KNOWLEDGE AND CONTROL OF THE NATURAL WORLD

PRIMITIVE KNOWLEDGE

At the time of discovery of America, the primitive knowledge of the Indians was limited to the knowledge of their own surroundings, of the uses of the natural world, and of the uses of the things they had made.

At the present time, the knowledge of the Indians is limited to the uses of the things they have made, and to the uses of the things they have discovered.

All primitive knowledge is based on the knowledge of the things they have made, and on the knowledge of the things they have discovered.

FIRE MAKING AND LIGHTING

SCIENTIFIC REASONING, COMMUNICATING

KNOWLEDGE OF ANATOMY

Primitive man had no knowledge of anatomy. He had no knowledge of the structure of the human body, and he had no knowledge of the uses of the things he had made.

At the present time, the knowledge of the Indians is limited to the uses of the things they have made, and to the uses of the things they have discovered.
