[Faint, illegible handwritten text, likely bleed-through from the reverse side of the page. The text is arranged in several columns and is significantly faded.]

[Faint, illegible handwritten text visible on the right edge of the page, possibly from the adjacent page.]

One ounce containeth 8 dram's; one dram 3 scruples; one scruple
20 grains of Barley: a grain is y^e least of all weights.

A handfull is as much as you can take wth all your fingers &
thumb: & not in y^e midst of all your hand.

A pugill is as much as you can take wth your thumb &
two fingers.

Partridge Herbal.

The secret of Fortes Hercules his Water

Take a gallon of good garroine wine ginger gallinall ryanale nutmilk squashes clove
anyzed fennel seed and roribander seeds of each a beam then take sage mint red roses fine yellow
romary wild marjoram acorn sprucewill yelley mountain; wild fine rambell lavender and
awens of every of them a handfull then beat the spices small and chop the herbs and put all
into the wine and let it stand full 12 hours stirring it diverse times then fill it in a barrel
stoppe the first by it self; there will come another but that is not so good

This water killeth some of the spirits of hell and preserveth the youth of man
it helpeth any inward disease that cometh of cold it is good against shaking of paleys
the contraction of sinners and helpeth the conception of women if biliously moved in the belly it
helpeth cold gales striking betwix the loatharts & comforteth the stomach it cures a cold
if it be with the stone it cures it, rashes and what so ever this water cure not too of it preserveth
the heart in good liking and maketh him from young way long & pudent

To cure for any fever

Take the white virgin wale wax and melt it in a pan then put in a quantity of hore and
hore and seth them together then Examine it into a dish of faire water then worke it with your
handes and make it in round balles and for keep it for your use. When you use it use any
Vener and chafe it well with your handes and spread it thin on a cloth it will killy deathbands

for a felon

Take some blacke sage xerby barren and the yolke of a new layd egg and stamp it all together
and lay it to the sore

To make a drawing salve

Take a good peire of Rozen, & break it small & a little wax & a
good quantity of green box & mine it very small & a little hony &
put them all together in a pott, & let them sette together til they
be melted.
to relieve breath in a consumption

111 Ten or 20 grains of salve of the most beemes given with new milk or sweet wine is a
speciall remedy for those who having the consumption of the lunges are almost fast-breathing
for the bying of a mad dog

Onions stamped with salt reus and hony and applyed to the sore is good against the biting of a mad dog

To stay y^e inordinate course of women

Plantin leuca stamped & made into a lassy wth y^e yolkes of eggs hath been
proovd excellent for y^e infirmity
for childrens ravelles & sand out ourmark

The say or y^e juice of horststrange or sulphurwort dried wth
y^e oyle of Rose & vinegar is good against rashes or burstings in
young children & is very good to be applyed to y^e ravelles of children
& sand out ourmark

To forme one to make water

Take y^e shells of 6 new layd eggs & lay them upon a firebarth y^e
hott & made clean, then lay them on a lassy beate them to fine powder
& mixe them wth white wine & six or seven plenty after

Take a quantity of fine powder of English Saffron, & pure black pepper mingle them together, then spread them upon y^e fleshy side of allome Crabs & lay it upon y^e navel, y^e goldstitch is to be but a little more then y^e breadth of y^e navel, & it will cause you to make water wth in an hour.

To make oyle of roses after y^e best manner.

Take red rose buds (y^e which ends rutt of) put them into a good bigg double glasse, putt therunto for much oyle olive as will walt them, then stopp y^e glasse close, sett them for in y^e sunne, then lett them stand a month yet for as now raine come to it, afterward wrap y^e glasse wth hay, & then sett it in a pott of rotd water laying some hay at y^e pott botome for y^e glasse to stand on, then sett it on an easy fire to boyle, about 3 quarters of an hour, then take y^e pott from y^e fire & lett y^e glasse stand in it till y^e water bee rotd, you may either straine y^e roses out of y^e oyle or lett y^e roses remaine in y^e glasse at your pleasure.

To make y^e oyle of Charivty.

Take about y^e 10th of may, wormwood, red sage, Rosemary, Camomile, Lavender wth y^e great leafe of each a like quantity, for want of y^e Lavender take other, Chop them very small then infuse them in as much oyle olive as will wet them all, & lett them stand a month in y^e sunne, stirring them once in 2 dayes, (nor raine must come to them) then straine out y^e herbes, & put new herbes into y^e oyle after you have chopped them as before, & then add to them y^e like quantity of Valerian (or Charivty) & boyle them on an easy fire till y^e strength of y^e herbes be in y^e oyle, then straine it againe, & lett y^e oyle settle 2 or 3 dayes, then boyle it againe & y^e will take y^e moitur out of y^e oyle, then you shall see it very cleare & of a y^ert green colour. the use is, drinke 3 or 4 drops of it in posset ale if one have yott any great bruise inwardly; & annoynt y^e bruised place therwth; if it be a wound drasse it wth lint; it is very good for sore breasts.

For wind in y^e side & rising from or of y^e spleene.

Take a pair of a rose rake, as broad as y^e griev'd place, boyle it in a dish, upon a Charivty dish of roale, wth a little malmsy & for want therof with a little vinegar, then strew some of the powder of Gummin seed on y^e side of y^e pair of y^e rose rake y^e shall lie to y^e side, & lay it to y^e griev'd place as hott as the patient can suffer it.

To stay y^e urine when it falls from y^e head to y^e chocke.

Take a new layed egg, & lay it in ambros till it be some hard, stampe some of y^e herbe called longroot, & when you are going to bind rutt y^e egg in two, longwaies shell & all, take out y^e yolke, & putt for much of y^e stamped longroot as will fill up y^e place of the yolke, & lay one pt to y^e forehead & another pt to y^e nape of y^e necke wth y^e shells on, as hott as it may be suffered for 3 or 4 nighte bind it hard.

For falling of y^e vula /

Take some white salt & burne it, & take y^e like quantity of pepper, & beat it very small, & then mixe them very well together, then lay some of it upon y^e bark part, of a redder spore, & then wth put up your vula if it be fallen, for dress it 4 or 3 times a day, & afterwards gargarise wth warme milke wherin rosbine & ringuloyla hath been fedora.

For a Tumor.

Take 3 runfey leaues wash them cleane, spring them in some cleath to gett out y^e water, then lapp them up in white paper, & lay them in wood embere as you woult rost a warden, for rost them and after wards y^e patient is to eat them wth sweet butter, y^e next morning & fast 2 howers after this doe for 3 mornings together, y^e party is this while to use noe exercise & to lye on his back as much as he can, y^e best time is in y^e spring for this cure.

For y^e roud palsy.

Take a great basket full of sage, & sell it on y^e fire in a great pan then take a gallon of white wine, & spirital it on y^e sage as it dry eth, till all y^e wine be spent, then lay y^e patient, in a cleane dry sheet, in a bed, & lay y^e sage vnderneath & about him as hot as he can suffer it, this doe 2 or 3 times.

For the Colicke

Take a handfull of y^e topps & flowers of ramomila, & seeth it in a pint of white wine or sack a pretty while till it be better, then strayne it & drinke of this fasting & at night & it will cure you.

For y^e swelling in y^e face or eyes & for heate.

Take y^e oyle of creame y^e iure of y^e clark, of each near a like quantity, mixe them together & dip a fine cleath therein, & lay it to y^e place griev'd.

For y^e shingles.

Take of doves dung y^e is moist & of Barley meale, of each alike stamp them well together, then put ther onto for much good wine vinegar as wth stirring will make it a body, y^e is thicke to spread as a plaster, lay it round to y^e sore & root leaues upon it, & bind all about him wth a cleath to keepe it on, & in 3 times done, you shall find good effects.

For y^e Cramp.

Take of y^e oyle of spirit, & of y^e oyle of iure of each one ounce of y^e oyle of mastick 2 oz. of y^e oyle of civibinthia 1 oz. & of malmisy & spamsuls, & of good aqua vita 3 spoonfulls, mixe them all well together, till they be well incorporated, then anoynt y^e griev'd place very well before a good fire, & lay warme cleath thereto, salt meats as very ill especially at supper.

How to know, & how to use one infected wth y^e plague.

If he be of strong constitution, y^e swelling will appear most commonly wth out any great orrasion, either behind y^e eare, or vnder y^e armholes, or in y^e flanke, but if he be of weak constitution, & full of humours, y^e swelling will appear in noe place wth is dangerous, y^e patient shall feele much pricking in his body, his head will be very heauy, round wth out y^e hot wth in, trouble wth drought in his mouth, much disposed to sleep. Sometimes he awakes as he were distracted, he bloweth short, vomiteth often, his waker will stinke his eyes will paine, & many such like signes will appaare therefore when most of them doe concurre; then out of hand unless y^e party be very old or very young or be a woman wth child, or some iust cause doe lett y^e party must be lett bleed blood, as y^e swelling or paine is, if it be vnder y^e eare or any part of y^e face head neck or shoulde, you must thin take y^e hea. vaine, called y^e Cephalica vaine if it be vnder y^e armhole take y^e lower vaine called Brasilia, & if it be in y^e flanke, take y^e vaine, take y^e vaine in y^e foot called saphena if y^e case stand for y^e you may not lett blood for y^e fourth cause, then you must sett ruping glasses or such like to y^e shoulde, back or leggs as y^e cause shall require, y^e body thus prepared, you must take something inwardly to resist y^e poyson (if it be) take beards 2 oz: mithridate 1 oz: Cole armitake prepared one dram & a halfe wth y^e water of sooth, strabice, & indine of each an ounce mixe them together, & drinke warme or else take, Symplicum arctosus simplex 2 ounce, y^e water of Dragons, & sovell of each 1 oz: Symplicum Galena 2 drams mixe them to drinke warme, & when y^e patient hath receiued any of these or such like he is to goe to bed, & couer himselfe well & soe to sweate 4 or 5 houers or longer according to y^e strength of his body, if he can not easily sweate, the warme tile stones or y^e like & apply them to y^e sole of his foete as warme as he can suffer them, & beware in all y^e time of his sweating he neither sleep drinke nor eate: when he hath sweat his time, then wipe all his body wth fine & soot linnen, & soe stay awhile, then may he arise & walke in his chamber, & take noe other aire, his chamber must be perfumed & made sweet 4 times a day at y^e least, wth some sweet perfume; some 2 or 3 houers after he hath sweat he may eate somewhat to y^e strenght of his body & you must nourish & refresh him wth some broath or pottage made wth scale mutton thirbane or y^e like y^e patient must eate often, & a little at once, because meate often eaten doth by little & little resist & increase y^e spiritts & powers of y^e body wth y^e poyson of y^e plague doth by little & little destroy & decay, you must alsoe keepe him from sleepe in any wise y^e first day he fallath sick, & if his strength or his body decay, or his heart faint, then you must giue him some comfortable Elixuare thus. Take of conserve of Roses & of vidlets of each halfe an ounce, conserve of Quinces 1 oz: Treacle 3 drams of elast. Colic ammoniac prepared one dram & a halfe, of red rosvall & of y^e water of Elirampare of each one scruple or y^e Symplicum of

Quinifer as much as shall suffice to make an alchimy rate of this
 at all times, & because y^e moving & working of nature in y^e plague
 is chiefly to y^e outward parts, let your labour be to draw y^e poy-
 son, & plagueish humors outwardly to y^e skin, it may be done in this
 maner, take a great onion make it hollow & fill it full of waxe
 ste, & y^e iure of ure or sage, then stop it up with wth clay or past
 then lay it in y^e embers as you would roast a warden till it bee
 well soft, then take it out, & pill of y^e outward skin or bark
 then stamp it in a mortar till it be a plasur, & lay it to y^e swelling
 as hot as he may suffer it, & if y^e swelling be long see it doe
 bruate, then you must lay to it often gasidons oftentimes replaid
 in y^e oyle of Chamomile, & he was y^e directions of D^r Fawcitt.

