THE TRUDEAU SANATORIUM
and
THE EDWARD L. TRUDEAU FOUNDATION

The Trudeau Sanatorium was founded in 1884 by the late Dr. Edward L. Trudeau to help self-supporting people suffering from tuberculosis.

The institution was definitely intended for those who could only pay part of the cost. The deficit in maintenance is and always has been made up by annual gifts from the public and the income from endowment funds. The charges to patients average three-quarters of the cost, but from 15 to 20 per cent receive further assistance from the Free Bed Funds. Additional endowment for the general maintenance and for the Free Bed Funds is greatly needed, and legacies are desired to strengthen the now enlarged institution.

The following brief summary sets forth the objects and departments of the institution as now carried on:

1. *The Trudeau Sanatorium* is for the treatment of favorable types of pulmonary tuberculosis and for patients of limited means. The full capacity is 185 beds.

2. *The D. Ogden Mills Training School for Nurses*, established in 1912, is for the training of young women who have arrested tuberculosis as well as qualified healthy women who desire special training.

3. *The Edward L. Trudeau Foundation* is an endowment fund in memory of Dr. Trudeau, established in 1916, for the support of research and teaching in tuberculosis. The fund is devoted to the following purposes:

a. *The Trudeau School of Tuberculosis* for the instruction of physicians, gives a six weeks' postgraduate course covering the modern diagnosis and treatment of tuberculosis.

b. A system of *Fellowships* for study and research in the sanatorium and laboratories, which provide support for young physicians and scientists while undergoing treatment.

c. *The Research and Clinical Laboratory*, located at the Sanatorium, containing facilities for the study of bacteriology, chemistry and pathology. It includes a large medical library.

d. A department for *Statistics*, and for recording annual reports of patients.

e. *The Saranac Laboratory for the Study of Tuberculosis*, located in the village of Saranac Lake, which was formerly the private research laboratory of Dr. Trudeau, and is now the headquarters of the Trudeau School and of pathological study.

Annexed to the Saranac Laboratory is the John Black Room and Medical Library, which serves the Trudeau School and Fellows as well as the village physicians and where lectures are given.

THE PRESIDENT'S REPORT

The Trustees of the Trudeau Sanatorium are able to report the completion of another successful year in the operation of the institution.

Although the general economic situation was reflected in a moderate diminution in the amount of contributions received for the general work of the sanatorium this has been offset by economies in administration instituted by our able superintendent, Mr. C. R. Armstrong, so that we have been able to meet all of our obligations.

Although there exist several important needs for additions to our plant and equipment, the Trustees do not plan any attempt to meet them until conditions are more favorable.

We are, however, faced with increasingly insistent demands for financial assistance for patients in need of our care who are unable to meet even the moderate rates at which board and treatment are offered.

Our Free Bed Fund, established to meet such needs, is very inadequate under present conditions and we have been compelled to draw very heavily upon our general funds to aid the more pressing cases and to refuse many other proper requests for assistance from sheer inability to meet them.

We wish, therefore, particularly to stress this great need and venture to suggest to our generous friends additional support for this most appealing humanitarian phase of our work.

We believe that Trudeau offers facilities for treatment equal to any in the country. The environment is ideal and the medical care under the leadership of Dr. Heise is of the highest order. We are hopeful that additional financial support will make it unnecessary for us to exclude from these advantages those who often are in especial need of them.

The Sanatorium has suffered an irreparable loss in the death of one of its most devoted friends, Mrs. Whitelaw Reid. From its very inception Mrs. Reid has been one of the most generous and understanding supporters of the institution and her memory will always be perpetuated by her numerous gifts in buildings and equipment and inscribed in the hearts of all friends of Trudeau.

The details of the various activities of the Sanatorium will be found in Dr. Baldwin's report which is commended to the careful attention of all interested in the treatment of favorable cases of tuberculosis at a moderate cost and in the furtherance of the scientific study of the problems encountered in the course of this disease.

