# Aims and Objects

OF THE

## ROBERT JONES AND AGNES HUNT ORTHOPAEDIC HOSPITAL.

---

*Extract from TRUST DEED.*

The objects of the Hospital shall be as follows :—

(a) *Prevention.*

To provide lectures, lantern slides, cinematographs, and generally any form of propaganda with a view to the prevention of crippling diseases.

(b) *Treatment.*

To provide or cause to be provided institutions, laboratories, shelters, homes, dispensaries, massage departments and other Hospital buildings, incidental to the treatment of persons suffering or likely to suffer or who may have suffered from crippling diseases.

(c) *After Care.*

To appoint duly qualified Orthopaedic Surgeons and Nurses in connection with the scheme of After Care, and in connection therewith to establish or cause to be established Treatment Centres, and to provide, upon payment, all splints and appliances and other mechanical aids for patients and surgical alterations to boots or other articles used by patients as may be necessary.

(d) *School for Medical Men and Orthopaedic Nurses.*

To establish and maintain a school for training Medical Men and Orthopaedic Nurses and preparing students for the examinations of the Chartered Society of Massage and Medical Gymnastics.

(e) *Training.*

To make arrangements whereby training for persons suffering from, likely to suffer, or who may have suffered from crippling diseases may be provided.

(f) *Education.*

To provide (in manner approved by the Board of Education) for the education of children who may be patients in the Hospital.

(g) To carry on any kind of work, whether practical or experimental, and to do all other such lawful things as are incidental or conducive to the attainment of the above-named objects.

## VISITING MEDICAL AND SURGICAL STAFF.

# Forty-first Annual Report, 1941.

---

## General.

It is unfortunate that though the activities of the hospital have increased during the period under review, this report, for purposes of economy, must be curtailed to a minimum. Reference to the statistical tables show that more patients were admitted to hospital during the year than ever before, and that the number of patients on the books of the After Care clinics has increased materially.

Although the war has in small measure adversely affected some departments, the work of the Hospital and its scheme of Prevention and After Care, has proceeded smoothly and efficiently. In the future we may encounter difficulties, but so long as the staff continues to give wholehearted support to one another the hospital and its auxiliary services will continue to function satisfactorily.

During the year final payments were made in respect of all buildings erected under the scheme of gradual reconstruction, and it is pleasing to note that the financial position of the hospital has enabled repayment of capital and interest to be made in respect of the Salop County Council loan.

## Trustees.

Owing to the cumbersome and expensive procedure necessary on the death of a Trustee and the desirability of continuity of responsibility, and to make possible the appointment of the Executor and Trustee Department of Lloyds Bank Ltd., Lord Harlech, Colonel Caton-Jones, Mr. Swire and Lt.-Colonel Kenyon suggested that they tender their resignations. Consequently at their meeting in March, the Board of Management passed the following resolutions:

- (1) To accept the resignation of the present Trustees of the Hospital:
- (2) To appoint the Executor and Trustee Department of Lloyds Bank, Liverpool, as Trustees of the Hospital and its estate;
- (3) That an alteration be made in the wording of Clause 7 of the Trust Deed providing inter-alia

for the present Trustees retaining membership of the Board of Management during their life-time ;

- (4) To instruct Lloyds Bank Limited to prepare Deeds transferring the hospital securities at present held by the four Trustees, to Lloyds Bank Ltd., as holders.

Mr. Hugh Morgan, the Honorary Solicitor to the Board of Management, prepared the draft Deed of Trust with attached schedule of securities, which included a note of the agreement with the Derwen Cripples Training College under which they (the Executive Committee of the Derwen) undertook to repay the Hospital the sum of £4,000 by annual payments of £200 over 20 years. As this agreement was not under seal, the Executor and Trustee Department of Lloyds Bank Limited, submitted that the Deed could not be enforced. However, the Executive Committee of the Derwen kindly repaid the Hospital the sum outstanding under the Agreement, thus the Bank's objection was overcome and the Deed of Appointment signed by the parties concerned in May, 1942.