For chylblound and for the youth

Take the fey of y^e y^e in march, put them into a iure or the like, & when the matter is done
 thence put the fey into an earthen pot then stop or cover it very close with waxe, thus it on the like
 then set it in a hole in the ground and cover it with earth, let it stand there a month then take it
 thence and scrape out the matter which you must keep for your use in gold or glasse close stopp
 And when you have use for it, warme the speered place against a fire and chafe and rubbe & some
 the matter upon the sayd place so long as it will drink any way when you are going to bed and
 keep warme

For a wen upon the eyelid or
 some other such place

Take a piece of thine lead you what biggest then the wen stopp it all day in some good wine
 roge, and to bedward (having made 2 little holes at the edge of the lead) put some little waxe to it
 and therewith bind it on all night: the wine roge will soon consume the lead therefore it is not
 necessary you have 2 or 3 altered in readiness that when one is done you may use another if neede

For the hynes of Venice

Take C^offroy indius violet leaved strawberries leaved fure leaved gentys or earhe a handfull
 boyle these in a gallon of whey, when nere a quarter of an hower then take it from the fire and
 put it into a cylindur that the whey may be decanted from the beards, then put the whey
 into a earthen vessel put thereto an ounce of Gumma and cover it close: & take of this
 drinke every morning fasting about a half pint and fast 2 howers after

For a great rough or red in children.

Take a p^rowthe of Marsh Malles take y^e aw d^rgs, sweare them
 rfrane, & then plie them, & then boyle them in a pint & a halfe of
 spring water, till it come to a pint & sweare out y^e water, & puthe
 it wth browne sugar sandie: for kisse it for your use. Give kisse
 6 spanfulls fasting bloodwarne, & y^e like at night.

For y^e rickets, approued.

Take ruxants & raysens of y^e same pound of each one handfull of
 Dragons leaues halfe a handfull, of liverwort a good handfull, of
 hartstrong & leaues, of aniseeds a spanfull, of liverish halfe a handfull
 boyle all these in a pottle of ale to a quart then sweare y^e ale
 away y^e stufe & putt y^e liquor into a pott, keep it close stopp

after it be roūd, & drinke therof a draught every morning fasting
 & about 2 howers before supper & siue after it. you are also
 to put into it a handfull of spindwell.

Another tried good one for y^e same.

Take of longroot of of liuwort of magwort, of motherwort
 of each a handfull, stampe these & then putt them into a bagg, &
 hang them in a litle vessel of about 3, or 4 Gallons, & fill it wth
 new ale, & drinke therof at dinner & suppe.

To make syrups.

Beat 2 whites of eggs wth a litle red till it come to a flight
 froth, then put them into your mortar, & pier it well wth your
 rod, after your sugar be putt in & dissolved, & soe let them boyle
 a while or 2, then straine them through a fine flannel
 strainer or a rothin & after y^e boyle it up to a syrupe.

To make syrupe of folefol.

M^r Benington

Take folefol & drasse it cleane, & pick it & wash it, & then lett it drine,
 through a fine vailit it be dry, then chop & stampe it, & straine it through
 a strainer, if y^e sit y^e iure to settle all night, afterwards take y^e clearest of
 & put to it soe much clarified hony or sugar as you haue iurey of folefol,
 & boyle it to y^e consumption of halfe.

For ~~the~~ ^{the} in Chitons heads

Take roculus India & beat it to dust & press it in thow heads.

For a great rold or rough in a man
 at hand god one.

Take about 4, 5, or 6 turneps made very cleane wthout washing either
 wth scraping paring on y^e like, slice them thin, then put them into an
 earthen pott, wthout any thing, then pass y^e pott close at y^e topps y^e no
 ayre come forth, then set it in an oven wth wheaten bread, & when
 you draw your bread take it also forth & let it stand wthingred
 till it be roūd, then wth a wooden sliue pass them well together
 & straine them through a cloath into a possitt or pan & to a pint
 of suyr put a pound of sugar by litle & litle, if you putt all
 together at once it will candie & soe boyle it to a syrupe.
 Before y^e turneps be strayned put to them $\frac{1}{2}$ of aniseeds beaten small, &
 y^e like of licorise beaten also & lett them boyle gently a quarter of
 an houre.

For deafnesse proceeding from roūd taken.

Take y^e topps of Rosemary of sweet marionome of each a pugill
 boyle these a while in good part upon a gentle fire in an earthen
 pipkin, for y^e noe fume come there, but only at y^e lesser hole of
 y^e hennill & will fill y^e mouth of y^e pipkin then kout y^e lesser hole
 to y^e drafe care soe y^e y^e most of y^e fume may thither asend, & after
 you haue held it for a good while to your eare, then take a litle
 must upon y^e point of a bodkin & a litle oyle of sweet almond
 added therin, & layd upon a litle black wool put it into your
 eare about bed time.

A plaster to take away paine.

Take of red lead $\frac{1}{2}$ of white lead 4 oz: of wax 2 ounce of
 sallet oyle a pint stire y^e wax small & beate y^e lead into fine powder
 then boyle all together til they be black (continually stirring them)
 then dip your cloathes in it one after one, & some put them into
 some hote water, after y^e pul them & smatch them & keep them for
 your use.

How y^e Emruds

Take of album gzerum $\frac{1}{4}$ oz. & of saquantum album $\frac{1}{2}$ oz: mix
 these well together, then take about y^e quantity of a nutt therof
 & at your going to bed, putt it upon some rotten wall, then put
 y^e emrud up to y^e finger, as far as you can, & apply y^e oyl-
 ment upon y^e rotten to y^e emrud & upon it lay a warme cloth &
 keep warme, this rightly appli'd will cure in 3 or 4 times dressing.

To cure an ague tertian or quartan.

Take a spoonfull of black sope, for want therof other sope, y^e like
 quantity of wheat flower, & of gross pepper y^e like being beaten
 mix these well together spread them upon some allome leather, &
 lay it about 4 inches long upon both y^e wrists, and something
 narrower at both ends, bind it on wth a cloath an houre before y^e
 fit come, for let it lye on nine dayes. Daintie sage possit drinke
 very warme in your route fit.

Another for y^e same.

Take 2 penniworth of Champhire & hang about your neck, in
 a little sackett once against y^e pit of y^e stomack, & spread some
 Venice turpentine upon some shuggs leather, & apply it long-
 wayes on both y^e wrists, an houre before y^e fit come, if it
 helpe you not at y^e first time renew it againe & it will
 not fayle.

Another.

Take of saffron 2 penniworth, of mastick $\frac{1}{2}$ oz. one penniworth
 & of olibanum being beaten to fine powder, for much as wth a spoon
 full of Venice turpentine will thicken it & spread it on some
 allome leather, & apply it longwayes about y^e breadth of 2
 fingers from y^e Lays upward about 4 inches long of both y^e
 wrists on y^e inside of y^e arme, let it lye there for long as it
 will cleave, y^e if it is to drinke, Candie possit drinke every
 night to bedward warme, as good draught for long as y^e fit
 lasteth & 10 dayes after & to keep y^e wrists warme when y^e
 plaster comes off.

Another.

Take olibanum boliarmoniack, of each an equall quantity bruis
 them & beat them together into fine powder, for small or may be
 then take for much Venice turpentine as will only make it
 plyable to spread & nor more, then spread it on some allome
 leather about 4 inches in length and y^e breadth of y^e arme.

on y^e in side from y^e hand upwards, then then apply it on
 both, & bind it on about 6 hours before y^e fit come, if this
 have not y^e desired effect y^e first week renewe it y^e 2.

Another

Take salerdine, featherfan & bay salt, of each a handfull beat
 them all well together, then take of black sope y^e quantity of an
 egg, mix it wth y^e rest, then spread them on some leather
 & apply it to y^e soles of y^e feet for let it be for eight or 10
 dayes, he may stir up & downe wth out p^{ro}viding.

for paine in a ioynt upon cold.

Take of Burgundy pitch, 1^{lb} of red dreare put a 3^d part for
 want therof of Gum Elemmy, $\frac{1}{4}$ a little saffron
 boyle these together till y^e be well incorporated, spread some
 part of it on some Allome leather, & apply it warme to the
 greivd place, bind it on & then let it lye, for long as it
 will cleave, & it will give ease.

Another for paine in y^e ioynt

Take a pint of y^e best sack, & an ounce of harts horne finely
 powdered boyle them on a gentle fire to a gillie then annoynt
 y^e greivd place hot against y^e fire wth part of it & spread
 some of it on sheeps leather, & apply it warme.

for y^e Gout a tried good one

Take of Smalage, Iron, salerdine, & featherfan, of each an
 handfull, pick them, & stamp them, well in a stone mortar, sieve
 them, then take y^e yolke of an egg & for much hony as y^e quantity of
 y^e yolke, & after y^e you have mingled them well wth y^e sieved
 liquor then stir them all well together, then thicken it wth
 some wheate flower so as you put in y^e flower stir it
 well for put in & stir it till it be thick enough to spread
 then spread it on some browne paper, & apply it wth
 to y^e greivd place then let it lye till it come of it selfe
 what.

for y^e Gout another tried one.

Take 2 pottles of powdered beefe broth, 3 good handfulls of
 bay salt as much Allome as an egg, boyle these to a pottle
 then bath y^e greivd place wth a red cloath dipped in y^e sayd
 broath evening & morning as hott as may be endured, & at
 last bind y^e sayd cloath to y^e greivd place till you dissolve it
 againe.

for y^e falling sickness.

Still some of y^e leaves & flowers of nightshade, & give halfe a
 spoonefull of water to y^e patient (sayth my author) it is a pleasant
 remedy, but beware of y^e berries & leaves raw, for some kinde
 of them being eaten raw are deadly.

For paine in y^e bart.

Take of Burgundy pitch $\frac{1}{2}$ lb of English hony $\frac{1}{2}$ lb of mutton
suit of y^e Kidnaie $\frac{1}{2}$ lb after you have sliced y^e suit small & made
y^e pitch into powder set them in pot or pan upon a gentle
fire, & stir them till they be well incorporated, pour some of
it upon some leather & apply it warme.

For a bile.

Take y^e yolke of an egge new layde some fine flower & some
english hony mix these well together & apply it to y^e bile
— to breake a bile

Take nightshade & fulmarleaves, & mutton suit shred boyle them
all together & make a pulvis thereof, & lay it to y^e sore for
hot as may be indured & it will breake it

For paine in y^e reins of y^e bart
rauted by some great route.

Take a piece of bryany rote, rubb of all y^e hairs skin it, pick
out all y^e blarks in it stampe it, in a dist, wth a wooden peple
thin spread some of it upon a piece of some leather, then
warme it against y^e fire, & apply it to y^e grievous place, &
bind it wth a towel or y^e like, when y^e patient is in bed apply
a warme cloath to his feet & lay some flower of cloath on
on him to raise sweate, it will nettle much, but y^e patient
must indure it will certainly effect y^e cure.

An excellent Balsome called
Luraticus Balsome.

