintenance of the Fracture Clinic. Further support came with the Scarsdale gift from a New York State community which centred its most generous effort upon our Hospital. In April we learned of the adoption of the Hospital by Westchester County, New York Branch, and in the same month came a further gift from Scarsdale, New York Branch, of \$2,000 for the Fracture Clinic. In June Bundles for Britain presented us with Theatre lights-the redistribution of emergency theatres was noted in the previous year's report-and yet again there came a further collection from Bundles for Britain in December, making the magnificent total of £8,500 towards our war-work costs. Now, as this Report is drafted, the United States of America are themselves in the war and their efforts must necessarily be concentrated upon their own needs. But we, all who are connected with the Middlesex Hospital, the Board, Medical and Nursing Staff, Administrative officers, and every class of Hospital officers, have seen and handled the gifts which poured spontaneously

into this country at the time of its first greatest, most urgent, need, and none will ever forget with what warmth of appreciation and gratitude they were greeted. Memories of such kindness are not forgotten.

Air Raid Damage.

On January 31st the Hospital received two direct hits from bombs, one on the Cancer Wing where the Friends Ambulance Unit had been housed. Unhappily, one member of their Unit was killed. Very considerable damage was also done by blast.

In February a bomb at Hendon killed one member of the Laundry staff and injured others, these being admitted to Hospital. The boiler house and machine shop were wrecked and much other damage done but, thanks to our reciprocal relations with other laundries, there was no stop in the work and as the boilers were not shifted off their beds the plant was working again under temporary structures within three weeks.

In the heavy raid on the 16th April one of the largest bombs struck the North-East Wing of the new buildings, penetrating and wrecking the sixth, fifth, and fourth floor wards. These, happily, had been evacuated and no lives were lost, whilst the great strength of the steel and concrete structure was well demonstrated. The shock to the building was actually less noticeable than the earth borne vibration of many bombs outside, some of them at considerable distances.

Medical Research.

Despite the difficulties inherent in the present situation, research work has continued in many departments of the Hospital and Medical School. Special war-time problems have been attacked, such as the question of infection in war-wounds for which the modern chemotherapeutic drugs are found to be of considerable value. The surgical departments of the Hospital have collaborated with the bacteriological laboratories of the Bland Sutton Institute in this work and also in the remarkable effects of the new drugs

REPORT.

(sulphonamides), upon much dreaded peritonitis, now with a greatly improved outlook thanks to this work. Shortage of material has also necessitated collaborative research into the value of substitute antiseptics and in the sterilization of dressings. The laboratories have also continued the "manufacture" of special blood serum required for the transfusion of certain types of emergencies caused by air raids. It has been found that the effects of crushing by falls of masonry, etc., are to produce profound changes in the body's chemical processes. Work in the Courtauld Institute of Biochemistry has been directed to a study of these and their rectification—again with close collaboration with the surgical specialists.

Cancer research has been continued in certain important directions. In particular the exact nature of tumours experimentally produced by the injection of living viruses (filter-passing microbes), or by the injection of certain chemicals have been studied for the obvious bearing that this has upon the much sought after "cause of cancer." In the Courtauld Institute a new series of chemical substances has recently been synthesised which have the property of producing cancerous growths although differing considerably from previously used material. It is interesting to note that this work proceeds side by side with the production of fresh chemical substitutes for the naturally occurring endocrine gland secretions of the human body. In both cases—the production of cancer and the production of other changes in the cells of the body—the chemically synthesised products effect the same changes as are found naturally occurring.

Also closely related to the cancer problem is the work of the Barnato Joel Laboratories on the bearing of physics upon the treatment of patients by means of X-rays and radium. As a result of this study it is now probably true to say that doses of radiation are dispensed to-day with just as much care and to a large extent with the same degree of accuracy as drugs used in the treatment of other diseases.

Election of Vice-President.

