ANNUAL MEETING

Saturday, 3rd February, 1940.

The 114th Annual General Meeting of the Royal Bath Hospital and Rawson Convalescent Home was held on Saturday, 3rd February, 1940.

The Right Hon. the Earl of Harewood, K.G., G.C.V.O., D.S.O., presided. Among those present were The Mayor of Harrogate (Coun. J. Carus Topham, J.P.), The Archdeacon of Leeds (The Ven. D. M. M. Bartlett), C. E. Carter, Esq., J.P. (Chairman of the Board of Management), Stanley Barnes, Esq. (Hon. Treasurer), Herbert Crowther, Esq., LL.B., J.P. (Hon. Treas. Grey Cross Campaign), Mr. and Mrs. W. H. Ferrand, W. H. Freeman, Esq., D.S.O., Coun. J. S. Holmes, J.P., J. W. May, Esq., W. Townend, Esq., A. Woodhead, Esq., A.M.I.C.E., Dr. G. L. Kerr Pringle, M.C., Dr. A. C. Sharp, Dr. R. Nimmo Watson, Dr. J. L. Wesley-Smith, Dr. C. G. Hitchcock, Dr. Sinclair Miller, D.S.O., Dr. and Mrs. D. H. Collins, Dr. Dorothy Potter, Rev. Joseph Bell, Mrs. C. H. Tetley, Mrs. Norman Walker, the Matron (Miss E. C. Baynes) and the Secretary.

Apologies for absence were received from Matthew Stephenson, Esq., J.P. (Vice-President), M. E. Mail, Esq., C. E. Morris, Esq., Mr. and Mrs. W. Arthur Taylor, Mr. A. B. Pavey-Smith, Dr. C. Trist Gasking, Ald. J. Boehrer Charles, B. T. Clegg, Esq., W. T. Hamlyn, Esq., C. A. Laurence, Esq., Mrs. Geldart, and Mrs. Straker.

LORD HAREWOOD, in moving the adoption of the various Reports, advised the Committee of Management to express their wishes to the proper officials so that the Hospital might not be put to uses for which its equipment was altogether unsuited. The Hospital was now in an utterly different position from that of a year ago and there was very little to say about its future. His experience was that if you want something badly enough you generally get it, and if, from their experience of the Hospital, its layout and so forth, the Committee knew in what direction lay its most useful form of national service and properly put those views before the right authorities, they would probably prevail.

MR. C. E. CARTER (Chairman of the Board of Management) seconding, said that when the Ministry of Health took over the Hospital at the beginning of last September they increased the accommodation to 300 beds by adding 150 beds. This could only be done by utilising as wards, Bathrooms, Treatment Rooms, Recreation Rooms, etc. That was all very well so long as the Hospital was purely an air raid casualty Base Hospital, but if they were to do any of the work for which they were specially equipped—that is the treatment of rheumatism cases—then these rooms would have to be cleared and made available for their ordinary purposes again. That would reduce the number of beds to 200. At the present time they had about 60 Military Sick in the Hospital and they had been advised that they would probably be receiving more rheumatic cases from the Military later on. If the present number of patients were increased to 100 or to 150, then they would have only 100 or 150 beds left for air raid casualties. He wanted the authorities seriously to consider if it were worth while for the Hospital to continue as an air raid casualty Base Hospital. If they were to treat Military patients they might possibly have some vacancies for civilian cases but they certainly would have very little room for air raid cases. It was for the Ministry to decide which type of work was the more important. It seemed to him absurd to keep the buildings waiting month after month for the sake of an eventuality which might never come. When the Ministry took over in September the times were certainly critical. If the Ministry were still fearful that terrible things might happen, it had had ample time to make provision elsewhere for these casualties. It appeared to him that the best service they could render to the State was to open the Hospital out as a Military Rheumatism Hospital. If such cases did not fill the Hospital, they might possibly be able to take a certain number of civilian cases. The administration would be difficult but he was prepared to take some risk in the rehabilitation of the Hospital. It was not at present rendering the best service to the country of which it was capable.

The Reports were unanimously adopted.

MR. STANLEY BARNES (Hon. Treasurer), moving the adoption of the Accounts, said that if the war continued the Spa Hospitals would have to revert to being rheumatic treatment Hospitals for members of the Forces as in

1914-18. They were appealing to their subscribers to continue their subscriptions as far as they possibly could. They were doing this for two reasons. First, because when the war was over and the Hospital reverted to its peace time activities, they would have to spend large sums on renewals and repairs and additions to plant. The second reason was that when a subscriber had once given up it was not easy to get him to start again.