Take of Venice turpentine $\frac{1}{2}$ lb of oyle olive $\frac{1}{2}$ lb, of yallow wax $\frac{1}{2}$ lb
naturall Balsome 1 oz: oyle of s^t Johns wort 1 lb red Sanders
powder 1 lb of sack 6 spoonfulls: rubb y^e wax into thin little
pieces & melt it on y^e fire then put y^e Turpentine to it after
y^e you have washed it wth Damaske rosewater & having ming-
led your sack wth y^e oyle, put also y^e oyle to them, & put y^e
all on y^e fire & stir them untill y^e beginne to boyle, then suffer
it to soale for a night or more untill y^e water or wine be
sunke to y^e bottome, then make some holes in y^e stuffe, y^t y^e water
& wine may runne out of it, then put it over y^e fire a
gain, & add to it y^e oyle of s^t Johns wort & y^e balsome first
it untill it be melted, then take it from y^e fire & stir it
till it be almost cold, & then put in y^e red Sanders & stir it
well y^t it may incorporate, then keep it for your use.

— The vertues.

- 1 It is very good, to heale any wound inward or outward be-
ing squird warme ⁱⁿ inward ^{wound} or outward & being applied to
y^e outward wth fine lint or linnen, & anoynting y^e parts
therabouts
- 2 It helpeth Cunnings & flatulency, & also any bruise or rub

being first anoynted wth y^e sayd oyle, & a piece of Linnea cleave
or lint being droppd in y^e same, & being warmed & applied to it
it will heale it wthout a scarre.

3 It helpeth y^e headache by anoynting y^e temples & nostrils therewth

4 It is good against y^e wind collicke & spitch in y^e side applyed thereto
warmed wth y^e hot cloathes $\frac{1}{4}$ of an hower forer mornings together

5 It is good against yoxson, & helpeth a surfat takinge an ounce thereof
in a little sack warme

6 It helpeth y^e biting of a mad dogg or any other beast

7 It is good against y^e plague anoynting y^e nostrils & lippe therewth in
y^e morning: before y^e party goes abroad.

8 It also helpeth Ulcers & fistulacs be they never so deepe in any
part of y^e body being applied (as aforesayd) to a rutt.

9 It is good against worme or canker being used as to a rutt, but it
will take longer time.

10 It is good for one infected wth y^e plague or measles or y^e like being
specially taken in warme broath y^e quantity of $\frac{1}{4}$ of an ounce &
mornings together & sweating upon it. It also keepeth one from veyl

11 It also helpeth digestion anoynting y^e navill & stomack therewth when
the party goes to bed

12 It will stanch any blood of a green wound putting a plaister
of lint upon it, & raise it to lye very hard

For y^e paine in y^e back

Incorporate some muscadill wth some marrow of an oxes bone in a
pewter dish upon some embers, & chafe y^e greivd place therewth wth a
hot hand or hot against y^e fire at bed time as y^e patient can endure it
& soe againe in y^e morning an hower & a halfe or 2 howers before
he riseth y^e same Linnea must be kept to y^e back y^e is first applied to
it after it be anoynted

For a consumption or any extreme
cough or rough

Take of rotes-foot mardenhair, starricks liverwort, kark lung, Luscious
& of splenawort, of each one good handfull & almost halfe for much
Eliampane (green is better then dried) of marigould flowers & rowslip
flowers of burrage & hyssop flowers of each halfe a handfull a lionwth
& spanfulls of anisids bruist, a good handfull of raisons of y^e sun
stond, & halfe for many figgs stird. Put all these into a gallon of
spring water, let them stand soaking for all night in a great pipkin
& in y^e morning set it roured on a soft fire, then let it boyle gently
until a 3 part be consumed, then strayne it through a good thirt
then lett it settle & afterwards ~~strayne~~ it againe 2 or 3 times, after
y^e then pour from y^e settlings & put to it halfe a quart of a
pint of hyssop water, a quart of a pint of y^e iuyr of baked turn
ripe, & for much sugar as will boyle it to a thick syrre, take therof
a spoonfull first & last.

bee
red
y^e

For y^e scabie.

Take some musard as strong & as thick as may be, put for much thereof upon a piece of dillons leather as will cover y^e greivd place, after y^e you have mixed it wth a spoonfull of hony bloodwarne & before you apply it scatter a penworth of English sappon beaten very small upon y^e plaister, & then lay it bloodwarne to y^e greivd place y^e patient being in bed & bind it on wth a towel: He is to lye on y^e side 3 or 4 houres though it be painfull to him, & then y^e plaister is to be taken of, & y^e greivd place is to be anoynted wth a spoonfull of salst oyle & faire water mixed well together, wth a feather, after wards apply some scabieboath.

A souverain scabieboath.

Take 10 oz: of y^e oyle of red roses, 7 oz: of resin (otherwise called white lead) 4 oz: of virgin wax & 2 dramms of Camphir, slice y^e wax thin, & break y^e Camphir very small, then put y^e said oyle resin & wax into a pan, let it boyle gently a while till all be melted, now & then stir it, & then put in y^e Camphir, & let it boyle gently stirring it (now & then) till it be somewhat yellow, then take it from y^e fire and therein dipp such linnen cloaths as you intend for scabieboaths, and as you take them out putt them into cold water, & afterwards press them & smath them wth your hand, afterwards keep them close in a box for your use & they will be kept last 2 or 3 years. The vertues of it is: it is good for any heach for a sore breast for a burne or frate for a shoyne for a swelling of a hot raup, & it is restorative.

For worms in children.

Stamp a handfull of saun, then put to it some oyle olive boyle them to y^e consumption & in till it beaur bubbling, alwaies stirring it wth this blood warne anoynt y^e body for loe or y^e navel 3 nights to bedward.

Another for y^e same.

Take a handfull of dewworms, putt them as lively as you can into a little bagg made of robbellawer, fine ramburk, linnen or y^e like, & to bedward apply it to y^e navel & bind it on wth a cloath 3 nights.

A salve for any syden wound or cutt sore.

Take a pint of milke, a little handfull or a yongell of young wethers y^e like of wormewood, & of rue y^e like, wash them & drie them as they be nor water left, then chop them small & boyle them in y^e milke till halfe be consumed (alwaies stirring them) then straine it & afterwards put in as much Vanill & turpentine as y^e quantity of a half pint, & y^e like quantity of hony, lett these boyle a while or 2 it wth what flowers & make it like a pulvis, still stirring it, & when you use it, spread it hot upon a cloath, & soe lay it to y^e sore. Keep your selfe to an horow & dresse it but once in 24.

For y^e rough of y^e lungs or great rouls.

Take of Eximony hartstoungue liverwort, horsehound, & wassell hyssope

of each a handfull, boyle these in 2 quartes of springwater till halfe be consumed, then strayne it sling away y^e herbes, & boyle y^e liquor in a faire earthen pott, & putt thereto 2 ounce of liquorish 2 oz of y^e powder of Cinnamon roots, & 8 spoonfulls of clarified hony, boyle all these to an Electuary, take a spoonfull of this morning & evening about 4 of y^e clock & another at your going to bed.

For y^e rough of y^e lungs or great rouls

Take of ~~Expireny, hartspengur liverwort, horsehound & ruffell hyssop~~ of each a handfull, boyle these in 2 quartes of spring water till halfe be consumed, then strayne it sling away y^e herbes & boyle y^e liquor in a faire earthen pott, & putt thereto 2 oz: of liquorish, 2 oz of y^e

An excellent plaister for y^e gout or any other pain or ach.

Take of mastick & Opixony of each a quarter of an ounce, of Cinnamon 1/2 oz: of Toron 2 oz: of Stone pitch 1/4 of Frankincense 1 oz: & 1/4 of gum of Guir halfe an oz: of White pitch 1 oz & of virginis wax 1 oz melt these together in a pipkin over a soft fire (alwayes stirring it) till all be well incorporated, then take it from y^e fire, & stir it till it be for rouls as you may make it up in rolls; when you have use for it, spread some of it on a piece of dillome leather printed full of holes & apply it warme to y^e grievous place, it will receive fast till humours be exhausted.

For an Ulcer

Brate 5 cloves of Cardus agas rilla for a man, & but 3 for a woman, then mix about a pennicworth of saffron w^{ch} it till it bee like unto a salve, w^{ch} spread upon a fine linnen cloth plaister w^{ch} & against y^e coming of your fist lay it upon your ring finger of y^e left hand from y^e 2 joynt to y^e 1st and towards y^e wrist, for bind it on & then lett it lye five or 6 dayes, y^e hand all y^e time is to be kept very warme.

For a great rouls in man woman or child or for shortnes of breath.

Take halfe a pound of waipers of y^e suna stone, 1/4 pound of muscard, 2 pennicworth of liquorish, wrapped & dried, one pennicworth of aniseeds one great handfull of Goltfate (y^e white being cleaved throu) boyle these in a gallon of springwater till halfe be wasted, then lett it stand all night, & after y^e power y^e cleave from y^e drages, & putt in 4 ounces of brown sugar Candie powder & drinke of this morning & evening, if you will.

For sinews pained.

Take of dayly roots leaves & all, & of dancwort of each a handfull of groundworms & prayles of each a handfull, after y^e wormes bee made cleane boyle all together in reatesfate oyle & rapons seed of each a like quantity, then strayne them into a pott & anoynt y^e grievous place therewith warme, morning & evening & keep it warme.

How to stone.

Take papaver, Parsley, lime, winter sauvoy, germander, Camomile, wormwood, prunivoyall, Eshop, Lauander, fennell, of every one of these a good handfull, chop them small then infuse them 24 houers in small ale wth 3 or 4 nutmeggs sliced, putt thereto of Venice Turpentine well washed in rosewater & quantity of a walnut & 1/2 lib of linn honey, putt all these into a limbeck & distill them, keepe a quart of 1st runing by it selfe, a pottle of 2^d runing & a pottle of 3^d. And when occasion serues take 2 spoonfulls of 1st runing, a spoonfull of 2^d & another of 3^d, & putt them into populerwine or ale & drinke therof (being firste togather) in a morning fasting, but if 1st party be in extremity lett him take it at any time of 1st day, & fast 2 houers after it, & walk softly halfe an houer after 1st taking it. If it be not mingled as aforesays it will be too strong, & patient must take it 3 mornings togather.

To make Syrrupe of flowers.

Take 1/2 flowers full blowne in a dry day, rutt away 1/2 whites & putt into a pewter flagon 1/2 may be reuered as many of them as will may bee, & putt thereto a pottle of faire runing water, then sett them open 1/2 mthbers, if it may be waunte night & day, & every day putt new flowers into your liquor, untill it be of 1/2 perfet colour of 1/2 flower for lett it stand 3 or 4 dayes, then strayne 1/2 flowers out of 1/2 liquor & putt to every quant of liquor 2 pound of sugar & boyle it to a Syrrupe.

An easy way to make Syrrupe of Giliflowers.

Take 1/2 flowers full ripe in a dry day, & rutt 1/2 whites therof & putt as many of them into a pewter flagon or stone pott as may well be putt in wthout thrusting downe hard, & fill it full wth faire runing water then stop it close wth past or dough, & then sett it in a pan of water, an houer & a halfe or 2 houers, then take it out & set it in some safe place till 1/2 next day about 1/2 time, then wthdrawe it & putt all 1/2 stuffe out, into another pott or basin, & soe strayne 1/2 flowers from 1/2 liquor, & putt 1/2 liquor into 1/2 sayd first pott, & fill it up againe wth other flowers as before & stop it close & sett it againe as long, then take it out & soe use it 7 or 8 dayes, & 1/2 Syrrupe will be like blood, then putt to every pound of Syrrupe one pound & 1/2 of sugar & then boyle it to a Syrrupe.

If you have more flowers then can be used in a day or 2 those lay in some reade place, & cover close to keep them from 1/2 aire.