For the first time in almost two hundred years an active member of the Honorary Medical Staff was, by the unanimous recommendation of the Board, and with acclamation by the Court, elected a Vice-President of the Hospital. Sir Alfred Webb-Johnson, President of the Royal College of Surgeons, has rendered incalculable services to his Hospital and its Medical School. To speak of 'his' Hospital is doubly true, for he was the mainspring of its great Rebuilding Scheme and the inspirer of great endowments for the Medical School as well as being, as he is indeed to-day, a distinguished surgeon on its Honorary Staff.

Retirement.

We regret to record the retirement from his position as one of the Honorary Treasurers of the Hospital, on his retirement from active work in the Westminster Bank, of the Hon. R. C. Boyle. Mr. Boyle had given, over many years, most generously of his time and thought, and he is much missed.

Obituary.

It is with profound regret that we record the death of Sir Edward Meyerstein, Vice-President of the Hospital, Member of the Board, and of the Council of the Medical School. Sir Edward's first interest in the Hospital was centred on the Department of Radio-therapy, which now bears his name. This he built and provided with its magnificent new equipment, enabling the Hospital to separate this department from that of Radio-diagnosis, to the great advantage of both. The Rebuilding Scheme of the Hospital was at this moment flagging for lack of fresh funds, and he took this in hand, and at the same time spread his benevolent interest over the Medical School. In all he gave us over $\frac{1}{5}350,000$, wisely, unobtrusively, without hampering restrictions—a princely benefactor.

And he gave us active service on the Board, on the Rebuilding Committee, and on the Medical School Council, with wise counsel often expressed in an unexpectedly whimsical way. He enjoyed

REPORT.

the friendly atmosphere of the Hospital and repaid it with his own affection. Not only our corporate body but each member of it mourns a friend.

We also deeply regret the death of Mr. H. A. Carter, Solicitor to the Hospital for 51 years. His deep interest in the Hospital and his wide knowledge of its affairs will be greatly missed. We are glad to report, however, that his son, Mr. A. L. H. Carter, has agreed to accept appointment in his place, thus maintaining the connection between his family and the Hospital which has existed for over 100 years.

The Nursing Service.

The Middlesex Hospital Nursing Staff still continues to nurse Middlesex Hospital patients and E.M.S. patients, both at this Hospital and at the larger Emergency Hospitals in the Sector. At the end of 1941, not only were they fully staffing wards and departments of the Middlesex Hospital, but formed approximately half the Nursing Staff of the following hospitals :—Tindal House Emergency Hospital, Stoke Mandeville Hospital, Mount Vernon Hospital and the E.M.S. beds at Willesden Municipal Hospital.

In spite of the inconveniences which this dispersal of staff continues to cause, the Training School maintains its high reputation and has no difficulty in attracting candidates.

Our congratulations are extended to three Middlesex trainees who obtained the Diploma in Nursing :--Miss B. N. Fawkes, Assistant Sister, Preliminary Training School, Miss K. A. B. Fowler, the present Sister Tutor to Middlesex Hospital nurses at Mount Vernon Hospital, and Miss Margery Hale, a former Middlesex Hospital Sister. We also congratulate Middlesex Hospital nurses who have been appointed to administrative posts at other hospitals :---

Miss M. E. Clarke .		Deputy Regional Officer, Worcester-
	1	shire and Staffordshire region.
Miss A. Holder		Second Assistant Matron, City Infec-
		tious Diseases Hospital, Birmingham.
Miss O. D. Smee .		Matron, Weir Hospital, Balham.

THE MIDDLESEX HOSPITAL.

We are also proud of all the Middlesex Hospital nurses who are now on war service both in England and in all the war zones. One of them was in the Battle of Greece ; many others are in the Middle East or in various parts of the Far Eastern fighting area.

Though parts of the Physio-Therapy and Radiography Schools are evacuated to Sector Hospitals and billeting causes great difficulties, training is still continuing successfully and waiting lists of candidates grow even longer. During the latter part of the year, Physio-Therapy students studied Anti-Gas precautions and were "standing by" for duty in the Gas Unit in case of need.

SERVICES, APPEALS, FUNCTIONS.

