TERMS, &c.

ALL PRICES are without engagement, and subject to the fluctuations of the market. Buyers in quantity or for cash are invited to write for special quotations.

Where prices are quoted in cwt., quantities and packages of less weight are ordered, the goods will be invoiced as follows:—

28 lbs., 3/- cwt. extra; 14 lbs., 5/- cwt. extra; 7 lbs., 8/- cwt. extra.

Our Prices Current are upon a net basis.

Our terms are net for a quarterly or journey account, or 2½% for a monthly account, provided same is paid on or before the 15th of the following month, but not unless.

BRITISH PHARMACOPŒIA 1932 Drugs and Preparations will be sent unless otherwise ordered.

PREPARATIONS according to any Foreign Pharmacopœia can be at once prepared if not stocked by us, and Private Formulas made up without delay.

IN ORDERING articles of which we quote several qualities, it is requested that the price may be affixed, so as to facilitate dispatch and ensure accuracy. Our **ORDER FORMS** will be found very convenient.

WE PAY CARRIAGE on all orders amounting to £5 at list prices.

ENCLOSURES are received, warehoused and forwarded at customer's risk, and debited with proportion of carriage if over 7 lbs. weight.

CARRIAGE OF DANGEROUS GOODS. As the Railway Companies and other carriers are now strictly enforcing their regulations as to carriage of dangerous goods, we recommend our friends to make up orders for Aquafortis, Oil of Vitriol and Muriatic Acid to at least Twelve Winchester quarts, that they may be sent by Acid Train specially provided for this traffic, in the same way as Carboys are now sent. We can send, free on rail only, at Consignee's risk.

DAMAGES. Packages tendered by carriers in a dangerous condition should be signed for accordingly, and a claim for the loss lodged immediately.

BOOKING. A charge of 2d. booking is made on all orders of the value of 10/- and under.

SMALL QUANTITIES.—We are compelled to make the minimum charge of any individual item exclusive of package, sixpence, in order to cover "at least partially," the high cost of preparing for sale.

QUANTITIES of 8 ozs. and over are charged at the lb. list price.

QUANTITIES of 4 ozs., if listed over 4/- per lb. are charged at the lb. list price.

QUANTITIES of 4 ozs. if listed at 4/- per lb. or less, are charged as many pence per oz. as shillings per lb.

QUANTITIES under 4 ozs. are charged at the oz. list price.

If there is no oz. list price, quantities are charged as many pence per oz. as shillings per lb. if listed over 12/- per lb., and by the same method plus 1d. per oz. if listed at 12/- per lb. or under.

All Bandages made in three sizes, small, medium and large.

CONCENTRATED LIQUORS FOR TINCTURES.

These Liquors, when diluted in the proportions indicated, form tinctures equalling in every respect the corresponding tinctures of the Pharmacopœia. Being made by processes specially adapted to the requirements of each particular drug, they may be relied on as possessing, when diluted, all the qualities of a well prepared tincture in the highest degree.

ANALYSES.

This list includes articles respecting which the Pharmacist is frequently consulted, and in regard to them he is often in a position to give valuable advice and sound information. The position is one which is daily becoming more and more recognised by the public, and we shall be pleased if in this department we are able to offer real facilities to our friends.

ALCOHOL—	£ s. d.	POISONS—	£ s. d.	that reliable conclusions may be drawn from the figures of the Analysis.
Determination of alcoholic strength of Beer, Wines, Tinctures, etc ...	10 6	Testing for one specific poison in Foodsuffs or Medicines ...	1 1 0	For the collection of a sample intended for Bacteriological examination, we will supply a sterile bottle together with the necessary instructions,

(Patent applied for)
Skin Cream

DEFIES
DIRT

The Invisible Glove.

PELDO is not a substitute but is the original preparation for keeping hands clean. It prevents dirt, oil, grease, etc., working into the pores of the skin, and when simply washed with soap and water the hands become perfectly clean, soft and velvety.

THE HALF-BLACK PACK

This illustration is a photograph of a window display featuring the sales-compelling showcards which we supply of H.B. Brand Products. These are designed to harmonise with the label and priced according to our customers' requirements.

RETURNS.

All packages being charged *under cost*, no allowance can be made for them when kept, but same price will be allowed for any returned in good condition and carriage paid.

To ensure identification it is important that in addition to the usual direction label **outside**, a list of the contents, with the *name and address* of the sender, be placed **inside** each package and an advice-note posted to us on the day of despatch.

Address

The Pharmaceutical Society of Great Britain.

85th ANNUAL MEETING, Held June 9th, 1926.

The following extract is taken from the ANNUAL REPORT presented by the PRESIDENT OF THE SOCIETY (Mr. Philip F. Rowsell, M.P.S., F.C.S.):—

THE PHARMACOLOGICAL LABORATORIES:

"There is one way, however, in which the retailer can assist the laboratories and that is by creating a demand for tested products. This is perhaps, not the place for me to labour this point, but those of you who are anxious to use Galenicals of the highest accuracy will not need to be reminded of the assistance you can give the Society by expecting your manufacturing houses to supply standardised preparations."

ALL TINCTURE OF DIGITALIS SUPPLIED BY US FROM OUR LATEST BATCH BEARS THE FOLLOWING LABEL:—

TINCTURE OF DIGITALIS.

"This tincture is equivalent in activity to a tincture prepared from the international standard Digitalis powder as determined by a biological test carried out by the Pharmaceutical Society of Great Britain"

Copy of Certificate issued from the Pharmacological Laboratories,
17, Bloomsbury Square, W.C.1
Batch No.

It is our intention to make the fullest possible use of the Pharmaceutical Society's Laboratories for the testing of preparations of:—DIGITALIS, SQUILL and STROPHANTHUS.