To make Syrrupe

Beate 2 whites of eggs wth a little red till it come to a light froth, then putt them into your description & stir it well & wth your rood after your sugar be putt in & dissolved & soe lett them boyle a rebalme or 2, then strayne them through a fine flannell strainer or a roton & after 1/2 boyle it up to a Syrrupe

M^r Bennington

To make Syrrupe of Solifoh

Take Solifoh & wase it cleane & pick it & wase it, & then let it drye
through a fine silk it be dry, then chop it & stamp it & straine it through
a strainer, then fill it with water to fillle all night afterwards take y^e clearest
of it, & putt to it for much clarified honey or sugar as you have saye
of Solifoh & boyle it to halfe y^e quantity. 2^o German.

for the ague in a child

Take rhynd Turpentine then make 2 rotted of leather 2 inches long and for bread
as will fit the insides of the wicsted then spread the Turpentine thereon & laye somewhat
thine and sprinckell it with the powder of olibanum and soe apply it to the wicsted
letting it by till it run of it self: it is necessary that the patient quest by
giving him a scruple of cubard on the day before the fit comes alsoe apply the aforesayd
plaster the night before the fit comes. 2^o Probatum 2^o 13

A roling broth for one in a burning
feaver specially.

Dresse a Shirkun or red Cork, day it well & boyle it wth rola herbs
as y^e water of sorrel, plantain & franil, y^e leaves of Endive &
corkony, y^e flowers of Borage & Rueblas; when tis thoroughly boyled
chop the Shirkun small & straine it wth y^e broth & cure, season it &
use it for your diet.

For y^e further mitigation of y^e heat take pickid barley & use it
as you doe what to gett of y^e husks to make frumenty, & when it
is well husked boyle it as you doe y^e sayd what till it wast none
& then take y^e wth a litle of that it is boyled in, you may first
boyle your barley & in y^e draction boyle your shirkun as before
season it wth sugar & give it a tast wth red rose water. If the
patient desire much drinke gett some filburde, pick of y^e pills on
y^e fennell, grind them as you doe almonds blanched, & wth the
draction of y^e sayd barley make as it were almond milk &
season it, & let this be your drinke somtimes when you are dry
2^o Caundry.

For a ranter in y^e mouth or for
a sore mouth be it of young
or old.

Take of Sage of fennell, of y^e leavedgrass of each a handfull & of
holythistle 1/2 a handfull, after you have washed them spring them in a
linnen cloath then stamp them & straine out y^e use into a por-
ringer, then poultur a piece of Allome of y^e bigness of a walnut
& putt it, & for much honey to all y^e stuffe as will sweeten it, then
fill it altogether on a soft fine 2, 3 or 4 whatme alwayes
stirring it if it lumpen not then putt it into a glasse or galley
pott for your use, & when you will use it take a litle therof, &
putt it into a spoon & warmer it, then wth a cloath tied on a litle
shirkun or wth your fingers annoynt y^e greivous place 3 or 4 times
a day but neither wthly before nor wthly after meate & it will
soone be well.

for y^e flux

Take as much Colicoroniack finely beaten as y^e weight of a goat & give it to y^e patient in his meate all raunders or other supping things & it will heale it.

To make gelly of hartshorne a most excellent restorative for one in a consumption.

Take 4 oz: of hartshorne thin shaven, of y^e white thereof, & boyle y^e same in 3 pint of running water, upon a slow fire till it boyle but stoly till it come to a gelly & be consumed to a pint, then strain it through a straine & powder it wth sugar according to y^e parties liking after y^e put in alsoe 2 spoonfulls of rosewater & a spoonfull of Syriacum mado & stirr them.

for y^e Scatira

Take of new way, of deers suit, of pitch & rosen of each a pound, of frankincense y^e of Mastick 4 oz: beat all these severally by themselves to powder, for as you may get y^e substance of them through a fine sieve,

for a breast ap

Take of the leaves of malowd and green wormwood of each a handfull pound them small then boyl them with some galls y^e in a quart of beere, and to this give it continually till the heart be very soft and tender if you apply it y^e quick as you may well be suffered.

A poultice for a swelling ap

Take 2 quartes of ale or beere put therein 1 handfull of white dead wood full of plantan leaved 1 handfull of malowd and 1 handfull of leaved of a red rose to be boyle all these together till almost half be consumed then put to it much oatmeall as shall make it fit to spread and let it boyle a while continually stirring it then take it off and put thereto 2 large spoonfulls of salit oyle give it well together and you apply it y^e poultice as you may well be suffered.

for a haire or scate.

Take of y^e yellow mass of freestone drie, & rubb'd to powder (or y^e yellow mass of flate or tiles) 6 oz: of houseleek 2 oz: of ground iure 2 oz: & of galls greas one pound & 1/2 stamp y^e ground iure & houseleek in a stone mortar very small, then put them wth y^e galls greas upon a gentle fire till it have balling, and looke by & oner always stirring them, then straine it through a canvas bag into a basin, or y^e like, then stir it till it be cold & put it into pots for use.

If you put but half y^e said quantity of galls greas, & y^e like quantity of mutton fat around your scate will be stiffer, & some think y^e better.

An excellent water for eyes & sores.

Take a rrame pot y^e hath not been used, & for many ounces of white vitriol as it will hold gallons of water (obserue y^e proportion) & when ther is any quantity of snow raise y^e vitriol to be beaten to powder & then put into y^e pot two or 3 handfulls of cleare snow & presse it hard downe, & y^e strake some of y^e vitriol powder thereupon, & for a good handfull of snow & y^e some powder till y^e pot be full up heape & y^e powder great, & y^e rouse it wth a cleare linnen cloth & sett it in a filler wher it may not stand warme nor freeze, & when y^e frose & snow be all gone in y^e filter, you shall see after find y^e snow dissolved in y^e pot. When you have use of y^e water pour it into glasse bottles by the helpe of a tunnill, through a cleare linnen cloth: & y^e longer you keep it y^e stronger it will be.

It will straine linnen. J. Mathias.

An other way to make it.

Put a pottle of springwater and an ozj. of white vitriol into a pot or glasse y^e may hold somewhat more, rouse it wth a linnen cloth or y^e like and stir, or shake it morning & evening & curing to raise y^e settlinge from y^e bottome for 7. or 8. dayes in summer, & if made in winter for 14. or 15. dayes, and it will then be fitt for your use.

- the virtues & use.

1. It being dropp'd into y^e eye will cure bloodshotte eyes, & take away speckles, pains in y^e webb, & films growing there.
2. It will cure rheumatist eyes by dropping some of it into y^e eye when y^e patient is in bed, & before he rise in y^e morning, but if y^e have been for any while, or be extreme, then take a peire of a red rose rabe of some thickness of about 3. inches broad & 4. inches long, & misse it wth 7. or eight spoonfulls of y^e aforesaid water in some little pewer dish upon some embers to wards bed time, & y^e patient being in bed, & y^e rose rabe well misse being it blood warme over y^e rheumatist eye from y^e nose to y^e temples, wth such linnens as you regard not, for it will much please them.
3. A peire of red rose rabe for misse & for applied will sore give ease to eyes tormented wth paine, or apply'd to y^e temples affected wth rheumatist.
4. It will also take away inflammations from sores & stop humors flowing thither, and give ease to ym y^e are troubled wth headach.
5. It will likewise sore heale a broken brow or shin being soe applied when y^e hurt is new done.
6. It will also cure burnes & scaldes if they be not extreme, being misse'd before y^e rose rabe be any thing dry.
7. It also being layd upon a plaister applied to a sore & misse'd every 12. howers though y^e plaister be but once in 24. will hasten y^e cure in halfe y^e time.
8. - the water will cure y^e itch, ringwormes, & teares by rubbing y^e oft wth it. - chat with snow water is fittest for hott & y^e wth spring water for cold humors.

The same in y^e use.

36. Take Figons dung & sic it wth red vinegar & apply it to y^e nape of y^e neck.

A good water for eyes.

37. Take sibiun ground into fine powder y^e weight of 2. 6. y^e powder of Crocus mataboniu y^e weight of 2. 0. of Camphir y^e weight of 3. or 7. grains of wheat. put all these into a bag of suttinell, and hang it almost to y^e

17.
bottom of a glass of a quart of spere water & 7 or 8 spanefulls of frost
damaste rose water & sett it in an other vessel of hot water some 3 howers
& keep it close stopp'd after it is roild for your use as most souveraign
yeath & spirituall.

id^r Langham.

A good healing salve of Perchian.
or Whistongue.

3 Take of English Sabarro $\frac{3}{4}$ lb (that wanting) addens tongue or Milllet,
stampe it in a stone moshur then seeth it wth a quart of fillet oyle in a
pan (alwaies stirring it) till it loke black, & will bubble noe more then
three times & you shall have an excellent grease oyle then put to it of
virgins wax thin sliced $\frac{1}{2}$ lb of rozen beate to powder $\frac{1}{4}$ lb sett them
againe on a soft fire, now & then stirr them, & when they be well
incorporated take it thence & put to it 2 ozj. of good Turpentine
and stir it till it be roild & put it into pots & keep it for yo^r use. Its
good for much rash sores, apostumes, wounds & for all rults, & haunts in
y^e head.

Ob. C. H.

— to make flos argentea

Take of rozen & perrosin of each i^{ij} of Virgins wax, olibanum
red drass suit, & virine turpentine of each $\frac{1}{2}$ of Mastick $\frac{1}{4}$ powder y^e
red will powder & red y^e will rult; y^e melt y^e wax rozen, perrosin,
olibanum drass suit into a pan upon a soft fire, & y^e put in y^e Mastick
Mastick, alwaies stirring them & when they are well incorporated, then
streane y^m through a strong rannus bagg into a pan y^e hath in it, 3
pintes of white wine hot in it, then sett it to boyle $\frac{1}{8}$ of an hower
againe on a soft fire alwaies stirring it, & then take it from y^e fire
& strain it till y^e fume be of. & y^e put in 2 dains of Camfir finely
sliced, or powdered, & after you have a while stirred y^m put in y^e
virine turpentine & stir all together till they be roild, upon a little
grasse straw or y^e like wth a flire of about two fute in length. You
must have the helpe of two men y^e one to stir & y^e other to hold the
pan, when one is weary y^e other is to relieve him. When it is for
stife it will be stirred noe more, y^e take out thence a good lump,
pull it in pieces & streane it in your hands to gett out what liquor you
can, & y^e lay it on an oyle smoth board, when it cleaves to your hand
annoint it wth some oyle, or put your hand into y^e liquor in y^e pan
for use y^e use & make it all up into rollers & lett them lye one by
one some eight or ten dains, & y^e you may lay up each roile wth
some paper & keep it for your use.

Ob. C. H.

for a straine, old bruse or paine in y^e hart,
or weaknes.

Take of Burgundy pitch 8 ozj; of white wax 4 ozj; of Olibanum 2 ozj;
Mauz y^e wax thin, beate y^e Olibanum into fine powder, then melt them on
a soft fire in an earthen pot well leaded, & when they be well incorpo-
rated, & boyled a little then perore all into water, & when it is roild
annoint your hands wth batten, then beat well & worke y^e said stuff
out of y^e water, & then roll it into rollers, then keep it in oyled
papers for your use: When you use it spread it upon sheepes leather
sprid full of holes, & apply it warme to y^e grained place.

Lady Castrengis

for y^e biting of a mad dog.

X
40

Take of few rhesus pickt sup oware, of gaslort y^e outward pill taken of 4 oz. of y^e best London treacle as much, of y^e scraping of perter or lina 4 spoonfulls, boyle them in balneo, in 3 quartz of y^e strongest ale fo^r 4 hewres take of this liquor strained every morning fasting 9 spoonfulls, continue this 9 days. Also take y^e puffs from w^{ch} you straine y^e liquor, and apply it to y^e bitten place, this will cure y^e biting of every venomous thing, not in man only but in every other creature.

The quantities are to be observed of y^e one as well as of y^e other
y^e b. c. H.

A good medicine fo^r sore breasts.

