The
82nd Annual Report
OF
The Royal
National Sanatorium

For Consumption and
Diseases of the Chest

Bournemouth

Patroness: HER MAJESTY QUEEN MARY

EXTRACT FROM
QUALIFICATIONS AND PRIVILEGES OF GOVERNORS.

“Every person making a bequest of £100, or upwards, to the Sanatorium, may nominate a Life-Governor; and in the event of no such Nomination being made, the Executor first mentioned in the will shall be entitled to the privileges of a Life-Governor.”

FORM OF REQUEST.

I give and bequeath to the Treasurer and Governors for the time being of the ROYAL NATIONAL SANATORIUM FOR CONSUMPTION AND DISEASES OF THE CHEST, BOURNEMOUTH, the sum of £* to be applied in and towards carrying on the charitable objects of the Institution, which said sum of £* I desire may be paid, free of Legacy Duty out of such part of my Personal Estate as I may lawfully bequeath to the purposes of the said Institution; and I direct my other legacies (except charitable legacies) and my debts to be paid primarily out of such part of my Personal Estate as cannot be effectually so bequeathed, in exoneration of what may be so bequeathed, so far as may be requisite to give effect to the said bequest; and I direct that the receipt of the Treasurer for the time being shall be a sufficient discharge of my Executors for the same.”

*The sums to be expressed in writing.

Subscriptions and Donations are received by the Secretary, at the Sanatorium; BARCLAY'S BANK, LTD., 1, Pall Mall East, London, S.W.; and by LLOYDS BANK, LTD., Bournemouth.

For information apply to the Secretary at the Royal National Sanatorium for Consumption and Diseases of the Chest, Bournemouth.

Report of the Committee of Management

IN presenting their Eighty-second Annual Report, the Committee for the Management of the Royal National Sanatorium for Consumption and Diseases of the Chest, Bournemouth, desire to give expression to their heartfelt loyalty and devotion to Their Majesties King George the Sixth and Queen Elizabeth on the occasion of Their approaching Coronation, and the Committee's fervent hope that Their Majesties' Reign may be long, happy, peaceful and prosperous.

The Committee are rejoiced to announce that His Majesty The King has been graciously pleased to become an annual subscriber to the funds of the Sanatorium and that Her Majesty Queen Mary has graciously consented to become Patroness of this Institution.

These further manifestations of interest in the work and welfare of the Royal National Sanatorium which has been demonstrated by the Royal Family since the reign of Her Majesty the late Queen Victoria will be received with feelings of the greatest satisfaction and encouragement by the general body of Governors and all associated with this Institution.

The past year has again been one of unabated activity, as may be gathered from the fact that the average number of beds occupied daily throughout the year 1936 was 93·4, as compared with 91 during 1935. 333 patients were under treatment, of whom 241 were new cases admitted. The average period of treatment was 20 weeks and 1 day.

The annual medical report by Dr. Hutcheson, Senior Medical Officer, again shows (page 15) a high percentage of very satisfactory results which have enabled a large number of patients to return to their usual occupations with renewed hope and energy.

Under the able supervision of Dr. Hutcheson, assisted by Dr. Roberts, and the capable management of Miss Ellis, as Matron, the comfort and welfare of the patients have been fully maintained and throughout the Institution there is an atmosphere of cheerfulness and contentment which is frequently remarked upon by visitors.

Of the patients admitted during the past year, more than one-third came from the London area and the remainder from various parts of the country, as shown in the following table :—

COUNTIES, ETC., FROM WHICH PATIENTS WERE ADMITTED
IN 1936, WITH NUMBERS FROM EACH

London and Suburbs ...	86	Durham ...	2
Hampshire ...	52	Leicestershire ...	2
Dorset ...	32	Oxfordshire ...	2
Essex ...	21	Yorkshire ...	2
Middlesex ...	12	Buckinghamshire ...	1
Staffordshire ...	7	Lincolnshire ...	1
Kent ...	7	Wiltshire ...	1
Devon ...	5	Wales ...	1
Surrey ...	3		—
Bedfordshire ...	2		241
Cheshire ...	2		—

In the Committee's last Annual Report it was announced that a room in the Sanatorium was being set apart and provided with the necessary apparatus and appliances for minor operations. This valuable addition to the equipment of the Institution has been completed and has greatly facilitated the work of the medical and surgical staff.

