PART 1: FOOD SAFETY ACT 1990 (CHAPTER 16)

A. GENERAL

The main provisions of the Food Safety Act 1990 came into force on 1 January 1991. The Act covers Great Britain and provides the framework for all its food legislation.

B. KEY PROVISIONS OF THE FOOD SAFETY ACT 1990

PART I: PRELIMINARY

Section 1 defines "food" and other basic expressions used in the Act such as "food business", "food premises" and "food source". **Section 2** extends the meaning of sale to include food supplied in the course of a business and **Section 3** sets out presumptions applying to food and food ingredients, for instance that food commonly used for human consumption found on certain food premises is presumed to be intended for sale.

PART II: MAIN PROVISIONS

Section 7 describes the offence of rendering food injurious to health and **Section 8** sets out the offence of selling or possessing for sale food that does not comply with food safety requirements. This is food that has been rendered injurious to health, which is unfit for human consumption or is so contaminated that it would not be reasonable to expect it to be used for human consumption. **Section 8** also states that if any part of a batch of food does not comply with food safety requirements the whole batch is presumed not to comply, unless the contrary is proved.

Section 14 makes it an offence to sell food which is not of the "nature or substance or quality" demanded by the purchaser and **Section 15** creates an offence of falsely describing, advertising or presenting food.

General Enforcement Provisions

Section 9 of the Food Safety Act gives enforcement officers powers to inspect any food intended for human consumption and to detain and seize food suspected of not complying with food safety requirements. It allows a Justice of the Peace to condemn food when he or she is satisfied that food safety requirements are not met. **Section 10** provides for improvement notices to be issued where food hygiene or food processing regulations have been contravened. **Section 11** provides for prohibition orders to be issued by the courts where there is a risk of injury to health and the proprietor of the food business has been convicted of an offence under food hygiene or food processing regulations. **Section 12** provides emergency prohibition powers for use by authorised officers where there is an imminent risk of injury to health. **Section 13** gives Ministers powers to make emergency control orders prohibiting commercial operations in relation to food, food sources or contact materials when there is an imminent risk of such food causing such injury to health.

Defences

Section 20 enables an enforcement authority to "by-pass" the immediate offender and to prosecute the real offender. **Section 21** provides for a defence if defendants can prove to a court that they took all reasonable precautions and exercised all due diligence to avoid committing an offence. The defendant is deemed to have satisfied this due diligence defence in certain circumstances. These deemed due diligence defences are not available to a defendant who manufactured or imported the food. **Section 22** contains a special defence for businesses which publish an advertisement in good faith.

PART III: ADMINISTRATION AND ENFORCEMENT

Section 32 sets out who may enter premises to enforce the Act and explains what they can do while on premises. It also makes unauthorised disclosure of information obtained when using such powers an offence. **Section 33** makes it an offence intentionally to obstruct a person enforcing the Act or to provide false or misleading information.

Section 34 provides time limits for prosecutions.

Penalties and Modes of Trial

Section 35 sets out the penalties for offences. For most offences a Crown Court may impose a prison sentence of up to two years and/or unlimited fines. Magistrates' Courts generally may impose a fine of up to £5,000 and a prison sentence of up to six months. For the most serious offences Magistrates' Courts may impose a maximum fine of £20,000. Magistrates' Courts may also impose penalties for obstructing an enforcement officer. In Scotland equivalent penalties may be imposed by the Sheriff.

Section 36 provides that someone in authority in a corporate body is liable for prosecution where they are proved to have acted negligently or consented to the alleged offence. **Sections 37 and 39** provide for appeals against decision of an enforcement authority to serve an improvement notice, and to refuse certificates under **Section 11(6) or 12(8)**. The appeal is to a Magistrates' Court or, in Scotland, to the Sheriff, and further appeals are available to the Crown Court for the cases referred to in **Section 38**.