We have to thank the British Empire Cancer Campaign for sustained support of our Cancer Research work. It is of vital importance to keep unbroken the progress of this and other branches of Medical Research, which we have been able to do throughout the war period, largely thanks to the subsidy from this source.

Once more we thank, most warmly, the very large number of voluntary workers for the Hospital who, in spite of the difficulties of the times, have carried on, unselfishly and generously, their many different services.

The Ladies' Association.

The Ladies' Association has pleasure in reporting a year's work, which, considering the times, must be considered very successful.

The Association has suffered a great loss by the untimely death of Mrs. Hubert Crampton, a Librarian of long-standing, who was always ready to help the Hospital with her unfailing charm and competence. The sympathy of the Association goes out to her husband and her family.

Another severe loss is the resignation from the Executive Committee of Mrs. Felix Davis, who has cared devotedly for the Chapel Garden for nearly thirty years and whose great generosity it is hard to appreciate, so unobtrusive has it always been. Every

REPORT.

aspect of the Ladies' Association made an appeal to Mrs. Felix Davis, and that appeal invariably met a practical and generous response.

Mrs. Leveson-Gower has been elected Vice-Chairman of the Executive Committee. This appointment has proved extremely popular and of great value to the Association.

The Second-Hand Depot has had to curtail its activities owing to lack of parcels. Mrs. Idris and her helpers have done wonders with the very limited material at their disposal.

The Work Society has been able to meet all Matron's requirements, though it was decided not to send out the usual parcels of work.

It has been found possible to send a further donation to the Hospital towards the endowment of the second Ladies' Association Bed, and the financial position, owing to the energy and enterprise of the Honorary Treasurer, Mrs. Freeman, has remained remarkably satisfactory.

The Library has kept up its great tradition of service, all patients being visited once a week. The resignation of Miss Sichel, though not unexpected, owing to the importance of her War Work, is much regretted and we hope that soon we may welcome her back to co-operate in a big expansion of the Library to meet peacetime requirements.

The Chapel Garden has suffered from enemy action but we are happy to report that the beautiful font and stone vases are intact. An attempt was made to grow a few vegetables in the other gardens but our perpetual enemies, the sparrows, played havoc with our hopes.

The L.A.N.E. has again been the most active Branch. The help given by Mrs. Breakey to the Blood Transfusion Service has continued throughout the year.

All other calls have been met with promptitude and enthusiasm, notably a request for an out-patients' canteen and a service of trolley-sales in the wards. Both these have been a great success, very largely owing to the ability and enthusiasm of Mrs. Breakey, who has organised them.

Mrs. Breakey has joined Mrs. Freeman as Joint Honorary-Organiser of this Branch.

The limited calls on the service of the Ambulance Branch have been met with the usual alacrity and our thanks are due to Mrs. Milburn for her unfailing services to the Hospital.

The Middlesex Mice continue to exist, if in pianissimo fashion. Most notable was a gift of $\pounds 5$ 10s. in Bun Pennies from Mrs. Felix Davis.

Seven-a-Sides.

In the London Hospitals Seven-a-Side competition early in April, the Middlesex Hospital Medical School XV won the Final, defeating the redoubtable St. Mary's side. Fortune, however, turned in the Middlesex County Seven-a-Sides, when St. Mary's got their revenge. This competition, in aid of the funds of the Cancer Wing, still triumphs over war-time difficulties, and though the home of English Rugger is no longer available, maintains itself at Richmond where its supporters and our friends overcame transport and other handicaps and raised the most welcome sum of £272 6s. 3d. We are most grateful to the County for keeping alive this Competition through these difficult days.

Rose and Flag Days.

Other efforts also brought welcome help, Hospital Day, $\pounds 6055$, 7d., and Alexandra Rose Day, $\pounds 50110$ s., and the Committee put upon record their deeply grateful thanks to Mrs. de Paula for her infectious enthusiasm and her great organising ability so generously given to the Hospital.

All Help League.

In 1941 our good friends and ex-patients continued their work to enable others to have the help of the Hospital of which they themselves have had experience. Though, naturally, there could

REPORT,

be no special functions to attract more funds, they raised the notable sum of $\pounds 1,161$ 3s. 5d. in the course of the year.