MR. HERBERT CROWTHER, seconding the adoption of the Accounts, said he did not think there was any need to worry about what would happen after the war. Referring more particularly to the Grey Cross Campaign he said that when they considered that the Campaign was only launched in May, 1938 and closed in September, 1939—16 months, including the unsettled period from Munich to the outbreak of war—they would agree that the amount of £38,000 subscribed and promised under covenant was nothing to be ashamed of. The expenses incurred in raising this sum were only £2,000 and they had a balance at the bank of £11,327. He was confident that they would be able to make this Hospital as prosperous—and even more prosperous—than it ever had been.

The Accounts and Balance Sheet were unanimously adopted.

In moving a vote of thanks to the Chairman and Members of the Board of Management for their services during the past year and that the following Members due to retire by rotation be re-elected, viz.: Mr. C. E. Morris, Mr. R. A. Breare and Dr. G. L. Kerr Pringle, and that the nominees of the Hon. Medical Staff—Dr. A. C. Sharp, Dr. W. Yeoman, Dr. R. P. J. Rutherford and Dr. H. Mathers—be appointed to the Board, LORD HAREWOOD said that during the past year a specially heavy burden had been thrown upon all those interested in the Hospital since everything to which they had been accustomed had been utterly dislocated and entirely new arrangements had had to be made. He felt sure that the Subscribers would be very grateful to the Committee for the way in which they had met the national emergency.

In seconding the resolution THE MAYOR, speaking from personal experience, paid tribute to the public work of various members of the Committee.

In response, MR. CARTER spoke of the development of the Research Department of the Hospital—a scheme which had been inaugurated at the suggestion of Lord Harewood some seven years ago. Dr. Collins had been with them for five years and, although the work was not spectacular it had been very valuable and had brought great kudos to the Hospital and to Harrogate. The work had been interrupted by the war and Dr. Collins had taken up another appointment, but, it was hoped that he would be able to come back since they had funds in hand sufficient to carry on the work for another three years. In conclusion Mr. Carter expressed their appreciation for the work of the new Matron.

MR. W. H. FREEMAN moving the re-election of Mr. Barnes as Hon. Treasurer, which was seconded by DR. KERR PRINGLE, said that they could all feel satisfied that, whatever might be the situation, the finances of the Hospital and its problems would be satisfactorily dealt with by Mr. Barnes.

MR. BARNES briefly replied.

COUNCILLOR J. S. HOLMES moved and MR. ARTHUR WOODHEAD seconded, a vote of thanks to the Members of the Hon. Medical Staff for their services and proposed their re-election. He said that both the town and the Hospital were deeply engaged in the treatment of the terrible disease of rheumatism which caused so much wastage in the national life. He hoped that in spite of the difficulties ahead both would be able to carry on their work unremittingly.

DR. C. G. HITCHCOCK, in replying, said it was no exaggeration to say that the Hospital as a Base Hospital for air raid casualties was not, in his opinion, being put to the best possible use. With its unique facilities it would be vastly more useful were it to treat cases of rheumatism and injuries to the limbs among the members of H.M. Forces.

Messrs. Lowrey, Weston & Whalley, Chartered Accountants, Leeds and Harrogate, were appointed auditors for the ensuing year on the proposal of DR. NIMMO WATSON, seconded by DR. A. C. SHARP.

A vote of thanks to Lord Harewood was expressed by THE ARCHDEACON OF LEEDS (The Ven. D. M. M. Barlett), to which LORD HAREWOOD briefly replied.

Report of the Committee of Management.

To The Right Honourable The Earl of Harewood, K.G., G.C.V.O.,
D.S.O., and Subscribers of the Royal Bath Hospital
and Rawson Convalescent Home, Harrogate.

It is to be noted that the figures of admission and re-admission of patients during 1939 refer only to the first eight months of the year, since, on the outbreak of War, by previous arrangement, the patients were evacuated to their homes within 24 hours, and the Ministry of Health "adopted" the Hospital as a Base Hospital, though the Board of Management continues to be responsible for the maintenance of its services.