Offences against regulations and mode of trial may be detailed in the individual regulations having effect under the Act. Penalties and modes of trial in individual regulations having effect under the Act have been altered by specific penalty Regulations. These are the Food (Revision of Penalties) Regulations 1982 and the Milk and Dairies (Revision of Penalties) Regulations 1982 which lay down the mode of trial and the Food (Revision of Penalties) Regulations 1985 and the Milk and Dairies (Revision of Penalties) Regulations 1985 which lay down the maximum fines for summary convictions for offences under the regulations. Existing regulations with offences and penalties have also been amended by Consequential Modifications Orders made under the Act (see pages 4 and 5).

PART IV: MISCELLANEOUS AND SUPPLEMENTAL

Section 54 provides for the Act to apply to the Crown and to Crown premises subject to special arrangements and certain exemptions. The Section came into effect on 1 April 1992. **Section 55** amends the Water Act 1989 to extend its controls on the quality of water used for domestic purposes to cover water used in food production.

PART 2: FOOD LABELLING AND THE MARKING OF FOOD

A: FOOD LABELLING REGULATIONS

SI Number

1996 No 1499

THE FOOD LABELLING REGULATIONS 1996 - implement Council Directive 79/112/EEC (OJ No. L33 8.2.79) on the approximation of the laws of the Member States relating to the labelling, presentation and advertising of foodstuffs for sale to the ultimate consumer (excluding the provisions relating to net quantity, and except in relation to certain additives), as now amended by Council Directive 85/7/EEC (OJ No. L2, 3.1.85), 86/197/EEC (OJ No. 144, 29.5.86) and 89/395/EEC (OJ No. L186, 30.6.89) and Commission Directives 91/72/EEC (OJ No. L42, 15.2.91) and 93/102/EEC (OJ No. L291);

They also implement Commission Directive 87/250/EEC (OJ No. L113, 30.4.87) on the indication of alcoholic strength by volume in the labelling of alcoholic beverages for sale to the ultimate consumer;

Council Directive 89/398/EEC (OJ No. L186, 30.6.89) on the approximation of the laws of the Member States relating to foodstuffs intended for particular nutritional uses;

Council Directive 90/496/EEC (OJ No. L276, 6.10.90) on nutrition labelling for foodstuffs;

Commission Directive 94/54/EC (OJ No. L300, 23.11.94), as now amended by Council Directive 96/21/EC (OJ No. L88), concerning the compulsory indication on the labelling of certain foodstuffs of particulars other than those provided for in Council Directive 79/112/EEC.

The Regulations, which apply to Great Britain, consolidate and replace the Food Labelling Regulations 1984, the Food Labelling (Scotland) Regulations 1984 and the Milk Labelling (Scotland) Regulations 1983. The principal provisions of the Regulations are that all food which is ready for delivery to the ultimate consumer or to a catering establishment, subject to certain exceptions, be marked or labelled with:

- (a) the name of the food;
- (b) a list of ingredients;
- (c) the appropriate durability indication, that is to say;
 - (i) in the case of a food other than one specified in subparagraph (ii) of this paragraph, an indication of minimum durability (a "best before" date);
 - (ii) in the case of food which, from the microbiological point of view is highly perishable and in consequence likely after a short period to constitute an immediate danger to health, a "use by" date;

- (d) any special storage conditions or conditions of use;
- (e) the name or business name and an address or registered office of the manufacturer or packer, or of a seller established within the European Community;

and in certain circumstances:

- (f) particulars of the place of origin of the food, if failure to give such particulars might mislead and;
- (g) instructions for use if it would be difficult to make appropriate use of the food in the absence of such instructions;

(NB - There are certain exemptions and additional requirements listed in the main regulations.)

There are less onerous rules for foods which are non-pre-packed or pre-packed for direct sale.

These Regulations also attach conditions to the use of claims for foods for particular nutritional uses, reduced or low energy value claims, protein claims, vitamin or mineral claims, cholesterol claims, other nutrient claims and claims dependant on other foods; they prohibit medicinal claims. They also lay down a prescribed format for the nutritional labelling of foodstuffs.