41

Take y^e Oxeye of y^e man y^e husband to y^e woman seek in it a handfull of Eldor leaves untill they come to a plaster at least well toed, apply them as a plaster to y^e sore breast, & it will yeate speedy remedy against the greatest paine of a breast unbroke, & quickly heale a breast brokt, yet better a breast unbroke.

Another

42

Take y^e inner rind of an Elm, y^e inner rind of an Ash, y^e inner rind of an Eldor, thin take Valerian, rapens feathers, sackfoyle, & mangotchaun a pint of y^e best & thickest meane y^e may be got, y^e salt of ralis statoreo clarific, parse y^e herbs & y^e rinds, but first cut y^e rinds small, boyle all these untill they come to be very green, then straine it into your pott fo^r your use.

Another excellent good one.

43

The y^e removal of a rinde apptise hot as it comes from it pull it off to inflamed & hard swollen breasts. It raseth y^e paine & taketh away y^e hardness. fo^r y^e bloody flux.

44

Take y^e pille of a red stone as warme as it is milke, then take a gad of steel, lay it in the fire untill it be glowing hot, y^e put it into y^e milke & raise it close, & when it is cold take it out againe, & red hott putt it in againe 2 or 6. times, drinke of this untill you be stopp.

Another.

45

Make powder of y^e iacobones of a pite putt some of it in red wine & drinke it first & last, & take some of y^e powder too; this sayth my kithow hath done y^e cure wher other things have failed.

fo^r a sore mouth in a child.

Take Scleribid leaves & y^e leavedgrass, boyle y^m in milke & give y^m y^e rinde in milke w^{ch} a spoon
fo^r y^e yellow jaundis

46

Take thianpan raris & y^e inner bark of a barbery tree of each 6. oz. of saladim raris 3 oz. of english saxon y^e weight of a quort seeke these in a pint of white wine, thin straine it, & drinke thereof 4 spoonfulls every morning fasting warme.

A singular good medicine fo^r y^e gout.

47

Take a young whelp of a hound, y^e hath lately opened his eyes, y^e fast y^e you can gett, fete him like a pigge, y^e take out his guts, & take one handfull of nettles, another of damiswort, parse y^m w^{ch} two good oz. of brimston y^e yolke of 4 eggs four oz. of iupentive, parse y^m altogether, y^e putt it into y^e belly of y^e whelp, & seve it w^{ch} y^e fundament every lofe y^e none come forth, y^e putt him & milke but a gentle fire to rost him, y^e longer he is in roasting y^e better, & in this maner rost him untill

all y^e sape be dropped forth, & the day, y^e keep y^e droppings in a glasse, and
anoint y^e place therewith, it will not only ease y^e gout, but also comfort and
strengthen y^e ioynts very much.

For a great paine in y^e scapes of a mans
backe coming from cold.

4 Stirre some of a boyary roke, & after y^e you haue made it cleare stamp it in
a waddinge dish or y^e like, & spread it upon some halloome leather, & apply it
warmer to y^e ground place, y^e patient being in bedde, & bind it on y^e lapp
his feet wth a warme wollen cloth, & lay some more cleathes upon him, &
he will soon find ease. The patient must endure y^e nettling of y^e roke. pb. 2. ff.

For y^e plague, small pox & measles
a tried good one.

Take 3 pintes of Maluysy a handfull of good sage, & a smocke tree, boyle y^e
together, until a pint be wasted, y^e straine it & sett it on y^e fire againe, and
thereto put a penniworth of long pepper halfe oz, ginger a quarter oz,
of nutmeggs all beate to powder together not too small, & lett it boyle a little
& y^e put thereto 4 penniworth of Mithridate two penniworth of beards
& a quarter of a pint of aqua vita (or angales water) keep this as best aboue
all worldly treasures take of it warmer every morning & evening one or
two spoonfulls if y^e party playe the time. Trust to this for certain for there was
never any death my author y^e this drinke derived, if his hart was not
altogether mortified before. If not infected halfe a spoonfull at morn-
ing & halfe at evening J^r Buerger /

As y^e stone.

4 Still y^e leaues, & flowers of Melilot (some call it hartflawer) it groweth commonly
in barly & grass landes) as you sell roses, betwixt Midsomer & Lamas, y^e done
top y^e glasse you keepe it in very close, & it will be so for your use.
If a man or woman be to use it put about 5 or 7 spoonfulls into a
glasse, & lett y^e patient drinke it fasting & first after it. If a child
4 or 5 spoonfulls. Lady Shurde. pb. 2. ff.

Another

5 Beate y^e dried shell of a peash stone to fine powder, take soe much of it as may
lye on a grease put y^e into a spone wth a little posset ale or y^e like, & lett y^e
patient swir it very well together & swallow it downe, & shortly after drinke
a good draught of bracke or ale & first about after it y^e Lady Dauncrount.
As a signe y^e mofth y^e breast or fo^r an inward
bruse or for a pluresie.

Take three or 4 balls of y^e dung of a spotted horse y^e is kept in a stable
put y^e into a pint of good salu ale: after you haue beatef y^e thurn
stirre y^e well together & stopp y^e pot close, & after 12 houers lett the
ale run through a fine linnen cloth, & y^e patient drinke it fasting &
fast 2 houers after it. Doe y^e like in y^e morning & evening it in y^e same
manner about 4 or 5 of y^e clock in y^e afternoon, & lett him fast 2 houers
after, or towards bed time, y^e patient not hauing eaten any thing two
or three houers before. y^e you may sweete it wth sugar, so y^e use. pb. 2. ff.

An excellent pulvis fo^r a venomous blasing.

Boyle a pint of y^e eldus & thickest ozon y^e may be gotten, thicke it
wth y^e finest wheat flowers y^e may be had, make it very thicke & boyle it well
(alwayes stirring it) then take it from y^e fire & put thereto some of y^e ioynt
of houseleek, stirre y^e well together & apply it hot to y^e ground place.
y^e Lady Dauncrount

A good healing salve.

Take of yelore wax thin sliced 4 oz: of resin finely powdered, & of Bees of each 2 oz: & of galls greafe halfe a pound. Melt y^e wax resin & galls greafe in a pan, & when they are well incorporated (they are to be stirred often) then take it from y^e fire, & let it coole till it be but blood warme, then put in y^e Turpentine & Bees & stir y^m againe very well together & set them againe on y^e fire still stirring them) then let them boyle gently a full quarter of an houre then take it thence, let it coole a while, & y^e Turpentine it into water, & then wash it well, & then rub it up & keep it to skin wounds or sores. It is a good salve.

qu: whether it be not better to put in y^e Turpentine after it be strained, y^e before, & to strain it that water y^e somewhat cold. y^e Lady Crant night.

An excellent remedy for a great toid, & for much roughing.

Take some Ellirampare waxes being made very cleare, & put them into an oven some after y^e bread is drawn, & after 3, or 4 houres you may straine them into fine powder, & mixe some of it wth some good hony upon a hearth or y^e like wth a knife or some such thing, y^e put it into a glasse or small gallery pot take therof y^e quantity of a nutmeg fasting, & at your going to bed, & at other times 2 or 3 houres after meat, & an houre & somewhat more before meat - the powder is to be sifted through some fine sannelt or y^e like, & y^e goose is to be beaten againe & for sifted againe. 10 lb. 1 ff.

for burnings.

Take a pound of onsted lime & let it dissolve in cleare water, & when y^e water is filtered, pour it gently out from y^e lime through a linnen cloth, y^e put as much salt oyle as you take water together, beat y^m to an oyle you shall have a most excellent oyle for all kind of burnings.

Another.

St. Matthews.

The white of an egge & fresh butter being mingled together & well beaten to an oyle, are excellent for y^e same, & will heal: it out a baxx. 10 lb. 1 ff.

for y^e rough of y^e lungs, or paine at y^e stomack.

Take of Annisticos of Lyronase, of Ellirampare, of browne sugar randy, of each 2 oz: of duxas waxes 1/2 oz: of Cinger 1/2 oz: of Brimsone 1/2 drie all these before a fire, scrape y^m & beat y^m severally, & passe them through a fine searse, y^e mixe them wth some hony, as may wth stirring make it somewhat stiff, & wth a liquourish stick take some of it fasting & at bed time.

How to make aqua mirabilis or pretiosa.

Take gallingale, cloves, rubibean, ginger, mellelet, rardino da maria, & nutmeggs of each a dram, & of y^e iure of saladine mingle all this made into powder wth y^e sayd iure, & a pint of squawbe, & 3 pints of good wine put all these together into a stillatory of glasse, let it stand for all night, & y^e next morning still it wth an easy fire.

In virtues.

It dissolueh y^e loyze wthout greivance, it helpeth & comforteth y^e being wounded or pricked, it stoppeth y^e blood not to gush out but it multiplieth it soe y^e he shall not need ever to be bit blood. this water stoppeth not y^e hart to burne, nor yet melancholy, or fleame to be left or to have dominion over nature, it expelleth urine and exiliteth y^e stomack marvellously, it refresheth youth with some of it: nigredeth god colour, it consoueth memory, destroyeth y^e palse of y^e limbs, & y^e prou a near fasting once a weeke & two in winter.

59 Take Clarampare rotes, & seeth y^m in milke, then streyne them through a
paine of rother, & give therof to y^e patient. /

for y^e colick & strangullion. /

60 Take flower & ale mixe them well together wth a little sugar, & drinke it wth
fodder this gives you a steele & ease. /

Another.

61 Take some hempseed well dried, make it into powder & drinke it wth ale or
wine well mixed together. /

Another fo colick & y^e stone

62 Take parsley seed, fennel seed, running seed, aniseed, & plantain seed of each a $\frac{1}{2}$ ozj
of nutmegge one ozj, of hie sugar 4 ozj, beat all these into fine powder & sease
them, let y^e sugar be beaten wth ale, and take of y^m as much as a good hazell
nut, put it ab into beere or wine (malmesey is y^e best) evening & morning
& times a week, when he is in paine drinke it wth malmesey. /

ffo paine in y^e bart. /

Take of burgundy pitch halfe a pound make it into fine powder, & take of honey
 $\frac{1}{2}$ pound, of mutton suet of y^e Kidney $\frac{1}{4}$ pound stire it small, boyle y^m gently on
a soft fire, always stirring them till they be incorporated, spread some of it on
some drome leather, apply it warme, & bind it. /

To heale sores, or scabbes neare y^e fundament
proceeding from some malady in y^e liver. /

Take of blew violet leaves, & of spurtoyle of each a handfull, & of liver-
wort picked cleane from y^e stalks a little handfull, stamp y^m in a stone mortar
y^e put to them a quarter of a pint, or neare halfe a pint of strawberry
water, stir y^m well together, y^e streyne y^m, & y^e boyle y^m wth sugar
to a syrrop, give a spoonfull at a time 3 or 4 times a day upon an
empty stomack, but especially fasting & at his going to bed. & wth in two
dayes all his paine ther will be done. /

opb. M^r Buspall. London. /

Another. /

63 Take of singusfoyle, liverwort, & violet leaves of each a handfull, stamp y^m in
a stone mortar, & y^e put to them a quarter or neare halfe a pint of strawberry
water, stir y^m well together & y^e streyne them, & see boyle y^m wth sugar to
a syrrop. Give herof to a child a spoonfull fasting when he is in bed at
night, & once or twice a day upon an empty stomack, if he be of ripe years
2 or 3 spoonfulls at a time. Within 2 or 3 dayes all y^e paine will be gone. /

opb. M^r Buspall. /

17th July 1847

Dear Mother
I received your kind letter of the 10th and was
glad to hear from you and to hear that you
were all well. I am well at present and
hope these few lines will find you all the same.

