R. A. HOSKINS

## Matron :

MISS J. J. RALPH

# REPORT

OF THE COMMITTEE OF MANAGEMENT  
TO THE  
SUBSCRIBERS,

At the One Hundred and Twenty-sixth Annual  
Meeting, March 6th, 1935.

---

---

## A Record Year.

Again the Committee beg to report that another record has been achieved by the work done at the Hospital in the year 1934, thus renewing the sequence of records made year by year which was broken in 1933. The new record is set up in every department of hospital service—in in-patients, in the number of operations performed, in the number of those using the X-Ray unit, but with a record in the other direction of the lowest number of out-patients availing themselves of subscribers' tickets.

It would seem that the Hospital has reached the peak of its resources of its accommodation, which has been over-taxed. Mention was made in the previous report of the accentuated overcrowding of the Men's Ward. The Children's Ward has been an outlet for excessive demands on the space of the Women's Ward ; but no such relief is available for the men. During the year overcrowding on the men's side has so persisted as to cause the staff and the Committee of Management much anxiety. The public were acquainted previously that the Committee had caused consideration of it to be referred to their Building Committee, that their deliberations were overshadowed by the outlay, and that further consideration was deferred to the end of the financial year. It remains as it was, except that the position is more aggravated. With 16 or 17 men in a ward which was provided for 12 beds, and at one time with five urgent male cases which had to be accommodated in private wards, it is obvious that the situation must be regarded as serious. Hospital service must be given. Whether the public may be surprised or no, the plain fact is that another ward should be provided for the men's side.

### Pressing Needs.

A few years ago the public were warned by those responsible for its administration, of the growing demand – and rightly so—for hospital service, and that greater service would entail, of course, greater expenditure. To the limit of their resources the Committee have endeavoured to meet the demands. Even so, they now find as they did less than ten years ago, when prompted to add the new wing, that the insistence for still more accommodation is as great as ever. There can be no halt called to hospital work: it must go on, with greater vigour than ever.

There were and are other pressing needs. A new corridor floor was long overdue. This work is being done, with the provision of a pipe duct for a future scheme of central heating which should displace the present more expensive form of heating in the older parts of the Hospital. Serious consideration has been given to the installation of an electric bed lift to serve the first floor. It was decided that no action should be taken to provide this until a larger scheme was considered, i.e., the building of another Men's Ward for at least 12 beds. Yet another matter of some moment is the provision of further accommodation for staff. When the Hostel was erected to house 20 nursing staff, the Committee built within their resources, and did not contemplate that within five years the need for extension would arise. But this, as other considerations, have cropped up in the train of developed hospital service. When the time comes for extension to the Hostel, fortunately there is sufficient site space available.

### The Growth Of The Work.

The figures which give an exceptional record of work for 1934, and compared with 1933, are:

	1934	1933
No. of In-patients ... ..	867	807
Total days spent in Hospital ...	19,203	19,286
Average daily number of beds occupied	52.61	52.4
Average stay per patient, days ...	22.14	23.89
No. of operations performed:		
In-patients 532 }	1,220	532 } 1,195
Out-patients 680 }		
No. of patients treated in X-Ray Department	1,114	702

	1934	1933
No. of Out-patients (Dispensary)	170	194
No. of patients in Ophthalmic Department	77	—
All-in cost per day ... ..	7/11	7/1

The growth of the work is indicated in a comparison with only ten years ago, when there were 535 In-patients, 516 operations performed, and an average daily number of beds occupied of 37.

#### Surgical.

In the previous report the Surgical side of the work of the Hospital was mentioned as having given a record which had been unequalled. Again the same reference can be made. No fewer than 1,220 operations were performed—on In-patients 532, and on Out-patients 688; or 25 more on Out-patients than in 1932. The Committee feel justified in emphasising that visitors versed in hospital knowledge remark the splendidly equipped theatre unit we have. An emergency lighting set has been provided for this unit to meet the exigency of a mains breakdown, thus relieving anxiety which had been felt that this might happen when operations were being done.