The total Income for the year was ...	£12108 13 4
The Expenditure for maintenance and administration amounted to ...	10860 12 7
Excess of Income over Ordinary Expenditure ...	1248 0 9
Capital Expenditure (as shown in Balance Sheet page 8) amounted to ...	900 18 5
Leaving a nett surplus of ...	£347 2 4

The expenditure on maintenance and administration was £625 less than that for 1935, the increases and decreases under the various headings being as follows :—

	Increase	Decrease
Provisions ...	£214	
Surgery and Dispensary ...		£36
Domestic ...	119	
Salaries and Wages ...	216	
Miscellaneous ...		4
Administration... ..	7	
Establishment (Renewals and Repairs)		1155
Rates and Taxes ...	14	

With regard to Provisions, the increase can be accounted for by the higher prices of food, particularly milk, meat, bacon and butter, and to the slight increase in the number of patients. Milk alone cost the Institution over £200 more than in 1933.

Under the heading of "Domestic," the increase was due to a necessary greater outlay on the renewal of furniture (including linoleum over a large area), to the extra cost of fuel required for the new boilers and improved heating, and to the greater consumption of electric current on account of the new automatic stokers and electric heaters in some of the staff rooms.

The increase in salaries is mainly accounted for by the fact that 1936 was the first year to bear the full amount of the extra expenditure involved by the re-organisation and increase of the medical staff.

The large decrease under the heading "Establishment" was owing to the fact that the expenditure in 1935 was abnormally high on account of the heavy outlay upon the renewal of the boiler plant.

The average cost of each patient per week in 1936 was £2 4s. 6d., as compared with £2 8s. 4d. in 1935, the latter amount being much above the normal for the reason mentioned in the last paragraph.

The Committee deeply regret the loss sustained last year by the death of their colleague and friend, Mr. Franklin G. Lefroy. During the sixteen years that he was on the Committee, Mr. Lefroy took a very useful part in the administration of the Sanatorium and showed a warm interest in the welfare of the patients and staff. His extremely kind and sympathetic nature, enhanced by his ready wit and humour, endeared him to everyone with whom he came in contact. His loss is deeply felt by the Committee and staff, by the legal profession of which he was a distinguished member, and by the very wide circle of his acquaintance in Bournemouth.

The Committee also regret the loss of several other supporters of the Institution who have recently passed away, including the Honble. Mrs. D. Pleydell-Bouverie, Mr. J. Barclay, Colonel Kenneth R. Balfour (a former member of the Committee), Mrs. J. S. Beale, Mrs. Frean, Mrs. Miskin, Miss G. Savile and Mrs. J. Roberts Thomson.

The following members of the Committee retire by rotation, but are eligible for re-election :—

Colonel W. Roberts Thomson, D.L., J.P.
D. A. Hutcheson, Esq., M.D.

The Committee have been fortunate in obtaining the consent of Colonel L. J. M. Deas, M.B., F.R.C.S.Ed., late I.M.S., and R. A. Barclay Reynolds, Esq., to serve as members of their body and (acting under the powers conferred upon them by the Trust Deed) have elected them to act until the next Annual Meeting of Governors. They cordially recommend their election by the Governors.

The Committee wish to express their very sincere thanks for the financial support which they have received during the past year, for the welcome contributions towards the Christmas Festivities Fund and many useful gifts in kind.

The Committee again offer their most cordial thanks to the Medical, Surgical and Dental Officers for their continued valuable services, and to the Staff generally for their willing and loyal co-operation which has facilitated the smooth and efficient working of the Institution. They further wish to express their appreciation of the useful services of the local Press on several occasions.

In conclusion the Committee appeal for continued and increased public interest and support to enable the Royal National Sanatorium to continue with undiminished success the prominent and useful part which it is taking in the crusade against tuberculosis.