The Regulations are amended by:

1998 No 1398 The Food Labelling (Amendment) Regulations 1998

B: DECLARATION ON ADDITIVES

This note provides a general description of the requirements for additives used as ingredients in foods as required by the Food Labelling Regulations 1996.

1. Additives used as ingredients in pre-packed foods to perform certain functions must be declared in the labelling by the appropriate category name of the function. This must be followed by their specific name or serial number. The categories are:

Acid	Flour treatment agent
Acidity regulator	Gelling agent
Anti-caking agent	Glazing agent
Anti-foaming agent	Humectant
Antioxidant	Modified starch
Bulking agent	Preservative
Colour	Propellant gas
Emulsifier	Raising agent
Emulsifying Salts	Stabiliser
Firming agent	Sweetener
Flavour enhancer	Thickener

2. Flavourings may be declared by either that name alone or by a more specific name.

3. In the case of acids, if the specific name includes the word "acid", the category name may be omitted.

4. In the case of modified starches, neither the specific name nor the serial number need be indicated.

5. If an additive serves more than one function in a food the category name which represents its principal function must be used to describe it. Where no category name is available for the function performed by an additive in a food, the additive must be declared in the ingredients list by its specific name. A serial number cannot be used on its own.

6. Non-prepacked foods and foods which are pre-packed on the premises where they are sold are exempt from the above requirements. Exceptions to this exemption are that any additive used in the food to perform the function of an antioxidant, artificial sweeteners, colour, flavour enhancer or preservative must be indicated next to the name of the food, or on a ticket or notice displayed in immediate proximity to the food using the category name. However, in the case of edible ices and flour confectionery there need only be an indication that these additives may be present on a notice displayed near the food.

C: LOT MARKING REGULATIONS

1996 No 1502 THE FOOD (LOT MARKING) REGULATIONS 1996 - set out the lot marking requirements to be applied to all foodstuffs sold for human consumption (unless specifically exempted) including wines and spirits. These revoke and replace the Food (Lot Marking) Regulations 1992. They apply to Great Britain and came into force on 1 July 1996. Like the previous Regulations, these Regulations implement Council Directive 89/396/EEC (OJ No. L186, 30.6.89) on indications and marks identifying the lot to which a foodstuff belongs, as amended by Council Directives 91/238/EEC (OJ No. L107, 27.4.91) and 92/11/EEC (OJ No. L65, 11.3.92). The Directive establishes a framework for a common lot (or "batch") identification system throughout the Community in order to facilitate product recall along the whole of the food chain, for example where a product constitutes a health risk to consumers.

These Regulations:

- set out the general requirement that all food contact materials and articles should not transfer their constituents to food in quantities which could endanger human health or make the food otherwise unacceptable to consumers;
- lay down requirements for labelling materials and articles as suitable for food contact use;
- restrict the use of vinyl chloride monomer (VCM) in the manufacture of food contact plastics, by setting a residual limit of 1 milligram VCM

per kilogram of material or article and a migration limit of 0.01 milligrams VCM per kilogram of food, and laying down the laboratory methods for testing compliance with these restrictions; and

- place controls on food contact Regenerated Cellulose Film (RCF), by establishing a "positive list" of substances that can be used in the manufacture of coated and uncoated RCF, and setting migration limits for some substances.

The 1978 regulations implemented the framework Council Directive 76/893/EEC, which was replaced by Council Directive 89/109/EEC (OJ L 40 of 11.2.89). The 1987 regulations, which re-enact the 1978 regulations, did not require amendment to implement 89/109/EEC.

The Regulations prohibit the sale for human consumption of meat from any bovine animal slaughtered after 28 March 1996 in which, at the time of slaughter, there were more than two permanent incisors erupted, unless it can be proved by reference to documentary evidence that the animal was no more than two years and six months old. The Regulations provide an exemption from this prohibition for meat from certain third countries and meat from eligible cattle from herds registered under the Beef Assurance Scheme. The Regulations also set out the operating rules of the Beef Assurance Scheme.

