ANNUAL MEETING,

Tuesday, 28th February, 1933.

The 107th Annual General Meeting of the Royal Bath Hospital and Rawson Convalescent Home was held on Tuesday, 28th February, 1933.

The Rt. Hon. The Earl of Harewood, K.G., D.S.O., presided. Amongst those present were Matthew Stephenson, Esq., J.P. (Vice-President), Sir L. G. Dunbar, C. A. Rhodes, Esq., J.P., Stanley Barnes, Esq., C. E. Carter, Esq., J.P., H. Chapman, Esq., J.P., J. A. Eddison, Esq., W. H. Ferrand, Esq., R. E. Jones, Esq., the Mayor of Harrogate (Ald. J. A. Whiteoak, J.P.), Dr. David Brown, Dr. G. L. Kerr Pringle, Dr. G. Holmes, Dr. W. Yeoman, Dr. J. L. Wesley-Smith, Dr. Muriel Keyes, Dr. Sinclair Miller, C. D'Oyly Grange, Esq., F.R.C.S., T. Vibert Pearce, Esq., F.R.C.S., A. Woodmansey, Esq., M.Sc., Dr. Crawford Watson, W. Townend, Esq., Mr. Newton (Newcastle), etc.

Apologies for absence were received from Sir T. S. Lawson-Tancred, Sir W. Ingilby, Sir J. Eaglesome, K.C.M.G., Sir A. E. Bain, K.B.E., Col. Lane-Fox, Col. A. T. Walker, Col. J. U. M. Ingilby, Col. W. F. Collins, D.S.O., W. H. Freeman, Esq., H. Freeman, Esq., J. E. Hurtley, Esq., W. L. Kirby, Esq., F. Mudd, Esq., Dr. L. J. Hobson, Dr. D. G. E. Potter, Dr. A. C. Sharp, Dr. J. A. Thomson, E. White, Esq., L.D.S., and Sir James Baillie (Vice-Chancellor of Leeds University).

LORD HAREWOOD, in moving the adoption of the Reports and Accounts, expressed regret at the retirement of Mr. Herbert Frankling, who had been honorary surgeon to the Hospital for fourteen years, and appreciation of the help of the Corporation in repairing the wells rented from them by the Hospital. The fact that both the Hospital and Home had been able to show a small credit balance was really quite remarkable and reflected great credit on the Committee, which had so carefully organised the expenditure in accordance with its income as to enable them to show that most excellent result. They had effected this by many small economies. It was rarely possible in the running of a hospital that substantial economies could be made; it was rather in the accumulation of small economies that the difference between a debit and credit balance could be effected.

Considerable advance had been made in the prospect of organising Research into Rheumatic Diseases. During the past year they had come to a working agreement with the Authorities of Leeds University. It was very likely that during the present year they would be able actually to launch a campaign for research into that most distressing and most expensive disease. He would not read the terms of the agreement as it was fairly long, but it would be submitted to the Senate of the University during the next few days. It appeared to him an admirable agreement. It included the appointment of a research worker who would have an official position at Leeds University, and whose title would be, Fellow in Rheumatism Research.

The British Red Cross Society had encouraged them with a promise of help on the financial side, and they would also co-operate, from their own point of view, with the research work.

The financial arrangements were not yet complete, but they were so well advanced that he hoped very much that it would not be many weeks before the whole amount required would be available—without of course entrenching upon the funds of the Hospital, the Convalescent Home, or Leeds University.

The scheme was only a small one but it might form the nucleus of something which at a later stage would take on a much larger scope.

Experts had impressed upon him that research work was a very slow business; even the most important discoveries took years before they actually led to relief from the complaint on which they had a bearing. They must therefore not feel impatient if definite results did not accrue at once. They must look upon it with hope and patience, rather than with the expectation of immediate results.

MR. STANLEY BARNES (Hon. Treasurer), seconding the adoption of the Reports and Accounts, said that they had a surplus of just over £400 but out of that they had taken a large sum for the installation of an independent heating system for the Convalescent Home. There were welcome increases in subscriptions (£150) and in the amounts received from the patients themselves (£200) but they had received very much less from the Approved Societies (£231)—a decrease this year of

£230 and of £570 compared with three years ago. Their investments had brought in £300 less than in the year before and, owing to the conversion of the Five Per Cent. War Loan, there would be a still further decrease of about £145 a year.