The War has divided the year into two sharply contrasted periods. For the first eight months work proceeded on normal lines, although the extensive alterations and improvements effected in the Kitchens and the change-over to the new Boilers necessitated the postponement of the

re-opening after Christmas by two weeks beyond the usual date. This has inevitably affected the figures in all Departments—admissions, treatments, finance, etc., and it must be borne in mind that for any comparison with the figures for the previous year those for 1938 must be reduced by approximately one third.

PERSONAL

Death has removed during the past year three members of the Board who have been actively associated with the Hospital for many years and your Committee, conscious of the good service each alike, in his individual capacity, has given to promoting the welfare of the Hospital, sincerely laments their loss.

Mr. Rhodes joined the Board in 1917. Two years later he was elected Chairman, a post he held until 1937, when he decided to resign. In recognition of his interest in the work during the difficult post-war years of reconstruction, he was elected to be a Vice-President and as such continued to attend the monthly meetings of the Board from time to time until shortly before his death.

The association of Dr. Hobson with the Hospital extended over a period of 50 years, first on the Honorary Medical Staff, afterwards as a member of the Board of Management. He did particularly valuable work, when the Hospital was under the direction of the Military Authorities during the Great War; he, also, was elected a Vice-President to mark the jubilee of his Hospital career.

Mr. Chapman joined the Board in 1931. He interested himself in the management of the garden and attended the weekly meetings of the House Committee with exemplary regularity until increasing infirmity necessitated his resignation in 1938.

Your Committee accepted with great regret the resignation of Dr. Holmes owing to his departure from Harrogate. His lucid and relevant contributions to the discussions at the Board meetings were of great value and his insight and enthusiasm were a source of stimulus to others. By his departure a valuable link with the larger world of Rheumatism has been severed.

Miss Hayes, after holding the post of Matron for twelve months, returned to the South to take up a similar appointment. Her successor, Miss E. C. Baynes, has had varied

experience both in the South and in the North, having held posts at Ancoats, Windermere and at the Royal Masonic Hospital. She has tackled with courage the various problems necessitated by the "upgrading" of the Hospital.

Much internal reorganisation has been necessary to enable the Hospital to meet the requirements of the Ministry of Health for a Base Hospital. The Day Rooms, Dining Hall, Electrical Department and Billiard Rooms have had to be converted into Wards, and additional sluice rooms and kitchen accommodation have had to be arranged for. This has involved provision on an extensive scale of extra apparatus and stores in all departments, medical, surgical, bedding, hardware, etc. Much of this has been provided by the Ministry of Health but heavy demands have been made on the resources of the Hospital especially in the matter of suitable clothing for bed patients. This need has to some extent been met by a party of voluntary workers under the capable direction of Mrs. Kerr Pringle and Mrs. C. E. Carter, whose labours deserve the warmest thanks. Considerable additional supplies are, however, still needed, but these can no longer be provided unless gifts of both materials and money are forthcoming to supplement the private efforts which have already been made by the workers themselves and their friends.

A special word of thanks is due to Miss Ackernley and others for the time and trouble which they have devoted to thoroughly reorganising and cataloguing the Hospital Library and arranging for the regular provision of reading matter for the patients.

For some weeks after the outbreak of hostilities the Hospital was occupied in completing its reorganisation, but it was felt to be highly desirable that this should be tested, even on a modest scale. Arrangements were made, with the concurrence of the Hospital Officer, representing the Ministry of Health in Leeds, to admit an agreed number of military sick and casualties. This number has been reached and even exceeded at times. It has further been arranged with the Authorities of the Northern Command that cases of a rheumatic type throughout their area shall be sent to the Hospital for appropriate treatment. To what extent this scheme will develop only the future can show.

During the four years of the last war a total of 4,106 Rheumatic cases, on a 200 bed basis, received special treatment and it is the opinion of your Committee that the

Hospital would best serve the national interest were it to play a part similar to that it fulfilled then, rather than adopt the somewhat ill-fitting role of a Base Hospital. The requirements of a hospital of this latter type can be far more competently and completely met by hospitals of the "general" type, which, more suitable structurally, already possess the necessary equipment and organisation to some extent, whereas the facilities provided by a Spa Hospital cannot be improvised elsewhere than at a Spa centre. Moreover it appears to be inevitable that, as the war continues, an ever increasing number of cases will require the specialised treatments, which a Spa Hospital alone can give.