W. ROBERTS THOMSON,
Chairman of the Committee of Management

ROYAL NATIONAL SANATORIUM FOR CONSUMPTION AND DISEASES OF THE CHEST

Address

Annual Meeting of Governors

THE ANNUAL GENERAL MEETING OF GOVERNORS was held at the Sanatorium on Friday, June 4th, 1937. Colonel W. Roberts Thomson, D.L., J.P., occupied the Chair in the absence of the President, Brig.-General Sir Henry Page Croft, Bart., C.M.G., M.P., from whom the following letter was read :

" Dear Mr. Major,

" May 29th, 1937.

" I am extremely sorry that circumstances prevent my attending the Annual Meeting of the Governors of the Royal National Sanatorium this year.

" On the date you originally fixed to suit myself I received a Royal Command and had to cancel my promise, and when thereafter you endeavoured to arrange a week-end on which I could leave Westminster, I discovered I was committed on each of the week-ends in June to receive Overseas visitors for whose entertainment I had promised to make myself responsible.

" Please convey my regret that under these circumstances I cannot be present on the 4th June.

" We are indeed fortunate that her Majesty Queen Mary has graciously consented to continue the Royal Patronage which has been extended over so many reigns to the Royal National Sanatorium, and I know I am voicing the feelings of all the Governors when I state that we are highly honoured that the great work of the Sanatorium should thus be recognised and receive such distinguished favour.

" I am glad to see the continued and progressive success of the treatment of our patients which affords conclusive evidence of our war against consumption. There is now no doubt that if this terrible scourge is dealt with at an early stage we can largely master it, and all our generous supporters have the satisfaction of knowing that with their continued co-operation we are fighting a winning battle and that one, at least, of the more serious afflictions of our people has been steadily overcome.

" Yours very truly,

" HENRY PAGE CROFT."

Colonel Roberts Thomson said they were all sorry that their President was unable to be with them that day and they also regretted the absence of Mr. Graham Peel for health reasons.

Moving the adoption of the Committee's Report and the Audited Accounts for the year 1936, Colonel Roberts Thomson said that all interested in their Sanatorium heartily welcomed the announcement that His Majesty King George VI had been graciously pleased to become an annual subscriber to their funds and that Her Majesty Queen Mary had given her gracious consent to become Patroness of the Institution, thereby maintaining the Royal Family's close association with the Sanatorium which had been continuous since the early part of the reign of Queen Victoria. The interest and sympathy shown by the Royal Family in their work had been, and always would be, a great encouragement to all concerned in the management and success of the Sanatorium.

So far as the general work of the Institution was concerned, there was nothing of special note to record. They had simply carried on the good work as in former years. The number of patients admitted and the daily average number of beds occupied throughout the year fully indicated the continued great demand for the services which the Sanatorium rendered and from which so many had benefited. The Senior Medical Officer's Report for the year 1936 showed that 34 per cent. of the patients were discharged with the disease quiescent, who, by taking every care and precaution, might reasonably expect to be cured. Of the remainder, 57 per cent. were discharged materially improved in health, so that only 9 per cent. left unimproved, most of whom were patients found upon admission to have had the disease moderately, and in some cases, considerably advanced.

The continued endeavours that had been made for the patients' comfort might be presumed to have been successful from the fact that no complaint of any kind had been made, and from the many letters that had been received expressing gratitude, not only from the benefits obtained from their treatment, but also for the kind and sympathetic consideration which the patients had received. The general contentment of the patients was, moreover, evident from the many bright and happy faces one saw among them. This satisfactory atmosphere was largely due to the able direction of Dr. Hutcheson and the Matron, with the loyal co-operation of the whole staff. Another important factor which contributed much to the happiness of their patients was the exceptionally favourable situation of the Sanatorium. Here in their garden city they had beautiful surroundings and climatic condition which few places could equal (indeed, it was owing to these peculiar advantages that the site of the Sanatorium was originally chosen) and, added to these, the brightness and activity of a seaside health resort. All these conditions combine to make the long period of treatment interesting and free from the dull monotony and the feeling of home-sickness which many patients experience when placed in isolated situations.