- 1996 No 2458 The Bovine Spongiform Encephalopathy (Amendment) Order 1996, made under the Animal Health Act 1981 came into force on 24 September 1996. It introduces a revised definition for rendering, enables (provided certain conditions are met) the sale of mammalian meat and bone meal (MBM) products at premises where livestock feed is produced, and removes the record keeping requirements for retailers selling small packages (26 kg or less) of fertiliser containing MBM.
- 1996 No 3183 The Bovine Spongiform Encephalopathy (No. 2) Order 1996 revokes the BSE Order 1996. In making provision for the slaughter of animals exposed to BSE (the selective cull), it implements in part Article 2 of Commission Decision 96/385 (OJ No. L151, 26.6.96).

This legislation introduced controls on the import of Specified Risk Material (SRM) and certain food products and feedingstuffs containing SRM. Together with the Specified Risk Material Regulations 1997, it also remade and revoked, with some changes (in particular the extension of controls for sheep and goat SRM), the Specified Bovine Material Order 1997 and the Heads of Sheep and Goats Order 1996.
- *1997 No 2965 The Specified Risk Material Regulations 1997, made under the Food Safety Act 1990, came into force on 1 January 1998. This legislation extended GB domestic controls on the handling and permitted use of Specified Risk Material (SRM) from cattle, sheep and goats. In particular, it extended the existing controls on heads of sheep and goat SRM to include the removal of spleen of all sheep and goats and the spinal cord and tonsils of those over 12 months of age or with one or permanent incisors erupted through the gum. Together with the Specified Risk Material Order 1997, it remade and revoked the Specified Bovine Material Order 1997 and the Heads of Sheep and Goats Order 1996.
- *1997 No 3062 The Specified Risk Material (Amendment) Regulations 1997, made under the Food Safety Act 1990, came into force on 1 January 1998. This legislation amended the Specified Risk Material Regulations 1997 to make it clear that the requirement for spinal cord to be removed from sheep and goat carcasses aged over 12 month, does not apply to carcasses of animals slaughtered before 1 January 1998. It also clarified that the prohibition on the sale of food containing or derived from Specified Risk Material does not extend to those products not listed in the Specified Risk Material Order 1997.
- 1997 No 2387 The Bovine Spongiform Encephalopathy (Amendment) Order 1997 provides that slaughter notices under the selective cull may be served by inspectors of the Minister, as well as veterinary inspectors.
- 1997 No 2365 The Bovine Spongiform Encephalopathy Compensation (Amendment) Order 1997 makes a number of changes to the valuation arrangements under the selective cull.
- 1998 No 1135 The Bovines and Bovine Products (Trade) Regulations 1998 revoke and replace the Bovine and Bovines (Despatch Prohibition and Production Restriction) Regulations 1997. These Regulations implement fully in Great Britain the requirements of Commission Decision 98/256/EC, which replaced Commission Decision 96/239, on emergency measures to protect against BSE. They continue to

prohibit the despatch from GB to third countries and member States of bovine animals and embryos and meat and other products derived from bovine animals slaughtered in the UK. Together with the equivalent Regulations in Northern Ireland, they provide for a derogation from this ban for beef from Northern Ireland produced in accordance with the Export Certified Herds Scheme rules. They also make further provision in respect of controls on products and by-products produced from UK slaughtered bovines and regulate the consignment of bovine vertebral column to establishments registered under these regulations. Finally, they tighten the conditions for the export of meat and other products derived from bovines slaughtered outside the UK.

C: FEEDINGSTUFFS

THE AGRICULTURE ACT 1970 (as amended)

This is the primary legislation governing controls on feedingstuffs. One of its main requirements is that feedingstuffs when sold should be fit for their intended purpose and free from harmful ingredients. A statutory statement is required on the composition of the feed and other information. The following sets of Regulations are made under (Part IV) of the above Act and cover Great Britain (Northern Ireland has separate but parallel legislation).