It would be equally hazardous to conjecture when the Hospital will be able to resume its normal working. Applications from intending patients continue to be received and have to be regretfully declined, but your Committee is alive to the desirability of renewing at the earliest possible date its relations with many charitable and industrial and other bodies which have been in the habit of sending their members here throughout a long series of years, and the rupture of these relations is sincerely to be deplored.

Considerable sums of money have had to be expended in "blacking out" the entire irregular block of buildings and in taking various protective measures by the provision of shutters, sandbags and buckets, stirrup pumps, etc. Some of this expenditure it is hoped to recover from the Ministry in course of time, but progress towards this end is slow. In connection with this work special thanks are due to Mr. C. E. Morris for much valuable practical advice and for the ingenuity he has shown in overcoming some difficult problems.

FINANCE

The figures on the Revenue Account though given up to the 31st December really refer to 8 months full working only, since, from the beginning of September, income from all sources, with the exception of investments, has practically ceased and similarly the expenditure since this date has been taken over and defrayed by the Ministry of Health. Apart from this important consideration attention is called to a few items of particular interest. The per capita cost of provisions shows a slight reduction and the same applies to the Surgery and Dispensary, though the expenses of the X-Ray Department again show an upward trend, largely

owing to the greatly increased cost of essential materials. Under the heading "Domestic" various items give cause for misgiving. Though only eight as against twelve months' expenditure is involved, Furniture Renewals show an actual increase of £100 and Crockery £26, while the outlay on Linen is practically the same (£255 : £263). A decrease in Gas of £104 is to a great extent accounted for by the use of the new "Esse" Cookers, the cost of the Anthracite for maintaining which is now a charge on the Fuel Account. The Printing and Stationery again shows a positive increase, which is largely due to the demands of the Honorary Medical Staff. These various increases, though naturally offset by a decrease in the majority of the items results in a per capita rise per week of no less than 6/8 or nearly 1/- per day. The seriousness of this rise is emphasised by the fact that the decrease of income under most of the heads, with the exception of dividends, is so marked that it could not have been made good had twelve months normal working been completed. It is therefore apparent that serious efforts will have to be made before long to increase the annual income if the work of the Hospital is not to be greatly curtailed and its development, which is so urgently needed in many directions, retarded or checked.

Meanwhile it is the earnest hope of your Committee that all those, who have supported the work of the Hospital so loyally in the past, will endeavour to continue their financial help so far as they possibly can. Even in the event of the war proving shorter than at present appears likely, the Hospital will be faced with much unavoidable and heavy expenditure before it can revert to its peace time working. With every month that passes, the depreciation of buildings and plant must inevitably increase and it is vitally necessary that funds should be available to make good these defects, so that there may be the minimum of delay before normal work among the civilian population is restarted.

LEGACIES

Although this total, which it is hoped is accurate and complete, is nearly 500 below that of last year, our gratitude is in no way diminished towards all those who by organisation, gifts and the provision of transport have contributed to the success of this really invaluable contribution to this essential need of the Hospital. The high prices which eggs have in recent times commanded enhances still further the goodwill and sacrifice underlying these gifts.

Thanks are again due to the Editors of the " Harrogate Herald " and " Harrogate Advertiser " for their kindness in supplying free copies of their respective papers ; to Mr. J. R. Ogden for weekly attention to our clocks, free of charge ; and lastly, to the band of workers under the enthusiastic and devoted leadership of Mr. Henry Bellamy, for their success in promoting Hospital Sunday in Harrogate.

The presence in the Hospital at Christmas time of some 50 Military sick and casualties necessitated the provision of some appropriate festivities on a modest scale and thanks are accorded to the following for their kindness in helping us. Particular mention must be made of the kindness of the Congregation of St. Mary's Church for their most generous gift of £6 8s. 9d.

Report of the Hon. Medical Staff

—:0:—

In spite of the uncertainty felt throughout the year on account of political upheavals in Europe and the cessation of the normal activities of the Hospital on the declaration of war in September, the Honorary Medical Staff wish to present a record of their work.

The death of Mr. C. A. Rhodes was a sad loss. He had the welfare of the hospital very much at heart and it was during his years of Chairmanship that the modernization of the Institution was commenced.

But for the coming of war the much needed Nurses' Home would now have been in process of erection. The Medical Staff appreciate the tireless and enthusiastic activities of members of the Development Committee and they trust that when normal times are restored the same spirit will carry the full development scheme to maturity.