Passing to the accounts, Colonel Thomson said it was gratifying to observe that the Sanatorium had maintained a favourable financial condition. The income from all sources amounted to £12,108. This was £235 less than in 1935, mainly due to the fact that no legacies were received as in the previous year. The total expenditure, including an outlay of £900 for capital purposes (shown in the Balance Sheet) amounted £11,761, leaving a modest surplus of £347.

Colonel Thomson said that he knew that all present at that meeting shared the Committee's deep regret for the loss of Mr. Franklin G. Lefroy who passed away suddenly within a few days of their last Annual Meeting at which he was present and spoke. Mr. Lefroy's kind and genial nature won the warm regard of all who knew him. He had been greatly missed by the Committee for the helpful part which he had taken in the management of the Institution.

Before concluding his remarks, Colonel Thomson said that there was one matter which he wished to mention, although it was outside the scope of the Report. He referred to the resignation within the last few days of Dr. Hutcheson, their Senior Medical Officer.

During the 14½ years that Dr. Hutcheson has held his important and responsible position he had carried out his duties with exceptional ability and thoroughness. He had always shown the keenest enthusiasm for his work and had done everything in his power to maintain and enhance the prestige of the Sanatorium and to keep it abreast of the most modern methods of treatment. His sound knowledge of his work, his excellent judgment and administrative ability had enabled him to render inestimable service and had made his departure a very real loss to the Sanatorium. They heartily wished him in his retirement many years of health and happiness to which his long and strenuous professional career entitled him.

He was very pleased to add that Dr. Hutcheson would continue to serve as a member of the Committee of Management so that they would still have the benefit of his administrative ability and experience.

The motion was carried unanimously.

It was proposed by Mr. Birley, seconded by Colonel Deas, and resolved that Colonel W. Roberts Thomson, D.L., J.P., and Dr. D. A. Hutcheson, the members of the Committee retiring by rotation, be re-elected.

It was proposed by Colonel Roberts Thomson, seconded by Dr. Hutcheson, and resolved that Colonel L. J. M. Deas, M.B., F.R.C.S.E., I.M.S., be elected members of the Committee of Management.

Proposing the election of Dr. D. A. Hutcheson as a Honorary Life Governor of the Sanatorium, Mr. Birley spoke in the highest terms of the services rendered by Dr. Hutcheson during his long tenure of office as Senior Medical Officer. Dr. Coles, seconding, also paid a high tribute to Dr. Hutcheson's work and referred to the many progressive improvements which, with the Committee's approval, he had carried out in the Sanatorium.

The motion was carried unanimously.

Dr. Hutcheson, thanking the Governors for the honour they had done him and for the generous terms in which reference had been made to his services, said that his work had always been very congenial to him. Any success that he might have achieved had been due to the support which he had received from the Committee and to the loyalty and co-operation of the whole of the Staff. He knew that such help and co-operation would be extended to his successor, Dr. Anson.

On the motion of Colonel Deas, seconded by Mr. E. M. Coombs, Mr. Edward Bicker was re-elected Auditor for the ensuing year.

Mr. Birley proposed a hearty vote of thanks to the Medical, Surgical and Dental Staff for their valuable services during the past year and took the opportunity of welcoming, on behalf of the Committee, Dr. Anson who had just entered upon his duties as Medical Superintendent.

The motion was carried by acclamation.

Dr. Watson, responding on behalf of his colleagues and himself, said they appreciated their association with the Royal National Sanatorium which they looked upon as one of the leading Sanatoria in this country. It was a happy state of affairs that so many of their patients were able to return to continue their usual occupations.

The meeting terminated with a cordial vote of thanks to Colonel Roberts Thomson for his successful occupation of the Chair.

Medical Report for the Year, 1936

DURING the twelve months ending the 31st December, 1936, 241 patients (109 men and 132 women) were admitted to the Sanatorium.

During the same period 242 patients (109 men and 133 women) were discharged.

The Classification of all cases discharged during the the year is divided into—

Class T.B. Minus. Cases in which tubercle bacilli have never been demonstrated in the sputum.

Class T.B. Plus Cases in which tubercle bacilli have at any time been found.