### **Samaritan Fund.**

During the year ended December 31st, 1941, the number of patients admitted into hospital under the auspices of the Samaritan Fund was 563. Year by year the work of this Fund is steadily increasing. It is perhaps appropriate to state again that the Samaritan Fund is charged with the admission into hospital of all non-state aided patients, including cases of industrial and road accidents. These latter cases continue to increase in number. Certain cases of fractures may now be treated at the cost of the Ministry of Health under its Emergency Medical Services, but such patients are expected to contribute in the ordinary way, according to their means, or through Contributory Associations. This Government legislation has proved a tremendous boon, because the Workmen's Compensation Act does not provide for hospital treatment, the liability of the Insurance Companies being limited to a percentage payment of weekly wages. In most cases the injured workman is unable to make any contribution towards the cost of treatment, but the continued increase in membership of Hospital Contributory Schemes is healthy evidence of the provision they (the workers) are now making against accident and disease. In only a small percentage of road accident cases is it

possible to recover the cost of treatment, because in many cases the blame is attributed to the patient, and thus no payment is made under the Road Traffic Act to the hospital affording treatment.

It would have been impossible for the Samaritan Fund to deal with the large number of cases requiring in-patient treatment, the majority of them for a prolonged period, if it were not for the assistance of the Voluntary Orthopaedic Associations. The work of these Associations is invaluable. Not only do they assist patients financially, but they concern themselves with their well-being generally, and by intimate contact with them in their own homes the members of the Association do much to alleviate their anxieties. The Board of Management would like to express its deepest gratitude and indebtedness to these County and District Orthopaedic Associations for their unfailing and generous help to all patients needing assistance.

#### **Obituary.**

This year we mourn the loss of Mr. W. Swire, C.B.E., who was for a great number of years closely connected with the work of the Hospital. His wise counsel will be sadly missed.

#### **Finance.**

The General Income and Expenditure Account again shows a small excess of income over expenditure. The surplus amounts to £115 15s. 3½d.

A sum of £17,941 12s. 11d. was received from the Ministry of Health in respect of the cost of treatment of patients under the Emergency Medical Services Scheme. This amount is subject to revision on presentation to the Ministry of the actual costs incurred by the Hospital.

#### **Statistics.**

Full details are given elsewhere in this report. The daily average number of patients was 485 which includes those patients treated at the Annexes at Gredington and Aston Hall. This figure exceeds the daily average of 1940 by 74 and reflects the large increase in the amount of work done by the hospital during the year.

The number of out-patients treated at the Clinics totalled 9,667 compared with 8,480 during the previous year. Attendances numbered 27,606.

In this short report it is difficult to pay adequate tribute to the work of the staff under the able guidance of the Secretary-Superintendent and Matron. In spite of war time difficulties with staff, increased numbers of patients under treatment, they have dealt smoothly with all the added difficulties imposed by the war and have administered the Hospital efficiently.