I have not much news to write at present
but I am well and hope these few lines
will find you all the same. I have not
much news to write at present but I am well
and hope these few lines will find you all
the same.

great peptin, & in y^e morning set it roured on a soft fire, then let it
boyle gently untill a third part be consumed, y^e straine it through a y^e
thick cloth, y^e let it settle & afterwards, straine it againe 2 or 3 times
y^e pour it from y^e fillings, & put to it halfe a quart of a pint of
hyssop water a quart of a pint of y^e rare of baked turneps, & so
much sugar as will boyle it to a light symppe. take therof a spoonfull
first & last.

For a weak stomack.

11
y^e Lady Brack. London

Take y^e dates, pinte y^e with a knife, y^e soft them till they be warme throug
y^e rub y^e in y^e midst, take away y^e stone & pize into, & sprede y^e small
then put y^e into a pore mortar & beate y^e then put y^e yolke of a
laid egg well beate, & a quart of a pint or a party draught of ale
to y^e dates, & after they be well stirred together rouse all to be well
hand straying out then put to y^e liquor a little of a nutmeg, & sweet
y^e same wth sugar, & let it be only a little warme. it must not sath
let y^e party drinke therof in y^e morning & for sleep a little after it
of this as many dayes as you will.

Another.

M. Mathias.

Take oyle of mare, oyle of wormewad, oyle of mints of each a like quantity
and anoint y^e stomack of y^e patient & it will help.

Another

To cure a stomack in a sick body.

wash french barley very cleare, & boyle it in faire water till now halfe
be consumed, y^e straine out y^e water, & put y^e rure of a lemon into y^e water
& a good quantity of sugar rouse, & boyle it to a symppe & keep it so yo
sh. It will last a year.

To cure a rupture in man

or child. See German fol. 793. of y^e herb
rads douastick or rradbill.

Take a pint of new milk & as much sweet butter as y^e bigness of an egg, and
when y^e butter is melted ro^u y^e warme hand, y^e milke & butter being also warme
strok y^e greived place upward, & by stroaking of it you may get it up. Then
when it is up apply this ensuing plaister. Take two good handfulls
of romfrey & beate it or chop it very small, y^e take halfe a pound of
butter & halfe pound of firoe wax, & when y^e wax & butter are melted
put therunto y^e romfrey, & make therof a plaister & when y^e rupture is
up, apply it warme & shift it once in 2 or 3 dayes for twice dressing. After
ward y^e longer you lett it by y^e better. It is necessary y^e patient weare
a truss till he be perfectly well.

pb. h. Har: /

To make oyle of mare.

Take halfe an ounce beaten very fine, & putt y^e powder therof into a
saucer of sallit oyle, & set it over y^e fire & stir it well together, un-
till it be warme, y^e take it from y^e fire & it is done.

fo' y^e spleene.

Take a pint of white wine, & after you have sweetned it wth sugar, put in two p^{er}nsworth of saffron, & stir it well, & warme it & drinke thereof fasting & at 4 in y^e afternoon. y^e Lady Dabraham.

Another

Take a bundle of beame to y^e quantity of a good fagott, burne it in a cleane place, y^e take y^e ashes theroof beeing cleane sifted, & press them in a bottle of good white wine or rhenish or good sherry sack, & infuse in a linnen bagg 1/2 oz: of sinnamon, 2 or 3 rasps of ginger, & 1/2 oz: of cloves bruised let y^e for be steeped 24 howers, take a good draught thereof fasting & sweeten it fo' your use. y^e Lady Dames.

A great remedy fo' y^e green sickness

Take sweet marjoran, rosemary topps, red fennell, red sage, red pepper, red mint, muswort, mace, washed pop, washed lime, & smallage of each a handfull, wash all these herbes, & take the ovens of whole mace 1/2 oz: of sinnamon, one p^{er}nsworth of saffron, press these herbes & spices together, y^e take a peire of dough & close y^e herbes & spices in it y^e noc aire may come out, then bake it in an oven as you doe white bread. then take a gallon & a halfe of pale ale of y^e best, & put it into a pot, y^e is to draw wth a topp, y^e take y^e fo' loose beeing well baked, & break it into y^e ale & stop y^e mouth of y^e pott very close y^e noc aire can come forth, this beeing done over night, y^e next morning you may broack it & drinke a good draught every morning.

Another.

Take a spoonefull of mustard, made wth white wine vinegar, where it is come to y^e strength, y^e mix it in 4 spoonefulls of y^e patients urine warm, & prayne it, & give it fasting 2 or 3 mornings together. y^e Lady Husby.

Another drinke fo' y^e green sickness, yellow jaundie, dropsie, itch or naugingis of y^e body you may find in Gerard fol. 314. made of y^e rates of Monts ruber & red madder. &c.

For noise in the eares.

Take soe much garlick as will easly be got into yo' eares like a bect, & press it in hony you have purified it well, & y^e put it into a fine p^{er}ce of lanne & soe put it into yo' eares always leaueing a litle of y^e lanne out, to pull out y^e garlick better when you putt it. J^r Hudson.

fo' a sore mouth or fo' y^e canker there.

Take of y^e iure of sage, of y^e iure of Sardinus, & honey, of each a spoonefull temper y^e wth y^e powder of bole armonak, & burnt allone & y^e boyle well together in a porringer & when it is cold anoynt y^e place theronth soe y^e it may be thirt on.

fo' heate in y^e face.

Take of rapons grease well clarified 3 spoonefulls of rose water two spoonefulls, of y^e ioyre of oranges or lemons a spoonefull of burrowes in fine powder y^e weight of 12 p^{er}ces & of sinnamon y^e weight of 6 in fine powder also, beat all these together in a mortar, then let y^e patient anoynt y^e face evening & morning. m^r Ouxton.

12 Take herbysse, Slope & lilly rootes of each halfe a handfull, & 3 or 6
figgs, boyle y^m in good vinegar, y^m put thereto 2 spoonfulls of good hony
seth them on a soft fire till it be pulvis like & apply it warme to
y^e greivd place, hot. / Form.

A pulvis fo^r y^e gout.

13 Take of Daneroot, herbans, groundsell, mallowes, smallage, sorbleaves
rhibus, ramamk, of each halfe a handfull, y^e stamp them & seth
y^m in rose milke puttng to them oatenmeale grubs & galtgrass, and
apply it warme. / Form.

Another fo^r y^e holt gout.

13 Take good blew clay & temper it wth vinegar of roses, & y^e whites of
eggs, y^e incorporate these well together & spread it upon y^e greivd
place any thirt, y^e dip a cloth in vinegar & lay upon it, & roll
it up, & when it begins to dry, take it of & lay on more, use to doe
this 3 or 4 times a day & you shall find ease. / Form.

for aches in the bones.

13 Take of y^e oyle of Mastick one oz: of y^e oyle de spika, of y^e oyle of roses
and of aqua vita of each 1/2 oz: incorporate all these together & anoint y^e
patient against y^e fire, y^e have him well wth warme clothes.

Another.

13 Rphorbian & 12 times so much oyle olive, & a little wax made into a
plaster, & applied to y^e greivd place helpeth it, & is very good against
lamens, pullings, cramps & shivering of sinews. /

Another. sic Girvart. 759. Salomons stalt.

13 Take of mallow leaves, groundsell & plantain leaves of each a handfull
then seth y^m in water till they be pooder dry, y^e take them from y^e fire &
sprayne out y^e iure into an earthen pipkin standing on a chafinise of
roley on a soft fire, y^e put to it of dracen suit or wrought wax, roze
and turpentine of each 2 oz: rub & brayse y^m small, & when they
be melted put thereto 2 spoonfulls of sallit oyle, & let it seth till
it be thirt. then put thereto a spoonfull of whit lead finely beaten
to powder & y^e like of bolacomonate powdered also, then seth y^m a little
more & keep y^m wth stirring, y^e they burne not to y^e bottome, then
take it from y^e fire & for let it cole, & when you will use it spread
it on a linnen cloth or leather & cure it at y^e fire & for ap-
ply it, & shift it every 24 hours. If when you take it last from
y^e fire, you doe sprayne it it will be y^e better. y^e Lady Edolph. /

Another. fo^r aches growing from cold.

Gather y^e water of Briary between y^e first of June & y^e last of febr
ary, & stamp it in a stone morder, y^e sprayne out y^e iure & anoint the
greivd place thereto before a fire, & shake it in, this doe wth wth
12 hours & keep it warme. /

In my opinion it y^e wth wth being gathered, stamped & sprayned as
above said.

above said, be also boyted on a soft fire, wth some red dears suet, & three
 straine they must doe much y^e better, especially if y^e soyrnt be not, to be
 perfectly dry. If y^e rate be newly taken out of y^e & made very thine,
 and y^e stamped & layd on sheeps leather, warmed at y^e fire & applyed to the
 grained place, when y^e soyrnt is in blood it will give y^e best ease. But y^e
 party must moure y^e rubbing. chey haue fat warme. / *Op. Ch. Har.*

Another

Mix an ounce of engrate dialthea, wth halfe an ounce of y^e oyle of roses, &
 warme some of it in a sause, & anoynt y^e grained place therewth. / *Ch. f. f. Phys.*

Another

Excellent scarrloth to ease any bone: arth, or scabbe;
 to lay to any swelling, or wound, or to draw
 out a thorne

135

Take a pint of fallst oyle, & put thereto halfe a pound of red lead in pow
 der. Stir it as you put in y^e lead, y^e set it on a soft fire, then boyle it till it
 begin to take very black. then put in as much rassa as a little egg after
 it is beaten very small, & be sure you keep it wth stirring all y^e while
 it is boyling, & lett it not boyle fast, fo^r it is subject to boyle over, then
 drop a little upon a pewer dish, & if it role of wth out hanging on it,
 it is enough, else not, then wet y^e cloths therin: they must be neither here
 feludge, nor raggs in y^e cloths, fo^r such will wast y^e sause. You must haue
 red water by you to put y^e scarrlotts in sone after you haue dipped them.
 when you haue done soe, y^e smath y^m & pull y^m, & keep y^m fo^r y^e use. /

Lady Crumpon.

Another

Take of red lead 4th, of white lead 4ozj. of wax 2 ozj. of fallst oyle a
 pint, stre y^e wax small & beat y^e lead into fine powder, y^e boyle all together
 till they be black (continually stirring them) y^e dip y^e cloths in it one after
 one, & sone put y^m into some red water, after y^e pull & smath y^m fo^r y^e use. /

M. Malins. Phys.

Another fo^r paine in a roynt.

Take of burquoy pitch one pound. of red dears suet a thire part (for
 want therof or suet) of y^e gum clamv 1/2 of a pound, a little saffron: boyle these
 together till they be well incorporated. spread part of it on some allome
 leather & apply it to y^e grained place, bind it on, & let it lye so long as
 it will cleave & it will give ease. / *London Apoth.*

Another

Take a pint of y^e best suet, & an ounce of harts horne finely powdered, boyle
 y^m on a gentle fire to a gelly, y^e anoynt y^e grained place hot against y^e
 fire wth part of it, & spread some of it on sheeps leather & apply it warme.

Another

for paine in the bark.

M^r Druet. London.

Take of burquoy pitch 1/2 of English hony 1/2 & of mulle suet of y^e kidneys 1/4
 after you haue sliced y^e suet small, & made y^e pitch into powder, set y^m in pot
 or pan upon a gentle fire, & stire y^m till they be well incorporated.
 spread some of it on allome leather & apply it warme to y^e grained
 place. / *Op. Ch. Har.*

for y^e paine of y^e stomack & milt.

Take of y^e oyle of roses, & of y^e oyle of Chamamile of each .i. oz. of marz
powderd y^e is of y^e, & y^e incorporate all these together & anoint y^e stom
and stomack therwth warme, & y^e lay a hot cloth on it.

for a cankered sore.

