- VI Illustrations of the Pathology of Sarcoma, from Cases of Subcutaneous Cystic Tumours  
Journ. of Anat. & Physiol. April 1879
- (1) Blood - ept. of the Neck of a Dog  
mode of Origin of Red Blood - corpuscles
  - (2) Two Cases of mucous Sarcoma
  - (3) Subcutaneous Cyst of the Back, with granulations like Interior
  - (4) Spindle-celled Sarcoma with Cystic Interior
  - (5) Miscellaneous Cases of Sarcoma
  - (6) Disordered Function as a Cause of Tumours
- VII Infection of the Connective Tissue in Schirrous Cancers of the Breast. Journ. of Anat. & Physiol. Oct. 1879
- VIII Three Cases of Tumour arising from Skin-gland in the Dog, showing the connexion between Disorder of the Glandular Structure and Function and Cancerous Invasion of the Connective Tissue  
Medico-Chirurg. Trans. 1882
- (1) Anatomical characters of Skin-glands in the Dog  
Sweat-glands of human axilla  
Glandula humeralis of *Ornithorhynchus*
  - (2) Disorder of the Structure and Function of Skin-glands leading to Tumour-formation
  - (3) Cancerous Infection of the Corium & Connective Tissue
- IX The Autonomous Life of the Specific Infections  
Address in Pathology, British Medical Association  
Annual Meeting, Liverpool 1883  
Brit. Med. Journ. 4th Aug. 1883
- Cancer - Bovine Tubercle - Small-pox - Yellow Fever