SI Number

1995 No 1412 THE FEEDING STUFFS REGULATIONS 1995 - implements the following main EC Directives:

Council Directive 70/524/EEC (OJ No. L270, 14.12.70) concerning additives in feedingstuffs;

Council Directive 74/63/EEC (OJ No. L38, 11.2.74) on undesirable substances and products in animal nutrition;

Council Directive 77/101/EEC (OJ No. L32, 3.2.77) on the marketing of straight feedingstuffs;

Council Directive 79/373/EEC (OJ No. L86 6.4.79) on the marketing of compound feedingstuffs;

Council Directive 80/511/EEC (OJ No. L125, 21.5.80) authorising in certain cases, the marketing of compound feedingstuffs in unsealed packages and containers;

Council Directive 93/74/EEC (OJ No. L237, 22.9.93) on feedingstuffs intended for particular nutritional purposes.

These Regulations contain detailed provisions on the composition and labelling of feedingstuffs. They contain a list of additives and protein sources which are permitted for use in feeds and limits for undesirable substances.

The Regulations are amended by:

- 1996 No 1260 The Feeding Stuffs (Amendment) Regulations 1996;
- 1998 No 104 The Feeding Stuffs (Amendment) Regulations 1998
- 1998 No 2072 The Feeding Stuffs (Amendment) (No. 2) Regulations 1998
- 1982 No 1144 **The Feeding Stuffs (Sampling and Analysis) Regulations 1982** - implements the following Directives:

Council Directive 70/373/EEC of 20 July 1970 on the introduction of Community methods of sampling and analysis for the official control of feedingstuffs;
New methods and amendments to existing methods are introduced by Commission amending directives. The most recent of which are:

Commission Directive 93/28/EEC (OJ No. L179, 22.7.93);

Commission Directive 94/14/EEC (OJ No. L94, 13.4.94).

The Regulations set out methods for certain additives and feed constituents, such as protein, fibre and ash for the enforcement of the labelling provisions, and also methods for certain undesirable substances.

The Regulations are amended by:

- 1984 No 52 The Feeding Stuffs (Sampling and Analysis) (Amendment) Regulations 1984;
- 1985 No 1119 The Feeding Stuffs (Sampling and Analysis) (Amendment) Regulations 1985;
- 1994 No 1610 The Feeding Stuffs (Sampling and Analysis) (Amendment) Regulations 1994.

Council Directive 95/69/EC, amending Directives 70/524/EEC, 74/63/EEC, 79/373/EEC, 82/471/EEC; and

Article 1:10 of Council Directive 96/51/EC amending Directive 70/524.

The Regulations lay down the conditions and arrangements for approving and registering certain establishments and intermediaries operating in the animal feed sector. The regulations apply to a wide range of establishments; those affected include manufacturers of certain feed additives, premixtures, compound feeds including these, and certain agricultural merchants and farmers who mix their own feed. The regulations also cover establishments incorporating materials with undesirable substances above specified levels. The system of registration and approvals is linked to quality standards and their implications for food safety.

The following Regulation has been made under the Medicines Act 1968:

- 1992 No. 1520 **The Medicines (Medicated Animal Feeding Stuff) (No. 2) Regulations 1992** - these Regulations implement Council Directive 90/167/EEC laying down the conditions covering the preparation, placing on the market and use of medicated feedingstuffs in the Community.

D: THIRD COUNTRY IMPORTS

(i) PRODUCTS OF ANIMAL ORIGIN: IMPORT AND EXPORT

SI Number

- 1996 No 3124 **THE PRODUCTS OF ANIMAL ORIGIN (IMPORT AND EXPORT) REGULATIONS 1996** - implement Council Directives: 89/662/EEC of 30 December 1989 (OJ No. L395) as amended concerning veterinary checks in intra-Community trade with a view to the completion of the internal market;

92/118/EEC of 15 March 1993 (OJ No. L62) as amended laying down animal and public and public requirements governing trade in and importing into the Community of products not covered by other vertical health Directives.

