CASE.	Kidney.	Pleura.	Lung.	Pericardium.	Heart.	Cavity of Abdomen.	Peritoneum.
1. John King, <i>æt.</i> 34, died of pericarditis	hard, granulated	adhesion & effusion	hepatized & oedematous	effusion of fibrin	large and firm, with slight deposit on one semilunar valve.	effusion
2. Eliz. Beaver, <i>æt.</i> 37, died of effusion in chest	soft, large, granulated	effusion	healthy	slight effusion	small and weak	effusion
3. Mary Sallaway, <i>æt.</i> 25, sunk exhausted	soft, mottled	effusion & adhesion	tuberculated	healthy	effusion
4. Daniel Peacock, <i>æt.</i> 30, died of diarrhoea and erysipelas	soft, large, much white deposit	effusion	healthy	healthy, small
5. H. Thomas, <i>æt.</i> 34, died of pleuritis	soft, large, mottled	effusion, with recent fibrin	firm, congested	flaccid	recent inflammation
6. Mary Ann Richardson, <i>æt.</i> 45, died suddenly	hard, large, granulated	pulmonary artery plugged with fibrin	healthy	vena portæ and splenic vein plugged with fibrin
7. Eliz. Stewart, <i>æt.</i> 40	hard, small, granulated, contracted	not seen	not seen	not seen	not seen	effusion
8. W. Bonham, <i>æt.</i> 55, died of pulmonary obstruction	hard, small, granulated, contracted	adhesion & effusion	oedematous	hypertrophy of left side
9. — Smith, <i>æt.</i> 35, died of effusion in chest	hard, granulated	effusion	healthy	effusion	healthy
10. M. Castle, <i>æt.</i> 39, died of pulmonary obstruction	hard, contracted	adhesion	bronchitis & oedema	slight effusion	pale and flaccid	effusion
11. H. Izod, <i>æt.</i> 25, died of pulmonary obstruction	soft, large, white	effusion	oedematous, a few old healed tubercles	healthy	effusion
12. — Galloway, <i>æt.</i> 22, died epileptic, with pleuritis	soft, mottled	effusion with recent fibrin	slight pneumonia and bronchitis	slight effusion	hypertrophy of left ventricle
13. T. Drudget, <i>æt.</i> 37, died of apoplexy and convulsion	soft, mottled	slight effusion	healthy	slight effusion	healthy
14. Leonard Evans, died suddenly from oedema of epiglottis	soft, large, highly congested	very slight effusion	gorged	healthy	healthy
15. W. Roderick, <i>æt.</i> 45, died exhausted	soft, mottled	effusion	oedematous	effusion, and thick coating of fibrin	rather large
16. — Hobson, <i>æt.</i> 14, died of pleuritis and pericarditis	soft, granulated	recent adhesion	thick coating of fibrin	rather large	effusion	recent and old inflammation
17. W. Hunter, <i>æt.</i> 47, died epileptic and exhausted	soft, granulated	effusion & adhesion	a few tubercles	slight effusion	hypertrophy of left ventricle

Liver.	Intestines.	Stomach.	Spleen.	Pancreas.	Aorta.	Brain.	Uterus.	Bile.
healthy	distended with flatus, mesenteric glands large	dark coloured	healthy	healthy.
slightly diseased	distended with flatus	healthy	healthy	small	healthy.
very slightly diseased	ileum ulcerated	slight ossification	thin.
slight granular disease	irritated throughout	healthy, but with a casual white deposit	healthy	deficient.
spotted	irritated throughout	healthy	healthy.
spotted	healthy	green.
spotted	healthy.
rather solid	healthy	soft	healthy.
healthy	duodenum vascular	vascular	healthy	healthy.
spotted.
healthy	healthy	mucous membrane grey	small.
very healthy	healthy	healthy	healthy	congested	healthy.
healthy	healthy	healthy	soft	healthy	effusion of blood into all the ventricles.
healthy, but gorged	soft	healthy.
healthy	irritated & ulcerated	fleshy	ossified	diluted bile.
diseased	mucous membrane congested	very large	large and firm	light green.
spotted	large	effusion into ventricles	turbid orange colour.