JAMES ALEXANDER MILLER

ANNUAL REPORT OF THE CHAIRMAN OF THE
EXECUTIVE COMMITTEE AND VICE-PRESIDENT
OF THE TRUDEAU SANATORIUM

AT THE ANNUAL MEETING, NOVEMBER 9, 1931

The past year was one of growing anxiety on the part of many institutions but ended without serious retrenchment or lowering of standards for ours. We can surely congratulate our Finance Committee on their wise investment of our endowment funds. The income from annual donations fell off about \$8,000, but the interest on capital funds was maintained while the cost of operations was lessened considerably.

The death of Mrs. Whitelaw Reid, one of the early and constant contributors, leaves a large gap in the ranks of the loyal friends of Dr. Trudeau. A list of her benefactions would touch every part of the institution, though her outstanding interests were the nurses' training school and the nurses' homes.

Mrs. Waldron P. Brown was another whose gratitude to Doctor Trudeau was expressed by a fund given in memory of her daughter. Her death occurred in December, 1930.

Mr. Nathan Straus, philanthropist and donor of one of the earliest cottages (1889) died at the age of 84 in January, 1931.

The passing of a devoted friend of the physicians of the Sanatorium, Dr. John A. Munroe, consulting dentist, removes a high-minded, skilled and sympathetic member of the Saranac Lake colony.

Maintenance Cost: Reduced food costs, combined with a high average of patients, brought down the weekly cost *per capita* from \$25.43 in 1930 to \$24.42 in 1931. The greater cost of nursing and treatment was balanced by using all the vacant and less desirable rooms for ex-patients who chose to prolong their stay and who otherwise must have returned home. The food cost was \$0.2226, or \$0.0576

NOTE: The death of Mr. Samuel Mather, philanthropist, of Cleveland, Ohio, benefactor of the Trudeau School and one of our trustees, occurred on October 18th, 1931, after the close of the fiscal year. Mention will be made later in my report of his part in our educational work.

less per meal, and without any change in quality. We owe this good record for the year to the close oversight of Superintendent Armstrong and Miss Agnes Duggan, housekeeping supervisor.

Employed Patients: In all departments of the institution wherever possible, ex-patients are given employment, and these opportunities are eagerly sought. The demand has been greater this year due to the loss of employment by salaried workers in the large cities and the discrimination against tuberculosis patients. About 90 patients were utilized in some capacity. Their earnings reached \$25,000.00. Twelve nurses were given employment during their convalescence as patients. To these numbers may be added the 12 fellows and 22 other tuberculous employees of the Trudeau Foundation, a total of 136.

Donations and Legacies: Cash donations to the sum of \$18,515.58 were received for the General Fund, and \$44,186.41 for special purposes, of which \$41,256.91 were final payments from Mrs. Reid on Reid House. This has been gratifying evidence of the devoted interest of the regular donors in a year of depression. The bequests for 1931 amounted to \$48,988.49 and are helpful additions to the Endowment Fund. The following were received:

Estate of Ethel M. Bryne (former patient) -----	\$9,208.00
Estate of Mrs. Waldron P. Brown -----	3,000.00
Estate of Mrs. Susan G. Leland -----	1,905.49
Estate of Mrs. John S. Kennedy -----	9,875.00
Estate of Mrs. Laura E. O'Dea -----	25,000.00

A token of Mrs. Whitelaw Reid's unfailing thoughtfulness was a provision in her will of \$20,000 for the Sanatorium.

Free Bed Fund: The overdraft of more than \$5,000 the previous year has not been met by the receipts in 1931 and because of the urgent appeals for help on the part of new patients. The receipts from donations fell off \$3,000 but interest earnings somewhat increased from added capital in the Free Bed endowment. Forty-five patients received rebates to the sum of \$10,114.09. Receipts were \$10,393.21, leaving a small balance to apply to the previous deficit. The Alumni Free Bed Fund was \$311.75.

