# CHART

Showing the growth of the Hospital from 1857 to 1937

The number of Operations is approximately the same as the number of In-patients.

Eighty-Second Annual Report  
of the  
Committee of Management of  
The Royal Eye and Ear Hospital,  
BRADFORD,  
for the year ended December 31st, 1938.

---

THE Committee of Management has pleasure in presenting their Annual Report for the year 1938.

Notwithstanding the development of Health Services during recent years under National and Municipal control, the calls upon the Voluntary Hospital do not show any signs of diminishing.

The statistics supplied herewith bear evidence of the immense amount of work entailed in ministering to those who need treatment. The untiring devotion and unfailing loyalty of the Honorary Surgeons, Matron and Staff in carrying out their many duties are warmly appreciated by the Committee, who tender their thanks for another year of strenuous service.

The Committee has also to record its appreciation of the collaboration of the Secretary-Superintendent in keeping the finances of the Hospital on an even keel during rather difficult times.

The new Nurses' Hostel was completed during the year, and we believe has fully responded to anticipations, both in comfort and design.

The Hospital is cramped in accommodation in the Out-patients' Department, and it is hoped to give this first attention under the Extension scheme.

The Orthoptic Department and Nursing Home have rendered valuable assistance to the Hospital organisation.

The Committee express very warm thanks for the following Legacies, which have been placed to Capital Account—

	£	s.	d.
Exors. of Hannah Roberts ... ..	25	0	0
„ „ Nancy Copley ... ..	5	0	0
„ „ Frank Reddihough ... ..	500	0	0
„ „ W. H. Spurr ... ..	5	0	0
„ „ Emma Tordoff ... ..	75	0	0

Repayment of Income Tax ... ..	25	10	3
The James Henry Stephens Bequest ... ..	100	0	0
	<hr/>		
	£993	14	3

The Committee express their great appreciation of the valuable help from the Ladies' Committee in many directions, and the very successful efforts of their 'Pound Day,' which realised the record amount of £171/15/1 in cash, and goods value £116/11/3.

The services rendered to our Patients by the 'Toc H' and the St. John Ambulance workers are very greatly appreciated.

The Committee is pleased to report that the incidence of infectious diseases amongst the Nursing Staff has decreased considerably since the nurses were immunised, and wishes to thank Dr. Douglas, Medical Superintendent of the City Hospital for infectious diseases, for all his help and assistance in this matter.

It would be very difficult for the Hospital to carry on its work without the assistance it receives from the Bradford Hospital & Convalescent Fund (Incorporated), and the Committee expresses its grateful thanks for the valuable contribution of £4,946/13/10.

The statistics for the year's work are as follows:—

### Out-Patients' Department—

## Report on Orthoptic Department for year 1938.

---

During the year ended 31st December, 1938, there was a total of 2,116 attendances.

The number of patients who received treatment was 72 and the number of discharges was 36, an increase of 10.

Of these, 31 were children and five were adults. Of the children, 14 were operative cases and 17 non-operative.

The average number of attendances for each discharged patient was 49.

The work continued steadily throughout the year, at the end of which the Waiting List was negligible. One feature of the year's work was that while of necessity there were some cases which produced better results than others, there was no case which failed entirely to respond to treatment.

## The Prevention of Blindness.

---

The Committee, being painfully impressed with the fact that loss of sight might have been prevented in the case of many persons who apply for treatment, are anxious to make it known as widely as possible, that one of the most common causes of blindness is INFLAMMATION OF THE EYES OF NEW-BORN INFANTS, due to contagious matter getting into the eyes during, or soon after, birth.

The essential precautions to be adopted are:—

1.—Immediately after the birth of the baby, and before anything else is done, wipe the eyelids and all parts surrounding the eyes with a soft, dry, white rag; soon afterwards, wash these parts with clean tepid water, before any other part of the body is washed.

2.—If the child's eyelids become red and swollen, or a yellowish white matter appears between the eyelids within a few days after birth, IMMEDIATELY seek the advice of a doctor. The disease is very dangerous, and if not at once skilfully treated may destroy the sight of both eyes; but if attended to in time, it is nearly always cured without impairment of vision.

3.—In the meantime, until advised by the doctor, keep the eyes as clean as possible by washing away the discharge every hour during the day, and every two hours during the night. This is best done by separating the eyelids carefully with the finger and thumb, and allowing a gentle stream of clean lukewarm water to run between them from a piece of white rag or absorbent cotton wool, held by another person two inches above the eyes. The small pieces of linen or wool used must be burned immediately afterwards. Sponges must never be used for this purpose.

4.—If one eye only is affected, be very careful the discharge from it does not get to the other eye. The matter is very infective.

5.—After each attention to the eyes of the baby, the hands of the person attending to them must be thoroughly washed.

6.—Many other diseases of the eyes of children would be considerably modified and relieved if the eyes were kept scrupulously clean.