The latter class is further sub-divided into three groups, as follows:—

Group I. Cases with slight constitutional disturbance, if any, e.g., there should not be marked acceleration of pulse or elevation of temperature except of very transient duration. Gastrointestinal disturbance or emaciation, if present, should not be excessive.

The physical signs should be limited to an apical lesion of one upper lobe not extending below the second rib in front, or not exceeding an equivalent area in any one lobe. If these physical signs are present in more than one lobe, they should be limited to the apices of the upper lobes and should not extend below the clavicle and the spine of the scapula.

No Complication (tuberculous or other) of prognostic gravity should be present. A small area of dry pleurisy should not exclude a case from this group.

Group III. Cases with profound systemic disturbance or constitutional deterioration with marked impairment of function either local or general and with little or no prospect of recovery.

All cases with grave complications, whether tuberculous or not, should be classified in this group; e.g., diabetes, tuberculosis of larynx or of the intestine.

Group II. All cases which cannot be placed in Groups I. and III.

The following terms are used to describe the condition of patients on discharge from the Sanatorium:—

Quiescent. Cases which have no symptoms of tuberculosis and no signs of tuberculosis disease, except such as are compatible with a completely healed lesion and in which sputum, if present, is free from tubercle bacilli.

Arrested. This term is applied only to cases which have been "quiescent" for a period of at least two years. No case should be discharged as "cured" until arrest of the disease has been maintained for a period of three years after the period of two years "quiescence."

Improved. Cases short of "quiescent" in which the general health is fair and the symptoms of tuberculosis have materially diminished.

No Material Improvement. All other patients.

The following table which shows "RESULTS of TREATMENT" does not include the cases (11 men and 5 women) who were under treatment less than two months.

TABLE SHOWING THE IMMEDIATE RESULTS OF TREATMENT AND OF OBSERVATION OF DOUBTFUL CASES DISCHARGED DURING THE YEAR 1936

Classification on Admission	Condition on discharge	Duration of Treatment in Sanatorium.						T'tl.
		Under 3 months		3-6 months		6-12 months		
		M	F	M	F	M	F

		0	0	0	0	0	0	
Cases under treatment less than two months, and not included in the above Table of Results total 16 (11 men and 5 women)								
16								
24								

Deaths There were four deaths during the year, all men. Two died 12 days after admission, one of these was a case of pulmonary neoplasm. One died seven weeks after admission and in the fourth case the disease was complicated by Silicosis.

The foregoing table shows that there is still too large a proportion of Groups 2 and 3 cases. The history of these cases brings to light a striking fact, that the majority of them are having their first course of treatment. They have reached these more advanced stages before seeking advice and naturally to them their disease appears early. No Sanatorium is devoid of such cases under its care. Nevertheless, one hopes to see a marked diminution in the number of the more advanced cases sent for treatment where an improvement in their condition is all that can be hoped for.

The routine treatment at the Sanatorium has been continued on the same lines as in the past, as giving the best results in the treatment of active pulmonary tuberculosis.

The routine followed consists of open air life, regular and ordered routine, nourishing and plentiful diet, and a careful system of graduated rest and exercise.

In the majority of cases, a period of varying length of complete rest in bed is required. This complete rest in bed, though it may be irksome to many, is the only means of regaining the recuperative powers of the patient.

As the temperature and symptoms abate, patients are allowed up an increasing number of hours, until able to be up all day. Later come walking exercises in carefully graded distances, the effect being constantly watched. Besides the walk, light occupation is prescribed suitable to the patient's condition and progress. This consists of light domestic work such as cleaning brasses, plate, tea urns, windows, etc. Those who have passed through these grades of exercise successfully are prescribed exercise in the garden. It entails light raking, hoeing, wood chopping, light digging, mowing and rolling the lawns.

The object of the exercise given is the treatment and not the accomplishment of the work for its own sake. At the same time useful work has been done, though it is of secondary consideration. Also the mental relaxation and, to many of them, the novelty of their exercise help to counteract despondency.

