VENARVM ET ITEM ARTERIARVM OMNIVM INTEGRA ABSOLVTA QVE  
DELINEATIO, IN HOC POTISSIMVM PARATA, VT IN CONSPICVO ESSET, QVAE NAM VENAE CVM  
arterijs porrigitur, & que absq; arteriarum consortio per corpus repant, ac rursus cuiusmodi arterias Natura contigibus uenis desituerit.

CHARACTERVM OMNIVM IN HAC FIGV  
racum suis partibus occurrentium Index.

*IN* presenti figura primaria matricis Latinorum occurunt characteres, organa  
na praefer uenarum arteriasq; obvia notantes. Significatur itaque,

- A,A Sepsu transuersum.
- B Cordis involucri portio, imbi afferuata, ubi id sepo continuatur.
- C Cor sua fde repositum.
- D,D,D Quatuor pulmonis fibre, lobii ue.
- E Afferua arteria.
- F,F Gibbi in coris magna portio.
- G,G Camu uicoris.

H Vescula excipiente bili flaua parata. Si interim ex characterum serie aliqui  
omittantur, non ideo aliqd presenti figura expressum, nos innatam praeferiſſe  
arbitrariis, quum ex Epitome noſtre tabulis huc charta et tantum aſſumpti-  
vum, quantum uenarum arteriarumq; digeſtione ciendens  
de ſufficiere duximus.

O Lienis caue ſedes.

P Dextra renis anterior ſedes.

Q Similes reni.

S Virilis uerba ſimul cum umblico et uerbi umblico aſcriptis,  
reliquiſq; partibus, quas ſeptim in characterum explicatione  
indicabimus.

T Venae caue caudicis ſedes, inter ſepem transuersum & cor  
confident.

V,X Vaforum coronarum ritu cordis baſim ambientium ſedes,  
et que adē cordis baſis.

Z Cordis muero.

Rani ab arterijs uenisq; coronalibus dorsum per cordis  
superficiem diffusi.

a Hac parte caue caudex in dextrum cordis ſinum diſiſit.

b Dextra cordis auricula.

c Sinistra auricula cordis muero.

d Vene arterialis caudex. V enis autem arterie initium quia  
in ſinu dextro cordis latero i ut hic caue orificium in dextro con-  
ſitit, conficit hic figura nequii. Notant tamen e & e uen-  
alis arterie & uene arterialis in dextram pulmonis partem  
progressus, nondum pulmonis ſubſtantia undiq; circumdatos.

f Magna arteria caudex.

g Magna arteria trunca, partes cordi ſubditas pertinet.

h Superiora petiū magnae arterie trunca portio ſinistro bra-  
chio poſitum oblate.

i Dicli modo trunci inſignior portio, atque adeo ipſius in duos  
impares ramos diſtributio, quorum alter ſenſitra et ſo-  
ratis h notata grandior uero dextram format ſuperalem l.

k inſignitam, & arteriam poſitum in dextrum brachium ex-  
currentem, & m notatum.

m H ac excurrente ſepe transuersa neri, quorum initium in fi-  
gura cuiilla cuius indicem prosequimur, firmatur, P inſi-  
gnitur.

o Vene pari deſtitute initium, ipſius uero ſeries in praefatis  
figure tergo eſt conſignata.

p Cavae in iugulo bipartito, ac utrinque ad p latera exortus ap-

- b Axillaris ramus, cui anteriorum interioremp; brachij ſedem inuenienti dſſenſatus.
- c Ad mūculos cubitum extendeſ.
- d Ramus quartum brachij uenuum ad cubi ti uſque exteriora concomitans.
- e Axillaris in duos trunca partitio.
- f,f Truncus in alio latens, & arteria ūndig coconitans, & per cubiti flexū in cubiti tenas.
- g Diſtri trunci ramus radio exprorecluſ, & ſirculos pollici, indci & medio exhibens.
- b Arteria dclium ramum concomitans ſoboles, externam manu ſedem inter indicem ac pollicem accedens.
- i Recundit illius trunci ramus ulnae exprorecluſ, & parvo d'gito, anulari & medio ſoboles deſromens.
- k Sub cuze excurrentis axillaris trunci iuxta cubiti articulum diuſto.
- l Axillaris ramus communem conſituentis.
- m Communis uena inſlat Y diuſto, atque dein ipſius per externam manu ſedem ſeries.
- o Urculus communis internam manu adiens ſedem, & hic alijs com-  
mixtus ramulis.
- p Axillaris ramus ulnae exprorecluſ, uariegi in cutem diſfleſt, &  
ſuo extremo cum quodam humerale rame coenit, ubi uo poſitum.
- q,q Series uenarum internam cubiti cutem & uolam implicanteum.
- r Vmbilici portio.
- s,f,f Vena ab umbilico in iecu exprorecluſ.
- t Meatus urinæ feciſus inter ſeundi ipſius involucru et intimu defereſ.
- u,u,u,u A vetrici ſouci peculiares.
- v Portuncula uenaria iecoris cano à uentriculi ueniu deſromens.
- w Meatus bilis uſculum duodeno inſerens.
- x Vene poſte caudex.
- y Iecori inſerta arteria, & uenius quo illi exprorecluſ arterie.
- z Bilis uſculum adiens arteria & uenius.
- X Vene bilis uſculum aduentus.
- Y Vena & ſenaria poſterior uenriculi ſedem iux-  
ta ipſius inſerius orificium accedens.
- o Vena uenriculum petens, quā gibbum ipſius dextram  
dorsi ſedem ſpeditat.
- z Vena, arteria, uenius, dextram fundi uenriculi ſedem  
implicantes.
- b Minor portio maxime diſtributionis trunca.
- c Grandior trunca maxime partionis uene portio.
- d Vena & arteria duodeno inſelino paſſum exprore-  
cluſ, & ipſis attenſo corpore glandulosu ſuffideſ.
- e Vena cum coniuge arteria dextram ſedem adiens in-  
ſerioris membranæ orienti.
- f,f Radix arteria in iecu, uenriculum, lienum &  
omenum, & bilis uſculum diſfleſt.
- g Vena cum coniuge arteria ſuperius uenriculi ori-  
ſificium corona modo tandem cingens, atque in uen-  
riculiffigura inter a & a occurrens.
- b Vena & arteria paſſum infeſorius membranæ  
omeni ſedem petens, & colon quā uenriculo expro-  
rigit ſu implicans.
- i,j Glandulosum corpus uaforum  
diſtributioni bie preſellum.
- k Inferioris omenti membranæ ſi-  
nillæ ſedem ſeruante uen-
