GOOD CAUSE FOR 1930.

**F**RIENDS OF THE NEW SUSSEX HOSPITAL  
are urgently asked to help the Board of Management  
to meet

THREE NEEDS of the MOMENT.

Owing to heavy new rating and other special charges in 1928-1929, the Hospital is unable, for the first time in its history, to balance its current accounts without making a special appeal

To Clear a Bank Deficit (£614).

Owing to rapid and constant growth of numbers in the Out-Patient Department, great pressure and inconvenience are felt by the Staff and all concerned. The only remedy for this is

To Enlarge the Out-Patient  
Department (£2,500).

A third need for smooth working of all Departments is to make a new entrance and bring into use the roadway on the North side of the Hospital. To do this it is necessary

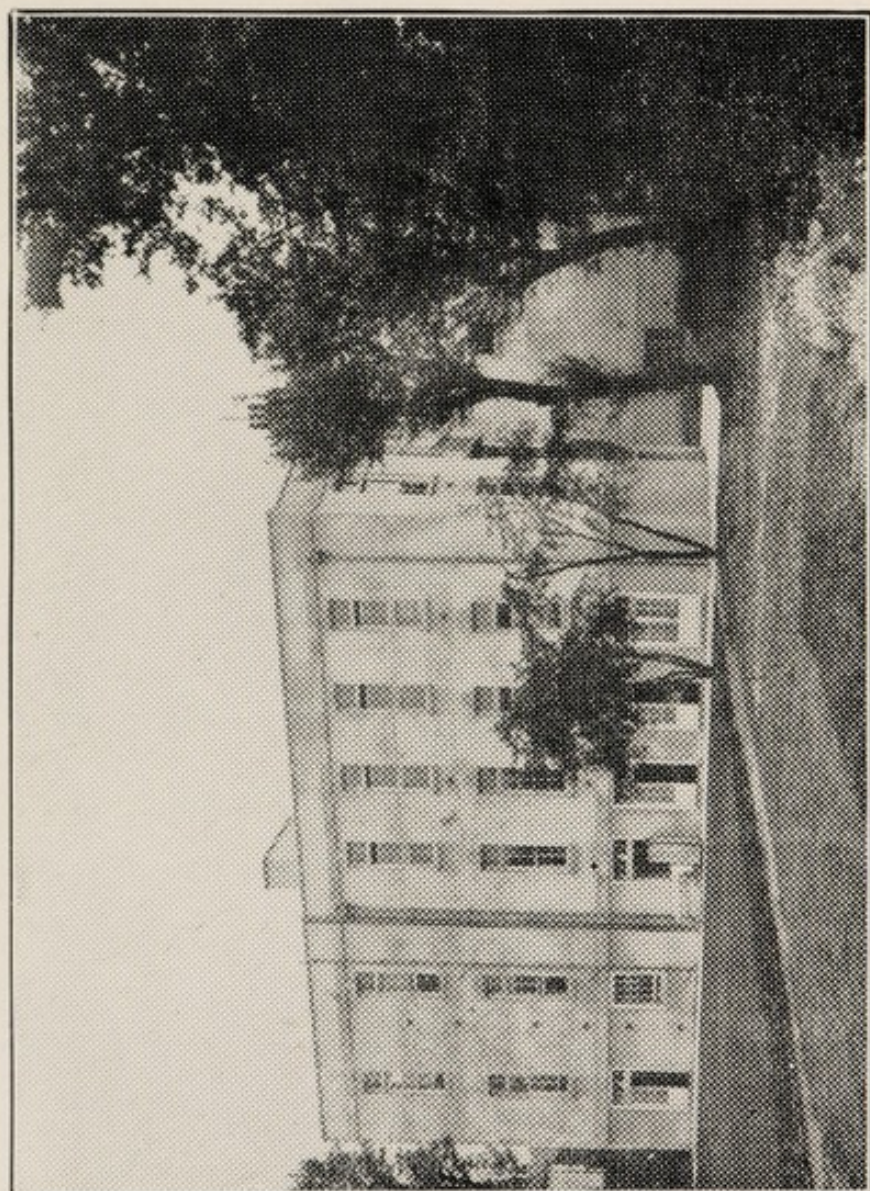

To Make Up the New Road (£165).