These Regulations give effect to the Community's checking regime for assuring that intra-Community trade in and imports from third countries of products of animal origin comply with harmonised EC or, in their absence national, animal and public health rules.

The Regulations also make provision for the minister of Agriculture, Fisheries and Food or the local authority to recover the cost of veterinary checks on import of animal origin from third countries. They also give force to the vertical health rules applying to intra-Community trade in, and imports from third countries, of so called "Balai" products.

(ii) IMPORTED FOOD

SI Number

- 1997 No 2537 **THE IMPORTED FOOD REGULATIONS 1997** - contain measures for the protection of public health in relation to food entering the Community from third countries and which is not subject to veterinary checks under the Products of Animal Origin (Import and Export) Regulations 1996, i.e. products which are not of animal

origin. They consolidate and replace provisions of the Imported Food Regulations 1984 (IFRs) taking into account the Food Safety Act 1990 and EC Single Market legislation. The 1984 IFRs have not been revoked; certain provisions relating to public health certification and health marking requirements for fresh meat (including poultry and game meat) and meat products, remain.

The Regulations cover England, Wales and Scotland; there are parallel Regulations in Northern Ireland.

PART 7: OTHER PRIMARY LEGISLATION PROVIDING REGULATIONS AFFECTING FOOD

A: EUROPEAN COMMUNITIES ACT, 1972

Section 2(2) of the European Communities Act makes provision for any designated Minister or department to make regulations for the purpose of implementing any European Community obligations of the United Kingdom.

The following Regulations have been made under this Act:

SI Number

1997 No 1729

THE ANIMALS AND ANIMAL PRODUCTS (EXAMINATION FOR RESIDUES AND MAXIMUM RESIDUE LIMITS REGULATIONS

1997 - these Regulations came into force on 11 August and implement two EC Directives. Council Directive 96/22/EC continues the existing ban on the use of hormonal growth promoters in food producing animals within the EC and extends it to beta-agonists under certain circumstances. Council Directive 96/23/EC harmonises, improves and extends the present controls on the surveillance of veterinary medicinal residues in meat.

In implementing these requirements, the Regulations revoke and re-enact provisions formerly contained in the Animals, Meat and Meat Products (Examination for Residues and Maximum Residue Limits) Regulations 1991, the Medicines (Stilbenes and Thyrostatic Substances) Regulations 1982, the Medicines (Hormone Growth Promoters) (Prohibition of Use) Regulations 1988 and the Animals and Fresh Meat (Hormonal Substances) Regulations 1988.

The Regulations:

- prohibit the sale, possession or administration to animals of specified unauthorised substances;
- prohibit the possession, slaughter or processing of the meat of animals intended for human consumption which contain, or which have been administered with, specified unauthorised substances;
- prohibit the sale or supply for slaughter of animals if the appropriate withdrawal period has not expired and prohibit the supply for slaughter or subject to exceptions, the sale of animals or the sale of animal products which contain unauthorised substances or an excess of authorised substances;
- prohibit, subject to exception, the disposal for human or animal consumption of slaughtered animals containing specified unauthorised substances;
- empower authorised officers to inspect and examine animals and to take samples and provide for the analysis of official samples;
- provide for offences and penalties and for enforcement by each enforcement authority;

- specify requirements relating to record keeping.

1997 No 2893 **THE CHARGES FOR INSPECTIONS AND CONTROLS REGULATIONS 1997** - these Regulations came into force on 1 January 1998 and give effect to Article 2 of Council Directive 85/73/EC on the financing of veterinary inspections and controls covered by Directives 89/662/EEC, 90/425/EEC, 90/675/EEC and 91/496/EEC. The text of Council Directive 85/73/EEC is set out in the Annex to Council Directive 96/43/EC.

In implementing these requirements, the Regulations revoke those provisions of the Meat (Hygiene, Inspection and Examinations for Residues) (Charges) Regulations 1995 (S.I. 1995/361, as amended) which relate to the subject-matter of these Regulations (regulation 6).