The salaried workers in the large cities who comprised most of the Trudeau patients have suffered severely from loss of positions during the business depression. This has had the effect of reducing the number of applicants as well as the number of those in favorable

condition, and emphasizes the need of increasing our Free Bed Fund in the years to come.

Construction and Improvements: Practically all the new construction in 1931 was limited to the enlargement of the main kitchen and diet kitchen. Rearrangement of the kitchen machinery was necessary, and some new equipment was added. The cost of the principal items was as follows:

Restoration of Nurses' Home (Reid Fund)	. \$11,275.81
Main kitchen addition and equipment	. 3,464.79
Diet kitchen extension	. 1,651.15
New trunk sewers and connections	. 1,223.50

The roofs of the Trudeau, Ladd, Gardiner and Kerbs Cottages were renewed and the old reservoir relined and roofed. The removal of the Pine and Lea Shacks was completed. An automatic stoker was installed in the laboratory furnace, and this will be done on other large furnaces where possible. A new trunk sewer to serve the Village of Saranac Lake has been laid along the river, passing in front of the Sanatorium and leading to the new sewage disposal plant being erected by the Village. The new connections with the Sanatorium sewers were made by the contractor, Mr. W. L. Lose, who kindly gave a receipted bill for his services of \$80.00.

Another extensive construction project has been the new cement state highway known as the Bloomingdale Road. Owing to the widening and relocation of this highway, about one and a half acres of the frontage of our institution has been taken. It is expected that compensation will be paid for this land, which was wooded and does not affect the view from the Sanatorium. The improved double-lane highway will bring the Village still nearer to Trudeau.

The widening of the pavement within the grounds from the south gate to the James Memorial which had been planned was postponed until a later date on account of the heavy traffic diverted through the Sanatorium road during the summer.

Medical Report: A slight decrease in the number of patients treated last year is to be noted as compared with the maximum year, 1930.

The total number treated was	. 523
The number remaining Sept. 30, 1931	. 207
The number discharged was	. 316
Those remaining an average of eight months were	247

Classification	Cases	Per cent
Non-tuberculous	9	3.1
Suspected tuberculosis	9	3.1
Arrested	30	10.2
Apparently arrested	36	12.3
Quiescent	112	38.2
Improved	68	23.2
Unimproved	25	8.5
Died	4	1.4
	293	100.0
Convalescent patients (previously reported)	23	
	316	

The average daily census was 202.

The waiting list has shortened appreciably due to the depression and the necessity of many to seek entirely free treatment. On the other hand, better diagnosis and systematic health examinations are discovering more cases, thus keeping up with the added beds of the institutions.

Medical and Dental Departments: The resident staff consists at present of Dr. F. H. Heise, medical director; Dr. John Steidl, first assistant; Dr. M. G. Buckles, Dr. A. B. Blinn and Dr. Kirby Howlett. Others who served on the staff as volunteers are Dr. A. G. Hahn, Dr. W. K. Whitehead, Dr. Joseph McCarthy, Dr. J. W. Strieder and Dr. J. V. Leech. The medical staff has carried a heavy load of extra work owing to the wider employment of pneumothorax treatment. Much credit is due to the Medical Director and the Visiting Physicians, Drs. Trudeau, Packard and Hayes for their personal and careful study of the patients in advising treatment.

Dr. Joseph L. Carr has achieved an increasing reputation for his painstaking dental work. He has made 513 complete oral examinations and 1570 restorations during the past year.

D. Ogden Mills School of Nursing: Apart from the regrettable illness of our superintendent of nurses, Miss Sawtell, the past year has been one of much progress. With the opening of Reid House, the new nurses' home, there has been an increasing number of applicants, most of whom are in excellent health. Each nurse now has a single room and everything needed for comfort. There were twelve

graduated, and twenty new pupils were admitted, thirteen of whom are still on probation. Six completed the affiliated course at Yale and ten are now there. Twenty-five pupils are now in the school. Four postgraduate nurses completed the course out of eight enrolled, the others not having fulfilled the requirements. The postgraduate course, undertaken as an experiment, has been discontinued for the present owing to the above-mentioned unsatisfactory result and lack of interest of the pupils.