The new room which was fitted out for minor operations has proved of inestimable value. It has been well fitted out and fully equipped for carrying out the surgical methods required to complete artificial pneumothorax treatment and other operations which Mr. Adney, our Consulting Surgeon, does for us.

Artificial Artificial pneumo-thorax treatment has been carried out
Pneumothorax with the same satisfactory results as in former years with a small percentage of failures. It remains one of the most successful forms of treatment. More cases had this treatment during the past year, 33 in all (8 men and 25 women), or over 13 per cent. of the cases admitted for treatment. In addition there are quite a number of cases having this treatment who are sent down to Bournemouth for a period of convalescence by their Local Authorities or from the Chest Hospitals in London and we are asked to give them this treatment.

We always meet the wishes of any patient who is having this treatment and who is at work in Bournemouth, to give the treatment in the evening after business hours or on a Sunday, so as not to interfere with

his or her employment, because it is not such an easy matter for such a person to get the time off from work to attend during the day. The number of these, what might be called "out-patients," shows an increase year by year, and of course adds to the work done in the Sanatorium.

Gold Therapy Gold salts have been used as in former years, in selected cases with good results, which fully justify the use of this form of therapy.

The X-Ray Work has greatly increased during the year. Every case is X-rayed as a routine measure on admission and just before discharge. In addition many are X-rayed at more frequent intervals for a serial control which is most valuable. All our pneumo-thorax cases are controlled by screen examinations.

Lectures have been given periodically to explain the nature of the disease, its causes and its infectivity, and the purposes for which treatment is carried out. The need for after-care is also emphasized, as it is found that some patients, when they return home, forget the great importance of this after-care treatment.

The Weekly Cinematograph Show of excellent pictures, together with the other pastimes provided (billiards, whist drives, radio, gramophones, and in summer, croquet) all assist to relieve the patients' stay in the Institution from becoming monotonous.

D. A. HUCTIONSON, M.D., D.P.H.,

Senior Medical Officer.

We have examined the above Balance Sheet and foregoing Income and Expenditure Account with the Books and Vouchers relative thereto, and have found them correct, and to the best of our knowledge and belief, the regulations of the Revised Uniform System have been followed.

The Securities for the Investments have been verified by a Certificate from the Official Trustees' Department, Charity Commissioners, and the Bankers have certified the correctness of the Bank Balances

The Investments are included in the Balance Sheet at cost price

*Average Cost per week found by dividing the amounts of Expenditure shown against each heading and total by the average number of In-Patients resident daily (No. 3 in A above) and dividing by the number of weeks in the year (*viz.* 52½ or 52¾).

† Average Cost per In-Patient found by dividing the amounts of Expenditure shown against each heading and total by the number of In-Patients treated to a conclusion during the year (Nos 4 + 5 - 6 in A above)

THE JULIA THOMAS TRUST.

THE JULIA THOMAS TRUST was established through the generosity of the late Miss Julia Thomas, who, by her Will, bequeathed one thirty-second part of the residue of her Estate in trust for investment with instructions that the income thereof should be applied in or towards paying or discharging the expenses of, or incidental to, the free admission, treatment and maintenance into and at the Royal National Sanatorium for Consumption and Diseases of the Chest, Bournemouth, of poor patients who (being otherwise eligible therefor) shall for one year previously have usually resided in the County of London.

Applications for the benefit of the Trust must be made to the Secretary, Royal National Sanatorium, Bournemouth.

STATEMENT of the JULIA THOMAS TRUST FUND for the Year ended December 31st, 1936.

[illegible]

Examined with the Books and found in accordance therewith.

Bournemouth, 24th February, 1937

EDWARD BICKER & SON,
Incorporated Accountants.

INSTRUCTIONS TO CANDIDATES FOR ADMISSION TO THE SANATORIUM

The objects of the Institution are to afford a temporary Asylum for In-patients afflicted with Chest Diseases, who (1) being convalescent may yet require further medical treatment and change of air to establish their health; or who (2) may be labouring under such an incipient form of disease as to afford reasonable hope for their obtaining benefit from a temporary residence in a dry and salubrious climate.

Applicants under the age of 16 are ineligible for admission.