The Committee had decided to instal an X-Ray Department. This should really have been done some years ago; now it could no longer be delayed in view of the proposed Research Scheme. They were asking for a minimum sum of £2,000. If they did not receive it, the balance required would have to be taken from the funds of the Hospital. The annual outlay involved would be between £350 and £400, which would mean a heavy charge on their income. They were grateful to their Radiologists for their work during the past year as well as to the Medical Staff for all that they had done but he would ask them to be as moderate in their demands in the future as possible.

The Reports and Accounts were then adopted.

LORD HAREWOOD moved a vote of thanks to the Chairman and Members of the Committee of Management, and proposed the re-election of the following members, due to retire by rotation, Sir L. G. Dunbar, Messrs. W. L. Kirby and R. E. Jones, with the additions of Mr. R. A. Breare and Mr. W. Townend, vice Mr. F. Mudd and Mr. J. E. Hurtle, resigned, and that the nominees of the Hon. Medical Staff—Dr. G. Holmes, Dr. A. C. Sharp, Dr. W. Yeoman, and Dr. J. A. Thomson—be and are hereby appointed.

MR. M. STEPHENSON, J.P., seconded, and the motion was carried.

MR. C. A. RHODES, J.P. (Chairman of the Committee), replying, said they were a working and not merely an ornamental Committee. Nothing startling had happened during the past year, but they had treated more patients than previously, and had received many letters of thanks and appreciation from them. All expenses in connection with the upkeep of buildings had been met out of income, and considerable sums of money had been spent.

They quite understood the position in which the Approved Societies found themselves to-day, but they hoped that there would be an increase in their contributions in the future. The

installation of X-Ray apparatus would be an expensive undertaking but they must face it. Of the £2,000 required they already had donations of £200 from Lord Harewood, £100 from Mr. S. P. Richardson, and £50 from Mr. W. L. Kirby. He thought they would have to make an appeal to their subscribers for further help.

MR. C. E. CARTER, J.P., moved "That the best thanks of the Meeting be given to the members of the Hon. Medical Staff for their services during the past year, and that they be re-appointed for the ensuing year, with the additions of Mr. C. D'Oyly Grange, F.R.C.S., and Mr. T. Vibert Pearce, F.R.C.S., vice Mr. H. Frankling, resigned."

They appreciated very fully, he said, the splendid work that was being done by their honorary medical staff, and he welcomed the two new members.

Of the three great scourges, Cancer, Tuberculosis, and Rheumatism, Rheumatism had probably been least the subject of scientific research, probably because it was not so directly fatal as the other two. They were informed that "According to the latest estimate £20,000,000 is lost to this Country every year through its workers being incapacitated by rheumatism in its various forms, and that rheumatism accounted for nearly one-sixth of the benefits paid under the National Insurance Act," to which must be added the vast volume of unrecorded suffering. Surely, therefore, Lord Harewood was right when he told them two years ago that with their opportunities there should be some definite systematic research carried on at the Royal Bath Hospital.

They took up the challenge and sought the co-operation of the Universities of Sheffield and Leeds. A joint committee was founded but unfortunately it was just when the Country was in the throes of a great financial crisis, and it was not considered opportune to make a public appeal. That committee was, however, still in existence, and it was hoped that as soon as circumstances permitted its work would be resumed.

Their enthusiasm was kindled again last October by a letter from the Chairman of the British Red Cross Society, addressed to Lord Harewood. In this letter Sir Arthur Stanley said "The British Red Cross Society has been advised that an opportunity

for a beginning on a small and modest scale, offers in connection with the Harrogate Royal Bath Hospital. It would appear that the Hospital includes a small but quite adequate laboratory, while the 150 beds in the Hospital itself afford admirable material for research work. In these circumstances, the British Red Cross Society, believing that even a modest beginning now would be productive of valuable results, is willing to offer a sum of £200 annually for a period of five years (since increased to seven) towards the establishment of systematic research into the causes of chronic rheumatism, on certain conditions."

They saw their way to comply with those conditions, said Mr. Carter, and Lord Harewood was good enough to lead a deputation to the Vice-Chancellor of Leeds University, to discuss the matter. As a result, a scheme, which would be worked under the ægis of the University, was formulated. That Scheme now awaited the endorsement of the Senate of the University, and he expected it would be given at the following day's meeting of the Senate.