We are indebted to Miss Bessie Tibbits for her conscientious work as acting superintendent, and to Miss Bell, her assistant. Miss Marion Gary of the New Haven Hospital was instructor during the absence of Miss Sawtell.

At the graduating exercises a tribute to the late Mrs. Whitelaw Reid was made by Miss Alta Dines, Director of Public Health Nursing of the A. I. C. P. of New York.

The X-ray Department: Owing to incessant work for many years Mr. Sampson, our valued director, was obliged to take a prolonged rest which has been as helpful as it was needed. While he was absent the staff of assistants carried the duties efficiently and without interruption. The record of 7900 films taken shows a decrease of 7 per cent compared with the previous year, yet considering the lessening of private laboratory work this is not remarkable. The fifth annual examination of about 1500 Saranac Lake school children was made. The results are not yet ready for publication but the study will be a valuable one. Three research papers were published during the year from the X-ray Department, viz., "The Value of the Roentgenologic Examination in Pulmonary Tuberculosis" by Dr. Lawrason Brown and Mr. Sampson; "Tri-Vision, Multiple, Revolving Stereoscope" by Mr. Sampson; and "The Diagnosis and Treatment of Tuberculosis of the Large and Small Intestine" by Dr. Brown and Mr. Sampson.

Some modern apparatus was procured to keep the equipment of the laboratory up to date. The staff numbers 11 ex-patients at present.

Scholfield Memorial Workshop: A summary of the work of this admirable department does not give a true measure of the good done and its value to the patients. There were altogether 365 occupied in arts and crafts, of whom 58 were infirm and bed patients, 285 ambulatory, and 22 other individuals, and the hours occupied have increased.

Miss Pierce, the Directress, has lost one of her beloved assistants and a dear friend, Miss Lillian Hunt, who will be missed greatly. Miss Neilson Knox, who was long a voluntary assistant, has since been engaged as a regular instructor. Miss Schiefer continues as an assistant and volunteers included Mrs. Bumford, Miss Millicent Pierce, Mr. Hoag and Mr. Blum. Fourteen different subjects are now taught, silvercraft being the most popular.

Chapel Service and Entertainments: The fifteenth service in memory of Dr. Trudeau was fittingly observed by the Rev. George Boys, rector of St. Luke's Church, Saranac Lake. The clergymen who have served each month in succession included the Rev. George Boys, the Rev. H. W. Lyon and the Rev. F. W. Bevan. Visitors who officiated were the Rev. G. A. Masa and Rev. F. S. Hort. Organists who contributed their services were Mrs. T. B. Meury, Miss Caroline Manning and Miss Louise Leonard. Appreciation is also due the Rev. Dorothy Alger and Miss Christine Burdick, church visitors who called on patients, and to Mrs. George Tittman who gave cheer by her visits to them during the summer.

The patients and their friends again had the greatly appreciated privilege of listening to two concerts by the Boston Symphony Ensemble, through the courtesy of Lake Placid Club. Miss Barbara Hilliard, soprano, joined in rendering pleasure at one of these concerts. The annual lecture given by the distinguished writer and historian, Dr. James J. Walsh, related his summer travels in Yucatan. The evenings have been pleasantly passed around bridge tables, with an occasional musical or motion picture entertainment.

The Pilgrimage to Saranac Lake: A notable event for the Sanatorium was the visit of a group of nearly 200 physicians, tuberculosis association secretaries, social workers and nurses, who came on a special train from Syracuse on May 15th. The trip was inspired and arranged by Dr. Philip P. Jacobs of the National Tuberculosis Association, to follow the annual convention. The Sanatorium provided luncheon, and a local committee in Saranac Lake arranged for a tour of other institutions and dinner for the "pilgrims".