#### Out-Patients.

It has been practically a continuous sequence to report fewer patients in the Out-patient department through the medium of subscribers' tickets. Only 170 patients availed themselves of this avenue of service, and this is again the lowest number on record, comparable with 1,484 twenty years ago, and 772 ten years ago.

#### Ophthalmic Department.

In connection with this side of the work the Ophthalmic Department was opened on February 26th of last year, and up to December 31st, 77 patients had the facilities offered at the weekly sessions. These services, the Committee are gratified to report, have been very much appreciated in the district, and have proved that the opening of this Department met a much needed want for West Penwith.

#### X-Ray.

The new complete X-Ray unit had its first full year's working in 1934. It has given a service which has justified the courageous step of its provision, with the most modern

equipment obtainable. This apparatus is inspected and overhauled quarterly by the Victor X-Ray Corporation, who installed it, so that it is maintained in a high state of efficiency. Here too the record of service is emphasised by the fact that there were no fewer than 1,114 patients, compared with 702 in 1933, and by far the greatest number ever dealt with.

#### Patients.

The total amount actually received during the year from all patient resources was £4,671 8s. 10d., which is the largest amount ever received, and which, of course, was to be expected in view of the much greater service rendered. But the figure would have been even more if some who benefited had realised their financial obligations. It is a regrettable fact that a considerable sum is owing to the Hospital for services which those financially indebted to the Institution themselves sought.

#### The H.S.A.

Of the amount mentioned as received from all patient sources, £1,633 12s. was contributed by the Hospital Saving Association for its members—231 In-patients, 172 Out-patients, and 120 X-Ray patients; and comparable with £1,722 12s. 6d received in 1933 for 206 In-patients, 124 Out-patients, and 77 X-Ray patients.

It will be remembered that in their previous report the Committee had to regretfully record that the Hospital Saving Association had notified that as from January 1st, 1934, there would be a reduction of 1/- per day to the Hospital in respect of each member who became an In-patient. This in consequence of the large amounts paid out in benefits in this area. This reduction was seriously reflected in the amount received for H.S.A. patients in the past year. The hope was that with a reorganisation in administration the loss to the Institution would not be eventually so serious as the proposed reduction threatened. Now at the end of the year we are enabled to state the actual result of the reduced payment. Although there were 25 more In-patients than in 1933, the income from that source was £123 12s. less. Nevertheless, there is justification for hoping that the new Administrative Committee (which comprises members of the H.S.A., representatives of the Hospital Committees of Penzance and St. Ives, and two public representatives) will have some beneficial effect on

the working of the Association in the area embracing Penzance and St. Ives and the district West of those boroughs. But deficiencies over and above the amount contributed by members over the whole area, as a result of benefits received, have persisted, and now the Committee have again to report another re-arrangement in the method of payment to the Hospital for services rendered. It is proposed that each scheme must stand upon its own feet. The new method of reimbursement will be that instead of 5/- per day for each patient, there will be—regardless of the number of H.S.A. members who have the services of the Hospital—an interim payment quarterly of 50 per cent. of the contributions of the members. Of the remainder the balance will be handed to the Hospital after the deduction of 10 per cent. for administration; of not more than 15 per cent. for extra hospital benefits; and of the cost of treatment for members in hospitals outside the area. Under the circumstances the Committee feel they have no alternative but to again accept the position for twelve months, and fervently hope that the new arrangements will eventually have a beneficial effect upon the working of the scheme.

With gratitude the Committee accepted the gift of a bonus of £9 from the local G.W.R. Group of the H.S.A., and the generous grant of a bonus of £80 from the West Penwith Joint Group Council.

#### Financial Administration.

The re-organised Financial Administration of the Hospital which MR. G. O. REDFEARN, F.C.A. (of MESSRS, WHITAKER & REDFEARN, Chartered Accountants) so generously undertook, has worked most satisfactorily, and has been very beneficial. The Committee desire to publicly acknowledge with gratitude the audit of the accounts by MESSRS. WHITAKER & REDFEARN without any charge whatever to the Hospital.