To finance the Scheme, provision must be made for seven years' work, and the minimum cost was estimated to be £1,000 a year. They had promises and funds in hand amounting to about £750 a year. Whilst they had put the annual requirements at that modest figure, they were only able to do it by reason of the facilities offered by the Hospital. The University were badly in need of funds, and they did not wish to presume too much on their hospitality. They were aiming to get £1,500. Lord Harewood, Sir James Baillie and Sir Arthur Stanley had promised to act as Trustees for the Fund, which would be quite distinct from that of the Hospital.

MR. W. H. FERRAND seconded.

In reply, DR. YEOMAN thanked Lord Harewood for his interest in the Hospital. It was a happy decision to ask Mr. Carter to propose the resolution, he said, for they felt that his able leadership and tenacity had enabled a dream which the Medical Staff had pursued for some considerable time, to become a practical proposition. The Hospital was designated a National Hospital for Rheumatic Diseases, and it was the sincere wish of the Medical Staff that it should live up to its name.

To do that it was necessary that the treatments given should be of the highest standard, and should conform to the

most modern ideas. New treatments must be tried and their true value assessed, for only in that way could they fight Rheumatism, and continue to command the confidence of the doctors who referred cases to them, and of the patients who came there.

That, they were aware, often entailed added charges to the expenditure, and while realising all that the committee did in the management of the Hospital, they felt that they might concern themselves in exploring ways of combating the reduction of income. Such an Institution must either advance or go back. It could not stand still, and it was the earnest wish of the Medical Staff that it should advance.

MR. J. A. EDDISON moved, and SIR L. G. DUNBAR seconded, "That the best thanks of the Meeting be given to Mr. Stanley Barnes for his services as Hon. Treasurer during the past year, and that he be re-appointed."

MR. NEWTON (Newcastle) proposed, and DR. CRAWFORD WATSON seconded, the re-election of the Auditors, Messrs. Lowrey, Weston and Whalley.

THE MAYOR OF HARROGATE (Alderman J. A. Whiteoak), moving a vote of thanks to Lord Harewood, thanked him for his reference to the Harrogate Corporation. He said he was sure that they on the Corporation would do their utmost to help forward the scheme of research. It was to the advantage of Harrogate as well as of the people they were going to treat, and their interests were with the Royal Bath Hospital.

MR. C. A. RHODES seconded, and the proposition was carried.

LORD HAREWOOD briefly replied.

Report of the Committee of Management.

*To The Right Honourable The Earl of Harewood, K.G., D.S.O., and
Subscribers of the Royal Bath Hospital and Rawson
Convalescent Home, Harrogate.*

In presenting their 107th Annual Report for the year 1932 your Committee beg to state that the total number of patients admitted to the Hospital was 1350 (Men, 612 ; Women, 738), an increase of 30 Women but a decrease of 20 Men as compared with the figures for 1931, or a net total increase of 10. Of these 464 Men and 553 Women stayed for a period exceeding two weeks, a total of 1017 compared with 962 in 1931, an increase of 55.

To the Rawson Convalescent Home 456 cases were admitted (Men, 250 ; Women, 206), an increase of 23 over the total for 1931. Of these 340 (Men, 185 ; Women, 155), stayed for a second term compared with 330 in 1931.

The average stay of each patient was 22.9 days, which is almost identical with the figure for the previous year (22.8).

PERSONAL.

The departure of Mr. J. H. Barker from Harrogate has deprived your Committee of a keen and energetic colleague. Mr. Barker only joined the Committee in 1930, but he lost no time in acquainting himself with every department of its activities and his practical business experience was of great value and will be greatly missed.

Col. A. T. Walker, Mr. J. E. Hurtley, and Mr. F. Mudd have resigned from the Committee owing to ill-health. Your Committee regret alike their loss and the cause to which it was due.

At the end of the year your Committee received with sincere regret the resignation of Mr. Herbert Frankling, C.B.E., M.R.C.S., on his retirement. Mr. Frankling was elected Honorary Surgeon to the Hospital in 1919 and during the 14 years of his connection with the Institution he has invariably and ungrudgingly given of his time and skill to such cases as were brought to his notice. Your Committee take this opportunity of expressing their deep sense of the value of his services to the Hospital and their hope that he will be spared to enjoy many years of well-earned retirement.