A special souvenir number of the Journal of the Outdoor Life was published at the time of the pilgrimage. It contained historical articles about Trudeau Sanatorium, the Saranac Laboratory and the Trudeau School. It has been sent to many friends and former patients.

The Medical Library: The number of bound volumes now owned has increased to 4950, besides 7500 pamphlets, and the classification of these has now been completed by Miss Margaret Hort, the librarian. Miss Rachel Smith has continued to give efficient assistance to Miss Hort. Others who have given helpful voluntary aid were the Misses Virginia Reid, Mary Gillespie and Evelyn Train. Books have been donated from the library of the late Joseph L. Nichols by his widow; also from the estate of Dr. I. Wygodski, and many others. All available space is now filled and more room will be needed for housing this library, as well as the Mellon Library.

The Mellon Library: Trudeau patients are reading much more than formerly. This is the report of the librarian, Miss Hort. With 4670 volumes and a large selection of periodicals contributed by Miss Annie Burr Jennings and Miss Isabel Hopkins, whose thoughtful gifts have been most helpful, every inducement is offered for reading. Many books and journals were donated by patients and others interested. It is impossible to mention all by name, but a word of thanks is due them. The library has been entirely renovated and made attractive for readers, due largely to the efforts of the librarian and her assistant, Miss Smith, who have stimulated interest.

Mr. Paul Ryley and Mr. F. P. Ellsworth have also contributed enjoyable musical programs, including talks on music given at the library.

Research and Clinical Laboratory: The development of Dr. Petroff's field of study has taken a new direction during the past year. The difficult problem of chemotherapy is now the subject. Having covered the groundwork of variations in virulence, he is endeavoring to find from chemistry methods of checking the growth of virulent bacilli in the animal body. A liberal gift of \$10,000 from the Chemical Foundation has furnished the means, together with help already given by the Rockefeller Foundation, the Lillia Babbitt Hyde Foundation and the friend who remains anonymous. The added support has enabled the employment of another chemist, Dr. William Gump, and an experienced bacteriologist, Dr. T. M. Huntoon. When a business revival is assured it is proposed to enlarge the laboratory, the need for which was pointed out in our last report. Meanwhile the continuation of extra financial support is expected if encouraging results are obtained.

The Saranac Laboratory: The past year has been one of activity and progress limited only by reduction in the budget. The financial situation in general caused a necessary change in some of Dr. Gardner's plans but additional income was secured through the local physicians, who formed the Saranac Lake Academy of Medicine. The stated object of this organization is to secure ample support for the laboratory work as a separate institution. Active and associate memberships are provided for with annual dues of \$50.00, sustaining memberships at \$100.00 and life memberships by a single gift of \$500.00.

Through the medical men and other friends interested, both in Saranac Lake and elsewhere, \$3,105.00 was received up to October 1st, 1931. Provision for memberships at \$10.00 is now proposed to include members of sanatorium and laboratory staffs. Efforts will be made to increase the special endowment of the laboratory because of the restricted sums available from income of the Trudeau Foundation. It is especially due to Dr. H. M. Kinghorn, chairman, and other members of the finance committee of the laboratory, Dr. J. W. Price, Dr. E. N. Packard, Dr. Lawrason Brown and Dr. Edgar Mayer, that the needed impetus has been given for further aid. For the purpose of emphasizing the separate existence of the Saranac Laboratory, a separate report will be published.

During the year Mr. D. S. McCrum was added to the staff. Dr. Helen Evarts, who has performed excellent work in the laboratory, left for Boston, and Dr. Eliot Horton Luther has taken her place. Especial mention of the diligent and unceasing labor of Dr. Gardner and Mr. Cummings both in research and pathological sections as well as in teaching, is well deserved. Much credit is due Messrs. Andrew Redlin and Anthony B. Delahant for their voluntary assistance.