Applicants for admission must forward to the Secretary a medical certificate giving full details of their state of health. A form of certificate may be obtained from the Secretary.

On the Applicant's case being approved of by the Medical Authorities, his or her name will be entered upon the books **for admission in the order in which the application is received**, due notice being given to the Applicant when the time for admission arrives.

Patients' Payments.—The weekly charges are as follows:—

- (a) "Uninsured persons" (with the exception of those recommended by a Public Authority), on the nomination of a Governor, or of a Donor of £5, at 15s. 0d. per week, which shall cover all ordinary expenses, except for laundry.
- (b) Persons recommended by an Insurance Committee, County or Borough Council, or other Public Authority, at 45s. 0d. per week; or, if provided with a Letter of Recommendation from a Governor or from a Donor of £5, at 37s. 0d. per week.

The time during which Patients are retained in the Sanatorium varies, according to the necessity of the case, at the discretion of the Physician; but after the lapse of eight weeks, should the Physician consider it desirable that a Patient, who has been admitted with a Letter of Recommendation, should remain longer, a fresh Letter of Recommendation must be procured.

As the condition of the teeth is of great importance in the treatment of Consumption, applicants should have them examined by a Dentist. Carious teeth must be attended to before admission.

Persons suffering from Tuberculosis who are insured under the National Insurance Act, for whose treatment the local Tuberculosis Authority (County or County Borough Council) is responsible, are not admitted on the terms quoted in clause (a) of the above paragraph relating to Patients' Payments.

QUALIFICATIONS AND PRIVILEGES OF GOVERNORS

Every Donor of £31 10s. 0d., or upwards, at one time, or at different periods within three years, becomes a Governor for Life.

Every subscriber of £3 3s. 0d., or upwards, per annum, for not less than three years in succession, becomes a Governor.

A Donation of £5 entitles the Donor to one Letter of Recommendation.

Every person making a bequest of £100, or upwards, to the Sanatorium, may nominate a Life-Governor; and in the event of no such Nomination being made, the Executor first mentioned in the will shall be entitled to the privileges of a Life-Governor.

Any person who shall have collected £50 for the benefit of the Sanatorium shall become a Life-Governor.

Every Governor is entitled to one vote at meetings of Governors, and to one additional vote for every additional Donation of £50 or Annual Subscription of £10, provided that in no case the number of votes to be acquired by any Governor shall exceed five.

Persons becoming Governors by Donation or Subscription are entitled to recommend one Patient annually for every Donation of £31 10s. 0d., or Annual Subscription of £3 3s. 0d. Annual Subscribers of £3 3s. 0d., and upwards, are entitled to recommend patients from the date of their first payment if they undertake to continue such subscription for not less than three years in succession.

Hospital Saturday and Sunday Funds are entitled to one Letter of Recommendation for each £10 given.

Firms, Public Companies, Corporations and Societies making a Donation or Donations amounting to Thirty Guineas within three years shall have the privilege of a Life-Governor for fifteen years.

Any person who shall collect £31 10s. 0d. for the benefit of the Sanatorium, shall have the privilege of recommending one Patient annually during five years.

Ministers of religion are entitled to recommend one patient for each collection in a place of worship of £5 5s. 0d.

Each Letter of Recommendation is available for one year only from date of issue.

Donors of £500 may name a Ward in perpetuity

Donors of £100 may name a Bed in perpetuity

Every information will be afforded by the Secretary at the Institution, who will receive Subscriptions or Donations.

FREE BEDS

The "Aubrey" Bed confers no nomination, but sets free from weekly payments one male patient already in the Institution, and is in the gift of the Vicar of St. Peter's, Bournemouth.

The "Falls" Bed also confers no nomination, but sets free from weekly payments one female patient already in the Institution, and is in the gift of the Vicar of St. Peter's, Bournemouth.

The "Fenwick" Bed sets free from weekly payments two patients, either male or female, already provided with nominations, for twelve weeks in each year for fifty years, from 1899. Not to be canvassed.

The "Mostyn" Bed nominates and sets free from weekly payments one male or female patient for twelve weeks in every year.