GENERAL.

Although the year under review has not been marked by any outstanding events, the necessity for development and improvement has necessitated the careful consideration of many questions of varying urgency and importance.

Under the energetic chairmanship of Mr. C. E. Carter the Special Sub-Committee appointed in connection with the project for research into the causes of Rheumatoid Arthritis has held several meetings and has made encouraging progress in its efforts to promote a scheme in conjunction with the authorities of Leeds University. The fact that Lord Harewood has personally and closely identified himself with these efforts has given great gratification and your Committee desire to place on record their sincere appreciation of his practical interest and assistance throughout the year.

On July 8th the Members of the Hull Medical Society paid an Official visit to the Hospital, and on July 17th a party of Canadian doctors were shown round the Hospital and Home.

Early in the year the Harrogate Corporation undertook the carrying out of repairs to the Wells rented by the Hospital in the Valley Gardens as recommended by Mr. Woodmansey. This work has resulted in marked improvement in the quality of the waters obtained from these sources.

The buildings have been maintained throughout in a good state of repair and various internal improvements have been made, notably the installation of a Cold Storage Room (£200) and of new and additional lavatory facilities (£350). A separate heating installation, with independent boiler, has been provided for the Rawson Convalescent Home at a cost of £331, an expenditure which has been amply justified by results. The lighting in many places has been improved. On the treatment side, a third bath has been fitted for giving "undercurrents," an Ultra Violet Ray plant has been placed in the Electrical Room and additional apparatus has been obtained for Remedial Exercises.

Helped by donations by members of the Committee and contributions from patients themselves, the Matron has raised the funds necessary for providing a Wireless installation with loud speakers in all the day rooms. This amenity, it need hardly be said, has been highly appreciated by the patients and has done much to relieve the tedium of the long winter evenings.

The experiment last year of appointing a House Physician may now be said to have justified itself beyond all question. It has not lessened the amount of work done by the Honorary Medical Staff but it has freed them from much routine work and enabled them to devote more time and attention to the actual effects of the treatments given. During the year the House Physician (Dr. J. B. L. McKendrick) has been carrying out certain investigations into the effects of Sulphur Water Baths on the blood. The results obtained have been very suggestive—not to say startling—and may well prove to be of the highest importance in the future. They were brought to the notice of the members of the Harrogate Medical Society at a Meeting held at the Hospital on October 20th and aroused keen interest.

Reference is made on page 00 to the initiation of an X-Ray Equipment Account. Your Committee are of opinion that the time has now come when the present arrangements should give place to a properly organised department within the Hospital itself. The Honorary Radiologists (Dr. Hitchcock and Dr. Thomson) have, for many years, acquiesced in the present arrangements with great forbearance and at considerable inconvenience. With the object of terminating this state of affairs your Committee have decided to appeal for help in raising a capital sum of £2,000. The additional annual cost of maintaining such a department is not likely to be less than £400 and this must necessarily be a charge upon the annual income. It will therefore be seen that it is of vital importance that the receipts from annual subscriptions and other sources shall, at least, be maintained at their present figure if the Hospital is to continue to pay its way, and your Committee earnestly ask that the support which has been so generously forthcoming in the past from both private subscribers and others be maintained in order to meet these additional annual charges.

FINANCE.

That the financial conditions prevailing in the latter half of 1931 would be still further accentuated in 1932 seemed to be inevitable and the outlook at the beginning of the year gave cause for considerable anxiety. Your Committee has therefore exercised the utmost economy so far as is compatible with efficiency. Such negative steps alone, however, could not effect very much to counteract the probability of a seriously depleted income.

These fears have happily to a great extent been falsified and your Committee desire to express their cordial appreciation of the loyalty and generosity of their supporters, to whom is chiefly due the fact that, at the end of the year, both the Hospital and Convalescent Home have been enabled to show a small credit balance. The actual figures show that the total expenditure has been reduced by nearly £200. Many of the items show extraordinarily little change from the previous year, e.g. House-keeping, Gas and Water, Electricity, Insurance, Postages and Stationery, and X-Ray expenses. The chief increase of £200 for Salaries and Wages is accounted for by the House Physician's salary, for a longer period than in 1931, extra help in the Treatment Departments, the fee of a Dietetic Specialist, and one or two small additions to the wages of the permanent Staff.