The Trudeau School of Tuberculosis; Seventeenth Session: A change from the usual six weeks' course was made for the first time, by giving the essentials in four weeks. This plan was intended to accommodate the increasing number of students, usually young men, who have only a limited time in which to take the work. Of the 25 students, 5 remained four weeks while the others continued for five or six weeks. In compressing the course into one month, certain special subjects such as non-tuberculous lung disease were left to the last two weeks of what had previously been the six weeks' course. Seven scholarships were granted, and among the students 11 states and 5 foreign countries were represented.

The continued help given by the specialists in Saranac Lake is most gratifying, as well as that given by the staffs of the neighboring sanatoria in making the teaching and clinics varied and effective.

The lecturers, besides Dr. Lawrason Brown who gave three chapters on the "History of Tuberculosis", and Dr. Kinghorn who lectured on "Rest and Exercise", were Dr. Willard B. Soper, of New Haven, Conn.; Dr. R. M. Atwater, Commissioner of Health, Cattaraugus County, N.Y., on "Epidemiology"; Dr. S. H. Martin of Seoul, Korea, on "Tuberculosis in Korea", and Dr. George M. MacKee, of New York City, who gave his annual course on "Tuberculosis of the Skin".

The recent death of Mr. Samuel Mather, benefactor of the School, recalls the value of his constructive and intelligent philanthropy for tuberculosis as well as for medicine in general.

Trudeau Foundation: The unbroken line of young medical men and women who in the curable stages of tuberculosis have been able to contribute service while in the Sanatorium, testifies to the wisdom of the Fellowship plan of the Foundation. There were twelve given support during the year, two of whom were laboratory workers, the others clinicians. Five third-year medical student interns were also maintained during the summer months. Eleven published studies appeared in the annual collection. Additions of \$32,850 to the endowment received for the Saranac Laboratory, were further installments from the Milbank Memorial Fund and from Mr. Frank B. Black.

(Signed) EDWARD R. BALDWIN, M.D.,
Vice-president and Chairman

NECROLOGY

MRS. WALDRON P. BROWN of New York, contributor for many years, died December 18th, 1930.

MR. NATHAN STRAUS, donor of the Straus Cottage, died January 11th, 1931.

MRS. WHITELAW REID, leading benefactor and founder of the D. Ogden Mills Training School for Nurses, died April 29th, 1931.

DR. JOHN A. MUNROE, consulting dentist to the Sanatorium, died May 17th, 1931.

MEMORIAL AND ENDOWED FREE BEDS

The sum of five hundred dollars (\$500.00) will establish a Free Bed for any period of six months' treatment, as a memorial if desired; or

An Endowed Free Bed may be established in perpetuity to be occupied for such number of hospital days as shall be covered by the income from the endowment given for the purpose.

Such gifts to be named by the donor, and the applicants for the privileges to be subject to the same requirements in the entrance examination, rates for board, and all other rules and regulations existing at the time for patients of the Sanatorium.

FORM OF BEQUEST

I give and bequeath to "THE TRUDEAU SANATORIUM" of Essex County, State of New York, incorporated under the laws of the said State of New York the 4th day of March, 1889, the sum of _____ dollars: To have and possess the same unto the said "TRUDEAU SANATORIUM," its successors or assigns, to the uses, disposition and benefits thereof forever.

NOTE — If the bequest is intended for the research and teaching departments the form should be amended by inserting "The Edward L. Trudeau Foundation of the" before the words "Trudeau Sanatorium" where they occur in the above.

FORM OF DEVISE

I give and devise to "THE TRUDEAU SANATORIUM" of Essex County, State of New York, incorporated under the laws of the said State of New York the 4th day of March, 1889, all that certain piece or parcel of land (with the buildings thereon erected), situated, lying and being, etc. (here describe property): To have and to hold the same unto the said "TRUDEAU SANATORIUM," its successors or assigns, to its own use and behoof in fee simple absolute.