These collections help the war effort, and add to our funds. Members still collect, and, we hope, will continue to collect and send to us parcels of Tinfoil. During 1941 we realised $\pounds73$ 19s. 5d. from its sale, actually only a few pounds below that of the previous year.

The appeal made to our London members for sellers of emblems on the Hospitals' Combined Flag Day and Queen Alexandra Day met with the same generous response as usual. Quite a number were away from London but those who were able to give their time brought friends along too, and so numbers were made up almost to the original figure.

The Board realise the value of the organisation and hope it will add to its numbers and maintain, at least, its present strength with an even more hopeful future, and they desire to express their lively gratitude to all its members.

And there are many other gifts, large and small, which we should like to record were it not that after puitting on record the general policy and progress of the Hospital and its Medical School, we must ration ourselves, in the national interest, in the use of paper. For this reason we have, for the first time, omitted from the Report details of subsidiary accounts, the whole of the Medical School accounts, the photographs we used to publish, and many other minor features of the Report. Any who are interested in learning about these will be welcome if they care to visit the Hospital, where also the complete lists of subscribers and donors are available.

Lady Almoner's Department.

The volume of work done shows little change, owing, largely, to the convoy system which takes patients out to Sector Hospitals in the country as soon as they can be safely moved. Assistance in money, after-care, and surgical appliances, etc., has been maintained, and on the other hand the following figures, though a heavy

THE MIDDLESEX HOSPITAL.

fall on previous years, show the magnitude of the contributioncollection work :--- f s d

Infant Welfare Department.

The work of this department has continued uninterruptedly despite some damage in one of the air raids early in the year. The times of the clinics, altered to the morning during the winter were put back to the afternoon in the spring. Thanks are due to those voluntary workers who continue to give so much help and to Anzac Women's Fellowship for gifts of clothing. The following figures show that this department continues to provide a valuable service and the educational value of the work—its most important side—is seen in the number of home visits paid, the number of "visitors," i.e., mothers, who have called for advice outside the usual clinic hours, and the number of attendances at the weekly mothercraft class :—

No. of children who att	ended			345
Total attendances				2,557
New cases				156
Attendances at weekly	Mother	rcraft	Class	244
Home Visits		Q		1,584
Visitors to Office		·		1,145

Finally, we end the year's Report as we began it, with a statement of our faith in the Voluntary spirit which will continue to inform our Hospital Service whatever new combinations and co-ordinations may be necessary in the post-war period to meet the national needs and extingencies of the times. Present experience of co-operation between the National and the Voluntary Hospital Services shows that it is possible to combine the efforts and the advantages of both systems. We are confident in the support of our friends and count upon it to see us safely through these days of trial.

> J. J. ASTOR, Chairman.

The Medical School (1940-41).

Teaching in War Time.

This School anticipated that as the War continued there would be fewer men wishing to enter the medical profession. As yet there has been little such tendency but we are just beginning to experience a small diminution in the numbers seeking admission for the commencement of medical studies. New entrants are proving themselves well up to the average and there are good men entered for the next few years. It may well be, therefore, that we shall never experience as a major problem the decrease we anticipated.

Pre-Clinical Students.

It gives pleasure to report that the Vice-Chancellor of the University of Leeds has most kindly agreed to continue the arrangements made in 1940. The satisfactory opening phases of our pre-clinical students' studies at Leeds have developed into a consolidated position which is working admirably. We have always held that it is a great advantage to the clinical year students and to the hospital to have the pre-clinical studies taught on the site of the hospital. The enforced absence of our pre-clinical school has only confirmed this belief but in view of the very real difficulties occasioned by the War we consider our present arrangements highly satisfactory. We welcome this opportunity of expressing our gratitude to the Vice-Chancellor of the University of Leeds ; also to Prof. J. Kirk for continuing to supervise the teaching of our pre-clinical students.

Clinical Students.

It has not been found necessary to make any major alteration in the distribution of our students during their clinical years.