The statement of income and expenditure shows that the ordinary income totalled £7,358 1s. 9d., and the ordinary expenditure £7,658 os. 4d., giving an excess of ordinary expenditure of £299 18s. 7d. over ordinary income.

As marking the development of the Hospital on the financial side, it is interesting to note that ten years ago the income was £3,880 7s. 1d., and the expenditure £4,126 7s. 8d.

### The Late Mr. Geo. Poole.

The Committee regret the passing of MR GEORGE POOLE, who at one time was actively associated with the management of the Hospital, and was always an annual subscriber to the funds.

### Gifts.

Grateful acknowledgment with justifiable pride can be made that the Hospital increases its circle of friends who not only give it their sympathy, but practical help. To the subscribers, who are to be regarded as a bulwark, the Committee are most grateful. They wish there were more. In the past few years many of those who had been subscribers of long standing, have passed away, and the difficulty of finding friends with such generous hearts is great. For an Institution performing such service, the subscription list of £407 is a small one. Three subscribers have recently very generously doubled their subscriptions; but there is great need for new interests. Many thanks too to the 201 persons, and 44 religious, social, and educational bodies, who made gifts in kind in 1934.

The churches gave the Hospital £192 14s. 9d., for which we are most thankful, both to the clergy and the ministers and to those who contributed to this gift. It is gratifying to note that this amount is larger than in the previous two years.

During the year legacies received and acknowledged with gratitude were £413 7s. 2d. from MRS. EMMA TRIGGS, £116 14s. 3d. from MR. GEORGE POOLE, and £45 from MR. GEORGE ONION.

For £100 the Committee are much indebted to a lady who wishes to remain anonymous.

As their President, and as one of the best friends of the Hospital, the Committee again desire to express their thanks for her constant concern in the activities of the Institution, to MRS. W. E. T. BOLITHO, whose work through the Linen League is also much valued. From the League last year the Hospital received linen worth £76 3s. 5d.—a very much appreciated gift.

Through the medium of flag days £212 17s. 7d. was contributed, by Penzance (embracing the added area to the borough), £90; St. Ives, Carbis Bay and Lelant, £75 10s. 7d.; and the Scillies (with collections made during the season on the R.M.S. Scillonian), £47 7s. For the organisation which

produced this invaluable financial assistance, the Committee would thank the then Mayor and Mayoress of Penzance (ALD. & MRS. J. W. MEEK), MR. MARTIN COCK of St. Ives, and MR. FRED WARD of St. Mary's, Scillies; those who so generously assisted them in the collections, and those who made the gifts possible by giving. Through the St. Buryan Dramatic Society, MISS D. STONE has raised the contribution to the Hospital from that source to £218 10s.—a record of continuous help which is cause for much gratitude.

A gift made during the year which has since given endless pleasure to the patients in the Men's and Women's Wards, was the wireless installation for which MR. T. HAROLD RODDA and his brother, of Penzance, made themselves responsible, with the provision of headphones for each bed. MESSRS. RODDA can be assured of the appreciation of the patients, and the thanks of the Committee, for their kindness and thoughtfulness.

For their ready assistance at all times in the transfer of patients inside the Hospital, the members of the Penzance Division of the St. John Ambulance are given sincere thanks.

#### Our Staff.

In conclusion the Committee would beg to acknowledge splendid service given every day and always, and upon which the patient must depend, on the surgical, medical, and nursing side. The performance of increased work consequent upon the great development of hospital service, has been undertaken with a spirit worthy of the best traditions of the medical and nursing professions. So to the Medical Staff, and to the Matron for her ceaseless regard for the welfare of the patients, assisted by the Nursing Staff, the Committee place on record a deep sense of grateful appreciation.

Signed on behalf of the Committee of Management,

W. G. GOODFELLOW,

Hon. Secretary.

*We have prepared the foregoing Balance Sheet and Accounts of Income and Expenditure from the system of Hospital records recommended by us to the Finance Committee, and have had all the information and explanations we have required.*

*In our opinion the Accounts are properly drawn up to show the result of the year's working and state of affairs of the Hospital, according to the best of our information.*