During the year a new type of case-sheet has been introduced. This allows of a more complete clinical record of rheumatic patients which, it is hoped, may prove helpful in the preparation of statistical data.

As a result of extensive work in the Research Department a new technique for estimating the sedimentation rate and a new contrast-bath method of treatment have been introduced into the routine work of the Hospital. The former gives a more accurate estimation of the severity and progress of rheumatic disease and enables the value of particular lines of treatment to be more carefully assessed than was formerly possible. The latter has proved of value in the treatment of Raynaud's Disease and of the circulatory defects associated with rheumatoid arthritis. Should this war bring cases of trench feet to the Hospital, this new method of hydrological treatment should be of great use.

The Medical Staff give a warm welcome to the new Matron, Miss E. C. Baynes. She entered upon her duties at a difficult period in the history of the Hospital and the Staff feel that her appointment was a very opportune one.

The resignation of Dr. T. Glen Reah is recorded with great regret.

On September 1st, the Hospital was taken over by the Ministry of Health who appointed Dr. G. L. Kerr Pringle as Medical Superintendent and the existing Medical Staff and personnel have been retained. The Hospital has been earmarked for the treatment of cases of rheumatic disease occurring among members of His Majesty's Forces. The Staff hope that soon the special resources of the Hospital in the treatment of rheumatism may also be extended again to the civilian population.

C. G. HITCHCOCK, M.R.C.S., L.R.C.P.
(Chairman).

Report of the Medical Superintendent

2nd September to 31st December, 1939.

Since the Hospital was opened on October 30th for the reception of Service sick and casualties, 146 cases have been admitted. These have mainly been cases of Respiratory and Gastro-intestinal diseases, as will be seen from the subjoined list.

On December 18th an arrangement was entered into between the Deputy-Director of Medical Services, Northern Command, and the Hospital Officer for the area, that all cases belonging to the Rheumatic Group in the Northern Command should be sent in to the Hospital for the special treatments provided by this Hospital. Thus before long it is hoped that the Hospital will be fulfilling its normal function. At the same time it will be necessary to keep in reserve accommodation in the event of casualties resulting from air raids.

CLINICAL LABORATORY

Until the outbreak of War in September the resources of the Laboratory continued to be used freely both for the routine investigation of patients and for research work on rheumatism. Unfortunately hostilities changed all this and for a time the Laboratory Staff was busily engaged in organising an efficient blood donors' service against emergency demands. In November the Laboratory resumed its work again when the Hospital began to care for Military sick cases.

Appended is a summary of the examinations carried out during the year. The summary has been sub-divided into work done before and after the outbreak of hostilities in September.

Gynæcological Department :

There is little work to report owing to the unfortunate late opening and early closing of the Hospital.

The twenty cases referred, received complete pelvic examination.

(for culture and report)

DIATHERMY (medical) intra-vaginal, uterine, urethral or rectal	47

MINOR OPERATIONS	2

Routine treatments by Department Nurse include pruritus, skin toilettes, medicated pessaries, packs, etc.

Again thanks are due to the Electrical Department for their keen co-operation in giving supplementary treatments not available in the gynæcological department.

It is hoped that when happier conditions prevail generally, fuller provision of our invaluable waters and special treatments within the Department, and the long overdue allocation of special beds will be available. So would this Hospital then take its place as a pioneer in the Spa treatment of the special diseases of women as it has in the treatment of the Rheumatics.

British Spas with their sulphur waters, peat, mud and fango, are as well endowed by Nature as any Continental Spa ; they only need to bestir themselves.

MURIEL KEYES, L.R.C.P., L.R.F.P.S.

Research Department.

Research into Rheumatism at this Hospital was perforce abandoned at the beginning of September, but up till this date work had proceeded along satisfactory lines, special attention having again been given to the pathological differentiation of the Rheumatic diseases.

Two papers have been published during 1939 :

1. " Observations of the Pathology of Acute Rheumatism and Rheumatoid Arthritis " (Annals of the Rheumatic Diseases ; Jan. 1939).
2. " The Pathology of Osteo-Arthritis " (Brit. Jour. of Rheumatism ; April 1939).