Take rozen, prozen, stonepitch & watters tallow of each 2 oz. wels at y^e
and sixsins thame, & put therwth 2 oz. of y^e thimist of Egiptiarum, & sett y^e
over a soft fire & put to them for much oyle olive as will suffice to ma
a soft lincaiment.

M^r Ouerston.

To draw downe womens diseases.

Take a quart of white wine & put thereto, of pennisroyall, lime & Equimie
of each a handfull, brayn them a little, y^e boyle y^e together till halfe y^e
wine be consumed, & let y^e patient drinke therof first & last, & walke a little
after but take heed of cold, you may put in a spanefull of anniseeds bray
ed if you will & a little sugar.

To stop them when y^e haire too many.

Take y^e dung of a swine new made, & put it into a cloth, & warme it &
apply it to y^e place, & let her sit upon it & it will stay.

See Gerrard. Plantin leaues fol. 341.

Swines dung fired wth fresh butter & applied as before will stay them
in a day or two, though in Whitbrood.

Or gett some of them into a dish, y^e dry them on a plate on some
coales, & make them into fine powder, y^e put it into some more ale
or y^e like, stir it well & giue it to y^e patient to drinke though in
Whitbrood, & it will helpe.

Lady Sherrard.

fo^r one that is poisoned. See Gerrard. Formicid
water, fol. 340.

Take oyle olive & giue it to y^e party to drinke to make him vomit
y^e againe giue him more as oft as he can moue it, then giue him
a rosted onion, & after y^e giue him some good breacke & seee him warme
in his chamber.

M^r Ouerston.

fo^r wind in y^e stomack the Queens
powder.

Take of ginger, rymamon & galbana of each an ounce, & y^e like of anise
seed, carraway seed, & fennel seed, & of long pepper graines, marz
and nutmegs of each 1/2 oz. & of fetwell a dram, powder all these
subtily, & put therwth two pound of hard sugar powderd, then mix
these well together, & take some of this either before or after meate
as you please, it may be take at all times, it comforteth y^e stomack
marvelously, it disfluxeth wind & causeth good digestion.

Idem.

fo^r a freyne.

Take of romfrey leaues in spring or of y^e wates in winter & boyle
them in sallit oyle or may better till they be soft, y^e stronger it is of y^e
kind or wates y^e better, & apply it pultrise hot to y^e greued place
& keepe y^e so place very warme dressing it twice a day.

M^r Draper.

King Edwards water for y^e eyes.

Take fixell, ren, rufage, veruaine, tormentil, red roses, orulus Christi
147. thicknes, pimpinill, flaccine, vine leaues, smallage, cignimony & readlime of
each a handfull, stamp y^e a litte & y^e lay them in white wine y^e first
day, & y^e third day in a mazzardos pipe y^e 3^d day in rommes milke, y^e 4th
in hony, y^e distill y^e so y^e up, fo all manner of sore eyes this is y^e best.

fo a fire or plucasia. / ad. god for. roller. M^r Querton. /

Take 2 or 3 balls of Stonedhorpe dung, freyne it wth some old ale after
it hath been steeped 12 houres, & for give it warme to y^e patient to
drinke. / sweeten it wth sugar to y^e use. / (see. pb. Ch. Har.)

fo y^e outward swelling of y^e throat
called y^e quinsky.

148. Make a pulvis of barley meale, god & thirk & lay it to y^e greivied place
for hot as you can well endure, shift it on in 12 houres, or when it is hard.

fo a sore throat inwardly. / M^r Draper.

149. Seeth barley & shift it 2 or 3 times till y^e barley water be white, then
boyle it op till y^e barley be soft, y^e put y^e water & barley into a narrow
mouthed pot for hot as it comes from y^e fire & y^e runny y^e fume therof
into y^e throat, either by a tunnill made of paper or otherwise as hot
as you can suffer it. / M^r Draper.

Another.

150. Take a handfull of columbine leaues, and boyle y^e wth in a pint
of new milke & put thereto also 1/2 of a spoonefull of grosse pepper, and
a spoonefull of hony, & when you take it from y^e fire, put thereto of
sweet butter y^e quantity of halfe an egg, & gargaise therwth curing
and morning for hot as may be endured. / M^r Nelson.

Another

for sores & inflammations of y^e throat.

151. Burrage boyled wth honied water is good against y^e hoarsnes, or roughnes
of y^e throat, being gargalized therwth.

- 2. The iure of 5 Johns wort gargled wth y^e lye.
 - 3. A garganshe made wth hony vinegar & mustardseed wth y^e same.
- fo y^e sores, & to quash urine.

152. Take of sapofrage leaves, or narrow way leaves finely beaten to pow-
der of each a like quantity, in all somewhat more y^e halfe a spoonefull
give it wth some possit drinke in a spoone to y^e patient, & let him speake
it downe, y^e let him drinke a good draught of possit ale y^e shortly after
it, & stir op & downe if he can. / M^r Walpole.

Another

153. Take an ordinary draught of possit ale, & put thereto of y^e syrrege of
althiea ferrelly 2 spoonefulls, & of y^e oyle of sweet almonds newly dravid
one spoonefull, & put thereto a litte nutmeggs sliced, & when you feele y^e
selfe paine wth this warme 2, 3 or 4 mornings together fasting
this will molifie y^e stone & make it passe away easie. / M^r Morier.

Take of y^e distilled water of hartshorne flowers, & of red wine of each a like quantity, drinke therof fasting a quarter of a pint sweetned wth sugar & nutmeggs. 2. 3 or 4 dayes at y^e change of y^e morn.

The y^e hartshorne flowers are thus distilled. Put a laire of y^e y^e flowers into y^e still, y^e a thing laire of grated nutmeggs, y^e another of y^e flowers, & for 3 or 4 laires of y^e y^e flowers & grated nutmeggs. Last put halfe a pint of white wine after y^e all into y^e still, & ye distill in a keep it for y^e use. / Another. / *Urid. Cirrodo. felleo. p. 572.*

Liquorist^{is} boyled in water & often drinke wth y^e sharper of wine, & is good against strus of y^e honis & spres of y^e bladder. /

For wormes in the bowels. /

Spread some ordinary honey upon a piece of sheeps leather, y^e breadth of 2 handes, cut a little hole in y^e midst of y^e leather & srew some powder of Aloe finely braken upon y^e y^e honey, & lay y^e hole to y^e navell of y^e patient, & so let it be kept to it 2 or 3 dayes & longer if it will cleave to it.

Hartshorne scraped, dried against y^e fire, made into powder, & so much as will lye on a great or 2 taken wth some drinke in a spare morning and curamy will doe y^e like. /

Another

Take of of lavender roba, & herbgrare of each a handfull, chop y^e small, stamp them very well, y^e fry them wth butter, & spread y^e on a cloth & apply y^e warme to y^e belly. / Lady. Erre. /

Another.

Take a spanful of milke & roba flower mixt together like fowermate, give it two or 3 mornings together, & it will rare any wormes especially the whet wormes. /

Earth wormes applyed 3 nights to y^e navell at bed time, in a laire or rambrilk bagg will doe y^e like. /

A scarloth y^e will draw out water only out of y^e body & not break the skin. /

Take a pint of sallit oyle, 2 oz. of litters of siluer & 2 oz. of litters of gold, & $\frac{1}{2}$ of red lead; beat them all severally very small. set y^e oyle on y^e fire in an earthen pott, & when it is at rising y^e putt in y^e y^e litters, & red lead, & keep it wth stirring from rising, & so let it seeth wth a soft fire wth out smoke till it be very thicke, y^e take it from y^e fire & sett y^e y^e earthen pott on straw or boards (& not on stones lest it break) then put in y^e cloth & take it out & so make a scarloth. you must not seeth it so much lest it be too thicke. your cloth must be callio. / M. Walbroth for an inward bruise. /

Take stone pitrk & brate it to powder, & put to it 5 or six spanfulls of good pale ale, stir it well & ye supp it of, drinke a draught of ale or beere after it for doe 2 or 3 times first a salt, and salt after it once howes, & 2 howes before you take it. /

for an cold rough or great roth.
yd. Gerard. Salsivico. Cina. Sapp. black mollex. wth yislon flowers.

Take y^e rates of Elirampare, cleane w^{ashed}, washed, dried, beaten to powder, & mingled it wth hony, & soe eat it oft, but especially fasting at a tyme.

Another

Take anniseeds, liquorish, and browne sugarwardy of each ^{two} oz: of Elirampare & aloes of each 1. oz: beat all these to fine powder, y^e seare them, and when y^e rough trouble you, take as much therof as will ly on a sullen.

Lady Edolph.

Another

Take of anniseeds, liquorish, Elirampare, & browne sugarwardy of each 2. oz: of Anax rates, an ounce of ginger halfe oz: of brimsone $\frac{1}{2}$ oz: scrape rhenk & dry y^e wth before y^e fire, y^e beate y^e seuxrally to fine powder seare them through a fine searse, y^e mix y^e fine powders wth soe much pure hony as may make it somewhat stiffe, wth a liquorish shirke take some of it fasting & to bedwards dayly.

Lady Kinags.

Another

Take of Slop, horshound, foliate, & Elirampare rates sliced of each a handfull, of liquorish scraped & cut one oz: anniseeds & fennel seeds of each y^e waight of 6. figgs & raisens of y^e sun stones of each a handfull, boyle all these in 4 piats of faire water till halfe be consumed, then strewe it & boyle it againe, wth 2 pounds of good sugar, till it be a syrupe. Take of this first & last to bedward 2 spoonefulls by little & little as halfe spoonefull pr. for Gerard. y^e devorion of canceps 178. & syrupe of Job. 17th y^e Park. horshound. 563.

The powder of Elirampare rates, mixt wth hony, to take morning and evening doth y^e like.

To cleare y^e eyesight a litle good oil.

Take some white roppers, & hold it to a piece of hot iron, & drop 5 or 6. drops of it into spring water, pier it well together & after 12. hours you may use it, morning & evening, y^e longer you keep it y^e purer it will be, it it be so charge put more water to it and shake it together. 1. 5. y^e cure.

To draw out thornes.

62. Slop tongue mollified in vinegar after it is dried, & laid on y^e sore draweth it forth, soe doth curpachia, black hore, pimpinell bruise, or a plaster of flos ongentoru.

for y^e quines of y^e head.

Take 2 draings of fisherew dried & made into powder wth hony, upon an empty stomack many dayes together & you shall find ease.

A garland of pimpinell doth y^e like being put about y^e head.

The flowers of laudan alone, or taken wth thymian, rull berry, & clovis doth the like. Gerard. dried. take in meate & orate doth y^e same.

To make lope with fast.

The devorion of y^e herb or rath of viruare after garlick, or devorion, or iure of y^e young spriggs of y^e bramble, or rub y^e teeth wth mastike, or y^e devorion of wild tansy seto in y^e mouth, any of these faster y^e & helpe y^e toothark.

The aper of rosmay or Tabarra brachia & papers y^e alpe.

The rate of nyas soyle boyle it make like a y^e part be mofined, cureth the toothark when you hold y^e same in y^e mouth, & mowth y^e space of y^e mouth being washed therwth.

Monysort or herb swopians put in a fine linnen rag after it is bruised, & hite to y^e tooth y^e paines you, rwash it inidiately.