The increasing need to supply the fighting services with the younger qualified men has not simplified our task of arranging the

THE MIDDLESEX HOSPITAL.

teaching in the Sector Hospitals to which our students are attached. But the standard of teaching has been maintained and we are happy to acknowledge that the continued goodwill and cooperation of the Middlesex County Council, the Buckinghamshire County Council and the Board of Governors of Mount Vernon Hospital have played a very large part in making this possible. The association with the Royal Hospital, Wolverhampton, which commenced in 1940 has developed most satisfactorily for us. Our students are appreciative of the keenness and enthusiasm which the Honorary Staff put into their teaching. The Council of this School therefore desire to thank the Board, Staff, and House Governor of the Royal Hospital.

Deaths.

It is with very deep regret that I record the death of Sir Edward Meyerstein. Sir Edward was a great benefactor of the Medical School as well as of the Hospital, for he gave us a magnificent athletic ground at Chislehurst, Kent, he endowed two Scholarships for students of the School about to begin clinical studies, and provided residential accommodation in the College of the Hospital for the use of students.

We shall also miss his presence at our Council Meetings and at Meetings of Committees of the Council where his experience and very real interest in the School were greatly valued. We have indeed lost a good friend.

Re-appointment.

Professor John Kirk, holder of the S. A. Courtauld Chair of Anatomy in the University of London, having reached the age of retirement, has been re-appointed to the Chair of Anatomy for a further period of 5 years. We are fortunate in continuing to have his distinguished services.

Research Work and Investigations.

We must record our appreciation of the work and the number of investigations which have been carried out in the Bland-Sutton Institute of Pathology, in the Courtauld Institute of Bio-Chemistry and in the Barnato-Joel Laboratories during the past year.

REPORT.

We again gratefully acknowledge the encouragement and generous support we receive from the Medical Research Council, the British Empire Cancer Campaign, and the Sir Halley Stewart Trust. This continued support is particularly appreciated and enables us to maintain essential research work in spite of war conditions.

Distinctions and Honours.

Sir Alfred Webb-Johnson was elected President of the Royal College of Surgeons of England in 1941. This new honour conferred upon him also brings lustre to our School and we are glad to record our sincere congratulations on the high distinction. Sir Alfred Webb-Johnson was also elected a Vice-President of the Middlesex Hospital. This is a signal honour never before held by an active member of the Honorary Staff of the Hospital.

Dr. H. E. A. Boldero has been elected Treasurer of the Royal College of Physicians of London.

Surgeon Rear-Admiral G. Gordon-Taylor was elected a Vice-President of the Royal College of Surgeons of England, and also President of the Medical Society of London for the year 1941-42. Dr. G. E. S. Ward was elected Vice-President of the Society and Mr. E. W. Riches, F.R.C.S., Honorary Secretary of the Society.

Professor E. C. Dodds has been elected a Fellow of the Royal Society. The conferment of this high distinction on a past-student of our Medical School gives us very real pleasure.

Mr. R. Affleck Greeves has been elected President of the Ophthalmic Society of the United Kingdom.

Dr. H. MacCormac has been elected President of the British Association of Dermatology and Syphilology.

Mr. F. W. Roques has been appointed Honorary Librarian to the Royal College of Obstetricians and Gynaecologists.

Dr. J. D. Robertson, Courtauld Institute of Biochemistry, has been elected a Fellow of the Royal Society (Edinburgh).

Dr. Noel Harris and Dr. G. J. Scadding have been elected Fellows of the Royal College of Physicians.

Mr. O. T. Mansfield, Mr. R. S. Monro, Mr. E. O. Harris and Mr. Norman Waddle have been elected Fellows of the Royal College of Surgeons of England.

War Distinctions and Honours.