On the income side it is particularly gratifying to be able to record an increase in the Annual Subscriptions of £150 but this is more than counterbalanced by a drop of £75 in the Subscriptions to the Rawson Convalescent Home and of £200 in the receipts from Approved Societies. These latter have now reached the low figure of £231 and, as compared with 1930, the Income from this source has shrunk by no less than £542. A welcome offset to this is an increase in the contributions by patients of just over £200 and, were it not for this, the expenditure and income would have almost balanced. The conversion of the War Loan holdings of both the Hospital and Convalescent Home will result in a decrease of income from this source during 1933 of £145.

The work of the Hospital continues to develop and fresh demands are constantly being made upon its resources with a view to increasing its efficiency. Your Committee hope therefore that their appeal for continued and, where possible, increased support will meet with a ready response.

LEGACIES, &c.

The only Legacy received during the year was a further instalment (the fourth) of £67 10s. from the Executors of the late Mrs. E. A. Richardson, which has been placed to the credit of the Hospital Endowment Account. Your Committee records with special gratitude the receipt of a cheque for £200 from Lord Harewood and another of £100 from S. P. Richardson, Esq. These sums, with the consent and approval of the donors, have been allocated to an X-Ray Equipment Fund. To this Mr. W. L. Kirby, a member of your Committee, has promised £50 and your Committee desire to convey their grateful thanks to Mr. Kirby for this further instance of his generous help.

Chaplain's Report.

St. Mary's Vicarage,
Harrogate,

31st December, 1932

TO THE GOVERNORS OF THE ROYAL BATH HOSPITAL AND
RAWSON CONVALESCENT HOME.

Gentlemen,

I am pleased to report that the Services during the year have been exceptionally well attended by the Patients.

They frequently express gratitude for all that is done for their spiritual assistance, and many of them make use of the Chapel for private prayer and quiet.

We have reason to believe that not a few leave the Hospital with clearer views of God and Life.

(Signed) J. BELL, M.A.,
Chaplain.

Report of the Hon. Medical Staff.

During the past year there have been no outstanding matters requiring comment in this Report. The year has been largely taken up in preparing the ground for schemes, which, it is hoped, will come to fruition in 1933.

Foremost among these schemes is that of Research. The sub-committee formed to consider this matter has been in active co-operation with members of the Board of Management, and, as a result, there seems to be much more hope than there was a year ago that a Research Centre will be established at this Hospital. A generous gesture on the part of the British Red Cross enabled Lord Harewood to lead a deputation to the Vice-Chancellor of Leeds University, and lay before him a concrete scheme.

It is suggested that an advisory committee shall be responsible for administering the funds necessary to establish this Centre, and, at the moment, a fund is being formed to enable this work to be carried on for seven years. It is estimated that at least £1,000 a year will be required to cover this work. The funds will be raised and administered quite separately from those of the Hospital.

The Medical Staff very much appreciate the time and thought that Lord Harewood has given to this scheme, and hope that 1933 will see it in full working order.

The Medical Staff are very pleased that the Board of Management are taking active measures to instal an X-Ray outfit, and hope to see the department established at an early date.

Full advantage has been taken of the facilities offered by the Laboratory for the investigation of cases, and the routine work for the past year has exceeded that of previous years. Research on the use of Proteose in Rheumatoid Arthritis is still being investigated.

Research work has continued during the year, including some valuable work by the present House Physician, Dr. McKendrick, on the action of Natural Sulphur Baths. It is hoped later to publish the results in the Medical Press.

The Honorary Gynæcologist reports that during the year 46 new cases were referred, and of these (and of old cases returning) 66 complete pelvic examinations were made. Swabs for bacteriological report were taken in 40 cases, and 63 consultations were held in addition to attendances for examination or treatment.

On the advice of the Medical Staff, a Dietitian came to the Hospital for a month, and reported on the general Hospital diets, and also drew up some suitable diets, in consultation with the Medical Staff, for the treatment of various types of cases in the Hospital. It is hoped that the recommendations outlined by the expert Dietitian will be carried out at an early date.

The Honorary Medical Staff record with much regret the resignation of Mr. Frankling, who has been Honorary Surgeon to the Hospital for 14 years. His advice and clinical knowledge have been of great help and his colleagues greatly appreciate his willing co-operation which has been readily available at all times.