The "Pannel" Bed nominates and sets free from weekly payments one male or female patient for twelve weeks in every year, and is in the gift of Charles Hugonin, Esq., Netherwood, Fleet, Hants.

The "Scrimgeour" Bed nominates and sets free from weekly payments one male or female patient for twelve weeks in every year, and is in the gift of Mrs. Scrimgeour, Wispers, Midhurst.

The Trustees of the Delmar Charitable Trust have the right to nominate one male or female patient for the whole time the Institution is open.

The "Agnes Mather" Bed is available for the free treatment of male or female patients for a total period of three months in each year.

The "Julia Thomas" Trust. See page 23.

INCOME TAX AND SUPER-TAX ON ANNUAL SUBSCRIPTIONS.

Annual subscribers, by filling up the following form of Agreement for seven years, enable the Sanatorium to recover income tax on their subscriptions, and can themselves deduct the amount of the subscription from their super-tax return.

I, _____ of _____
HEREBY COVENANT WITH THE ROYAL NATIONAL SANATORIUM FOR CONSUMPTION AND DISEASES OF THE CHEST, BOURNEMOUTH, that for a period of seven years from the sixth day of April, 19____, or during my life whichever period shall be shorter, I will pay annually to the said Sanatorium such a sum as will after the deduction of income tax leave in the hands of the Sanatorium a net sum of £.....(.....) such sum to be paid from my general fund of taxed income so that I shall receive no personal or private benefit in either of the said periods from the said sum or any part thereof.

IN WITNESS whereof I have hereunto set my hand and seal this..... day of.....19.....

SIGNED, SEALED AND DELIVERED by the said

L.S.

For example, if a contributor who now subscribes £5 5s. 0d. per annum enters into an agreement in the above form, filling in the figure £5 5s. 0d., the result will be, under the Finance Act, 1925:

- (a) the subscriber sends a cheque for £5 5s. 0d., with a certificate that he has paid income tax on the amount; the Sanatorium can supply forms of certificate if desired;
- (b) the Sanatorium recovers the income tax from Somerset House;
- (c) the contributor appears as a subscriber of £6 17s. 8d. (with income tax at 4s. 9d. in the £);
- (d) the contributor can deduct £6 17s. 8d. from his return for super-tax.

Appeal.

The Committee for the Management of the ROYAL NATIONAL SANATORIUM FOR CONSUMPTION AND DISEASES OF THE CHEST desire to draw public attention to the claims of this charity for general recognition of its beneficent work for a most deserving class of the community.

The Sanatorium is as its title implies, a NATIONAL INSTITUTION. Patients of both sexes are received from all parts of the United Kingdom, chiefly from London and our great industrial centres.

The benefits of the Sanatorium, the Committee venture to think, are too well known and appreciated to need much comment, but they would remind the charitable that some 400 poor sufferers are relieved each year, a large proportion of whom receive permanent benefit and are able to return to their occupation and to the support of themselves and those depending upon them.

The Committee would emphasise the fact that the strictest economy is exercised in the management of the Sanatorium, and they venture to state that in this respect it will compare most favourably with any Institution of its kind. They have always, however, insisted that everything should be done to ensure the comfort and proper treatment of the patients, especially with regard to the diet; indeed, the patients often voluntarily express their great satisfaction with the quality, quantity and variety of the food provided.

DONORS of £500 may name a Ward in perpetuity

DONORS of £100 may name a Bed in perpetuity

THE FOLLOWING WARDS AND BEDS HAVE ALREADY BEEN NAMED:

WARDS

THE PANNEL WARD (in memory of CHARLES LAVINGTON PANNEL, Esq., the Founder, and a generous benefactor of the Sanatorium).

THE BURSLEM WARD (in memory of WILLOUGHBY M. BURSLEM, Esq., M.D., F.R.C.P., the first Physician to the Sanatorium).

THE FALLS WARD (in memory of WILLIAM STEWART FALLS, Esq., M.D., F.R.C.P., Physician to the Sanatorium 1862 to 1887).

THE DREW WARD (in memory of MRS. ANNE DREW).

BEDS

THE AUBREY BED