The Regulations:

A: OFFICIAL CONTROL OF FOODSTUFFS

The Official Control of Foodstuffs Directive (85/397/EEC) was a key framework directive for the harmonisation of aspects of food law between EC member states. Adopted in 1985, it aimed to help establish the Single Market in Europe by achieving a consistent approach in the level of food law enforcement between EC member states in the run up to establishing the intended Single Market in 1992. The Directive did this by laying down the general principles to be followed by the national enforcement authorities of each EC member state. It established the main principles that:

- food should be inspected regularly at the point of production to avoid the need for border controls between member states;
- inspection procedures should be harmonised between member states;
- there should be mutual recognition of standards within the European Community; and
- details of member states' food law enforcement programmes should be submitted annually to the European Commission.

This Directive was implemented in the UK through the Food Safety Act 1990 and through statutory the Codes of Practice that guide UK enforcement authorities and which are made under that Act.

B: ADDITIONAL FOOD CONTROL MEASURES

The Official Control of Foodstuffs Directive was supplemented in October 1983 by the adoption of the Additional Food Control Measures Directive (83/186/EEC). This Directive continued the theme of harmonising food law enforcement between member states by:

- requiring that all member states have, or have access to, a sufficient number of qualified and experienced food control officials;
- setting standards for food control laboratories, and criteria for validating methods of analysis;
- establishing a small Commission Food Inspectorate;
- improving the exchange of information between member states and between the European Commission and member states.

Note: Enquiries relating to the legislation listed in Parts A & B should be addressed to the Ministry of Agriculture, Fisheries and Food, JFSSS, Food Labelling and Standards Division, Branch 6, Room 225b, Ergon House c/o Hotel House, 17 South Square, London SW1P 3JL (Telephone 0171-238-6762).

The text of Council Directive 85/73/EC is set out in the Annex to Council Directive 85/43/EC.

In implementing these requirements, the Regulations revoke those provisions of the Meat (Hygiene, Inspection and Examination) (Residual) (Charges) Regulations 1955 (S.I. 1555/55) which relate to the subject-matter of these Regulations (regulation 5).

The Regulations

- lay down the provisions relating to fees to be paid to cover the costs of residues surveillance under 85/23/EC
- lay down the provisions relating to the liability for and recovery of those fees

B: FOOD HYGIENE (GENERAL)

EC Directive 93/43 on the hygiene of foodstuffs lays down general rules of hygiene and procedures for verification of compliance with these rules. The Directive covers the preparation, processing, manufacturing, packaging, storing, transportation, distribution, handling and offering for sale or supply of foodstuffs not covered elsewhere by product-specific hygiene Directives. It also covers gaps in the product-specific hygiene Directives. For example, few of these Directives cover the sale or supply of their foodstuffs, and where they do not then Directive 93/43 does. EC Directive 96/3/EEC grants a derogation from certain dedicated transport provisions of Directive 93/43 above, as regards the transport of bulk liquid oils and fats by sea.

PART 13: WEIGHTS AND MEASURES LEGISLATION

THE WEIGHTS AND MEASURES ACT 1985

Section 28 of the 1985 Act makes short weight an offence. Orders made under Section 22 require most pre-packed food to carry on the container an indication of the net quantity of the contents. When sold other than pre-packed, most food is required to be sold either by quantity or by number. The seller has to make the quantity known to the purchaser. Orders made under the Act limit the quantities in which certain goods may be pre-packed when offered for retail sale (prescribed quantities).

Part V of the 1985 Act provides for the "average" system of quantity control for pre-packed goods sold by weight or volume.

The average system is designed primarily for application at the point of production or importation and requires the packer or importer to ensure that the packages will pass an Inspector's reference test.

The Act is amended by the Weights and Measures Act 1985, (Metrication) (Amendment) Order 1994 and the Units of Measurement Regulations 1994.