A third paper was published in the October issue of the Annals of the Rheumatic Diseases, which described a new technique for the estimation of the blood sedimentation rate. This paper was the outcome of investigations and experiments performed co-operatively by laboratory workers at the rheumatic hospitals at Buxton, Bath, Droitwich, and at this Hospital, and the four authors of the paper represented the four hospitals. Not only has this publication shown the advantages to be derived from co-ordinating research activities in the different centres but it has resulted in a standardization of the method of performing the important sedimentation test in the four leading spa hospitals, so that results of tests performed in one hospital may be precisely compared with results of the test obtained from another hospital.

It had been our hope to collaborate in further research activities had the work not been interrupted by war.

Meanwhile the records and the equipment of the Research Department, which have been gradually accumulated during the five years of its existence will enable us to resume the work with the loss only of time when peace is restored.

GREY CROSS CAMPAIGN

The ever-increasing menace of the international situation inevitably hampered the Appeal throughout the year, and on the outbreak of War activities ceased and the engagement of the professional Organiser was terminated. Nevertheless the progress made has given cause for gratification.

The outstanding event of the year was undoubtedly the Appeal made by Lord Harewood in the B.B.C.'s "Week's Good Cause" on Sunday, April 2nd. Much care and thought had been given to the necessary preparatory work and this was amply repaid by the result. The speaker's voice came through with a clarity and impressiveness, which was the subject of widespread favourable comment and the financial gross result (£1,786 3s. 5d.) must be regarded as highly satisfactory in view of the difficult times. It is with particular pride and pleasure that we have to record a most gracious and generous contribution from H.M. Queen Mary.

The Ladies' Auxiliary again merits sincere thanks for its work in organising various events during the summer months which brought in a nett total of £277 10s. 0d. The throwing open to the public of many gardens in the neighbourhood, by kind permission of their respective owners, though sometimes handicapped by unfavourable weather and counter-attractions which militated against large attendances, yielded a total of £108 8s. 0d. A very successful two days' Exhibition of Embroidery, etc., held at the Harrogate Hydro by kind permission of the Management, was organised by Mrs. Kerr Pringle and other ladies, with invaluable assistance by Mrs. Langley Moore, and produced £61 16s. 0d. A Bridge Drive, held at Nidd Hall by the kindness of Lord and Lady Mountgarret, yielded a profit of £46 15s. 0d. A Gymnasium Display arranged by Miss Holmberg brought in £20, and a Pantomime given by the Whixley Players, under the direction of Miss Rhodes and sponsored by Dr. Muriel Keyes, added a further £13 8s. 0d. It had been hoped to hold a Ball in the Autumn, under the direction of Mrs. Wesley-Smith and the date had actually been fixed, but had perforce to be abandoned.

It should be noted that the effort to obtain £1,000 for the endowment of a bed by gifts of 1/- and upwards from old patients has grown from £90 in 1938 to £430 in 1939. Although this sum falls far short of the amount aimed at, it represents many acts of real generosity and self-denial from

widows, old age pensioners and others in humble circumstances. In this connexion thanks are specially due to Mr. W. J. Moxon for his ungrudging voluntary help in sending out the letters of Appeal. Without his cheerful and unflagging industry and zeal such progress as has been made would have been impossible.

The completion of the new Boiler House and Heating Equipment has involved an expenditure of £7,260 on the fund. It has now been in operation for twelve months and has given every satisfaction, while the opinion of those qualified to speak is general that the work has been well planned and efficiently carried out.

The design for the new Nurses' Home has been approved after most careful scrutiny and examination. The plans had been submitted to and approved by the Corporation, tenders had been invited and received, and the amounts of the various contracts had actually been scheduled for consideration by the Board of Management when the outbreak of War checked further progress. Had it not been for this catastrophe, it may fairly be assumed that considerable headway would have been made by now with the building operations.

To all who, by the sacrifice of time or money or of both, have contributed to the Fund, the Committee wishes, through the medium of this Report, to convey its grateful thanks. Though it is always invidious to particularise, special mention must be made of the Ladies' Auxiliary Committee, many of whom have worked indefatigably, and of the Directors of Messrs. R. Ackrill Ltd. for again placing, at the disposal of the Hospital, offices for the Organiser and his Staff entirely free of cost.

Much has been accomplished, much yet remains to be done, but the time to consider this, even in outline, is not yet.

C. E. CARTER, Chairman.

The Cost of Endowing a Bed is
£1,000.

The Hospital and Home have at the present time only three beds partly endowed out of a total of 150, and it is felt that many of our supporters could perpetuate the memory of relatives and friends in no better way than by endowing and naming a bed after them.