The following awards have been conferred by H.M. The King upon old students of the Middlesex Hospital :---

- Surgeon Rear-Admiral G. Gordon-Taylor awarded C.B. (Military Division).
- Major (Act. Lieut.-Col.) A. Pain, R.A.M.C., awarded O.B.E. (Military Division) in recognition of distinguished services in the Middle East.
- Dr. J. Seidenberg awarded the M.B.E. for gallantry during a severe air-raid on London.
- Commander E. C. Cordeaux, R.N., D.S.O., has been awarded the O.B.E. for good services in the withdrawal of the Allied Armies from the beaches of Dunkirk.
- Captain (Act. Major) J. Woodrow awarded the M.B.E. for campaigning in Africa, Greece, Crete, and Syria.
- Captain A. G. Carmichael, R.A.M.C., mentioned in Dispatches for distinguished services in the Middle East.
- Lieut. (Temp. Major) P. H. Newman, D.S.O., R.A.M.C., has been mentioned in Dispatches for distinguished services in the field. Captain (Temp. Major) J. Revans, I.M.S., mentioned in Dispatches.

Gifts.

Dr. Douglas McAlpine has most generously arranged with the Board of the Hospital for the sum of $\pounds 150$ for 3 years to be set aside from the amount, which he and his brother subscribed for the upkeep of the Neurological Unit, to be administered by the Medical School for assisting a needy student from Oxford or Cambridge Universities. We are most grateful to him for this valuable gift.

We also record with gratitude the legacy of $\pounds 10,000$ from the late Emily Margaret Agnew for research. Miss Agnew's munificent gift is deeply appreciated and will greatly assist us in the advancement of Medical Science.

THE MIDDLESEX HOSPITAL MEDICAL SCHOOL.

THREE Casualty Medical and Two Casualty Surgical Officers. Eight Resident Officers to the Special Departments, Ten Resident House Surgeons, Ten Resident House Physicians, Two Resident Gynæcological House Surgeons, Two Resident Officers to the Maternity and Children's Dept., Thirteen Registrars, Three Resident Anæsthetists, one Resident Dental House Surgeon and one Clinical Research Assistant to the Courtauld Wards, are normally appointed annually from among the qualified Students of the Hospital.

• During the war the number of appointments at the Hospital is reduced, but additional appointments are available at Hospitals in the Sector.

There are awarded annually, two Open Entrance Scholarships value £100 each, one in Arts and one in Science. Two Scholarships value £100 each open to Students of Oxford and Cambridge Universities who have completed their Anatomical and Physiological studies. Two Scholarships endowed by the late Sir Edward Meyerstein, value £100 each, open to University of London Students who have at the Middlesex Hospital Medical School completed the curriculum for the 2nd M.B., Examination. The Freer Lucas Scholarship and the Asher Asher Prize to a Pupil of Epsom College who has passed the 1st M.B., Examination. The Colin Mackenzie Prize value £10 10s., Anatomy and Physiology. The Hetley Clinical Prize of £25, the Leopold Hudson Prize value £11 11s., Surgical Pathology and Bacteriology, the Kingston Fowler Prize value £15, Pathology, Bacteriology, and Morbid Histology. The Lyell Medal and Scholarship value £55 5s., for proficiency in Surgical Anatomy and Dissection, etc. Two Broderip Scholarships, value £60 and £40 respectively for proficiency in Clinical knowledge. The Freeman Scholarship value £30 Gyncecology and Obstetrics. The John Murray Medal and Scholarship value £25, Theoretical and Practical Medicine, awarded every third year. Numerous Research Scholarships and Class Prizes are also awarded.

The Tutors superintend and assist Students in their studies without extra fee, and thus the necessity of obtaining private instruction away from the Medical School is obviated.

A.	Entrance Fee	 	 	 	 	 £15	15	0
в.	Annual Fee	 	 	 	 	 £50	0	0

For the subjects of the Entrance Scholarships and any additional information please apply to the Dean of the Medical School or to the School Secretary.

Blades, East & Blades, Limited, 17, Abchurch Lane, E.C.

OF THE MIDDLESEX HOSPITAL AND CANCER WING AND THE MIDDLESEX HOSPITAL MEDICAL SCHOOL FOR THE YEAR 1941.

Donations and Subscriptions will be thankfully received by Lieut.-Col. the Hon, J. J. Astor, M.P., Chairman, at the Hospital.