Boyle limpid in water, & lay it in manner of a plaster, & it appeaseth y^e paine, softneth all roto tumours & swellings, y^e imposthumes in y^e eares & rest & all other parts of y^e face.
Anusifics pouce wth oyle of rose & putt into y^e eares, wth y^e inward humors of the same. /

Against y^e Collicus. /

The roto of fassafage & mace in powder, & taken wth sugar wth y^e rollit.
Another. /

Take rosemary, hore, & isope, of each a handfull, of cloves, & mace 1 oz: then put them into a pottle of white or sharb^t wine, & let it seeth till it be reduced to a quart, y^e put in a little sugar & when you feele your selfe pained, burn a pretty draught thereof & drinke it warme. /

2. Or take one oz. of Gromwell seed, of parsley seed, & of y^e kernels of Apples picked of each 1 oz: 3 kernels of bay berries, halfe quarter of an oz: of bransie beat all these together into fine powder & drinke it wth malmsiey, y^e is, 3 or 4 spoonfulls of malmsiey & halfe a spoonfull of y^e powder, walke after it a while, & drinke 2 howers after. /

3. Take a fleeting dish, put into it a few hott imbers, & lay a laire of runc seed upon y^m y^e sprinkle it wth malmsiey, then lay one laire on another till you have filled your dish, but for you put noe roles into it, y^e cover your dish wth a double linnen cloth & lay it hot to y^e grievous place 3 or 4 howes & it will cure it. /

4. Take two fennel, hartstongue, Euisbernie, spruce leaves, pellitory, & parsley wth of each a like quantity, bray y^m small in a mortar, y^e fry them in neat fote oyle, & lay it to y^e belly as hot as you can suffer it a little beneath y^e grievous place. /

A very good glister for y^e rollit. /

Take 8 or 9 oz: of sallit oyle, 7 or 8 spoonfulls of y^e urine of mallers, 2 spoonfulls of aquavitae, or ansified water one oz: of browne sugar rancy beaten to fine powder, y^e put all these together into a bason & set it upon some roales, then make it warme, y^e put all into a bladder, & receive it blood warme into your body by way of glister, keep it an hower or 3 quarters if you can. /

This may be taken at any time. The next morning take 2 oz: of y^e oyle of sweet almonds, or 2 oz: of y^e best sallit oyle, or of each an oz: put them into a pretty draught of white wine, & sweeten it wth some white sugar rancy, y^e stir all well wth a spoone & drinke it of fasting fast 2 howers after. /

So: Dixon. q. b.

For y^e paine in y^e kidneys. /

Take y^e rotes of white fassafage, parsley, y^e resurrection, & y^e kernell of ash keys of each a handfull & of Eringe rotes 2 handfulls, y^e bruyse all these in a mortar very well & putt y^m into 6 gallons of bearewood or alewort & let y^m boyle therein as long as beare & ale wth 10 be boyled, y^e putt all together into a vessel & when it is pale enough drinke every morning fasting halfe an alle pint or more thereof and stir after it. /

A drink for y^e spleene.

Steep y^e barks of Guaiac of an apt, or either of them in water all night, y^e sceth
y^e said water wth y^e barks, till y^e strength of y^e barks be taken out, then boyle
it together, & drinke as good draught euery morning.

For y^e flux or sweating.

Take y^e pill or red roserood, boyle it in red wine, wth some Syriacion, and
rice till they bee thirt, y^e take some & lay some therof to y^e nauell.

Another. *Caues. 748. Vinygum.*

Take a peece of paper faire, cut it into small peeces, & sceth it in milke
wth some Syriacion & giue it to y^e party.

Or take for enuoyed vs, beate y^e small y^e sceth y^e, & thirten
milke thirten & giue it to y^e party wth some powdered Syriacion.

The reserue of flous doth y^e like, & may be taken at any time.

Another.

Smith rose-mary & red sage, hurr rotes & mint of each a handfull in
y^e water of a smiths trough, whilst it is scithing put into it a red woben
cloth, let it stay well in it, y^e take it out, wring it & lay it to y^e nauell
as hot as may be suffered.

Or take y^e white of an egg, & of spices red wibb y^e like quantity beate
them well together, y^e put them into a little pan sauser or wth a spoonfull
of sallet oyle, set them on a soft fire on wood coales, keep it wth stirring
till it grow stiffe, y^e take it thence & spread it on some new allome
leather, & apply it to y^e nauell as hot as may be endured, bind a cloth
round about him to keep it on. The best time to apply it is, at his
going to bed.

A glyster of a great swelling

in a child.

Take plantine ringe foyle, & scapardus pulse of each halfe a handfull
of dried red rose leaues 2 spoonfulls, of ranuncle flowers halfe spoonfull
boyle these in a pint of whea till halfe be roasted, y^e take y^e becam liquor
and mix therrwth a spoonfull of ^{sweet} sugar, & y^e yolke of an egg, & giue it
lar warme.

D. Chorale.

For y^e ague in womens breast giuen
part. or so burne or scald.

Take $\frac{1}{2}$ of preps suit finely tynd $\frac{1}{2}$ of rosin finely beaten, $\frac{1}{2}$ pint of
sweet sallet oyle, mingle these well together in a frettel, & set y^e on a
quiet fire of charcoles, but stir y^e not, nor medle wth it at all, vntill
it be boyled, when it is enough y^e scum will be sunk downe to the
bottom, for soone as euer it is sunk, take it quickly off, else it will
smoke, if it doe it will burne to y^e bottom, y^e put it into an earthen
pan or basen, & when it begins to be rale wth a rrame out, then
stir it wth a spone till it grow like yest, when you haue occasion
to use it for a sore breast, make it warme in a sauser & anoint
y^e breast as $\frac{1}{2}$ it as hot as can be endured against y^e fire, then
dip a linnen cloth into y^e & cynt but bring warme & lay it alsoe
as hot as may be endured to y^e breast. Whether y^e breast bee likely
to breast, or be broken this will heale it. This will alsoe heale a
strale or burne, being spread routeyke on a linnen cloth, like a plaister.

Lady Dolph.

A very souverain cyntment for stubbes, fellons, anguish
of wounds, or swellings, hauses, ouerbreathing of
sinners, & crines, rumps, sickness, flatulencia,
burnings, scaldings, streanes, either in
man or beast, to be made in May.

Take red sage & rue of each lb. of y^e youngest bay leaues or buds, & wormwood
of each halfe pound, w^{ch} y^e very cleare but wash them not, chop them very small,
& take 3 parts of sheeps suet hott from y^e sheep, shred it very small, then chop
it together wth y^e herbs, putt y^m into a mortar & beat y^m till they bee all of
one colour, yⁿ putt them all into a boole, wth a pottle of y^e best oyle oliue,
then wth your hands w^{ork} them all together, till it become all alike soft,
yⁿ putt y^m into a new earthen pot or pipkin, let y^m stand for 4 or 5 days, then
boyle them in a pan wth a soft fire, & when it is halfe good, put in 4 oz
of y^e oyle of spere, keep it stirring for feare of burnings. You shall know
when its boyled enough, if you drop a little of it now & then in a saucer,
and when it is as green as may be then it is well, yⁿ strayne it throug
a spong rannas bagg into a great platter, yⁿ putt it into galley pots, &
wth rannas & leather bound close about it, keep it for 40 y^e use. It will
last many years. Anoint y^e greiued place therewth. If you rub y^e
small of y^e hart therewth it easeth y^e stone; & helps all y^e paines of y^e
eares if you take but halfe y^e biggnes of a yea of it, & close it in
your case wth black wool. /

Lady Edolph. /

A cooling broth for one in a burning feauer. /

Dresse a shirten or red rook, dry it well & boyle it wth rose herbs, as the
rooks of sorrell, plantain & fenell, y^e leaues of indiew, rindow, y^e floures
of borragge & buglas, when it is thoroughly boyled, chop y^e shirten small &
strayne it wth y^e broth & iure, season it & use it for 40 day.

For y^e further mitigation of y^e heat, take w^hted barley, & use it
as you doe wheate to make frumenty, when it is well husked boyle
it as you doe y^e said wheate, till it swart, now & yⁿ cate y^e, wth a
little of y^e it is boyled in. you may first boyle your barley, in y^e direc-
tion boyle y^e shirten as before, sweeten it wth sugar & giue it a
last wth some red rose water. If y^e patient desire much drinke, gett
some fillbirds, put of y^e pills on y^e kernel, grind y^m as you doe alle-
monds blamted, & wth y^e direction of y^e so barley make as it were
almonds milk, season it & let this be y^e drinke sometimes when
you are dry. /

J^r Claudy. /

To ease y^e paine in y^e head. /

Take of sage & stow leaues, of each a like quantity, putt them
into an earthen platter wth a little vinegar, sett y^m on some roles
till they be rathed together, like a rose cake, yⁿ wash y^e kimpls, wth
a little rose water, & yⁿ bind y^e cake to y^e forehead of y^e head
for hot as may be well indured, after you put some grated
nuttmeggs thereon. / An cyntment for old vlcers aposthumes & gangrenes
and all cuts & hurts in y^e head. vic. Gerard fol. 285. /

Form. /
or Kerohan. /

Another for headach

Hemlocke boyld in soft an papp, of bay berries y^e head ache y^e paine is, when you
goe to bed, & putt the same in honours for 2 or 3 dayes together will help you.

for y^e ranke in y^e mouth or for a
sore mouth.

Take of sage of fenell of y^e leaved grass of each a handfull, of holythistle
halfe handfull, wash y^e same in a linnen cloth, stamp y^e same & straine
them into a possinger, y^e powder of a peice of album of y^e egges of a roald
put it, & soe much hony as will sweeten it to all y^e stuffe: soe all together
on a soft fire 2 or 3 whatmes, alwayes stirring it if it lump not, & soe
put it into a gallye pott. When you use it, take a little wth a spoone
& warme it, & wth a cloth tied on a little shirke, or wth yo^r finger drippin
in y^e spoone anoint y^e griev'd place 3 or 4 times a day, but neither pre-
sently before meat, nor wth an hour after meate. / M^o Lamby. q^u

Another

Take y^e leaved grass, red sage, red fenell & woodbine leaves of each a
handfull, stamp y^e same in a stone mortar straine y^e same y^e boyle y^e same
in wth 2 spoonefulls of hony, till they be incorporated all wayes stirring
of y^e same, y^e take it from y^e fire, & put it into a pott for yo^r use. use it as y^e
other. / M^o Lamby.

of p^rservatives against y^e plague.

Take of sage red elder leaves, & red bramble leaves, of each a handfull,
stamp y^e same together & straine y^e same wth a quart of white wine through a
cloth, & put a little ginger into it, & drinke thereof a spoonefull for 3 dayes
together evening & morning.

for one infected wth y^e plague.

Take 7oz. of spiced water, as muste dragon water, & 3 drams of good
treacle, & give to y^e patient fasting, & cause him to sweate after it, wth 24
hours after he is infected.

for one suspected to have y^e plague.

Take a great onion, y^e take out y^e core, & fill it wth good treacle, wrap it
in paper, & rost it in embers till it be soft, y^e straine y^e same wth a winniger
schober it wth sugar & give 2 spoonefulls of liquor to y^e patient fasting
& wth in 12 hours you may see whether he hath y^e sickness or not.

Another for one infected.

Take y^e powder of bay berries (y^e husks take from y^e same) a good spoonefull
before they be dried, put it into a draught of white wine sale ale or beer
& soe drinke it, & sweate in bed, but sleepe not.

Another

Take worme seed & kubeggar, & steep y^e same all night in a pint of beere
wth a lemon siced, & drinke y^e same in y^e morning fasting.

Or take a walnut kernel, a roome of salt & 4 leaves of kubeggar
cutt all way small & putt y^e same into a blue figg, rost it & y^e take it, fast an
hour after. & use this dayly.

to nipen y^e sore.

Lay a hott leaf newly drawn to it, & when you take y^e away lay a fresh
but be sure you burne y^e blood afterwards.