Bank Deficit	...	...	...	£614
Out-Patient Extension	...	...	...	£2,500
New Road ...	...	...	...	£165
Total	...	...	...	<u>£3,279</u>

The Board believes that, by the generous goodwill of friends, this sum can be raised without the labour and expense, to many busy people, of a Bazaar Appeal.

# THE REPORT

of the Board of Management of the New Sussex  
Hospital for the Year 1929.

---

In presenting their Annual Report for 1929, the Board of Management record that the past year has been one of steady growth and development.

The New Wing has been in full occupation throughout the year, an additional department has been opened, and the numbers benefited are greatly in excess of those in any preceding year.

The Hospital is still further indebted to those generous supporters, Mr. F. E. Cobb, Mr. C. H. Corbett, and Mr. H. E. Corbett, for their many gifts during 1929, especially for the addition of a Sun Parlour to accommodate three patients, which they have had built and fully equipped.

Steps taken towards Incorporating the Hospital have been almost completed. This will be the last Report to be presented under the old Constitution.

## In-Patients.

The following statement gives the number of In-Patients admitted during the year, and for comparison, the totals for 1927 and 1928:—

1927.	1928.	1929.
539	604	639

The average number of beds occupied was 42.1, as compared with 40.6 in 1928, and the average stay of In-Patients was 24.03 days, as against 23.2 in the preceding year.

The average cost of each In-Patient amounted to £3 3s. 2 $\frac{3}{18}$ d. weekly. The average total cost of each bed occupied amounted to £164 9s. 10d.

532 Patients were admitted to the General Wards, paying according to their means towards the cost of their maintenance; 107 Patients were accommodated in the Private Wards available for those of limited means.

### Out-Patients.

In 1929 new Out-Patients numbered 3,161, their total attendances amounted to 13,694, an increase of 3,476 over the previous year.

The average cost of each Out-Patient was  $6/11\frac{3}{4}$ , and each attendance  $1/7\frac{3}{8}$ .

The accommodation in the Out-Patient, the X-Ray, the Massage Departments, and the Dispensary, is proving inadequate. Plans for improving it are before the Board, and the attention of those interested in the Hospital is drawn to the Appeal which appears on the inside of the cover of this Report.

### Special Department.

A Pathological Department has been opened, it being felt that this would be of immense advantage to the Hospital.

### The Radium Department.

Since September, 1925, this Hospital has been working, in connection with three London Hospitals, in the treatment of cases of cancer by Radium. By pooling the Radium owned by the Hospitals, and that lent by the British Empire Cancer Campaign, it has been possible to treat patients with an efficient technique; for as modern research has shown, the dosage, filtration, and actual mode of administration is of the greatest importance. A small insufficient dose of Radium may not only be useless, but may cause actual harm.

When it is remembered that the cost of Radium necessary for *one* application in a case of cancer, may be as high as £3,500, it is easily understood how difficult it is for a hospital to own a sufficient quantity of Radium, especially as it has to be made up in different forms for different types of cases.

A whole-time Medical Research Officer, working under the Medical Research Council, has been a vital factor in this organization.

Patients applying for treatment have, however, become so numerous, and the time wasted by the transfer of the Radium from hospital to hospital so great, that it was decided to centralize the work, and open a new hospital in London, in which the gynæcological surgeons in the four hospitals concerned could treat their patients.

Two public appeals were issued, and the response to these enabled the Cancer Research Committee to acquire and convert a large house, standing in its own garden, into a suitable hospital. Miss Elizabeth Scott (niece of the late Dr. Alfred Scott, of Brighton), was chosen as architect, and in September, 1929, the new hospital, named The Marie Curie Hospital, was opened, under the management of a Board, on which are representatives from each of the hospitals concerned.