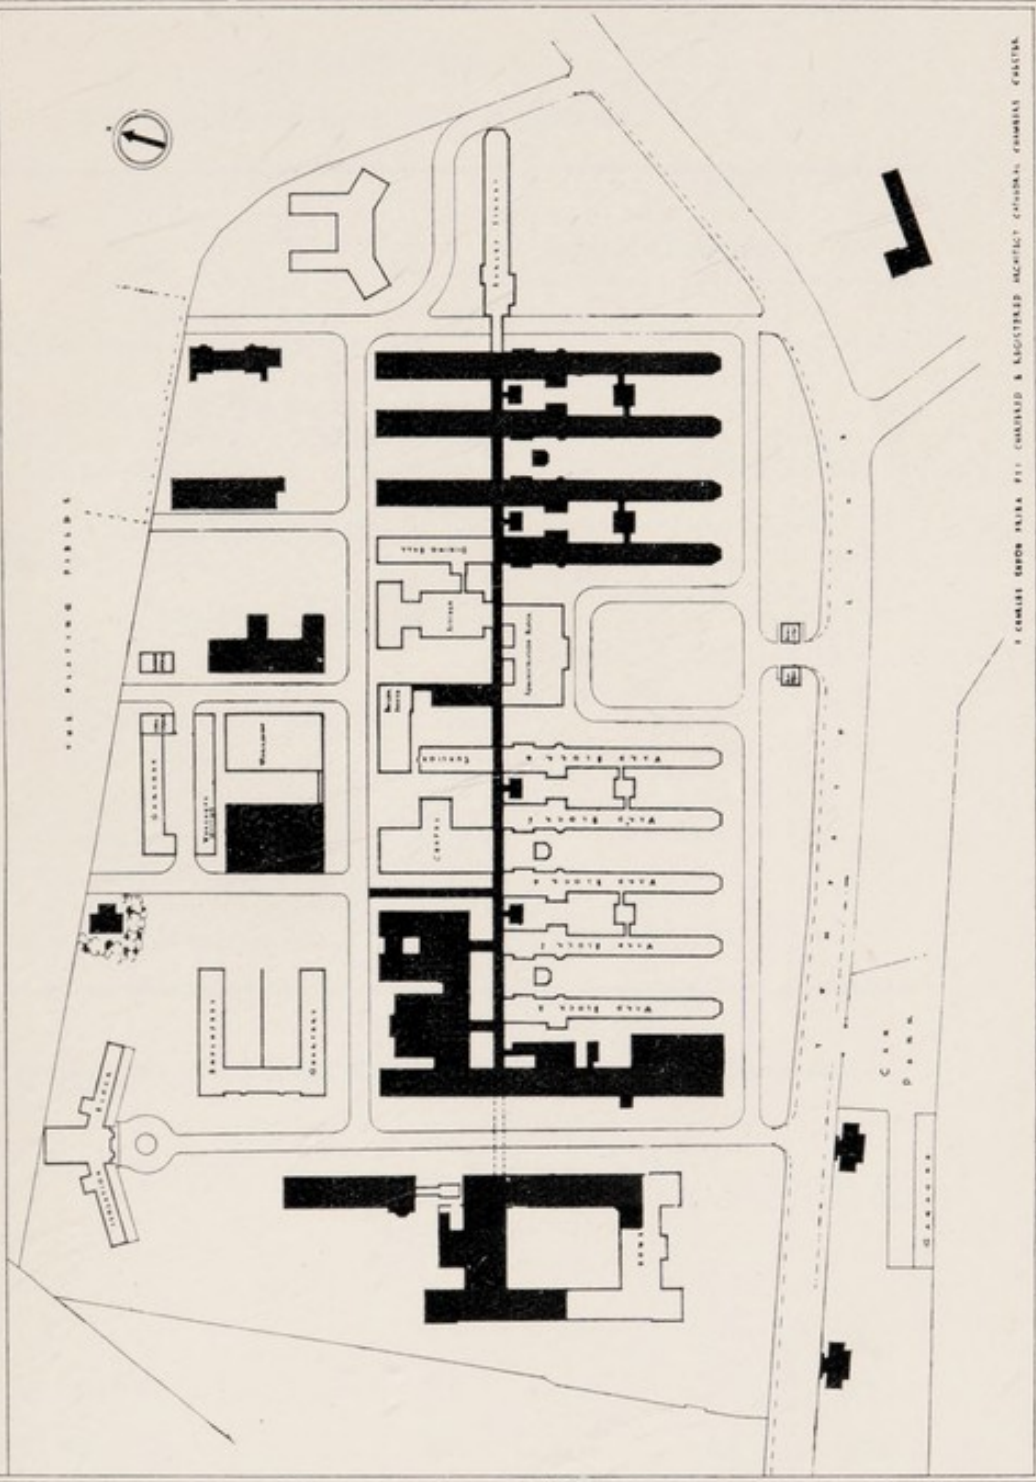

L. E. BURY,

Chairman of the Board of Management.
