The woodcut represents the face-piece applied, with the supplemental bag, **M** attached. **A**. Soft pad of India rubber. **C**. The valve opening during expiration. **D**. The mount upon which the stopcock, **F**, **G**, fits; the spindle part of the inspiring-valve is seen projecting. **E**. Opening in the stopcock of inhaling tube, which permits air to be breathed whilst the face-piece is adjusted. When the little knob is turned down to **G**, the opening, **E**, is closed, and the supply tube, **H**, leading from the bag of gas, is opened. **M**. The supplemental bag to be used or not by turning the stopcock, **L**.