The advantages to the patients is obvious. They can, should it be found desirable, be transferred for the actual treatment, to a hospital specially planned and organized for the purpose, and yet remain under the care of their own surgeons and physicians.

At the same time, the "Follow-up Clinic" for Brighton patients will be continued to be held periodically as before, at the New Sussex Hospital.

### **Staff.**

The Board gratefully acknowledge the splendid work of the Honorary Staff throughout the year.

Owing to the increase in the work in every department of the Hospital, it has been found necessary to appoint a Resident House Physician, in addition to a Resident House Surgeon.

The Federated Superannuation Scheme for Nurses has now been in force in this Hospital for one year.

## Special Thanks.

The Board would take the opportunity, which this Report offers, of expressing their appreciation of the valuable services rendered by a Member of the Sussex 40 V.A.D., who was a donor for blood transfusion; to the Sussex 196 V.A.D. (Brighton Branch), and Sussex V.A.D. (Hove Branch), whose Members have given their services in the Hospital Wards throughout the year, and to Miss Griffith, for her untiring labours in the Out-patient Department.

## Finance.

The total Income from all sources during 1929 was £7,804 7s. 7d., an increase of £938 17s. 5d. as compared with the previous year.

As against this, the total Expenditure amounted to £8,032 14s., as against £7,189 15s. 7d. in 1928.

Annual Subscriptions for 1929 have amounted to £643 5s. 6d. Whilst this figure is the highest yet recorded, the Board would like it widely known that further Subscribers are urgently needed. They are fully conscious of the increasing responsibilities attendant upon the growth and development of the Hospital, and feel sure that all those interested in its welfare will lose no opportunity of spreading the knowledge of its work, and obtaining additional support.

To each and every Donor the Board extends cordial thanks, and especially acknowledge their indebtedness to:—

and to many others who allocated Donations to the Hospital.

They would especially like to thank Mrs. Spikins, who has responded to the appeal (see page 11), for Subscribers of £30 annually towards General Maintenance.

The thanks of the Board are conveyed to Mrs. G. S. Godfree and other Members of the Linen Guild, by whose efforts over £40 of linen has been placed into use during 1929.

To Mrs. Kelway-Bamber and the Committee supporting her Name Day Scheme, by which the Hospital has benefited to the extent of £50, and through whose efforts £120 has been invested, to add to the permanent Income for maintenance.

Special thanks must be extended to all those who so generously supported Pound Day, over 7,000 lbs. of goods being received, and £230 donations in money. For this success the Hospital is indebted to many Donors, to the Patients and their friends, and to the numerous Women's Institutes and others who held country depôts.

The kindness of those who contributed to the happiness of the Patients at Christmastide, is gratefully acknowledged. For this, and for the many generous gifts of flowers, fruit, etc., the Board tender their cordial thanks.

No Legacies were received during 1929. It is hoped that all interested in the work of the Hospital will do their utmost to influence Charitable Bequests in its favour. A Form of Bequest will be found facing page 4.

Signed on behalf of the Board of Management,

ELIZABETH RAWSON, *Chairman.*

## Matron's Report,

*Year ending December 31st, 1929.*

---

It has been considered necessary during the past year to increase the number of the Nursing Staff, so as to bring into force the eight-hour day system.

The Nursing Staff now consists of five Charge Sisters, one Night Sister, one X-Ray and Sister Tutor, five Junior Sisters and 15 Probationer Nurses.

There is always left on duty in each Ward a fully qualified Sister.

Probationer Nurses are received at the age of 17 or 18 years for a two years' training, during which time they attend lectures given by the Hon. Medical Staff and the Sister Tutor. At the completion of their two years' training they pass on if suitable to one of three London Hospitals.

It is hoped that in the near future the Board of Management will be able to see their way to provide the Nurses with a Study and Lecture Room, which we are very urgently in need of.

J. L. FLEMING,  
*Matron.*
